

## ※ RF Warning Statement

This device is approved for wrist-worn only. To ensure compliance with FCC RF exposure requirements, a separation of 1.0cm or more should be kept between the front of the watch and the rest of the user's body while it is transmitting.

The device should NOT be worn on the inside of the wrist(palm side) or in any other configurations during transmission. All applicable operating configurations are specified by three types; first mode is hands-free wireless Bluetooth mode, the second mode is Speaker mode, the third mode is data transmission mode.

We'll provide the similar information and instructions separately to the user on a single page pamphlet, within the product packing, to ensure that users are aware of the operating requirements even if they choose not to read the manual instructions.
