## - ENGLISH

### Disposal of your old appliance

1. When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2002/96/CE.
2. All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
3. The correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health.
4. For more detailed information about disposal of your old appliance, please contact your city office, waste disposal service or the shop where you purchased the product.

# INTRODUCTION

Congratulations on your purchase of the advanced and compact KG920 cellular phone, designed to operate with the latest digital mobile communication technology.

This user's guide contains important information on the use and operation of this phone. Please read all the information carefully for optimal performance and to prevent any damage to or misuse of the phone. Any changes or modifications not expressly approved in this user's guide could void your warranty for this equipment.

Use of phone cases with magnetic locks with slide type phones has caused problems such as loss of network signal and phones powering off.

# FOR YOUR SAFETY

Please read these simple guidelines. Not following these guidelines may be dangerous or illegal. Further detailed information is given in this manual.

## WARNING

- Mobile Phones must be switched off at all times in aircrafts.
- Do not hold the phone in your hand while driving.
- Do not use your phone near petrol stations, fuel depots, chemical plants or blasting operations.
- For your safety, use ONLY specified ORIGINAL batteries and chargers.
- Do not handle the phone with wet hands while it is being charged. It may cause an electric shock or seriously damage your phone.
- Keep the phone in a safe place out of small children's reach. It includes small parts which, if detached, may cause a choking hazard.

## CAUTION

- Switch off the phone in any area where required by special regulations. For example, do not use your phone in hospitals or it may affect sensitive medical equipment.
- Emergency calls may not be available under all mobile networks. Therefore, you should never depend solely on your mobile phone for emergency calls.
- Only use ORIGINAL accessories to avoid damage to your phone.
- All radio transmitters carry risks of interference with electronics in close proximity. Minor interference may affect TVs, radios, PCs, etc.
- Batteries should be disposed of in accordance with relevant legislation.
- Do not dismantle the phone or battery.

# GUIDELINES FOR SAFE AND EFFICIENT USE

## Radio wave exposure and Specific Absorption Rate (SAR) information

This mobile phone model KG920 has been designed to comply with applicable safety requirement for exposure to radio waves. This requirement is based on scientific guidelines the include safety margins designed to assure the safety of all persons, regardless of age and health.

- The radio wave exposure guidelines employ a unit of measurement known as the Specific Absorption Rate, or SAR. Tests for SAR are conducted using standardized methods with the phone transmitting at its highest certified power level in all used frequency bands.
- While there may be differences between the SAR levels of various LG phone models, they are all designed to meet the relevant guidelines for exposure to radio waves.
- The SAR limit recommended by the international Commission on Non-Ionizing Radiation Protection (ICNIRP), which is 2 W/kg averaged over ten (10) gram of tissue.

- The highest SAR value for this model phone tested by DASY4 for use at the ear is 0.366 W/kg (10g).
- The highest SAR value for this model phone tested by DASY4 for use at the ear is 1.35W/kg, Body is 0.326
- SAR data information for residents in countries/ regions that have adopted the SAR limit recommended by the Institute of Electrical and Electronics Engineers (IEEE), which is 1.6 W/kg averaged over one (1) gram of tissue.

## PRODUCT CARE AND MAINTENANCE

### WARNING!

*Use only batteries, chargers and accessories approved for use with this particular phone model. The use of any other types may invalidate any approval or warranty applying to the phone, and may be dangerous.*

- Do not disassemble this unit. Take it to a qualified service technician when repair work is required.
- Keep away from electrical appliances such as a TV, radio or personal computer.
- The unit should be kept away from heat sources such as radiators or cookers.

# GUIDELINES FOR SAFE AND EFFICIENT USE

- Do not drop.
- Do not subject this unit to mechanical vibration or shock.
- The coating of the phone may be damaged if covered with wrap or vinyl wrapper.
- Do not use harsh chemicals (such as alcohol, benzene, thinners, etc.) or detergents to clean your phone. There is a risk of this causing a fire.
- Do not subject this unit to excessive smoke or dust.
- Do not keep the phone next to credit cards or transport tickets; it can affect the information on the magnetic strips.
- Do not tap the screen with sharp objects as, it may damage the phone.
- Do not expose the phone to liquid or moisture.
- Use the accessories like an earphone cautiously.
- If you put your phone in a pocket or bag without covering the receptacle of the phone (power plug pin), metallic articles (such as a coin, paperclip or pen) may short-circuit the phone. Always cover the receptacle when not in use.
- Never place your phone in a microwave oven as it will cause the battery to explode.
- Only authorized personnel should service the phone and its accessories. Faulty installation or service may result in accidents and consequently invalidate the warranty.
- Do not use the phone if the antenna is damaged. If a damaged antenna contacts skin, it may cause a slight burn. Please contact an LG Authorized Service Centre to replace the damaged antenna.
- The label on the phone contains important information for customer support purposes. Do not remove it.

## EFFICIENT PHONE OPERATION

To enjoy optimum performance with minimum power consumption please:

- Hold the phone as you speak to any other telephone. While speaking directly into the microphone, angle the antenna in a direction up and over your shoulder. If the antenna is extendable/retractable, it should be extended during a call.

- Do not hold the antenna when the phone is in use. If you hold it, it can affect call quality, it also may cause the phone to operate as a higher power level than needed and shorten talk and standby times.
- If your mobile phone supports infrared, never direct the infrared ray at anyone's eyes.

## ELECTRONICS DEVICES

All mobile phones may get interference, which could affect performance.

- Do not use your mobile phone near medical equipment without requesting permission. Avoid placing the phone over pacemakers, (i.e. in your breast pocket).
- Some hearing aids might be disturbed by mobile phones.
- Minor interference may affect TVs, radios, PCs, etc.
- Do not bend, scratch, or expose to static electricity.

## ROAD SAFETY

Check the laws and regulations on the use of mobile phones in the areas when you drive.

- Do not use a hand-held phone while driving.
- Give full attention to driving.
- Use a hands-free kit, if available.
- Pull off the road and park before making or answering a call if driving conditions so require.
- RF energy may affect some electronic systems in your motor vehicle such as a car stereo or safety equipment.
- When riding in a car, do not leave your phone or set up the hands-free kit near to the air bag. If wireless equipment is improperly installed and the air bag is activated, you may be seriously injured.

## BLASTING AREA

Do not use the phone where blasting is in progress. Observe restrictions, and follow any regulations or rules.

# GUIDELINES FOR SAFE AND EFFICIENT USE

## POTENTIALLY EXPLOSIVE ATMOSPHERES

- Do not use the phone at a refueling point. Don't use near fuel or chemicals.
- Do not transport or store flammable gas, liquid, or explosives in the compartment of your vehicle, which contains your mobile phone and accessories.

## IN AIRCRAFT

Wireless devices can cause interference in aircraft.

- Turn off your mobile phone before boarding any aircraft.
- Do not use it on the ground without crew permission.

## BATTERY INFORMATION AND CARE

- You do not need to completely discharge the battery before recharging. Unlike other battery systems, there is no memory effect that could compromise the battery's performance.
- Use only LG batteries and chargers. LG chargers are designed to maximize the battery life.
- Do not disassemble or short-circuit the battery pack.
- Keep the metal contacts of the battery pack clean.
- Replace the battery when it no longer provides acceptable performance. The battery pack may be recharged hundreds of times until it needs replacing.
- Recharge the battery if it has not been used for a long time to maximize usability.
- Do not expose the battery charger to direct sunlight or use it in high humidity, such as the bathroom.
- Do not leave the battery in hot or cold places, this may deteriorate the battery performance.

## NETWORK SERVICE

- Some services and functions described in this user's guide are dependent on network or subscription. Therefore, all menus may not be available in your phone. Please consult your network operator for more information about your subscription.

# KG920 FEATURES

KG920 FEATURES

## DISPLAY INFORMATION

Area	Description
<b>First line</b>	Displays various icons.
<b>Middle lines</b>	Display messages, instructions and any information that you enter, such as number to be dialled.
<b>Last line</b>	Shows the functions currently assigned to the two soft keys.

The screen displays several icons. These are described below.

## ON-SCREEN ICONS

Icon/Indicator	Description
	Tells you the strength of the network signal.
	Call is connected.
	You can use GPRS service.
	Shows that you are using a roaming service.
	You have received a text message.
	You have received a voice message.
	Vibrate only menu in profile.
	General menu in profile.
	Loud menu in profile.

**Note**

The quality of the conversation may change depending on network coverage. When the signal strength is below 2 bars, you may experience muting, call drop and poor audio. Please refer to this signal as an indicator for your calls. When there are no bars, that means that there is no network coverage: in this case, you won't be able to access the network for any service (call, messages and so on).

Icon/Indicator	Description
	Silent menu in profile.
	Headset menu in profile.
	You can divert a call.
	Indicates that the phone is accessing the WAP.

Icon/Indicator	Description
	Indicates that you are using GPRS.
	You have activated Bluetooth menu.
	Indicates the battery level, divided in bars. The Battery indicator may fluctuate depending on the kind of usage of the phone. Using multimedia functions like MP3, camera, video, etc... the battery consumption increases, so the battery charge expires sooner than using common features of the phone. This difference in battery consumption may cause a fluctuation of 2 or 3 bars depending on the application used.

**Note**

- ▶ 통화중이거나 데이터 교환중에 안테나가 내장된 윗부분을 손으로 잡게 될 경우 통화품질에 영향을 줄 수 있으므로 주의하시기 바랍니다.

# INSTALLATION

INSTALLATION

## INSTALLING THE SIM CARD AND THE HANDSET BATTERY

Make sure the power is off before you remove the battery.

### 1. Remove the battery.

Hold the top edge of the battery and lift the battery from the battery compartment.

### 2. Install the SIM card.

Insert the SIM card into the holder. Slide the SIM card into the SIM card holder. Make sure that the SIM card is inserted properly and that the gold contact area on the card is facing downwards. To remove the SIM card, press down lightly and pull it in the reverse direction.

To insert the SIM card

To remove the SIM card

### Note

- ▶ The metal contact of the SIM card can be easily damaged by scratches. Pay special attention to the SIM card while handling. Follow the instructions supplied with the SIM card.

### 3. Install the battery.

Insert the bottom of the battery first into the bottom edge of the battery compartment. Push down the top of the battery until it snaps into space.

## CHARGING THE BATTERY

Before connecting the travel adapter to the phone you must first install the battery.

1. Ensure the battery is fully charged before using the phone for the first time.
2. With the arrow facing you as shown in the diagram push the plug on the battery adapter into the socket on the side of the phone until it clicks into place.
3. Connect the other end of the travel adapter to the mains socket. Use only the charger included in the box.
4. The moving bars of battery icon will stop after charging is complete.

# INSTALLATION

## CAUTION!

- Do not force the connector as this may damage the phone and/or the travel adapter.
- If you use the battery pack charger out of your own country, use an attachment plug adaptor for the proper configuration.
- Do not remove your battery or the SIM card while charging.

## WARNING!

- *Unplug the power cord and charger during lightning storms to avoid electric shock or fire.*
- *Make sure that no sharp-edged items such as animal teeth or nails, come into contact with the battery. There is a risk of this causing a fire.*
- *Do not place or answer calls while charging the phone as it may short-circuit the phone and/or cause electric shock or fire.*

## DISCONNECTING THE CHARGER

Disconnect the travel adapter from the phone by pressing its side buttons as shown in the diagram.

## MEMORY CARD

The KG920 is equipped with a slot on the side for a memory card with a maximum of 128MB capacity. You can use this card to save data files such as photos, video, audio, contact point, schedule.

### Note

- ▶ Always insert/remove the memory card with the handset power off.

## INSERTING THE MEMORY CARD

Insert the memory card into the slot until the memory card is fully inserted into the slot, as shown in the figure below:

Open the memory card slot

Insert the memory card

## REMOVING THE MEMORY CARD

1. Push in memory card with the tip of your finger into the slot which will activate the eject mechanism.
2. Carefully pull the memory card out of slot.

Remove the memory card

## MEMORY CARD FORMATTING

Before you start using the memory card it is necessary to format it. After you insert the memory card, select Menu-Settings-Reset settings-Clear external memory (Menu #.8.3)(see p.73), then press OK. This operation should be done only when you insert memory card for the first time. During formatting various folders will be created for different data types.

### Note

- ▶ Please note formatting the memory card will erase all data on the card.

If you do not wish for this to happen, to create the folders

on the card you need to do the following;

1. Insert the memory card into the slot.
2. Access the external memory by pressing the following keys. Menu, My stuff (6), External Memory (9).

3. 7 Folders are displayed

- 1) Videos
- 2) Photos
- 3) Music
- 4) Text
- 5) Images
- 6) Sounds
- 7) Others

4. To create the above folders onto the memory card, you must open each folder individually. A "List empty" message will be displayed as you access each folder, and at the same time this folder will be created on the card.

5. If you now place your memory card into your pc, those 7 folders which you have just created will be displayed as sub folders under My Media.

6. Alternately you can create the folders yourself, if you insert the new memory card into your pc, you can create the main folder "My Media" and within that folder create the 7 sub folders listed.

**Note**

- ▶ Please note that any extra folders/sub folders you create will not be visible on the phone via External memory.

## MEMORY CARD ADAPTER

When you insert the memory card into its adapter, it can be used with other memory sticks which are compatible with devices such as PC's to exchange and save data to without a data cable.

1. Insert the memory card into adapter.
2. Insert the adapter into the SD slot of the PC.
3. Check the status of the external memory on the PC.

**Note**

- ▶ Before connecting this memory card adapter to your PC, check whether your PC has a built in SD slot or not.

# GENERAL FUNCTIONS

## MAKING A CALL

1. Make sure your phone is powered on.
2. Enter a phone number including the area code. To edit a number on the display screen, simply press the  key to erase one digit at a time.
  - ▶ Press and hold the  key to erase the entire number.
3. Press the  key to call.
4. When you want to finish, press the  key.

## Making a call from the call history list.

1. Press the  key, and the most recent incoming, outgoing and missed phone numbers will be displayed.
2. Select the desired number by using the navigation keys.
3. Press the  key.

## Making International Calls

1. Press and hold the  key for the international prefix. The '+' character can be replaced with the international access code.
2. Enter the country code, area code, and the phone number.
3. Press the  key.

## Ending a Call

When you have finished a call, press the  key.

## Making a Call From the Contact list

You can store names and phone numbers dialed frequently in the SIM card as well as the phone memory known as the Contact list.

You can dial a number by simply looking up a name in the contact list. For more details on the Contacts feature.

## Adjusting the Volume

During a call, if you want to adjust the earpiece volume, use the side keys of the phone.

In idle mode, you can adjust the key volume using the side keys.

## Answering a Call

When you receive a call, the phone rings and the flashing phone icon appears on the screen. If the caller can be identified, the caller's phone number (or name/photo, if stored in your Address Book) is displayed.

1. Open the flip and press the  key or the left soft key to answer an incoming call. If the Any Key menu option (Menu #.3.2), has been set, any key press will answer a call except for the  key or the right soft key.

### Note

- ▶ To reject an incoming call, press and hold the side keys on the left side of the phone.

2. End the call by closing the phone or pressing the  key.

### Note

- ▶ You can answer a call while using the Address Book or other menu features.

## Vibrate Mode (Quick)

Vibrate Mode can be activated by pressing and holding the left navigation key.

## Signal Strength

If you are inside a building, being near a window may give you better reception. You can see the strength of your signal by the signal indicator (  ) on your phone's display screen.

# GENERAL FUNCTIONS

## ENTERING TEXT

You can enter alphanumeric characters by using the phone's keypad. For example, storing names in the Address Book, writing a message, creating scheduling events in the calendar all require entering text. The following text input methods are available in the phone.

### Note

- ▶ Some fields may allow only one text input mode (e.g. telephone number in address book fields).

## T9 Mode

This mode allows you to enter words with only one keystroke per letter. Each key on the keypad has more than one letter. The T9 mode automatically compares your keystrokes with an internal linguistic dictionary to determine the correct word, thus requiring far fewer keystrokes than the traditional ABC mode.

## ABC Mode

This mode allows you to enter letters by pressing the key labeled with the required letter once, twice, three or four times until the letter is displayed.

## 123 Mode (Numbers Mode)

Type numbers using one keystroke per number. To change to 1 2 3 mode in a text entry field, press  key until 1 2 3 mode is displayed.

## Symbolic Mode

This mode allows you to enter special characters.

## Changing the Text Input Mode

1. When you are in a field that allows characters to be entered, you will notice the text input mode indicator in the upper right corner of the display.
2. If you want to change modes, press  . The available modes are changed.

## Using the T9 Mode

The T9 predictive text input mode allows you to enter words easily with a minimum number of key presses. As you press each key, the phone begins to display the characters that it thinks you are typing based on a built-in dictionary. As new letters are added, the word changes to reflect the most likely candidate from the dictionary.

### Note

- ▶ You can select a different T9 language from the menu option by holding down the  key. The default setting on the phone is T9 enabled.

1. When you are in the T9 predictive text input mode, start entering a word by pressing keys  to . Press one key per letter.
  - ▶ The word changes as letters are typed—ignore what's on the screen until the word is typed completely.
  - ▶ If the word is still incorrect after typing completely, press the down navigation key once or more to cycle through the other word options.

**Example:** Press     to type **Good**.

- ▶ If the desired word is missing from the word choices list, add it by using the ABC mode.
2. Enter the whole word before editing or deleting any keystrokes.
  3. Complete each word with a space by pressing the key  or  key.  
To delete letters, press . Press and hold down  to erase the letters continuously.

### Note

- ▶ To exit the text input mode without saving your input, press . The phone returns to the idle screen.

## Using the ABC Mode

Use the  to  keys to enter your text.

1. Press the key labeled with the required letter:
  - ▶ Once for the first letter.
  - ▶ Twice for the second letter.
  - ▶ And so on.

# GENERAL FUNCTIONS

2. To insert a space, press the  key once. To delete letters, press the  key. Press and hold down the  key to erase the letters continuously.

## Note

► Refer to the table below for more information on the characters available using the keys.

Key	Characters in the order display	
	Upper Case	Lower Case
 1 123	., - ? ! ' @ : 1	., - ? ! ' @ : 1
 2 234	A B C 2	a b c 2
 3 345	D E F 3	d e f 3
 4 456	G H I 4	g h i 4
 5 567	J K L 5	j k l 5
 6 678	M N O 6	m n o 6
 7 789	P Q R S 7	p q r s 7
 8 890	T U V 8	t u v 8
 9 901	W X Z Y 9	w x y z 9
 0 012	Space 0	Space 0

## Using the 123 (Numbers) Mode

The 123 Mode enables you to enter numbers in a text message (a telephone number, for example). Press the keys corresponding to the required digits before manually switching back to the appropriate text entry mode.

## Using the Symbol Mode

The Symbol Mode enables you to enter various symbols or special characters.

To enter a symbol, press the  key. Use the navigation keys to select the desired symbol and press the [OK] key.

# SELECTING FUNCTIONS AND OPTIONS

Your phone offers a set of functions that allow you to customize the phone. These functions are arranged in menus and sub-menus, accessed via the two soft keys marked  and . Each menu and sub-menu allows you to view and alter the settings of a particular function. The roles of the soft keys vary according to the current context; the label on the bottom line of the display just above each key indicates its current role.

Press the left soft key to access the available Menu.

Press the right soft key to access the available Contacts.

# IN-CALL MENU

Your phone provides a number of control functions that you can use during a call. To access these functions during a call, press the left soft key  [Options].

## DURING A CALL

The menu displayed on the handset screen during a call is different than the default main menu displayed when in idle screen, and the options are described below.

### Speaker phone

During call you can activate speaker phone selecting Options/Speaker phone on, or by pressing OK button. To mute speaker phone select Options/Speaker phone off, or press OK button one more time.

## Making a Second Call (Network Dependent)

You can get a number you wish to dial from the Address Book to make a second call. Press the Right soft key then select Contacts.

## Swapping Between Two Calls

To switch between two calls, press  key or the left soft key, and then select Swap.

## Answering an Incoming Call

To answer an incoming call when the handset is ringing, simply press the  key. The handset is also able to warn you of an incoming call while you are already on a call. A tone sounds in the earpiece, and the display will show that a second call is waiting.

This feature, known as Call Waiting, is only available if your network supports it. For details of how to activate and deactivate it see **Call Waiting** (Menu #.3.4, see p. 69)

If Call Waiting is on, you can put the first call on hold and answer the second, by pressing  .

## Rejecting an Incoming Call

You can reject an incoming call without answering by simply pressing the  key.

During a call, you can reject an incoming call by pressing the  key.

## Muting the Microphone

You can mute the microphone during a call by pressing the [Options] key then selecting [Mute]. The handset can be unmuted by pressing the [Unmute]. When the handset is muted, the caller cannot hear you, but you can still hear them.

## DTMF tones while calling

To switch on DTMF tones while calling (e.g. to use the phone with an automatic switchboard) press the key [Options] followed by Send DTMF – DTMF on. Select DTMF off to disable DTMF tones. DTMF tones are normally on.

## CONFERENCE CALLS

The conference service provides you with the ability to have a simultaneous conversation with more than one caller, if your network service provider supports this feature. A conference call can only be set up when you have one active call and one call on hold, both calls having been answered. Once a conference call is set up, calls may be added, disconnected or separated (that is, removed from the conference call but still connected to you) by the person who set up the conference call. These options are all available from the In-Call menu. The maximum callers in a conference call are five. Once started, you are in control of the conference call, and only you can add calls to the conference call.

## Making a Second Call

You can make a second call while currently on a call. Enter the second number and press the . When the second call is connected, the first call is automatically placed on hold. You can swap between calls, by pressing the  key.

## Setting Up a Conference Call

# GAMES & APPS

## GAMES & APPS

MENU 1.1

- **Default Games:** In this menu, you can manage the Java applications installed in your phone. You can play or delete downloaded applications, or set the connect option. The downloaded applications are organised in folders.

Press the left soft key  [Select] to open the selected slide or launch the selected midlet.

After selecting a folder, press [Options] and then sub menus available to several options are displayed.

- ▶ **Open:** You can see the stored games.
- ▶ **New slide:** Create a new slide.

## PROFILES

MENU 1.2

A profiles is the network information used to connect to the Internet.

If you want to see the details of a profile, please refer to Menu \*.4.1.

Java™, is a technology developed by Sun Microsystems. Similar to the way you would download the Java Applet using the standard MS Internet Explorer browsers, Java MIDlet can be downloaded using a WAP enabled phone. Depending on the service provider, all Java based programs such as Java games can be downloaded and run on a phone. Once downloaded, the Java program can be viewed in the **Games & Apps** menu where you can select, execute, or delete. The Java program files saved in the phone are in .JAD or .JAR format.

## Note

- ▶ The JAR file is a compressed format of the Java program and the JAD file is a description file that includes all detailed information. From the network, prior to download, you can view all detailed file descriptions from the JAD file.
- ▶ While being based on a standard language (J2ME), not all Java applications are compatible with all handsets on sale insofar as specific libraries may be used for a telephone model. The software may be blocked or switch itself on when Java applications not specifically developed for the phone this manual refers to are downloaded, making it necessary to “restart” the handset. We would like to point out that these problems are caused by incompatible applications and are not a product fault.

**CAUTION!** *Only J2ME(Java 2 Micro Edition) based programs will run in a phone environment. The J2SE(Java 2 Standard Edition) based programs will only run in a PC environment.*

# CONTACTS

## SEARCH

MENU 2.1

1. Select **Search** by pressing the right soft key  [Contacts] or [OK].
2. Enter the name that you want to search.

### Note

- ▶ Instant searching is available by inputting the initial letter of the name or number you want to search.

3. If you want to edit, delete or copy an entry, select the left soft key  [Options]. The following menu will be displayed.
  - ▶ **Edit:** You can edit the name, number, group, character and picture by using the navigation key.
  - ▶ **Write messages:** After you have found the number you want, you can send a text/multimedia message to the selected number.
  - ▶ **Send via Bluetooth:** You can send the data of phone book to devices which is compatible with bluetooth through Bluetooth.

- ▶ **Copy to handset:** You can copy an entry from SIM to phone or from phone to SIM.
- ▶ **Assign speed dial:** You can assign the entry as a speed dial.
- ▶ **View caller groups:** For further details see (Menu 2.3).
- ▶ **Delete:** You can delete an entry.

## ADD NEW

MENU 2.2

You can add a phonebook entry by using this function. Phone memory capacity is 1 000 entries. SIM card memory capacity depends on the cellular service provider. You can also save 20 characters of name in The Phone memory, and save characters in the SIM card. The number of characters is a SIM dependent feature.

### Note

- ▶ Maximum stored name and number length depends on SIM-card type.

1. Select **Add new** by pressing the left soft key  [Select] or [OK].
2. Select the memory you want to save: **SIM** or **Phone**. If you set to Phone, you need to select which number you want as a main number.
  - a. Press  [OK] to input a name.
  - b. Press  [Save], then you can input a number.
  - c. You can set a group for the entry by pressing  ,  .
  - d. You can set a character and a picture for the entry by pressing  ,  .

## CALLER GROUPS

MENU 2.3

You can add up to 20 members per group, with up to a maximum of 7 groups in total.

- ▶ **Member list:** Shows the group members you have selected.
- ▶ **Group ring tone:** Allows you to specify ring tone for the group members' call.

- ▶ **Group icon:** Allows you to select the icon dependent on Group.
- ▶ **Add member:** You can add group members. Each group should not exceed 20 members.
- ▶ **Remove member:** You can remove the member from the Group member list. But the name and the number will be remained in phonebook.
- ▶ **Rename:** You can change a group name.
- ▶ **Remove all:** Allows you to delete all the members in the group.

## SPEED DIAL

MENU 2.4

Assign contacts to any of the keys  to  . You can then call that contact by pressing the corresponding number key.

1. Open the phonebook first by pressing the right soft key  [Contacts] in standby mode.
2. Scroll to **Speed dial**, then press the left soft key  [Select].
3. If you want to add speed dial, select **(empty)**. Then, you can search the name in phonebook.

# CONTACTS

4. After assigning the number as speed dial, you can change and delete the entry. You can also make a call or send a message by this number.

## OWN NUMBER (SIM DEPENDENT)

MENU 2.5

You can save and check your own number in SIM card.

## MY BUSINESS CARD

MENU 2.6

This option allows you to create your own business card featuring Name and an mobile phone number. To create a new business card, press the left soft key [Edit] and enter the information into the fields.

# SETTINGS

MENU 2.7

1. Press the right soft key [Contacts] in standby mode.
2. Scroll to **Settings**, then press the left soft key [Select].

### ▶ Default memory

Scroll to highlight **Default memory**, and then press the left soft key [Select].

- If you select **Always ask**, when adding entry, the phone will ask where to store.
- If you select **SIM** or **Phone**, the phone will store an entry to SIM or phone.

### ▶ View options

Scroll to highlight **View options**, and then press the left soft key [Select].

- **Name only:** Set the phonebook list by displaying the name only.
- **Name & number:** Set the phonebook list by displaying the name and number.
- **With pictures:** Set the phonebook list with the information and picture of contact.

▶ **Copy/Move all**

You can copy/move entries from SIM card memory to Phone memory and vice versa.

1. Open the Phonebook first by pressing the right soft key  [Contacts] in standby mode.

2. Scroll to **Copy/Move all**, and then press the left soft key  [Select] to enter this menu.

- **SIM to Phone:** You can copy/move the entries from SIM Card to Phone memory.

- **Phone to SIM:** You can copy/move the entries from Phone memory to SIM Card.

▶ **Memory in use:** This feature allows you to see how many entries are in use, or free in your phonebook.

▶ **Clear contacts**

You can delete all the entries in the SIM and Phone. This function requires the Security code.

1. Scroll to highlight Clear contacts, and then press the left soft key  [Select].

2. Highlight the memory you wish to erase, and then press the left soft key  [Select].

3. Enter the security code and press the left soft key  [OK] or the right soft key  [Back].

▶ **Service dial number**

Use this function to access a particular list of services provided by your network operator (if supported by the SIM card).

# ORGANISER

## CALENDAR

MENU 3.1

When you enter this menu a calendar will be displayed. The month and year are shown at the top of the screen. Whenever you change the date under the Settings menu, the calendar will update automatically. The current date will be highlighted in green and any schedule or memos will be indicated with a red triangle at the top left hand corner of the corresponding square. An audible alarm can be set for memo's and reminders.

To change the day, month and year.

Key	Description	Key	Description
 	Yearly	 	Weekly
 	Monthly	 	Daily

- ▶ **Album** [  ]: Allow you to see photos saved in your phone.

### Note

- ▶ In My album you may only view pictures taken by the handset's camera.

- ▶ **Exit** [  ]: Back to the screen mode to take photos.

# MULTIMEDIA

Once all the desired settings have been selected, focus on the subject to capture and press the Camera key or OK key. With a click, the image is captured and the following menu bar appears.

When you are in Photo Camera capture mode, you may adjust the zoom by pressing the side Up/Down navigation keys.

## Note

- ▶ To take a panorama photo (1 280 × 720 resolution) you should swivel and close the flip.

## • To take a picture with phone closed

1. Press and hold [  ] for a few seconds.

- **MP3:** Activates the MP3 mode.
- **Take picture:** Activates the Take photo mode.
- **Slide show:** View the pictures in Album as a slide show.

## Digital Camera Mode

To enter the Digital Camera Mode you should swivel and close the flip whilst the handset is in idle mode. Now the handset will automatically enter Digital Camera Mode.

- To enter the camera's main menu, press and hold the side camera button.
- With side up/down buttons you may scroll through the settings items. After the necessary item is selected, press the side camera button, and you will access the detailed settings of this selected feature. By using the side up/down buttons select the desired setting and press the side camera button for confirmation.

- To exit to camera capture mode you should press the and hold side camera button.
- A short press of the camera key is all that is required to take a photo.

### Note

- ▶ When you are in Digital Camera Mode, and there's no action for some time, the phone will automatically exit to idle mode.

- **Torch:** Activates the flash light.
- **Back:** Goes back to the previous menu.

## VIDEO CAMERA

### MENU 4.2

1. Select **Video camera** menu.
2. To be able to record, you must reverse the display of the phone and close.
3. You can also amend the brightness, size, quality and other settings by pressing and holding down the  for a few seconds.

Video camera settings menu is the same with Photo camera settings, except following items:

- ▶ **Size:** You may select following resolution: 128 × 96, 176 × 144 and 208 × 160.
- ▶ **Record time:** You may select recording time from the list: 1 min, 5 min, 30 min, 90 min and unlimited.

Once the settings are displayed on the screen, you can scroll through them using the side keys. Scroll to the setting you wish to change, press the  and it will bring up the setting values. Use the side keys to scroll to your preferred choice and then press the  to select.

4. To start recording press . As soon as it starts to record a timer will be displayed.
5. Press the  to end the recording and this will now be saved.

## VOICE RECORDER

MENU 4.3

With the voice memo feature you can record up to 20 voice messages and each memo can be up to 20 seconds long.

### Record (Menu 4.3.1)

You can record a voice memo in the Voice recorder menu.

1. Once recording has started, the message Recording and the remaining time is displayed.
2. If you want to finish recording, press the left soft key  [Save].
3. Key in Voice memo title, press the left soft key  [OK].

### View list (Menu 4.3.2)

The list of voice memos are displayed. You can playback and delete the recorded voice memo. The following [Options] menus are available

- ▶ **Play:** Allows you to listen to the recorded voice memo.

- ▶ **Send:** Allows you to send via multimedia message and e-mail.
- ▶ **Delete:** Allows you to delete voice memo.
- ▶ **Delete all:** Allows you to delete all voice memos.

## MP3

MENU 4.4

The KG920 has an integrated MP3 player. You can enjoy listening to MP3 music files on your phone memory using a compatible headset or via the internal loudspeaker.

### Note

- ▶ Because of the small dimension of the speaker, in some cases the audio could be distorted, especially at maximum volume and when there are lots of bass sounds. Therefore, we recommend you to use the stereo headset in order to appreciate the high quality of your music.

The music player supports:

- **MPEG-1 Layer III, MPEG-2 Layer III, MPEG-2.5 Layer III:** Sampling frequency up from 8KHz to 48KHz. Bit rate up to 320Kbps, stereo.
- **AAC:** ADIF, ADTS formats (Sampling frequency from 8KHz to 48KHz)
- **AAC+:** V1 : (Bit rate 16 ~ 128Kbps)  
V2 : (Bit rate 16 ~ 48Kbps)  
(Sampling frequency from 8KHz to 48KHz)
- **MP4, M4A:** Sampling frequency up from 8KHz to 48KHz, Bit rate up to 320Kbps, stereo.
- **WMA:** Sampling frequency up from 8KHz to 48KHz, Bit rate up to 320Kbps, stereo.

### Note

- ▶ KG920 doesn't support the variable bit rate of all mentioned file types. Therefore, you can't change the file from MP3 format to AAC.

### Note

- ▶ You should copy your MP3 files to My media\Music slide. If you copy to another slide, you will not be able to view MP3 files.
- ▶ The PC should run Windows 98 SE, Windows ME, Windows 2000, Windows XP operating system.

## MP3 player (MENU 4.4.1)

The following screen is shown up.

Repeat	Loop
Play all	
Repeat all	A → B
Repeat one	

### Note

- ▶ In case that any invalid file is included in the playlist, an error message will be popped up and go back to the prior screen.

1. Press MP3 menu, and then select MP3 player.
2. Press the left soft key [Options] to access the following menus.
  - ▶ **View playlist:** You can select another MP3 file you wish to play.
  - ▶ **Area repeat:** The special area part of the current music is repeated when you select ON of the menu.
  - ▶ **Set as ringtone:** You can set an MP3 file as a ringtone.
  - ▶ **Settings:** There are 5 settings under this menu, which are explained in more detail on the next page.

### Playlist (Menu 4.4.2)

This menu allows you to view the whole play list. You can move through the tracks by pressing the navigation key. In addition, once you have selected the track, you can delete the file or view its information via the options menu.

## Settings (Menu 4.4.3)

### ▶ Equalizer

This phone has 5 preset equalizer settings. When you enter this menu, you can view and change the settings as desired.

### ▶ Playmode

This menu allows you to set the play mode: Play all, Repeat all, Repeat one.

### ▶ Set shuffle

If you select the ON option, then your saved tracks will be played in a random order.

### ▶ Visual effect

This menu allows you to change the visual background of the main and sub LCD on the phone whilst an MP3 is playing.

### ▶ Flip setting:

#### • Continue playing

Although you close the flip of the phone, your MP3 continues playing without interruption.

#### • Stop playing

The MP3 will stop playing, once the flip is closed.

## Note

- ▶ Music is copyright protected in international treaties and national copyright laws. It may be necessary to obtain permission or a license to reproduce or copy music. In some countries national law prohibits private copying of copyrighted material. Please check the national legislation of the applicable country concerning the use of such material.

## PHOTO ALBUM

MENU 4.5

You can view and send a picture. In addition, you can set the picture as a wallpaper.

- ▶ **Multi view:** You can view the maximum of 9 thumbnails in a screen.
- ▶ **Send via Bluetooth:** You can send a picture by Bluetooth.
- ▶ **Set as wallpaper:** You can set a picture as a wallpaper.
- ▶ **Slide show:** You can view the pictures in a slide show.

# MULTIMEDIA

- ▶ **Delete:** You can delete a picture.
- ▶ **Edit title:** You can edit the title of picture.
- ▶ **Information:** Displays information about the saved picture.

## Note

- ▶ The Photo Album will only display pictures taken by the handsets camera.

## VIDEO ALBUM

MENU 4.6

You can view videos which have been saved in the memory.

- ▶ **Play:** You can play the video file when pressing the OK key or selecting Play menu of the Options menu. To play recorded video with 208 × 160 resolution you should swivel and close flip.
- ▶ **Send via Bluetooth:** Send the selected file to another device via Bluetooth
- ▶ **Copy/Move to external memory:** Copy/Move the selected file to the same slide at Multimedia

- ▶ **Rename:** Change the file name of selected file. The maximum length of characters is 90. In filename it's impossible to use symbols such as / < > # @ \* and etc. And You can't change the extension of file.
- ▶ **Delete:** Delete a file.
- ▶ **Delete all:** Delete all files in the list
- ▶ **Information:** Show the file information.

## SETTINGS

MENU 4.7

### Camera (Menu 4.7.1)

- ▶ **Auto save:** If you set this feature to On, the images will be saved automatically without displaying the menu bar to save.
- ▶ **Delete all photos:** You can delete all the photos which have been saved in the memory.

### Video camera (Menu 4.7.2)

- ▶ **Delete all videos:** Allows you to delete all the videos which have been saved in the memory.

## NEW MESSAGE

MENU 5.1

This menu includes functions related to SMS (Short Message Service), MMS (Multimedia Message Service), Email, voice mail, as well as the network's service messages.

### Write text message (Menu 5.1.1)

You can write and edit text message, checking the number of message pages.

1. Enter the **New messages** menu by pressing the left soft key  [Select].
2. If you want to write a new message, select **Write text message**.

- ▶ **Personal:** You can see the list of personal certificates that have been stored in your phone.

# CALL REGISTER

You can check the record of missed, received, and dialled calls only if the network supports the Calling Line Identification (CLI) within the service area.

The number and name (if available) are displayed together with the date and time at which the call was made. You can also view call times.

## MISSED CALLS

MENU 0.1

This option lets you view the last 10 unanswered calls. You can also:

- View the number if available and call it, or save it in the Address Book
- Enter a new name for the number and save both in the Address Book
- Send a message to this number
- Delete the call from the list

## RECEIVED CALLS

MENU 0.2

This option lets you view the last 10 incoming calls. You can also:

- View the number if available and call it or save it in the Address Book
- Enter new name for the number and save both in the Address Book
- Send a message to this number
- Delete the call from the list

## DIALLED CALLS

MENU 0.3

This option lets you view the last 20 outgoing calls (called or attempted).

You can also:

- View the number if available and call it or save it in the Address Book
- Enter new name for the number and save both in the Address Book
- Send a message to this number
- Delete the call from the list

# CALL REGISTER

## ALL CALLS

MENU 0.4

You can view all lists of outgoing or incoming calls.

## DELETE RECENT CALLS

MENU 0.5

Allows you to delete Missed calls and Received calls lists. You can delete Dialed calls and All calls lists at one time.

## CALL CHARGES

MENU 0.6

### Call duration (Menu 0.6.1)

Allows you to view the duration of your incoming and outgoing calls. You can also reset the call times.

The following timers are available:

- ▶ **Last call:** Length of the last call.
- ▶ **All calls:** Total length of all calls made and incoming calls since the timer was last reset.
- ▶ **Received calls:** Length of the incoming calls.

- ▶ **Dialed calls:** Length of the outgoing calls.
- ▶ **Reset all:** Allows you to reset the timers of all calls by pressing the left soft key  [Yes].

### Call costs (Menu 0.6.2)

Allows you to check the cost of your last call, all calls, remaining and reset the cost. To reset the cost, you need to know your PIN2 code.

### Settings (Menu 0.6.3)

#### (SIM Dependent)

- ▶ **Set tariff:** You can set the currency type and the unit price. Contact your service providers to obtain charging unit prices. To select the currency or unit in this menu, you need the PIN2 code.
- ▶ **Set credit:** This network allows you to limit the cost of your calls by selected charging units. If you select **Read**, the number of remaining unit is shown. If you select **Change**, you can change your change limit.
- ▶ **Auto display:** This network service allows you to see automatically the cost of your last calls. If set to **On**, you can see the last cost when the call is released.

## GPRS INFORMATION

MENU 0.7

You can check the amount of data transferred over the network through the GPRS information option. In addition, you can also view how much time you are online.

### Call duration (Menu 0.7.1)

You can check the duration of **Last call** and **All calls**. You can also reset the call timers.

### Data volumes (Menu 0.7.2)

You can check The **Sent**, **Received** or **All** data volumes and **Reset all**.

## **Auto redial** (Menu #.3.6)

### ▶ **On**

When this function is activated, the phone will automatically try to redial in the case of failure to connect a call.

### ▶ **Off**

Your phone will not make any attempts to redial when the original call has not connected.

## SECURITY

MENU #.4

### PIN code request (Menu #.4.1)

In this menu, you can set the phone to ask for the PIN code of your SIM card when the phone is switched on.

If this function is activated, you'll be requested to enter the PIN code.

1. Select PIN code request in the security settings menu, and then press  [Select].
2. Set **Enable/Disable**
3. If you want to change the setting, you need to enter PIN code when you switch on the phone.
4. If you enter wrong PIN code more than 3 times, the phone will lock out. If the PIN is blocked, you will need to key in PUK code.
5. You can enter your PUK code up to 10 times. If you put wrong PUK code more than 10 times, you can not unlock your phone. You will need to contact your service provider.

### Handset lock (Menu #.4.2)

You can use a security code to avoid unauthorized use of the phone. Whenever you switch on the phone, the phone will request security code if you set phone lock to **When switch on**.

If you set phone lock to **When SIM changed**, your phone will request security code only when you change your SIM card.

### Call barring (Menu #.4.3)

The Call barring service prevents your phone from making or receiving certain category of calls. This function requires the call barring password. You can view the following submenus.

- ▶ **All outgoing calls**  
The barring service for all outgoing calls.
- ▶ **Outgoing international**  
The barring service for all outgoing international calls.
- ▶ **Outgoing international when roaming**  
The barring service for all international outgoing calls except home network.

# SETTINGS

## ▶ All incoming

The barring service for all incoming calls.

## ▶ Incoming when roaming

The barring service for all incoming calls when roaming.

## ▶ Cancel all

You can cancel all barring services.

## ▶ Change password

You can change the password for Call Barring Service.

### The submenus:

#### • Activate

Allows to request the network to set call restriction on.

#### • Cancel

Set the selected call restriction off.

#### • View status

View the status whether the calls are barred or not.

## Fixed dial number (Menu #.4.4) (SIM dependent)

You can restrict your outgoing calls to selected phone numbers. The numbers are protected by your PIN2 code.

### ▶ Enable

You can restrict your outgoing calls to selected phone numbers.

### ▶ Disable

You can cancel fixed dialling function.

### ▶ Number list

You can view the number list saved as Fixed dial number.

## Change codes (Menu #.4.5)

PIN is an abbreviation of Personal Identification Number to prevent use by unauthorized person. You can change the access codes: **Security code, PIN code, PIN2 code.**

1. If you want to change the Security code/PIN1 / PIN2 code input your original code, and then press  [OK].
2. Input new Security code/PIN1 /PIN2 code and verify them.

## NETWORK

MENU #.5

You can select a network which will be registered either automatically or manually. Usually, the network selection is set to **Automatic**.

### Network selection (Menu #.5.1)

You can select a network type.

#### Automatic

If you select Automatic mode, the phone will automatically search for and select a network for you. Once you have selected “Automatic”, the phone will be set to “Automatic” even though the power is off and on.

#### Manual

The phone will find the list of available networks and show you them. Then you can select the network which you want to use if this network has a roaming agreement with your home network operator. The phone let you select another network if the phone fails to access the selected network.

#### Preferred

You can set a list of preferred networks and the phone attempts to register with first, before attempting to register to any other networks. This list is set from the phone’s predefined list of known networks.

### Band selection (Menu #.5.2)

#### EGSM/DCS

According to depending on Network situation, you can select EGSM/DCS.

#### EGSM/PCS

According to depending on Network situation, you can select EGSM/PCS.

## GPRS ATTACH

MENU #.6

You can set GPRS service depending on various situations.

### Switch on (Menu #.6.1)

If you select this menu, the phone is automatically registered to a GPRS network when you switch the phone on. Starting a WAP or PC dial-up application created the connection between phone and network and data transfer is possible. When you end the application, GPRS connection is ended but the registration to the GPRS network remains.

### When needed (MENU #.6.2)

If you select this menu, the GPRS connection is established when you connect a WAP service and closed when you end the WAP connection.

## MEMORY STATUS

MENU #.7

You can check free space and memory usage of each repository, Internal memory, Multimedia memory and External memory. You can go to each repository menu.

## RESET SETTINGS

MENU #.8

You can initialize all factory defaults. You need Security code to activate this function.

- ▶ **Restore default settings:** Allows you to restore default settings.
- ▶ **Clear multimedia memory:** Allows you to format the multimedia memory and create a default directory.
- ▶ **Clear external memory:** Allows you to format the external memory and create default directory.

# ACCESSORIES

There are various accessories for your mobile phone. You can select these options according to your personal communication requirements.

## Travel Adapter

This charger allows you to charge the battery while away from home or your office.

## Standard Battery

## Hands free ear-microphone and music player controller combo

### Stereo headset

**Controller:** Answer & End but-ton, music player control, vol-ume control, Hold button and microphone.

After connecting the headset and the controller, plug the end of controller into the headset jack on the left side of the phone.

### Note

- ▶ Always use genuine LG accessories.
- ▶ Failure to do this may invalidate your warranty.
- ▶ Accessories may be different in different regions; please check with our regional service company or agent for further inquiries.
