

GM630 USER GUIDE

This document is the user guide for the LG GM630 3G Video Mobile TV Phone. All rights for this document are reserved by LG Electronics. Copying, modifying and distributing this document without the consent of LG Electronics are prohibited.

Part 15.21 statement

" Change or Modifications that are not expressly approved by the manufacturer could void the user's authority to operate the equipment. "

Part 15.105 statement

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. if this equipment does cause harmful interference or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Part 15 Class B Compliance

This device and its accessories comply with part15 of FCC rules.

Operation is subject to the following two conditions:

- (1) This device & its accessories may not cause harmful interference.
- (2) This device & its accessories must accept any interference received,
including interference that may cause undesired operation.

Body-worn Operation

This device has been tested for typical body-worn operations

with the distance of 0.79inches (2.0cm) from the user's body.

To comply with FCC RF exposure requirements, a minimum separation distance of 0.79inches(2.0cm) must be maintained from the user's body.

Additionally, Belt clips, holsters & other body-worn accessories may not contain metallic components.

Getting Started

Installing the SIM card and battery

1. Installing the SIM card.

Your SIM card contains your phone number, service details and contacts and must be inserted into your handset. If your SIM card is removed then your handset becomes unusable (except for emergency calls) until a valid one is inserted. Always disconnect the charger and other accessories from your handset before inserting and removing your SIM card.

To remove the SIM card

Note

- ▶ The metal contact of the SIM card can easily be damaged by scratches. Pay special attention to the SIM card while handling. Follow the instructions supplied with the SIM card.
- ▶ After removing the battery, insert SIM card.

To insert the SIM card

2. Installing the battery.

Slide the battery upwards until it snaps back into place.

3. To remove the battery.

Turn the power off. Press and hold down the battery release button and slide the battery down.

Getting Started

Turning the handset on/off

Turning your handset on

Ensure that your SIM card is in your handset and the battery is charged. Press and hold  until the power comes on. Enter the SIM PIN code that was supplied with your SIM card if the **PIN code request** is set to **On**. (Note: Please refer to page 70) After a few seconds you will be registered on the network.

Turning your handset off

Press and hold  until the power goes off. There may be a few seconds delay while the handset powers down. Do not turn the handset on again during this time.

General Functions

Making and answering calls

Making a voice call

1. Enter the number including the full area code.
 - ▶ To delete a digit press  key.
 - To delete all digits press and hold  key.
2. Press  to make the call.
3. Press  to finish the call, or Switch off the handset.

Note

- ▶ To activate the speakerphone during a call press .

Making a call from the call logs

1. In standby mode, press  and the latest incoming, outgoing and missed phone numbers will be displayed.
2. Select the desired number by using  / .
3. Press  to call the number.

Making a video call

You can make a video call in a 3G covered service area. If the called user has a 3G video phone in a 3G covered service area, the call will be established. You can also answer a video call for video incoming call. To make/answer a video call, do the following.

1. Input the phone number using the keypad, or select the phone number from the calls made/received lists.
 - ▶ To correct mistakes, press  briefly to delete the last number, or press and hold  to delete all numbers.

General Functions

2. If you do not want to use the speakerphone, ensure you have the headset plugged in.
3. To start the video function, press the left soft key [Options] and select Video call.
 - ▶ You will be notified that you will need to close other applications to make the video call.

Note

- ▶ The video call may take some time to connect. Please be patient. The connection time will also depend on how quickly the other party answers the call. While the video call is connecting, you will see your own image; after the other party has answered, their image will be displayed on the screen.

4. Adjust the camera position if necessary.
5. Press  to finish the call, or Switch off the handset.

Making a voice/video call from Contacts

It is easy to call anyone whose number you have stored in your Contacts.

1. Press  to access the contacts list.
2. Scroll to the contact to make a call.
3. Press  to make a voice call. Press the left soft key and select **Make video call** to make a video call.
4. Press  to finish the call.

Making international calls

1. Press and hold  for the international prefix. The '+' character prefixes the international access code.
2. Enter the country code, area code, and the phone number.
3. Press .

Answering a call

When you receive a call, the phone rings and the flashing phone icon appears on the screen. If the caller can be identified, the caller's phone number (or name if stored in your Contacts) is displayed.

1. Open the slider to answer an incoming call.

Note

- ▶ To reject an incoming call, press  or the right soft key twice.
- ▶ If you set **Answer mode** as **Press send key** (Menu 2.0.4), you can answer the call by pressing  after opening the slider.
- ▶ If the answer mode is set to Press any key, any key will answer a call except for .

2. End the call by closing the handset or pressing .

Note

- ▶ You can answer a call while using the Contacts or other menu features.
- ▶ When the compatible headset is connected, you can also answer a call using the headset key, as well as using the phone. To reject an incoming call, press .
- ▶ You can mute the ringtone when a call comes in by pressing and holding the volume down side key.

Signal strength

You can check the strength of your signal by the signal indicator on the LCD screen of your phone. Signal strength can vary, particularly inside buildings. Moving close to a window may improve reception.

To scan TV channel press  option and select Channel Scan and choose All or Selected Channel.

Note

- ▶ After scanning, my CH is reset too.
- ▶ According to radio wave environment, each channel reception performance can be different.

TV

Radio

Menu 1.2

1. To start Radio, press OK and select menu 1-2 Radio.
2. Radio program running, you can see Radio Channels shown the available channels listed by pressing .
3. You can change channel by pressing .
4. If you press , you can switch to TV/Radio.

This phone supports DIGITAL DVB-T Radio, not FM Radio.

Note

- ▶ In different parts of the country, radio Channels may not be available to access.
- ▶ You need to pull out Antenna.

Settings

Menu 1.3

Watch time (Menu 1.3.1)

You can find the time of watching TV.

Information view mode (Menu 1.3.2)

You can configure to view the general status of signal strength, channel and program name while watching TV.

Call answer while watching TV

(Menu 1.3.3)

You can set the way of call answering while watching TV.

SMS/MMS popup on/off

(Menu 1.3.4)

You get SMS or MMS, you can set read the message or not while watching TV.

Reset Channels (Menu 1.3.5)

You can reset TV/Radio Channel and Favourite My Channel List.

Note

- ▶ If it has a problem with channel reception performance, you need to reset Channels.

Call logs

Menu2.1

All calls (Menu 2.1.1)

Allows you to view the missed, received, and dialled call records. You can make a call, or send a message to the number you have selected from the records. You can also save the number in Contacts.

Dialled calls (Menu 2.1.2)

Allows you to view dialled call records, make a call, send a message, and save the number in Contacts.

Received calls (Menu 2.1.3)

Allows you to view received call records, make a call, send a message, and save the number in Contacts.

Missed calls (Menu 2.1.4)

Allows you to view missed call records, make a call, send a message, and save the number in Contacts.

Make video call

Menu2.2

You can make a video phone call in this menu.

Call durations

Menu2.3

You can view call time by types. Press the left soft key [Options] to choose either partial initialisation or entire initialisation. Initialization will require your Security code.

The following timers are available:

All calls

Shows total call time.

Dialled calls

Shows outgoing call time.

Received calls

Shows incoming call time.

Last call

Shows the latest call time in units of hours/minutes/seconds.

Calling

Data volume

Menu2.4

Allows you to check the sent, received and all data volume transferred.

Press the left soft key [Options] and you can Choose [Clear] for the initialization of the selected volume type or [Clear all] for entire initialization. Initialization will require your Security code.

Call costs

Menu2.5

1. This function displays the call costs of the Last call and All calls.
2. Press the left soft key [Options] to choose either partial Initialization or entire Initialization. Initialization will require the PIN2 code.
3. You can select either Units or **Currency** in **Set call cost**. According to your setting, the call cost is displayed during a call (If SIM and Network support Advice Of Charge(AOC)).
4. In the **Set limit** configuration, select **On** to configure the cost limit. When a cost limit is configured, and the call costs reach the limit, making a call will not be allowed.

Call divert

Menu2.6

Call divert menus for voice and video calls are provided.

If you press , you can activate call divert menu.

Voice calls (Menu 2.6.1)

All voice calls (Menu 2.6.1.1)

When busy (Menu 2.6.1.2)

No answer (Menu 2.6.1.3)

Not reachable (Menu 2.6.1.4)

1. **When the number list is not existed**

Converts to an editor for entering a divert number. You can input the number to divert a call directly or search it in phonebook. If you press [Divert], the phone will send the request to service provider after entering the number.

2. **When the number list is existed**

Displays To other number menu including of the number list. While waiting for the result from the network, a Requesting message and animation appears.

3. **Option menu**

After activating All voice calls menu, selecting the Options menu at the bottom of the menus displays the Deactivate, Deactivate all, View status and clear list menus.

If you select the Deactivate menu, the call divert numbers registered in the network are deleted after user confirmation. Clear list menu will delete all divert number list.

Video calls (Menu 2.6.2)

All video calls (Menu 2.6.2.1)

1. **When the number list is not existed**

Converts to an editor for entering a divert number. You can input the number to divert a call directly or search it in phonebook.

If you press  [Divert], the phone will send the request to service provider after entering the number.

2. **When the number list is existed**

Displays To other number menu including of the number list. While waiting for the result from the network, a Requesting message and animation appears.

3. **Option menu**

After activating the All video calls menu, selecting the Options menu at the bottom of the menus displays the Deactivate, Deactivate all, View status and clear list menus.

Calling

When busy (Menu 2.6.2.2)

1. **When the number list is not existed**
It operates the same as All voice calls menu.
2. **When the number list is existed**
It operates the same as All voice calls menu.
3. **When Option menu is selected**
It activates and operates If busy menu. It operates the same as All voice calls menu.

No answer (Menu 2.6.2.3)

1. **When the number list is not existed**
It operates the same as All voice calls menu.
2. **When To a number is selected**
It operates the same as All voice calls menu.
3. **When Option menu is selected**
Activates and operates No answer menu.

Not reachable (Menu 2.6.2.4)

1. **When the number list is not existed**
It operates the same as All voice calls menu.
2. **When the number list is existed**
It operates the same as All voice calls menu.
3. **When Options menu is selected**
Activates and operates If out of reach menu. It operates the same as All voice calls menu.

Editing a bookmark

Select **Edit** from **Options** menu. Edit the title and associated URL information. Press **OK** to save.

RSS reader

Menu 9.4

With this program, you can open and view files created in the format with RSS.

Saved pages

Menu 9.5

The phone can save the page on display as an offline file. Up to 30 pages can be saved.

History

Menu 9.6

This menu will shows the recent browsing pages

Settings

Menu 9.7

You can change the settings for browser connectivity and display.

Profiles (Menu 9.7.1)

Select the appropriate profile by pressing **OK**. This will activate the profile to initiate the browser launch.

Appearance settings (Menu 9.7.2)

- ▶ **Character encoding**
- ▶ **Scrolling control**
- ▶ **Show image**

Browser

Note

- ▶ Enabling this function will delay displaying images until the completion of transmission. Disabling this function will prevent the browser from downloading images from the server, thus allowing faster transmission.

▶ Java script

Cache (Menu 9.7.3)

The information or services you have accessed are saved in the cache memory of the phone.

Cookies (Menu 9.7.4)

Check whether a cookie is used or not.

Security (Menu 9.7.5)

Certificates list

Certificates can be viewed from the list.

Session clear

Secure (WTLS/TLS) session data can be cleared using this option.

Reset settings (Menu 9.7.6)

Select this to reset your phone to its default browser configuration.

Bluetooth

Menu *.1

Bluetooth connection

Bluetooth enables compatible mobile devices, peripherals and computers that are in close proximity to communicate directly with each other without wires.

This handset supports built-in Bluetooth connectivity, which makes it possible to connect them with compatible Bluetooth headsets, computer applications and soon.

Note

- ▶ We recommend that your phone and the Bluetooth device you are communicating with be within a range of 10 meters. The connection may be improved if there are no solid objects between your phone and the other Bluetooth device.
- ▶ Your phone supports Dual Profile. Although connecting with Bluetooth headset, it can be used to send files or take services like DUN etc. via Bluetooth. But some services get low capacity cause it works at the same time.

1. Getting started

- **Menu** → * **Connectivity** → **1. Bluetooth** → **1. Turn on/off**

To use the Bluetooth function, you must first set **Turn on**.

2. Configuring Bluetooth settings

- **Menu** → * **Connectivity** → **1. Bluetooth** → **4. Settings**

- **My device visibility:** Set [My handset's visibility] to [Show to all] so that other devices can detect your phone when they are searching for a Bluetooth device. If you select [Hidden], other devices will not be able to detect your phone when they are searching for a Bluetooth device. If you select [Visible for 1 min], other devices will be able to detect your phone for one minute.

- **My device name:** You can name or rename your phone as it will appear on other devices. Your phone's name will be shown on other devices only when [My handset's visibility] is set to [Show to all]. If you select [Visible for 1 min], other devices will be able to detect your phone for 1 minute.

Connectivity

- **Supported services:** You can view the list of devices such as headsets and handsfree kits supported by this Bluetooth enabled phone.
- **Remote SIM mode:** If you want to use SIM access profile, select the [on] for enabled SIM Access Mode. Then you can connect from the carkit that support SIM access profile.
- **My address:** You can check the address of Bluetooth.

Note

- ▶ When user uses Bluetooth Device in the handset, the security of the handset is at risk. Therefore, we recommend that Bluetooth visibility be set to Hidden after configuration or device pairing. For incoming files via Bluetooth regardless of paired devices, you can choose to accept or reject the connection, after checking the sender details.

3. Search and pair new device

Select whether to activate the daylight saving function or not. You can set the Summer time difference of selected home city for 1 hour or 2 hours.

Settings

Security

Menu #.3

PIN code request (Menu #.3.1)

When this is set to On, you are requested to enter your PIN each time you switch the phone on.

Note

- ▶ Press the right soft key in the PIN code entry window to return to the previous step.
- ▶ 3 incorrect PIN code entries would invalidate the PIN code. And you have to enter the PUK (PIN Unblock Key) code to configure the PIN code again.
- ▶ The maximum number of times you may enter the PUK code is 10. (Note: If you enter an incorrect PUK code 10 times, the SIM card will be blocked and must be replaced.)
- ▶ If the PIN code request cannot be disabled by operator settings, you will not be able to choose this menu item.

Handset lock (Menu #.3.2)

You can lock your phone. The following 4 lock functions are available.

When switch on: Locks the handset whenever the handset is switched on.

When SIM change: Locks the handset when the phone's SIM card has been changed.

Immediately: Locks the handset immediately.

None: Deactivates the lock function.

You are requested to enter the security code to confirm the selection.

- ▶ To unlock the handset, you need to enter the security code.

Change codes (Menu #.3.3)

You can change the PIN, PIN2, and the Security code.

PIN code

PIN is the abbreviation for Personal Identification Number, and is used to restrict use by an unauthorised user.

Note

- ▶ Three incorrect PIN code entries in the PIN code entry window would invalidate the PIN code. In this case, you have to enter the PUK (PIN Unblock Key) code to configure the PIN code again. The maximum number of times you may enter the PUK code is 10. (Note: If you enter an incorrect PUK code 10 times, the SIM card will be blocked and must be replaced.)

PIN2 code

PIN2 is the abbreviation for Personal Identification Number 2, and is used to restrict use by unauthorised users as with the PIN. The PIN2 code change procedure is the same as the one for the PIN code. 3 incorrect PIN2 code entries would invalidate the PIN2 code.

In this case, you have to enter the PUK2 code in order to use the PIN2 code again. The maximum number of times you may try to enter the PUK2 code is 10, like PUK1. 10 incorrect PUK2 code entries would invalidate the PIN2 code.

Security code

The security code is used to change the mobile phone password. The maximum number of attempts to enter the security code is not limited as it is with PIN and PIN2.

Power save

Menu #.4

When you don't use a phone, you can save the power activating this menu.

Language

Menu #.5

Select the display language. You can select Automatic language option to change display language to the SIM card supported language.

Settings

Memory manager

Menu #.6

Handset common memory

(Menu #.6.1)

This function shows the status of the user memory of the mobile phone. Since this function scans the overall file system for statistics, a few seconds are required.

Handset reserved memory

(Menu #.6.2)
