

I KE520 User Guide I

- English

This document is the user guide for the LG KE520 Mobile Phone. All rights for this document are reserved by LG Electronics. Copying, modifying and distributing this document without the consent of LG Electronics are prohibited.

Disposal of your old appliance

1. When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2002/96/EC.
2. All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
3. The correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health.
4. For more detailed information about disposal of your old appliance, please contact your city office, waste disposal service or the shop where you purchased the product.

Part 15.21 statement

" Change or Modifications that are not expressly approved by the manufacturer could void the user's authority to operate the equipment. "

Part 15.105 statement

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. if this equipment does cause harmful interference or television reception, which can be determined by

turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

LIMITED WARRANTY STATEMENT

1. WHAT THIS WARRANTY COVERS:

LG offers you a limited warranty that the enclosed subscriber unit and its enclosed accessories will be free from defects in material and workmanship, according to the following terms and conditions:

- (1) The limited warranty for the product extends for ONE (1) year beginning on the date of purchase of the product.
- (2) The limited warranty extends on to the original purchaser of the product and is not assignable or transferable to any subsequent purchaser/end user.
- (3) This warranty is good only to the original purchaser of the product during the warranty period as long as it is in the U.S., including Alaska, Hawaii, U.S. Territories and Canada.
- (4) The external housing and cosmetic parts shall not be covered under these limited warranty terms.
- (5) Upon request from LG, the consumer must provide information to reasonably prove the date of purchase.
- (6) The customer shall bear the cost of shipping the product to the Customer Service Department of LG. LG shall bear the cost of shipping the product back to the consumer after the completion of service under this limited warranty.

2. WHAT THIS WARRANTY DOES NOT COVER:

- (1) Defects or damages resulting from use of the product in other than its normal and customary manner.
- (2) Defects or damages from abnormal use, abnormal conditions, improper storage, exposure to moisture or dampness, unauthorized modifications, unauthorized connections, unauthorized repair, misuse, neglect, abuse, accident, alteration, improper installation, or other acts which are not the fault of LG, including damage caused by shipping blown fuses spills of food or liquid.
- (3) Breakage or damage to antennas unless caused directly by defects in material or workmanship.
- (4) That the Customer Service Department at LG was not notified by consumer of the alleged defect or malfunction of the product during the applicable limited warranty period.
- (5) Products which have had the serial number removed or made illegible.
- (6) The limited warranty is in lieu of all other warranties, express or implied either in fact or by operations law, statutory or otherwise, including, but limited to any implied warranty of marketability or fitness for a particular use.
- (7) Damage resulting from use of non-LG approved accessories.
- (8) All plastic surfaces and all other externally exposed parts that are scratched or damaged due to normal customer use.
- (9) Products operated outside published maximum ratings.
3
- (10) Products used or obtained in a rental program.
- (11) Consumables (such as fuses).

3. STATE LAW RIGHTS:

No other express warranty is applicable to this product. THE DURATION OF ANY IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTY OF MARKETABILITY, IS LIMITED TO THE DURATION OF THE EXPRESS WARRANTY HEREIN. LG INFOCOMM INC. SHALL NOT BE LIABLE FOR THE LOSS OF THE USE OF THE PRODUCT, INCONVENIENCE, LOSS OR ANY OTHER DAMAGES, DIRECT OR CONSEQUENTIAL, ARISING OUT OF THE USE OF, OR INABILITY TO USE, THIS PRODUCT OR FOR ANY BREACH OF ANY EXPRESS OR IMPLIED WARRANTY, INCLUDING THE IMPLIED WARRANTY OF MARKETABILITY APPLICABLE TO THIS PRODUCT. Some states do not allow the exclusion of incidental or consequential damages or limitations on how long an implied warranty lasts; so these limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

4. HOW TO GET WARRANTY SERVICE:

To obtain warranty service, please call the following web address:

For Your Safety

Important Information

This user guide contains important information on the use and operation of this phone. Please read all the information carefully for optimal performance and to prevent any damage to or misuse of the phone. Any changes or modifications not expressly approved in this user guide could void your warranty for this equipment.

Before You Start

Safety Instructions

WARNING! To reduce the possibility of electric shock, do not expose your phone to high humidity areas, such as the bathroom, swimming pool, etc.

Always store your phone away from heat. Never store your phone in settings that may expose it to temperatures less than 32°F or greater than 104°F, such as outside during extreme weather conditions or in your car on a hot day. Exposure to excessive cold or heat will result in malfunction, damage and/or catastrophic failure.

Be careful when using your phone near other electronic devices. RF emissions from your mobile phone may affect nearby in adequately shielded electronic equipment. You should consult with manufacturers of any personal medical devices such as pacemakers and hearing aides to determine if they are susceptible to interference from your mobile phone.

Turn off your phone in a medical facility or at a gas station. Never place your phone in a microwave oven as this will cause the battery to explode.

IMPORTANT! Please read the TIA SAFETY INFORMATION on page 78 before using your phone.

Safety Information

Read these simple guidelines. Breaking the rules may be dangerous or illegal. Further detailed information is given in this user guide.

- ▶ Never use an unapproved battery since this could damage the phone and/or battery and could cause the battery to explode.
- ▶ Never place your phone in a microwave oven as it will cause the battery to explode.
- ▶ Do not dispose of your battery by fire or with hazardous or flammable materials.
- ▶ Make sure that no sharp-edged items come into contact with the battery. There is a risk of this causing a fire.
- ▶ Store the battery in a place out of reach of children.
- ▶ Be careful that children do not swallow any parts such as rubber plugs (earphone, connection parts of the phone, etc.). This could cause asphyxiation or suffocation.

- ▶ Unplug the power cord and charger during lightning storms to avoid electric shock or fire.
- ▶ When riding in a car, do not leave your phone or set up the hands-free kit near to the air bag. If wireless equipment is improperly installed and the air bag is activated, you may be seriously injured.
- ▶ Do not use a hand-held phone while driving.
- ▶ Do not use the phone in areas where its use is prohibited. (For example: aircraft).
- ▶ Do not expose the battery charger or adapter to direct sunlight or use it in places with high humidity, such as a bathroom.
- ▶ Never store your phone in temperatures less than -4°F or greater than 122°F.
- ▶ Do not use harsh chemicals (such as alcohol, benzene, thinners, etc.) or detergents to clean your phone. There is a risk of this causing a fire.
- ▶ Do not drop, strike, or shake your phone severely. Such actions may harm the internal circuit boards of the phone.
- ▶ Do not use your phone in high explosive areas as the phone may generate sparks.
- ▶ Do not damage the power cord by bending, twisting, pulling, or heating. Do not use the plug if it is loose as it may cause a fire or electric shock.
- ▶ Do not place any heavy items on the power cord. Do not allow the power cord to be crimped as it may cause fire or electric shock.
- ▶ Do not handle the phone with wet hands while it is being charged. It may cause an electric shock or seriously damage your phone.
- ▶ Do not disassemble the phone.
- ▶ Do not place or answer calls while charging the phone as it may short-circuit the phone and/or cause electric shock or fire.
- ▶ Only use the batteries, antennas, and chargers provided by LG. The warranty will not be applied to products provided by other suppliers.
- ▶ Only authorized personnel should service the phone and its accessories. Faulty installation or service may result in accidents and consequently invalidate the warranty.
- ▶ Do not hold or let the antenna come in contact with your body during a call.
- ▶ An emergency call can be made only within a service area. For an emergency call, make sure that you are within a service area and that the phone is turned on.

FCC RF Exposure Information

WARNING! Read this information before operating the phone. In August 1996, the Federal Communications (FCC) of the United States, with its action in Report and Order FCC 96-326, adopted an updated safety standard for human exposure to radio frequency (RF) electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies.

The design of this phone complies with the FCC guidelines and these international standards.

CAUTION

Use only the supplied and approved antenna. Use of unauthorized antennas or modifications could impair call quality, damage the phone, void your warranty and/or result in violation of FCC regulations. Do not use the phone with a damaged antenna. If a damaged antenna comes into contact with skin, a minor burn may result. Contact your local dealer for a replacement antenna.

Body-worn Operation

This device was tested for typical body-worn operations with the back of the phone kept 0.79 inches (2cm) between the user's body and the back of the phone. To comply with FCC RF exposure requirements, a minimum separation distance of 0.79 inches (2cm) must be maintained between the user's body and the back of the phone. Third-party belt-clips, holsters, and similar accessories containing metallic components should not be used. Body-worn accessories that cannot maintain 0.79 inches (2cm) separation distance between the user's body and the back of the phone, and have not been tested for typical body-worn operations may not comply with FCC RF exposure limits and should be avoided.

Vehicle Mounted External Antenna (optional, if available)

A minimum separation distance of 8 inches (20cm) must be maintained between the user/bystander and the vehicle mounted external antenna to satisfy FCC RF exposure requirements. For more information about RF exposure, visit the FCC website at www.fcc.gov

FCC Part 15 Class B Compliance

This device and its accessories comply with part 15 of FCC rules. Operation is subject to the following two conditions: (1) This device and its accessories may not cause harmful interference, and (2) this device and its accessories must accept any interference received, including interference that may cause undesired operation.

Cautions for Battery

- ▶ Do not disassemble.
- ▶ Do not short-circuit.
- ▶ Do not expose to high temperature: 60°C (140°F).]
- ▶ Do not incinerate.

Battery Disposal

- ▶ Please dispose of your battery properly or bring to your local wireless carrier for recycling.
- ▶ Do not dispose in fire or with hazardous or flammable materials.

Adapter (Charger) Cautions

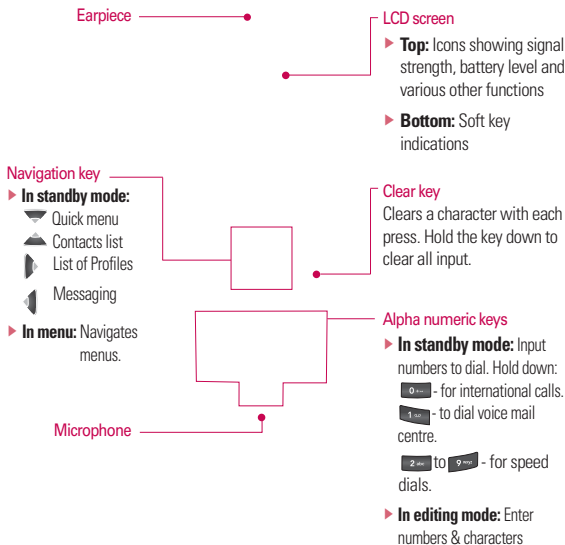

- ▶ Using the wrong battery charger could damage your phone and void your warranty.
- ▶ The adapter or battery charger is intended for indoor use only.

Do not expose the adapter or battery charger to direct sunlight or use it in places with high humidity, such as the bathroom.

Installing the USIM card and battery

1. Installing the USIM card.

Your USIM card contains your phone number, service details and contacts and must be inserted into your handset. If your USIM card is removed then your handset becomes unusable (except for emergency calls depending on which Country you are in at the time) until a valid one is inserted. Always disconnect the charger and other accessories from your handset before inserting and removing your USIM card. Slide the USIM card into the USIM card holder. Make sure that the USIM card is properly inserted and the gold contact area on the card is facing downwards. To remove the USIM card, press down lightly and pull it in the reverse direction.

To insert the USIM card To remove the USIM card

Note

- ▶ The metal contact of the USIM card can easily be damaged by scratches. Pay special attention to the USIM card while handling. Follow the instructions supplied with the USIM card.

2. Installing the battery.

Insert the the battery into the battery compartment as the metal contacts meet in the middle of the phone. Push down the top of the battery until it snaps into place. Place the battery cover to the phone as shown.

Getting Started

3. To remove the battery.

Turn the phone up-side down, as shown, gently push down the battery cover to release and lift off. Then lift up the battery with your fingers and pull-out the battery.

Charging the Battery

Before connecting the travel adapter to the phone you must first install the battery.

1. With the arrow facing you as shown in the diagram push the plug on the battery adapter into the socket on the right side of the phone.

2. Connect the other end of the travel adapter to the mains socket.

Note

▶ Only use the charger included in the box.

3. The moving bars on the battery icon will stop after charging is complete.
4. Ensure the battery is fully charged before using the phone for the first time.

CAUTION!

- *If the battery is completely discharged, the charging display will appear on the LCD approximately 1 to 1.5 minutes after connecting TA.*
- *Do not force the connector as this may damage the phone and/or the travel adapter.*
- *Insert the battery pack charger vertically to wall power outlet.*
- *If you use the battery pack charger when abroad, use an attachment plug adaptor for the proper configuration.*
- *Do not remove your battery or the USIM card while charging.*

WARNING!

- *Unplug the power cord and charger during lightning storms to avoid electric shock or fire.*
- *Make sure that no sharp-edged items such as animal teeth or nails, come into contact with the battery. This may cause a fire.*

Disconnecting the charger

Disconnect the travel adapter from the phone as shown in the diagram below.

How to use a microSD memory card

<MicroSD memory card>

Getting Started

<How to insert a microSD memory card>

1. Turn the phone off. Inserting or removing the microSD when the phone is on may damage the files stored in the memory card.
2. Lift the plastic cover which protects the microSD slot.
3. Insert the memory card into the slot with the metal contacts facing down. Do not force the memory card into the slot, if the card does not slide in easily, please check that the card is being inserted the correct way or if there is a foreign object in the slot.
4. Once inserted, push the memory card until you hear a **Click**, meaning that the microSD has been correctly engaged.
5. Close the plastic slot protection.
6. To remove the memory card, turn the phone off, open the slot protection and push in memory card with the tip of your finger into the slot which will activate the eject mechanism.

Attention:

- ▶ Avoid using the Flash Memory Card when the battery is low.
- ▶ When writing to the card, wait for the operation to complete before removing the card.
- ▶ The card is designed to fit easily into the system one way only.
- ▶ Do not bend the card or force it into the slot.
- ▶ Do not insert any memory cards other than those made by microSD.
- ▶ If the microSD has been formatted using FAT32, format the microSD using FAT16 again.

For more information on the microSD, please refer to the memory card

instruction manual.

Memory card formatting

Before you start to use the memory card you have to format it. After you insert the memory card, select **Menu** → **Settings** → **Memory Manager** → **External memory**, then press  the left soft key.

This operation should only be done when you insert the memory card for the first time. During formatting various folders will be created for different data types.

Turning the handset on/off

Turning your handset on

Ensure that your USIM card is in your handset and the battery is charged. Press and hold  until the power comes on. Enter the USIM PIN code that was supplied with your USIM card if the **PIN code request** is set to **On**.

After a few seconds you will be registered on the network.

Turning your handset off

Press and hold  until the power goes off. There may be a few seconds delay while the handset powers down.

Do not turn the handset on again during this time.

Access codes

You can use the access codes described in this section to avoid unauthorised use of your phone. The access codes (except the PUK and PUK2 codes) can be changed by using the **Change codes** feature [Menu #.5.3].

Getting Started

PIN code (4 to 8 digits)

The PIN (Personal Identification Number) code protects your USIM card against unauthorised use. The PIN code is usually supplied with the USIM card.

When the **PIN code request** is set to **On**, your phone will request the PIN code every time it is switched on. When the **PIN code request** is set to **Off**, your phone connects to the network directly without the PIN code.

PIN2 code (4 to 8 digits)

The PIN2 code, supplied with some USIM cards, is required to access functions such as **Fixed dial number**. These functions are only available if supported by your USIM card.

PUK code (8 digits)

The PUK (PIN Unblocking Key) code is required to unblock a blocked PIN code. The PUK code may be supplied with the USIM card. If not, contact your network operator's customer service department for the code. If you lose the code, contact your network operator's customer service department.

PUK2 code (8 digits)

The PUK2 code, supplied with some USIM cards, is required to unblock a blocked PIN2 code. If you lose the code, contact your network operator's customer service department.

Security code (4 digits)

The security code prevents unauthorised use of your phone. The default security code is set to '0000' and the security code is required to delete all phone entries and to restore the handset to the factory settings.

Making and answering calls

Making a voice call

1. Enter the number including the full area code.
 - ▶ To delete a digit press .
 - To delete all digits press and hold .
2. Press  to make the call.
3. Press  to finish the call.

Note

- ▶ To activate the speakerphone during a call, activate the touch keys and press .

Making a call from the call logs

1. In standby mode, press  and the latest incoming, outgoing and missed phone numbers will be displayed.
2. Select the desired number by using  / .
3. Press  to call the number.

Making a video call

You can make a video call in a 3G covered service area. If the called user has a 3G video phone in a 3G covered service area, the call will be established. You can also answer a video call for video incoming call. To make/answer a video call, do the following.

1. Input the phone number using the keypad, or select the phone number from the calls made/received lists.
 - ▶ To correct mistakes, press  briefly to delete the last number, or press and hold  to delete all numbers.
2. If you do not want to use the speakerphone, ensure you have the headset plugged in.
3. To start the video function, press the left soft key [Options] and select **Video call**.
 - ▶ You will be notified that you will need to close other applications to make the video call.

General functions

Note

- ▶ The video call may take some time to connect. Please be patient. The connection time will also depend on how quickly the other party answers the call. While the video call is connecting, you will see your own image; after the other party has answered, their image will be displayed on the screen.

4. Adjust the camera position if necessary.
5. Press  to finish the call, or close the handset.

Making a voice/video call from Contacts

It is easy to call anyone whose number you have stored in your Contacts.

1. Press  to access the contacts list.
2. Scroll to the contact to make a call.
3. Press  to make a voice call. Press the left soft key and select Make video call to make a video call.
4. Press  to finish the call.

Making international calls

1. Press and hold  for the international prefix. The '+' character prefixes the international access code.
2. Enter the country code, area code, and the phone number.
3. Press .

Answering a call

When you receive a call, the phone rings and the flashing phone icon appears on the screen. If the caller can be identified, the caller's phone number (or name if stored in your Contacts) is displayed.

1. Answer an incoming call by pressing  key.

Note

- ▶ To reject an incoming call, press  or the right soft key twice.
- ▶ If you set Answer mode as Press send key(Menu 2.10.4), you can answer the call by pressing .
- ▶ If the answer mode is set to Press any key, any key will answer a call except for .

2. End the call by pressing .

Note

- ▶ You can answer a call while using the Contacts or other menu features.
- ▶ When the compatible headset is connected, you can also answer a call using the headset key, as well as using the phone. To reject an incoming call, press .
- ▶ You can mute the ringtone when a call comes in by pressing and holding the volume down navigation key.

Signal strength

You can check the strength of your signal by the signal indicator on the LCD screen of your phone. Signal strength can vary, particularly inside buildings. Moving close to a window may improve reception.

Entering text

You can enter alphanumeric characters using the keypad. For example, storing names in Contacts, writing a message, creating a personal greeting or scheduling events in the calendar all require entering text. The following text input methods are available with the handset.

T9 mode

This mode lets you enter words with only one keystroke per letter. Each key on the keypad has more than one letter. The T9 mode automatically compares your keystrokes with an internal dictionary to determine the correct word, thus requiring far fewer keystrokes than the traditional ABC mode. This is sometimes known as predictive text. If you press  key, you can activate or cancel T9 mode.

ABC mode

This mode lets you enter letters by pressing the key labelled with the required letter once, twice, three or four times until the letter is displayed.

General functions

123 mode (Number mode)

Type numbers using one keystroke per number.

Refer to the following table for more information on the characters available using the alphanumeric keys.

Key	Characters in the order display	
	Lower case	Upper case
	.?!' " 1 - () @ / : _	.?!' " 1 - () @ / : _
	abc2àáâãäåæç	ABC2ÀÁÂÃÄÅÆÇ
	def3èéëë	DEF3ÈÉÊË
	ghi4ìíîï	GHI4ÌÍÎÏ
	ijkl5£	JKLM5£
	mno6ñòóôõöøœ	MNO6ÑÒÓÔÕÖØŒ
	pqr7ß\$	PQR7ß\$
	tuv8ùúûü	TUV8ÙÚÛÜ
	wxyz9	WXYZ9
	Space, 0	Space, 0

Note

- ▶ The characters assigned to the keys and their order of appearance depends on the language selected using the option Input method. The table above provides the characters set for English language.

Using the 123 (Number) mode

The 123 mode enables you to enter numbers in a message (a telephone number, for example). Press the keys corresponding to the required digits before manually switching back to the appropriate text entry mode.

Overview of Menu Functions

The menu in this phone can be displayed in 2 ways. One is by grid type or secondly in list format. Please note that menu number options are different in each view. The default setting on the phone is set to show the menu in grid type, so therefore all the menu number selections throughout the manual are set according to that setting. You can launch a menu by pressing  in the idle screen. Move to the desired item and press  to go into the sub menu. From the main menu you can also go into a submenu by directly pressing the corresponding numeric key as follows. The main menu consists of the following top menus and sub menus.

1. Games & Apps	2. Messages	3. Profiles

Create new message Menu 2.1

Message (Menu 2.1.1)

You can write and edit a message containing a combination of text, image, video and audio.

1. Enter your message in the Message field.

Option menus in Message field

- ▶ **Insert:** You can perform the following actions:
 1. **Image:** You can insert an image. (Existing image/Take picture)
 2. **Video:** You can insert a video clip. (One video clip per slide)
 3. **Sound:** You can insert a sound file. (One sound per slide)
 4. **Symbols:** You can insert symbols. After entering the corresponding number keys, press .
 5. **Template:** You can insert a text template saved on the phone. After selecting a template, press . The selected template is inserted into the Message window.
 6. **Emoticon:** You can insert an emoticon on writing a message,

7. **Name & number:** After searching the name and the number in phonebook, you can insert the entry.

8. **New slide:** Select this to add a new slide.

9. **Subject:** Select this to insert a subject.

- ▶ **Save to drafts:** Select this to save the message to drafts.

- ▶ **Input method:** Select the desired dictionary mode.

- ▶ **Writing language:** You can select the language for writing a message.

- ▶ **Add to dictionary:** You can add a word to the dictionary.

2. Press the right soft key [Back] to exit the menu or go to previous menu after setting submenus.

3. Press the confirmation key [Send] to go to the recipients screen. From there you can enter phone numbers directly or from contacts stored in the phonebook. Use the following functions by using the left soft keys [Options].

Messages

- ▶ **Recently used:** You can use the last few MMS addresses that you sent to previously.
 - ▶ **Save to drafts:** Select this menu to save the message in Drafts.
 - ▶ **Back**
4. Press the confirmation key [Send] to send the message. The message will automatically be saved in the Sent Items folder. If the message has not been sent, it will remain in the Outbox with a failed status.

Email (Menu 2.1.2)

To send/receive an Email, you should set up the Email account. (Refer to page 67~70 for how to set up an E-Mail account.)

1. Enter the Email addresses of the recipients in the To, Cc, Bcc fields. You can search the Contacts by pressing .
2. Move the cursor to the Subject field and key in the subject.
3. You can enter the message contents by moving the cursor to the Message field.
4. Use the following functions by using the left soft key [Options].

- ▶ **Insert:** Select this menu to insert special characters, templates, and contacts. It is also possible to attach multimedia files (pictures, videos and sounds).
- ▶ **Search contacts:** Select this menu to insert Email addresses saved in Contacts. (Only shown in Option menu when cursor is located in To/Cc/Bcc fields.)
- ▶ **Recently used:** You can use the latest Email address you saved temporarily.
- ▶ **Save to drafts:** Select this menu to save the message in Drafts.
- ▶ **View attachment:** Shows the attached files. (This item is only available when some files have been attached.)
- ▶ **Remove:** Deletes the attachment file.
- ▶ **Input method:** Select the desired dictionary mode.
- ▶ **Add to dictionary:** You can add a new word to the dictionary.
- ▶ **Writing language:** You can change the writing language.
- ▶ **Set mail priority:** You can configure the priority of the Email you wish to send.

- When you have finished writing an Email, press  to send the Email.

Inbox

Menu 2.2

- You can view received messages. Select a message and then press  to view the message.
- You can view the previous or next message by using  / .
- To view a multimedia message (Notification), select **Retrieve** in the message notification view screen. The file is then transmitted, and you can view the file when the transmission is complete.

You can use the following functions by using the left soft key [Options] in the Inbox.

- ▶ **Reply to:** Creates a reply to the sender or all recipients of the selected message.
- ▶ **Forward:** Forwards the selected message.

Note

- ▶ Not supported for multimedia message (Notification) and WAP push messages.
- ▶ **Make video call:** You can make a video call.
- ▶ **Delete:** Deletes the current message.
- ▶ **Create new message:** You can write a new message or an E-mail.
- ▶ **Copy:** In case of SMS, you can copy the message into handset or USIM.
- ▶ **Move:** In case of SMS, you can move the message into handset or USIM.
- ▶ **Filter:** Displays messages by desired message types.
- ▶ **Mark/Unmark:** You can select one or more messages for multiple deletion.
- ▶ **Message information:** You can check the message type, date and time and where it is saved.
- ▶ **Save address:** Save originated number to phonebook.

Note

- ▶ You can check the saved E-mails in E-mail [Menu 5.3].

Mailbox

Menu 2.3

When you access this menu, you can either connect to your remote mailbox to retrieve your new email messages, or you can view the previously retrieved email messages without logging in to the email server.

In the Mailbox, up to 300 emails can be stored.

1. You can select a desired city as a base using the left soft key Options → Add city or Options → Add city → Map.
2. You can Change the city using the left soft key Options → Change city or Change current city.
3. You can apply to Daylight Saving time using the left soft key Options → Daylight saving.
4. You can Select the Analogue clock mode Options → Analogue clock.

SIM Service

Menu 7.6

Your service provider can offer special applications through the SIM card, such as home banking, stock market, etc.

If you are registered for one of these services, the service name will appear at the end of the Main Menu. With the SIM Services menu your phone is future-proof and will support additions to your service provider s service.

For more information contact your service provider.

Add new

Menu 8.1

You can register a new contact address. You can enter the name, different phone numbers and Email addresses of a new contact. You can also assign the contact to groups, include an image or avatar, assign a specific ringtone and even enter a memo for the contact.

Search

Menu 8.2

Performs the contact address search function. The search operation is performed based on a name as a default. The current search method and results found are displayed in the Search window. You can make a phone call or send a message to the selected phone number.

Speed dials

Menu 8.3

Using this menu you can manage speed dials. Speed dials are configured between 2-9. You can register speed dials for a specific contact address up to 5 different numbers, and a contact address may have multiple speed dials.

Groups

Menu 8.4

Using this menu you can manage group information (both stored in the Handset and the USIM). In the handset memory, there are 4 default groups: **Family**, **Friends**, **Colleagues** and **School**. You can add, edit and delete groups. When a ringtone for a number is not specified, a call from the number sounds the group ringtone assigned to the number for the group.

Service dial numbers

Menu 8.5

You can view the list of Service Dialling Numbers (SDN) assigned by your service provider (if supported by the USIM card). Such numbers include emergency, directory enquiries and voice mail numbers. After selecting a service number, press  to dial the service.

Own number

Menu 8.6

Allows you to display your phone number in the USIM card. You can save own numbers being used in the USIM card.

My business card

Menu 8.7

You can create your own business card by pressing the left soft key Add. After entering the name, number, Email and image, you can use it as a business card when sending the message.

Settings

Menu 8.8

Display data (Menu 8.8.1)

- ▶ **View contacts from:** Select which contact information shall be displayed (from handset memory, from USIM card or both). All is the default setting.
- ▶ **Name display:** You can set the display order by name.
- ▶ **Show image:** Select whether to display image/avatar or not.

Synchronise contact (Menu 8.8.2)

Note

- ▶ This service is not available in all countries. Please contact your service provider for further information.

You can send the contents of phonebook to the server directly.

Copy all (Menu 8.8.3)

You can copy contacts from the phone memory to the USIM or from the USIM to the phone memory. You can copy all items or one at a time.

Move all (Menu 8.8.4)

You can move contacts from the phone memory to the USIM or from the USIM to the phone memory. You can move all items or one at a time.

Backup contacts (Menu 8.8.5)

You can save all phonebook data in external memory card by formatting vcard.

Restore contacts (Menu 8.8.6)

You can restore all phonebook data in external memory card to phone memory by formatting vcard.

Clear contacts (Menu 8.8.7)

Clears all contact information. You can delete all contacts saved in the mobile phone memory as well as on the USIM card.

Memory info. (Menu 8.8.8)

You can check the status of memory in this -menu.

Calling

Call logs

Menu 9.1

All calls (Menu 9.1.1)

Allows you to view the missed, received, and dialled call records. You can make a call, or send a message to the number you have selected from the records. You can also save the number in Contacts.

Dialled calls (Menu 9.1.2)

Allows you to view dialled call records, make a call, send a message, and save the number in Contacts.

Received calls (Menu 9.1.3)

Allows you to view received call records, make a call, send a message, and save the number in Contacts.

Missed calls (Menu 9.1.4)

Allows you to view missed call records, make a call, send a message, and save the number in Contacts.

Call duration

Menu 9.2

You can view call time by types. Press the left soft key [Options] to choose either partial initialisation or entire initialisation. Also press right soft key [Clear] to initialise a selected duration type. Initialization will require your Security code.

The following timers are available:

- ▶ **All calls:** Shows total call time.
- ▶ **Dialled calls:** Shows outgoing call time.
- ▶ **Received calls:** Shows incoming call time.
- ▶ **Last call:** Shows the latest call time in units of hours/minutes/seconds.

Data volume

Menu 9.3

Allows you to check the sent, received and all data volume transferred.

Press the left soft key [Options] to choose entire initialization, or the selected volume type initialization. Initialization will require your Security code.

Call costs

Menu 9.4

1. This function displays the call costs of the Last call and All calls.
2. To initialise, press the centre key [Clear] and enter the PIN2 code.
3. You can select either **Units** or **Currency** in **Set call cost**.
According to your setting, the call cost is displayed during a call (If USIM and Network support Advice Of Charge(AOC)).
4. In the **Set limit** configuration, select **On** to configure the cost limit. When a cost limit is configured, and the call costs reach the limit, making a call will not be allowed.

Call divert

Menu 9.5

Call divert menus for voice and video calls are provided.

If you press , you can activate call divert menu.

Voice calls (Menu 9.5.1)

- ▶ **All voice calls**
- ▶ **When busy**
- ▶ **No answer**

▶ Not reachable

1. When the number list is not existed

Converts to an editor for entering a divert number. You can input the number to divert a call directly or search it in phonebook. If you press [Divert], the phone will send the request to service provider after entering the number. While waiting for the result from the network, a Requesting message and animation appears.

2. When the number list is existed

Displays To other number menu including of the number list. While waiting for the result from the network, a Requesting message and animation appears.

3. Option menu

After activating All voice calls menu, selecting the Options menu at the bottom of the menus displays the Deactivate, Deactivate all, View status and clear list menus.

The View status menu shows the settings on the network. If you select this menu, Requesting. message and animation appear. Then the network settings are displayed when

the information is received from the network. If you select the Deactivate menu, the call divert numbers registered in the network are deleted after user confirmation. Clear list menu will delete all divert number list.

Video calls (Menu 9.5.2)

- ▶ **All video calls**
- ▶ **When busy**
- ▶ **No answer**
- ▶ **Not reachable**

1. **When the number list is not existed**

Converts to an editor for entering a divert number. You can input the number to divert a call directly or search it in phonebook. If you press  [Divert], the phone will send the request to service provider after entering the number. While waiting for the result from the network, a Requesting message and animation appears.

2. **When the number list is existed**

Displays To other number menu including of the number list. While waiting for the result from the network, a Requesting message and animation appears.

3. **Option menu**

After activating the All video calls menu, selecting the Options menu at the bottom of the menus displays the Deactivate, Deactivate all, View status and clear list menus.

If you select the Deactivate menu, the call divert numbers registered in the network are deleted after user confirmation. Selecting the Cancel all menu will display the operation result after showing the Requesting message and animation. Clear list menu will delete all divert number list.

Deactivate all (Menu 9.5.3)

You can select to deactivate all or not.

Call barring

Menu 9.6

Call barring menus for Voice and Video calls are provided.

The menu consists of **Voice calls**, **Video calls** and **Deactivate all**. The Voice calls and Video calls menus have the following submenus.

The **Call barring** menu consists of **All outgoing**, **Outgoing international**, **Outgoing international calls except home country**, **All incoming** and

Incoming when abroad submenus.

The **All outgoing** menu bars dialling all outgoing calls, the **Outgoing international** menu bars dialling outgoing international calls, and the **Outgoing international calls except home country** menu bars dialling outgoing international calls except for the Home PLMN country. **All incoming** rejects all incoming calls and the **Incoming when abroad** menu rejects incoming calls when roaming.

All outgoing (Menu 9.6.1)

1. When is selected, it receives the Barring password from user, and activates the barring service on the network. A requesting message and animation appears. When the network answers, the result of the operation is displayed.
2. When the Options menu is selected, it activates the Outgoing calls menu. Select the Options menu from the soft menus on the lowest menu. Then **Deactivate**, **Deactivate all**, **View status** and **Barring password** menus appear. The **Deactivate** menu deactivates the barring service after the user's Barring password is

entered. The **Deactivate all** menu deactivates all barring services configured in the network after the user's Barring password has been entered. The **View status** menu enables users to view the current network configuration. Selecting **View status** menu displays the Requesting message with animation and the result of the operation when the network answers. **Change password** menu enables users to change the current barring password.

Outgoing international (Menu 9.6.2)

1. When is selected, it operates in the same way as the **Outgoing calls** menu.
2. When the Options menu is selected, it activates and operates the International calls menu. It operates in the same way as the **Outgoing calls** menu.

Outgoing international calls except home country (Menu 9.6.3)

1. When is selected, it operates in the same way as the **Outgoing calls** menu.

2. When the Options menu is selected – It activates and operates the **International except home country** menu. It operates in the same way as the **Outgoing calls** menu.

All incoming (Menu 9.6.4)

1. When is selected, it operates in the same way as the **Outgoing calls** menu.
2. When the Options menu is selected, it activates and operates the Incoming calls menu. It operates in the same way as the **Outgoing calls** menu.

Incoming when abroad (Menu 9.6.5)

1. When is selected, it operates in the same way as the **Outgoing calls** menu.
2. When the Options menu is selected, it activates and operates the Incoming calls when abroad menu. It operates in the same way as the **Outgoing calls** menu.

Deactivate all (Menu 9.6.6)

You can select to deactivate all or not.

Fixed dial numbers Menu 9.7

- ▶ **ON/OFF:** Select whether to activate FDN or not. PIN authentication is required.

Call waiting Menu 9.8

- ▶ **Activate:** Activates waiting service. Selecting this item, displays requesting message and animation. When the network answers, the result of the operation is displayed.
- ▶ **Deactivate:** Deactivates Call waiting service. Selecting this item displays requesting message and animation. When the network answers, the result of the operation is displayed.
- ▶ **View status:** Displays activated Call waiting service group item of the network. Selecting this item displays requesting message and animation. When the network answers, the result of the operation is displayed.

Common setting

Menu 9.9

Call reject (Menu 9.9.1)

You can set whether to reject incoming calls.

1. Select **On** in Reject menu to activate call reject. The Reject list menu appears.
2. Set the desired call reject option in the Reject list menu.
 - ▶ **All calls:** Rejects all calls.
 - ▶ **Contacts:** Rejects the calls from the number stored in Contacts.
 - ▶ **Groups:** You can specify call rejects by group units stored in Contacts.
 - ▶ **Unregistered:** Rejects calls from the number not stored in Contacts.
 - ▶ **No caller ID:** Reject calls which do not have CLI information.

Send my number (Menu 9.9.2)

- ▶ **Set by network:** Configures with the default settings determined by the service provider.
- ▶ **On:** Configures to send my phone number when making an outgoing call.

- ▶ **Off:** Configures not to send my phone number when making an outgoing call.

Auto redial (Menu 9.9.3)

Allows you to set the auto redial function when a call attempt has failed.

Answer mode (Menu 9.9.4)

Allows you to set the answering method. You can choose between **Press send key** and **Press any key**.

Minute minder (Menu 9.9.5)

Determines whether to sound a 1 minute tone every 1 minute when you are on the phone.

BT answer mode (Menu 9.9.6)

- ▶ **Hands-free:** You can answer a call using the Bluetooth headset, when the Bluetooth is connected.
- ▶ **Handset:** If you press  on the handset to answer a call, you can talk on the handset. If you press the Bluetooth headset key to answer a call, you can talk using the Bluetooth headset.

Calling

This is the initial answer mode selection. And while talking, you can switch from handset to headset or from headset to handset.

Save new number (Menu 9.9.7)

In this menu, you can save the phone number when ending a call if the phone number is not saved in a phonebook.

Video call setting Menu 9.*

You can set the screen display when making /receiving a video call.

- ▶ **Use private image:** Determine whether to show the private image or not.
- ▶ **Select private image:** Select the still image to be displayed.
- ▶ **Mirror:** Select to activate the mirror effect or not.
 - **On:** Displays the image flipped side to side.
 - **Off:** Displays the image as it is.
- ▶ **My image size:** Select my image size to be displayed.
- ▶ **My image position:** Select the position where your image will be displayed.

Bluetooth

Menu *.1

Bluetooth QD ID: B012660

Bluetooth connection

Your phone has built-in Bluetooth wireless technology which makes it possible for you to connect your phone wirelessly to other Bluetooth devices such as a handsfree, PC, PDA or other phones.

Note

- ▶ We recommend that your phone and the Bluetooth device you are communicating with be within a range of 10 meters. The connection may be improved if there are no solid objects between your phone and the other Bluetooth device.

1. Getting started

- **Menu *. Connectivity** → **1. Bluetooth** → **1. Turn on/off**

To use the Bluetooth function, you must first set **Turn on**.

2. Searching new device

- **Menu** → ***.Connectivity** →

1. Bluetooth → 2. Search new device

Using this menu, you can search and pair a new Bluetooth device with your phone. Please read <Pairing devices>.

3. Paired devices

If no paired device exists.

Option → Add new device

If a paired device already exists.

- **Menu** → **#. Settings** → **7. Connectivity** → **1. Bluetooth** → **1. Paired devices**

Option

- ▶ **Add new device:** Using this menu, you can pair a new Bluetooth device with your phone.
- ▶ **Rename:** Using this menu, you can use a nick name for a paired device.
- ▶ **Connect**
 1. If you want to open the connection to the selected device, select **Connect**.
 2. If you want to close the connection to the selected device, select **Disconnect**.
- ▶ **Delete:** Using this menu, you can delete the paired Bluetooth device.

- ▶ **Delete all:** Using this menu, you can delete all of the paired Bluetooth devices.

4. Configuring Bluetooth settings

- **Menu *.Connectivity → 1. Bluetooth → 4. Settings**

- **My device visibility:** Set [My device visibility] to [Visible] so that other devices can detect your phone when they are searching for a Bluetooth device. If you select [Hidden], other devices will not be able to detect your phone when they are searching for a Bluetooth device.
- **My device name:** You can name or rename your phone as it will appear on other devices. Your phone's name will be shown on other devices only when [My device visibility] is set to [Visible].
- **Supported services:** This menu shows the list of available Bluetooth services in your phone.
- **My address:** This menu shows your Bluetooth device address.

Note

- ▶ When user use Bluetooth Devices with the handset, the security of the handset is at risk. Therefore, we recommend that Bluetooth visibility be set to Hidden after configuration or device pairing. For incoming files via Bluetooth regardless of paired devices, you can choose to accept or reject the connection, after checking the sender details.

<Pairing devices>

1. To search for a Bluetooth device to pair, press Option > Add new device.
2. Screen shows **Searching for devices**. Bluetooth devices within a range of 10m will be found.
3. If Bluetooth devices are found, these devices are listed on the screen. If no Bluetooth device is found, you will be asked if you want to search again.
4. Pairing procedure
 - Press [Add]. A window will appear on the screen asking you to enter your password.

- After creating a password (of 1 to 16 digits), the user of the other device must enter the password for pairing. The user of the other device must know the password in advance for authentication.

<Connecting a headset or a handsfree>

1. Pair the headset according to the procedures described in the Pairing Devices section.
2. To use the headset, select the headset from the paired devices, select Options>Connect.
3. To disconnect the headset, select the headset from the paired devices, select Options>Disconnect.

<Deleting devices>

1. Select a device to delete from the Paired devices.
2. You can delete a device by selecting Options > Delete. To delete all paired devices, select Options > Delete All.

<Transmitting data using Bluetooth>

1. To transmit data from your phone to another Bluetooth device, first select the application where the target data is saved. For example, to send a file in

the My Files to another device, select Menu > 6. My Files > 1. My images / 2. My sounds / 3. My videos / 5. Others / 6. My memory card > Select data to transmit > Options > Send > 3. Bluetooth

2. Transmitting data

- 1) The paired devices are displayed. If the desired device does not exist in the list, select [Refresh].
- 2) Select the device to which you want to transmit data from the listed devices on the screen and press it.
- 3) If the other party allows your transmission, the data is transmitted.

<Receiving data using Bluetooth>

If another party attempts to transmit data, question for accepting the connection will appear on the screen. If you allow the connection, the data will be transmitted to your phone.

During data transmission, the Bluetooth icon is changed to File Transfer icon.

And the received files are saved to appropriate folders according to file types. For example, image files are saved to My image folder automatically.

Server sync

Menu *2

Note

- ▶ This service is not available in all countries. Please contact your service provider for further information.

If Sync service is supported by your network operator, this service function synchronizes the data in a phone and the data on a server such as Contacts, Calendar, To do, and Memo via a wireless network.

Connect

1. Select the Connect item and then press .
2. Connect to the server with the selected server profile and the synchronization animation is displayed while the synchronization is performed.

Logs

Select the Logs item and then press to view the log for the last synchronization operation performed.

Server synch. centre

1. Select the Server synch. centre item and then press .
2. This menu allows you to configure the profile for a synchronization server.
 - ▶ **Profile name:** Input the name for the profile.
 - ▶ **Host address:** Contact your service provider.
 - ▶ **SyncML proxy:** Contact your service provider.
 - ▶ **User name:** Enter your user ID for synchronization server.
 - ▶ **Password:** Input your password.
 - ▶ **Contacts:** Select whether to synchronise Contacts or not.
 - ▶ **Contact name:** Input the contacts database name for server access.
 - ▶ **Calendar:** Select whether to synchronise Calendar or not.
 - ▶ **Calendar name:** Input the calendar database name for server access.
 - ▶ **To do:** Select whether to synchronise To do or not.
 - ▶ **To do name:** Input the To do database name for server access.

- ▶ **Memo:** Select whether to synchronise Memo or not.
- ▶ **Memo name:** Input the Memo database name for server access.
- ▶ **Sync type:** Select the synchronization type below.
- ▶ **Access point:** Select an access point to use for the data connection.
- ▶ **Sync mode:** Select the synchronization mode

USB connection

Menu *.3

USB connection of your phone can be used for several purposes. User must set USB connection mode for several usages.

If user uses Mass storage function like USB memory stick, select Mass storage in this menu. Mass storage is available for only external memory card.

If user use other function such as dial-up, PC Synca etc. except Mass storage, select Data service in this menu.

Calendar

Menu 0.1

Schedule inquiry and search

1. Reference by Months

You can refer to your schedule by months. The cursor is on the current date, and the registered date is marked.

The schedule saved for the date where the cursor is located is represented by a grey box. Pressing the shortcut key  moves to the previous year and pressing  move to the next year and pressing  moves to today. Pressing  moves to the previous month, and  moves to the next month. Pressing  moves to the weekly calendar. You can move the date using  /  /  / .

2. Detailed reference

You can refer to a detailed schedule, that is the whole contents of the schedule configured by the user. You can send the schedule to another phone or an Internet site through SMS (Text message) or MMS (Multimedia message) or E-mail or Bluetooth using the left soft key [Options].

Security

Menu #.5

PIN code request (Menu #.5.1)

When this is set to On, you are requested to enter your PIN each time you switch the phone on.

Note

- ▶ Press the right soft key in the PIN code entry window to return to the previous step.
- ▶ 3 incorrect PIN code entries would invalidate the PIN code. And you have to enter the PUK (PIN Unblock Key) code to configure the PIN code again.

- ▶ The maximum number of times you may enter the PUK code is 10. (Note: If you enter an incorrect PUK code 10 times, the USIM card will be blocked and must be replaced.)
- ▶ If the PIN code request cannot be disabled by operator settings, you will not be able to choose this menu item.

Handset lock (Menu #.5.2)

You can lock your phone. The following 4 lock functions are available.

When switching on: Locks the handset whenever the handset is switched on.

If SIM changed: Locks the handset when the phone's USIM card has been changed.

Immediate: Locks the handset immediately.

None: Deactivates the lock function.

You are requested to enter the security code to confirm the selection.

- ▶ To unlock the handset, you need to enter the security code.
