# For Your Safety

## Important Information

This user guide contains important information on the use and operation of this phone. Please read all the information carefully for optimal performance and to prevent any damage to or misuse of the phone. Any changes or modifications not expressly approved in this user guide could void your warranty for this equipment.

Turn off your phone in a medical facility or at a gas station. Never place your phone in a microwave oven as this will cause the battery to explode.

**IMPORTANT!** Please read the TIA SAFETY INFORMATION on page 78 before using your phone.

## Safety Information

Read these simple guidelines. Breaking the rules may be dangerous or illegal. Further detailed information is given in this user guide.

- ▶ Never use an unapproved battery since this could damage the phone and/or battery and could cause the battery to explode.
- ▶ Never place your phone in a microwave oven as it will cause the battery to explode.
- ▶ Do not dispose of your battery by fire or with hazardous or flammable materials.
- ▶ Make sure that no sharp-edged items come into contact with the battery. There is a risk of this causing a fire.
- ▶ Store the battery in a place out of reach of children.
- ▶ Be careful that children do not swallow any parts such as rubber plugs (earphone, connection parts of the phone, etc.). This could cause asphyxiation or suffocation.

## Before You Start

### Safety Instructions

**WARNING!** To reduce the possibility of electric shock, do not expose your phone to high humidity areas, such as the bathroom, swimming pool, etc.

**Always store your phone away from heat.** Never store your phone in settings that may expose it to temperatures less than 32°F or greater than 104°F, such as outside during extreme weather conditions or in your car on a hot day. Exposure to excessive cold or heat will result in malfunction, damage and/or catastrophic failure.

**Be careful when using your phone near other electronic devices.** RF emissions from your mobile phone may affect nearby in adequately shielded electronic equipment. You should consult with manufacturers of any personal medical devices such as pacemakers and hearing aides to determine if they are susceptible to interference from your mobile phone.

## For Your Safety

- ▶ Unplug the power cord and charger during lightning storms to avoid electric shock or fire.
- ▶ When riding in a car, do not leave your phone or set up the hands-free kit near to the air bag. If wireless equipment is improperly installed and the air bag is activated, you may be seriously injured.
- ▶ Do not use a hand-held phone while driving.
- ▶ Do not use the phone in areas where its use is prohibited. (For example: aircraft).
- ▶ Do not expose the battery charger or adapter to direct sunlight or use it in places with high humidity, such as a bathroom.
- ▶ Never store your phone in temperatures less than - 4°F or greater than 122°F.
- ▶ Do not use harsh chemicals (such as alcohol, benzene, thinners, etc.) or detergents to clean your phone. There is a risk of this causing a fire.
- ▶ Do not drop, strike, or shake your phone severely. Such actions may harm the internal circuit boards of the phone.
- ▶ Do not use your phone in high explosive areas as the phone may generate sparks.
- ▶ Do not damage the power cord by bending, twisting, pulling, or heating. Do not use the plug if it is loose as it may cause a fire or electric shock.
- ▶ Do not place any heavy items on the power cord. Do not allow the power cord to be crimped as it may cause fire or electric shock.
- ▶ Do not handle the phone with wet hands while it is being charged. It may cause an electric shock or seriously damage your phone.
- ▶ Do not disassemble the phone.
- ▶ Do not place or answer calls while charging the phone as it may short-circuit the phone and/or cause electric shock or fire.
- ▶ Only use the batteries, antennas, and chargers provided by LG. The warranty will not be applied to products provided by other suppliers.
- ▶ Only authorized personnel should service the phone and its accessories. Faulty installation or service may result in accidents and consequently invalidate the warranty.
- ▶ Do not hold or let the antenna come in contact with your body during a call.
- ▶ An emergency call can be made only within a service area. For an emergency call, make sure that you are within a service area and that the phone is turned on.

## For Your Safety

### FCC RF Exposure Information

**WARNING!** Read this information before operating the phone.

In August 1996, the Federal Communications (FCC) of the United States, with its action in Report and Order FCC 96-326, adopted an updated safety standard for human exposure to radio frequency (RF) electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies.

The design of this phone complies with the FCC guidelines and these international standards.

### CAUTION

Use only the supplied and approved antenna. Use of unauthorized antennas or modifications could impair call quality, damage the phone, void your warranty and/or result in violation of FCC regulations. Do not use the phone with a damaged antenna. If a damaged antenna comes into contact with skin, a minor burn may result. Contact your local dealer for a replacement antenna.

### Body-worn Operation

This device was tested for typical body-worn operations with the back of the phone kept 0.79 inches (2cm) between the user's body and the back of the phone. To comply with FCC RF exposure requirements, a minimum separation distance of 0.79 inches (2cm) must be maintained between the user's body and the back of the phone. Third-party belt-clips, holsters, and similar accessories containing metallic components should not be used. Body-worn accessories that cannot maintain 0.79 inches (2cm) separation distance between the user's body and the back of the phone, and have not been tested for typical body-worn operations may not comply with FCC RF exposure limits and should be avoided.

### **Vehicle Mounted External Antenna (optional, if available)**

A minimum separation distance of 8 inches (20cm) must be maintained between the user/bystander and the vehicle mounted external antenna to satisfy FCC RF exposure requirements. For more information about RF exposure, visit the FCC website at [www.fcc.gov](http://www.fcc.gov)

### **FCC Part 15 Class B Compliance**

This device and its accessories comply with part 15 of FCC rules. Operation is subject to the following two conditions:

(1) This device and its accessories may not cause harmful interference, and (2) this device and its accessories must accept any interference received, including interference that may cause undesired operation.

### **Cautions for Battery**

- ▶ Do not disassemble.
- ▶ Do not short-circuit.
- ▶ Do not expose to high temperature: 60°C (140°F).]
- ▶ Do not incinerate.

### **Battery Disposal**

- ▶ Please dispose of your battery properly or bring to your local wireless carrier for recycling.
- ▶ Do not dispose in fire or with hazardous or flammable materials.

### **Adapter (Charger) Cautions**

- ▶ Using the wrong battery charger could damage your phone and void your warranty.
- ▶ The adapter or battery charger is intended for indoor use only.

Do not expose the adapter or battery charger to direct sunlight or use it in places with high humidity, such as the bathroom.

# Messaging

## Messaging

Your KM710d combines Text messages, Multimedia messages, Bluetooth messages and Email into one intuitive and easy to use menu. Simply Press  or  and select .

## Sending a message

The quick way to begin sending a Text message is to press  from the standby screen and go straight to step 4 below.

Otherwise:

- 1 Press  or , select  and then **New message**.
- 2 Choose to send **Text** or **Multimedia**. (If you want to send a message using **Bluetooth**, see page 54).
- 3 A new message will open.
- 4 Enter your message using T9 predictive mode or Abc manual mode.  
See **Entering text** to see how to switch between the different text entry modes.
- 5 Select Options and choose **Insert** to add a symbol, image, animation, sound, text template, contact or business card.
- 6 Select Options and choose **Send to** or just press .

- 7 Enter the phone number or select Options and choose **Contacts** to open your contacts list.

You can add multiple contacts.

- 8 Select Options and choose **Send** or just press .

## Entering text

There are two ways to enter text:

T9 predictive and Abc manual.

To turn on T9 predictive text, begin a new message, choose Options, select **T9 languages** and choose **T9 on**. With T9 on, you can switch between T9 predictive, Abc manual and numbers by pressing .

### T9 predictive

T9 mode uses a built-in dictionary to recognise words you are rewriting based on the key sequences you press. Simply press the number key associated with the letter you want to enter, and the dictionary will recognise the word as you type. For example, press 8, 3, 5, 3, 7, 4, 6, 6, 3 to write 'telephone'.

If the word you want doesn't appear, choose Options and select **New T9 word**. Enter the word using Abc manual mode and your word or name will be added to the dictionary.

## Abc manual

In Abc mode you must press the key repeatedly to enter a letter. For example, to write 'hello', press 4 twice, 3 twice, 5 three times, 5 three times again, then 6 three times.

 **WARNING:** You will be charged per 160 character text message for each person that you send the message to.

## Message folders

Press  or , select . You'll recognise the folder structure used on your KM710d, it's fairly self-explanatory.

**Inbox** - All the messages you receive are placed into your inbox. From here you can reply, forward and more, see below for details.

**Email box** - Contains all your email messages.

**Bluetooth box** - The Bluetooth box folder contains your Bluetooth message folders.

**Drafts** - If you don't have time to finish writing a message, you can save what you have done so far here.

**Outbox** - This is a temporary storage folder while messages are being sent.

**Sent** - All the messages you send are placed into your Sent folder.

**Info messages** - All info messages and updates received from your operator

**Templates** - A list of useful messages, already written for a quick reply.

You can also access your voicemail from here by selecting **Listen voicemail** and your messaging settings by selecting **Settings**.

## Managing your messages

You can use your Inbox to manage your messages.

1 Press  or , select  and then **Inbox**.

2 Select Options and then choose to:

**View** - View a selected message.

**Delete** - Delete a selected message.

**Reply** - Send a reply to the selected message.

**Forward** - Send the selected message on to another person.

**Return call** - Call the person who sent you the message.

**Save number** - Save as a new or existing contact.

**Information** - View the details of a message, for example, the time it was sent.

**Multi Delete** - Delete selected messages.

Select Options to open a sub menu where you can choose to take a New Photo, set your image as **Wallpaper** or **Picture ID**, look at the other photos in your Album, or send the photo as a Multimedia message, Bluetooth or email. To exit the Camera, press and hold **C**.

## Using your toolbar options

Selecting Options will display a new toolbar across the bottom of the viewfinder screen. Use  and  to navigate through the toolbar options.

**Resolution** – See Changing the image size on page 31.

**Quality** - Choose between **Normal**, **Fine** and **Super fine**. The finer the quality the sharper a photo will be but the file size will increase as a result. You'll be able to store fewer larger photo files in your memory.

**Flash** – Turn the flash **On** or **Off**.

The flash is set to **Off** as default, saving battery power. Whenever you exit the camera it will return to the default Off setting.

**Self timer** - The delay-timer allows you to set a delay after the capture button is pressed. Choose from **Off**, **3 seconds**, **5 seconds** or **10 seconds**. Great for that group photo you want to be part of.

**Multi shot** - This enables you to take up to six shots automatically in very quick succession. Great for taking photos of moving objects or at sporting events.

**Colour effect** – Choose from four colour tone options: **Off** (normal/colour), **Sepia**, **Mono** (black and white) or **Negative**.

**White balance** - The white balance ensures that any white in your photo is realistic. In order for your camera to correctly adjust the white balance you may need to determine the light conditions. Choose from **Auto**, **Daylight**, **Incandescent**, **Cloudy** or **Fluorescent**.

**Shutter tone** - Select one of the three shutter sounds or switch the sound off.

**Reset settings** – Choose **Yes** to reset your phone to its original camera settings.

## Changing the image size

You can change the size of the photo to save memory space. The more pixels, the larger the file size, which in turn means they take up more of your memory. If you want to fit more pictures on your phone, you can alter the pixel number to make the file size smaller.

- 1 Choose Options and select  from the toolbar.
- 2 Select a pixel value from the four numerical options (QV: 320X240, V: 640X480, 1M: 1280X960, 2M: 1600X1200).
- 3 Select the size you would like to use and choose **OK**. The settings menu will automatically close, ready for you to take your picture.

## Viewing your saved photos

- 1 You can access your saved photos from within the camera mode and from the standby screen. From the viewfinder, simply select **Album**. From the standby screen you should press  or , then select  and **Images**.
- 2 Your gallery will appear on screen.
- 3 Use the arrows to select the photo you want to view and choose Options, **View** or just press  to enlarge it.

# My stuff

You can store any multimedia files on your phone's memory so that you have easy access to all of your pictures, sounds, videos and games. You can also save your files to a memory card. The advantage of using a memory card is that you can free up space on your phone's memory.

All your multimedia files will be saved in My stuff. To access My stuff, press  or  then  to open a list of folders storing all of your multimedia files.

## Images

**Images** contains a folder of default images pre-loaded onto your phone, images downloaded by you and images taken on your phone's camera.

## Images options menu

The options which are available to you in **Images** depend on what type of image you have selected. All of the options will be available for pictures you have taken on the phone's camera. Only the **View, Set as, File info, Slide show, Sort by** and **Thumbnail / List view** options are available for default images.

In the **Images** folder, select Options to bring up your list of options.

**View** - View the selected message.

**Delete** - Delete the selected image.

**Send via** - Send the selected image to a friend via MMS, Bluetooth or Email.

**Note:** The image may need to be resized before it can be sent by MMS.

**Set as** - Set selected image as your wallpaper or as a picture ID.

**File** - Edit image, rename or view the information (Name, Size, Date, Image size and Copyright) of the selected image. If you have an external memory card inserted, two additional options will show: **Move to external memory** and **Copy to external memory**.

**Print via Bluetooth** - Print an image file via Bluetooth.

**Slide show** - See Creating a slide show on page 37.

**New folder** - Create a new folder within the main Images folder.

**Multi delete** - Select more than one image to be deleted.

**Delete all** - Delete all the photos in your Images folder.

## Others

The **Others** folder is used to store files which are not pictures, sounds, videos, games or applications.

You may find that when you transfer files from your computer to your phone, they will appear in the **Others** folder.

## Games and Apps

Your KM710d comes with preloaded games to keep you amused when you have time to spare. If you choose to download any additional games or applications they will be saved into this folder.

### Playing a game

- 1 Press  or  then select .
- 2 Scroll to and select **Games & Apps**.
- 3 Select the game of your choice and choose Options, **Play** or just press .

### Using the games options menu

In the Games folder, select Options to bring up the following list:

**Play** – Select this to play the game.

**Information** - View the Name, Version, Vendor, Data-size and Domain of the file.

## External memory

If you've inserted a memory card it will be displayed as a folder within My stuff. Your external memory folder will be divided into four further folders: Images, Sounds, Videos and Others. Each folder will contain all the files of that type saved to your memory card rather than your handset.

### Using your phone as a Mass storage device

Your KM710d can be used as a mass storage device, just like a USB stick. This is a great way of moving your files from your computer to your phone. If you've inserted a memory card, when connecting as Mass storage it will be displayed as two drives on your computer. The handset memory and external memory.

- 1 Press  or , select  then **Connectivity**.
- 2 Select **USB Connection mode**.
- 3 Scroll to **Mass storage** and select **OK**.
- 4 Insert the smaller end of the USB cable into the USB cable connector on the edge of the KM710d. Plug the larger end into the USB port of your computer.

- 2 Choose **FM radio**.
- 3 Select **Auto scan** then **Yes**.
- 4 Each time a station is found, your KM710d will ask if you want to save it. Select **Yes** if you want to store the channel and **No** if you don't. Any stations you choose to save will automatically be allocated to a channel number in your phone.

To manually tune:

- 1 Press  or  and select .
- 2 Choose **FM radio**.
- 3 Select a channel number that you want to save a station to and choose **Edit**.
- 4 To enter your station, you can either use the arrow keys to search for the frequency, or you can enter the frequency using the keypad.
- 5 Select **Save**.

**Note:** You can also edit the stations you have saved in a channel number by using the same **Edit** feature you use to manually tune in stations.

**TIP!** To improve the radio reception, extend the headset cord, which functions as the radio antenna.

## Resetting channels

- 1 Press  or  and select .
- 2 Choose **FM radio**.
- 3 Select Options, **Reset channels**. Choose **Yes** to confirm the reset. Each channel will return to the starting 87.5Mhz frequency.

## Listening to the radio

- 1 Press  or  and select .
- 2 Choose FM radio.
- 3 Select the channel number of the station you would like to listen to.

## Voice recorder

Use your **voice recorder** to record voice memos or other sounds.

## Sending and receiving your files using Bluetooth

Bluetooth is a great way to send and receive files as no wires are needed and connection is quick and easy. You can also connect to a Bluetooth headset to make and receive calls. Before you can start sharing files with Bluetooth, you will need to pair your device with another Bluetooth device. For information on pairing devices, see **Pairing with another Bluetooth device**.

To switch Bluetooth on:

- 1 Press  or  and select . Choose **Connectivity**, then **Bluetooth**.
- 2 Select **Bluetooth on/off** and choose **On**.
- 3 Select **Off** to switch Bluetooth off.

To send a file:

- 1 Open the file you want to send, typically this will be a photo, video or music file.
- 2 Select Options and choose **Send via**, then **Bluetooth**.
- 3 Select **Yes** to turn Bluetooth on if it is not already activated.
- 4 Your KM710d will automatically search for other Bluetooth enabled devices within range.
- 5 Choose the device you want to send the file to and select **Send**.
- 6 Your file will be sent.

### To receive a file:

- 1 To receive files, your Bluetooth must be both **On** and **Visible**. See **Changing your Bluetooth settings** for more information.
- 2 A message will prompt you to accept the file from the sender. Select **Yes** to receive the file.

**Tip!** Keep an eye on the progress bar to make sure your file is sent.

Changing your Bluetooth settings:

- 1 Press  or  and select . Choose **Connectivity**, then **Bluetooth**.
- 2 Choose **Bluetooth settings** to make changes to:
  - My visibility** - Choose whether to **Show** or **Hide** your device to others.
  - My name** - Enter a name for your KM710d.
  - My address** - Change your Bluetooth address.

## Pairing with another Bluetooth device

By pairing your KM710d and another device, you can set up a passcode protected connection. This means your pairing is more secure.

- 1 Check your Bluetooth is **On** and **Visible**. You can change your visibility in the **Bluetooth Settings** menu, by selecting **My visibility**, then **Show**.
- 2 Select **Device list** from the Bluetooth menu and choose **New**.
- 3 Your KM710d will search for devices. When the search is completed **Pair** and **Refresh** will appear on screen.

- 4 Choose the device you want to pair with, select **Pair**, enter the passcode and then choose **OK**.
- 5 Your phone will then connect to the other device, on which you should enter the same passcode.
- 6 Your passcode protected Bluetooth connection is now ready.

## Using a Bluetooth headset

- 1 Check your Bluetooth is **On** and **Visible**.
- 2 Follow the instructions that came with your headset to put it in pairing mode and pair your devices.
- 3 Select **Yes** to **Connect now**. Your KM710d will automatically switch to Headset profile.
