

IKU250 User Guide I

- English

This document is the user guide for the LG KU250 3G Video Mobile Phone. All rights for this document are reserved by LG Electronics. Copying, modifying and distributing this document without the consent of LG Electronics are prohibited.

Disposal of your old appliance

1. When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2002/96/EC.
2. All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
3. The correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health.
4. For more detailed information about disposal of your old appliance, please contact your city office, waste disposal service or the shop where you purchased the product.

Part 15.21 statement

" Change or Modifications that are not expressly approved by the manufacturer could void the user's authority to operate the equipment. "

Part 15.105 statement

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. if this equipment does cause harmful interference or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

LIMITED WARRANTY STATEMENT

1. WHAT THIS WARRANTY COVERS:

LG offers you a limited warranty that the enclosed subscriber unit and its enclosed accessories will be free from defects in material and workmanship, according to the following terms and conditions:

- (1) The limited warranty for the product extends for ONE (1) year beginning on the date of purchase of the product.
- (2) The limited warranty extends on to the original purchaser of the product and is not assignable or transferable to any subsequent purchaser/end user.
- (3) This warranty is good only to the original purchaser of the product during the warranty period as long as it is in the U.S., including Alaska, Hawaii, U.S. Territories and Canada.
- (4) The external housing and cosmetic parts shall not be covered under these limited warranty terms.
- (5) Upon request from LG, the consumer must provide information to reasonably prove the date of purchase.
- (6) The customer shall bear the cost of shipping the product to the Customer Service Department of LG. LG shall bear the cost of shipping the product back to the consumer after the completion of service under this limited warranty.

2. WHAT THIS WARRANTY DOES NOT COVER:

- (1) Defects or damages resulting from use of the product in other than its normal and customary manner.
- (2) Defects or damages from abnormal use, abnormal conditions, improper storage, exposure to moisture or dampness, unauthorized modifications, unauthorized connections, unauthorized repair, misuse, neglect, abuse, accident, alteration, improper installation, or other acts which are not the fault of LG, including damage caused by shipping blown fuses spills of food or liquid.
- (3) Breakage or damage to antennas unless caused directly by defects in material or workmanship.
- (4) That the Customer Service Department at LG was not notified by consumer of the alleged defect or malfunction of the product during the applicable limited warranty period.
- (5) Products which have had the serial number removed or made illegible.
- (6) The limited warranty is in lieu of all other warranties, express or implied either in fact or by operations law, statutory or otherwise, including, but limited to any implied warranty of marketability or fitness for a particular use.
- (7) Damage resulting from use of non-LG approved accessories.
- (8) All plastic surfaces and all other externally exposed parts that are scratched or damaged due to normal customer use.
- (9) Products operated outside published maximum ratings.
- 3
- (10) Products used or obtained in a rental program.
- (11) Consumables (such as fuses).

3. STATE LAW RIGHTS:

No other express warranty is applicable to this product. THE DURATION OF ANY IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTY OF MARKETABILITY, IS LIMITED TO THE DURATION OF THE EXPRESS WARRANTY HEREIN. LG INFOCOMM INC. SHALL NOT BE LIABLE FOR THE LOSS OF THE USE OF THE PRODUCT, INCONVENIENCE, LOSS OR ANY OTHER DAMAGES, DIRECT OR CONSEQUENTIAL, ARISING OUT OF THE USE OF, OR INABILITY TO USE, THIS PRODUCT OR FOR ANY BREACH OF ANY EXPRESS OR IMPLIED WARRANTY, INCLUDING THE IMPLIED WARRANTY OF MARKETABILITY APPLICABLE TO THIS PRODUCT. Some states do not allow the exclusion of incidental or consequential damages or limitations on how long an implied warranty lasts; so these limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

4. HOW TO GET WARRANTY SERVICE:

To obtain warranty service, please call the following web address:

www.lgeservice.com

For Your Safety

Important Information

This user guide contains important information on the use and operation of this phone. Please read all the information carefully for optimal performance and to prevent any damage to or misuse of the phone. Any changes or modifications not expressly approved in this user guide could void your warranty for this equipment.

Before You Start

Safety Instructions

WARNING: To reduce the possibility of electric shock, do not expose your phone to high humidity areas, such as the bathroom, swimming pool, etc.

Always store your phone away from heat. Never store your phone in settings that may expose it to temperatures less than 32°F or greater than 104°F, such as outside during extreme weather conditions or in your car on a hot day. Exposure to excessive cold or heat will result in malfunction, damage and/or catastrophic failure.

Be careful when using your phone near other electronic devices. RF emissions from your mobile phone may affect nearby in adequately shielded electronic equipment. You should consult with manufacturers of any personal medical devices such as pacemakers and hearing aides to determine if they are susceptible to interference from your mobile phone.

Turn off your phone in a medical facility or at a gas station. Never place your phone in a microwave oven as this will cause the battery to explode.

IMPORTANT! Please read the TIA SAFETY INFORMATION on page 78 before using your phone.

Safety Information

Read these simple guidelines. Breaking the rules may be dangerous or illegal. Further detailed information is given in this user guide.

- ▶ Never use an unapproved battery since this could damage the phone and/or battery and could cause the battery to explode.
- ▶ Never place your phone in a microwave oven as it will cause the battery to explode.
- ▶ Do not dispose of your battery by fire or with hazardous or flammable materials.
- ▶ Make sure that no sharp-edged items come into contact with the battery. There is a risk of this causing a fire.
- ▶ Store the battery in a place out of reach of children.
- ▶ Be careful that children do not swallow any parts such as rubber plugs (earphone, connection parts of the phone, etc.). This could cause asphyxiation or suffocation.

For Your Safety

- ▶ Unplug the power cord and charger during lightning storms to avoid electric shock or fire.
- ▶ When riding in a car, do not leave your phone or set up the hands-free kit near to the air bag. If wireless equipment is improperly installed and the air bag is activated, you may be seriously injured.
- ▶ Do not use a hand-held phone while driving.
- ▶ Do not use the phone in areas where its use is prohibited. (For example: aircraft).
- ▶ Do not expose the battery charger or adapter to direct sunlight or use it in places with high humidity, such as a bathroom.
- ▶ Never store your phone in temperatures less than -4°F or greater than 122°F.
- ▶ Do not use harsh chemicals (such as alcohol, benzene, thinners, etc.) or detergents to clean your phone. There is a risk of this causing a fire.
- ▶ Do not drop, strike, or shake your phone severely. Such actions may harm the internal circuit boards of the phone.
- ▶ Do not use your phone in high explosive areas as the phone may generate sparks.
- ▶ Do not damage the power cord by bending, twisting, pulling, or heating. Do not use the plug if it is loose as it may cause a fire or electric shock.
- ▶ Do not place any heavy items on the power cord. Do not allow the power cord to be crimped as it may cause fire or electric shock.
- ▶ Do not handle the phone with wet hands while it is being charged. It may cause an electric shock or seriously damage your phone.
- ▶ Do not disassemble the phone.
- ▶ Do not place or answer calls while charging the phone as it may short-circuit the phone and/or cause electric shock or fire.
- ▶ Only use the batteries, antennas, and chargers provided by LG. The warranty will not be applied to products provided by other suppliers.
- ▶ Only authorized personnel should service the phone and its accessories. Faulty installation or service may result in accidents and consequently invalidate the warranty.
- ▶ Do not hold or let the antenna come in contact with your body during a call.
- ▶ An emergency call can be made only within a service area. For an emergency call, make sure that you are within a service area and that the phone is turned on.

For Your Safety

FCC RF Exposure Information

WARNING! Read this information before operating the phone. In August 1996, the Federal Communications (FCC) of the United States, with its action in Report and Order FCC 96-328, adopted an updated safety standard for human exposure to radio frequency (RF) electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies.

The design of this phone complies with the FCC guidelines and these international standards.

CAUTION

Use only the supplied and approved antenna. Use of unauthorized antennas or modifications could impair call quality, damage the phone, void your warranty and/or result in violation of FCC regulations. Do not use the phone with a damaged antenna. If a damaged antenna comes into contact with skin, a minor burn may result. Contact your local dealer for a replacement antenna.

Body-worn Operation

This device was tested for typical body-worn operations with the back of the phone kept 0.79 inches (2cm) between the user's body and the back of the phone. To comply with FCC RF exposure requirements, a minimum separation distance of 0.79 inches(2cm) must be maintained between the user's body and the back of the phone. Third-party belt-clips, holsters, and similar accessories containing metallic components should not be used. Body-worn accessories that cannot maintain 0.79 inches(2cm) separation distance between the user's body and the back of the phone, and have not been tested for typical body-worn operations may not comply with FCC RF exposure limits and should be avoided.

Vehicle Mounted External Antenna (optional, if available)

A minimum separation distance of 8 inches (20cm) must be maintained between the user/bystander and the vehicle mounted external antenna to satisfy FCC RF exposure requirements. For more information about RF exposure, visit the FCC website at www.fcc.gov

FCC Part 15 Class B Compliance

This device and its accessories comply with part 15 of FCC rules. Operation is subject to the following two conditions: (1) This device and its accessories may not cause harmful interference, and (2) this device and its accessories must accept any interference received, including interference that may cause undesired operation.

Cautions for Battery

- ▶ Do not disassemble.
- ▶ Do not short-circuit.
- ▶ Do not expose to high temperature: 60°C (140°F.)
- ▶ Do not incinerate.

Battery Disposal

- ▶ Please dispose of your battery properly or bring to your local wireless carrier for recycling.
- ▶ Do not dispose in fire or with hazardous or flammable materials.

Adapter (Charger) Cautions

- ▶ Using the wrong battery charger could damage your phone and void your warranty.
- ▶ The adapter or battery charger is intended for indoor use only.

Do not expose the adapter or battery charger to direct sunlight or use it in places with high humidity, such as the bathroom.

Introduction

Congratulations on your purchase of the advanced and compact KU250 3G video mobile phone, designed to operate with the latest digital mobile communication technology.

This user's guide contains important information on the use and operation of this phone. Please read all the information carefully for optimal performance and to prevent any damage to or misuse of the phone. Any changes or modifications not expressly approved in this user's guide could void your warranty for this equipment.

Use of phone cases with magnetic locks with slide type phones has caused problems such as loss of network signal and phones powering off.

KU250 features

Parts of the phone

Open view

LCD screen

- ▶ **Top:** Icons showing signal strength, battery level and various other functions
- ▶ **Bottom:** Soft key indications

Clear key

Clears a character with each press. Hold the key down to clear all input.

Alpha numeric keys

- ▶ **In standby mode:** Input numbers to dial. Hold down:
 - for international calls.
 - to dial voice mail centre.
 - to - for speed dials.
- ▶ **In editing mode:** Enter numbers & characters

KU250 features

Left soft key/ Right soft key

These keys perform the function indicated in the bottom of the display.

Confirm key

Selects menu options and confirms actions.

End key

- ▶ Switch on/off (hold down)
- ▶ End or reject a call.

Send key

- ▶ Dial a phone number and answer a call.
- ▶ **In standby mode:** Shows a history of calls made, received, and missed.

Headset/Charger/Cable connector

Note

- ▶ Please ensure phone is powered on and in idle mode before connecting the USB cable.

Getting Started

Installing the USIM card and battery

1. Installing the USIM card.

Your USIM card contains your phone number, service details and contacts and must be inserted into your handset. If your USIM card is removed then your handset becomes unusable (except for emergency calls) until a valid one is inserted. Always disconnect the charger and other accessories from your handset before inserting and removing your USIM card. Slide the USIM card into the USIM card holder. Make sure that the USIM card is properly inserted and the gold contact area on the card is facing downwards. To remove the USIM card, press down lightly and pull it in the reverse direction.

To insert the USIM card To remove the USIM card

Note

- ▶ The metal contact of the USIM card can easily be damaged by scratches. Pay special attention to the USIM card while handling. Follow the instructions supplied with the USIM card.

2. Installing the battery.

Insert the the battery into the battery compartment as metal contacts meet in the middle of the phone. Push down the top of the battery until it snaps into place. Place the battery cover to the phone as shown.

Charging the Battery

Before connecting the travel adapter to the phone you must first install the battery.

3. To remove the battery.

Press and hold down the battery release button and lift off the battery cover. Turn the phone up-side down, as shown, then lift up the battery with your fingers and pull-out the battery.

1. With the arrow facing you as shown in the diagram push the plug on the battery adapter into the socket on the left side of the phone until it clicks into place.
2. Connect the other end of the travel adapter to the mains socket.

Installation

Note

- ▶ Only use the charger included in the box.

3. The moving bars on the battery icon will stop after charging is complete.
4. Ensure the battery is fully charged before using the phone for the first time.

CAUTION!

- *If the battery is completely discharged, the charging display will appear on the LCD approximately 1 to 1.5 minutes after connecting TA.*
- *Do not force the connector as this may damage the phone and/or the travel adapter.*
- *Insert the battery pack charger vertically to wall power outlet.*
- *If you use the battery pack charger when abroad, use an attachment plug adaptor for the proper configuration.*
- *Do not remove your battery or the USIM card while charging.*

WARNING!

- *Unplug the power cord and charger during lightning storms to avoid electric shock or fire.*
- *Make sure that no sharp-edged items such as animal teeth or nails, come into contact with the battery. This may cause a fire.*

Disconnecting the charger

Disconnect the travel adapter from the phone as shown in the diagram below.

How to use a microSD memory card

<MicroSD memory card>

<How to insert a microSD memory card>

1. Turn the phone off. Inserting or removing the microSD when the phone is on may damage the files stored in the memory card.
2. Lift the plastic cover which protects the microSD slot.
3. Insert the memory card into the slot. The gold contacts must be kept on the back of the microSD. Don't push the microSD too much. If it doesn't go into the slot easily, you may be trying to insert it in the wrong way or there could be a foreign object in the slot.
4. Once inserted, push the memory card until you hear a Click, meaning that the microSD has been correctly engaged.
5. Close the plastic slot protection.
6. To remove the memory card, turn the phone off, open the slot protection and push the microSD to unlock it. Carefully extract the memory card.

Installation

Attention:

- ▶ Avoid using the Flash Memory Card when the battery is low.
- ▶ When writing to the card, wait for the operation to complete before removing the card.
- ▶ The card is designed to fit easily into the system one way only.
- ▶ Do not bend the card or force it into the slot.
- ▶ Do not insert any memory cards other than those made by microSD.
- ▶ If the microSD has been formatted using FAT32, format the microSD using FAT16 again.

For more information on the microSD, please refer to the memory card instruction manual.

Memory card formatting

Before you start to use the memory card you have to format it. After you insert the memory card, select **Menu** → **Settings** → **Phone settings** → **Memory status** → **External memory**, then press  the left soft key.

This operation should only be done when you insert the memory card for the first time. During formatting various folders will be created for different data types.

Turning the handset on/off

Turning your handset on

Ensure that your USIM card is in your handset and the battery is charged. Press and hold  until the power comes on. Enter the USIM PIN code that was supplied with your USIM card if the **PIN code request** is set to **On**. (Note: Please refer to page 79)

After a few seconds you will be registered on the network.

Turning your handset off

Press and hold  until the power goes off. There may be a few seconds delay while the handset powers down.

Do not turn the handset on again during this time.

Access codes

You can use the access codes described in this section to avoid unauthorised use of your phone. The access codes (except the PUK and PUK2 codes) can be changed by using the **Change codes** feature [Menu #.1.4.3].

PIN code (4 to 8 digits)

The PIN (Personal Identification Number) code protects your USIM card against unauthorised use. The PIN code is usually supplied with the USIM card. When the **PIN code request** is set to **On**, your phone will request the PIN code every time it is switched on. When the **PIN code request** is set to **Off**, your phone connects to the network directly without the PIN code.

Installation

PIN2 code (4 to 8 digits)

The PIN2 code, supplied with some USIM cards, is required to access functions such as **Fixed dial number**. These functions are only available if supported by your USIM card.

PUK code (8 digits)

The PUK (PIN Unblocking Key) code is required to unblock a blocked PIN code. The PUK code may be supplied with the USIM card. If not, contact your network operator's customer service department for the code. If you lose the code, contact your network operator's customer service department.

PUK2 code (8 digits)

The PUK2 code, supplied with some USIM cards, is required to unblock a blocked PIN2 code. If you lose the code, contact your network operator's customer service department.

Security code (4 digits)

The security code prevents unauthorised use of your phone. The default security code is set to '0000' and the security code is required to delete all phone entries and to restore the handset to the factory settings.

Display information

No USIM idle screen

This is the initial screen of the phone that appears when there is no USIM card installed in the phone, or the installed USIM card is invalid. In this screen, users can only make emergency calls, and turn the phone off. To turn the phone off, press and hold down  for a few seconds.

Screen structure

If there is no USIM card installed, an animation telling you to insert a USIM card appears. If the USIM card inserted into the phone is invalid, an animation telling you that the USIM card is locked appears.

Emergency call function

The right soft key is represented by "Emergency" on the screen. Press the right soft key or dial your emergency number using the number keys, and then press  to make an emergency call.

Idle screen

The idle screen appears when you have installed a proper USIM card and turned the phone on.

Screen structure

Idle screen consists of the operator's name, indicators, date and time on a background image. You can change the wallpaper in the **Display settings** menu.

Numbering screen

The numbering screen appears when a number key is pressed in the idle screen.

Screen structure

The numbering screen consists of status indicators, dialled number and soft menu. Status indicators are the same as those of the idle screen. You can change the size and colour of the dialling font in the **Display settings** menu. You can make a call while dialling a phone number by pressing .

Soft key

You can use the soft keys for several functions while dialling a number. Using the left soft key, you can make a video call, send a message to the number, save the number to Contacts, search contacts.

Installation

Handset lock screen

When the **Handset lock** function is selected, you can only make an emergency call, release the lock, and turn off the phone in this screen. As always, you can turn the phone off by pressing and holding  for a few seconds.

Screen structure

The screen structure of the Handset lock screen is the same as that of the idle screen, except that the lock message appears on the idle screen.

Emergency call function

You can make an emergency call using the right soft key. As with the **No USIM idle screen**, only emergency numbers can be dialled.

Unlock function

If you press  key except right soft key and number key, a popup screen appears asking you to input the Security code to unlock the phone. The Security code is configured in the **Change codes** (#. Setting → 2. Phone settings → 5. Security → 3. Change codes). If you key in an incorrect Security Code, the phone will remain in **Handset lock** status. If you key in the correct Security code, the phone will be unlocked, and the idle screen will be displayed. If you have turned the phone off in the **Handset lock** status, you will find the phone remains in **Handset lock** status when you turn it on.

Barring password

This service obstructs calling service in some conditions. This condition can be edited using the **Call barring** feature (#. Settings → 5. Call settings → 2. Call barring). The barring password is required when you use the call barring function.

The password is obtained from your network operator's customer service when you subscribe to this service. While this service is activated, the caller will hear the information message that the call is not connected because of the call barring.

General functions

Making and answering calls

Making a voice call

1. Enter the number including the full area code.
 - ▶ To delete a digit press  .
 - To delete all digits press and hold  .
2. Press  to make the call.
3. Press  to finish the call, or close the handset.

Note

- ▶ To activate the speakerphone during a call, activate the touch keys and press  .

Making a call from the call logs

1. In standby mode, press  and the latest incoming, outgoing and missed phone numbers will be displayed.
2. Select the desired number by using  /  .
3. Press  to call the number.

Making a video call

You can make a video call in a 3G covered service area. If the called user has a 3G video phone in a 3G covered service area, the call will be established. You can also answer a video call for video incoming call. To make/answer a video call, do the following.

1. Input the phone number using the keypad, or select the phone number from the calls made/received lists.
 - ▶ To correct mistakes, press  briefly to delete the last number, or press and hold  to delete all numbers.

2. If you do not want to use the speakerphone, ensure you have the headset plugged in.
3. To start the video function, press the left soft key [Options] and select **Video call**.

- ▶ You will be notified that you will need to close other applications to make the video call.

Note

- ▶ The video call may take some time to connect. Please be patient. The connection time will also depend on how quickly the other party answers the call. While the video call is connecting, you will see your own image; after the other party has answered, their image will be displayed on the screen.

4. Adjust the camera position if necessary.

5. Press  to finish the call, or close the handset.

Making a voice/video call from Contacts

It is easy to call anyone whose number you have stored in your Contacts.

1. Press  to access the contacts list.
2. Scroll to the contact to make a call.
3. Press  to make a voice call. Press the left soft key and select Make video call to make a video call.
4. Press  to finish the call.

Making international calls

1. Press and hold  for the international prefix. The '+' character prefixes the international access code.
2. Enter the country code, area code, and the phone number.
3. Press .

General functions

Adjusting the volume

During a call, if you want to adjust the earpiece volume, use   on the left side of the phone. In idle mode, you can adjust the key volume using  .

Answering a call

When you receive a call, the phone rings and the flashing phone icon appears on the screen. If the caller can be identified, the caller's phone number (or name if stored in your Contacts) is displayed.

1. Open the slider to answer an incoming call.

Note

- ▶ To reject an incoming call, press  or the right soft key twice.
- ▶ If you set Answer mode as Press send key (Menu #.5.0.4), you can answer the call by pressing  after opening the slider.
- ▶ If the answer mode is set to Press any key, any key will answer a call except for .

2. End the call by closing the handset or pressing .

Note

- ▶ You can answer a call while using the Contacts or other menu features.
- ▶ When the compatible headset is connected, you can also answer a call using the headset key, as well as using the phone. To reject an incoming call, press .
- ▶ You can mute the ringtone when a call comes in by pressing and holding the volume down side key.

Shortcut to activate vibrate

mode You can activate the vibrate only mode by pressing and holding down  after opening the phone.

Signal strength

You can check the strength of your signal by the signal indicator on the LCD screen of your phone. Signal strength can vary, particularly inside buildings. Moving close to a window may improve reception.

Entering text

You can enter alphanumeric characters using the keypad. For example, storing names in Contacts, writing a message, creating a personal greeting or scheduling events in the calendar all require entering text. The following text input methods are available with the handset.

General functions

T9 mode

This mode lets you enter words with only one keystroke per letter. Each key on the keypad has more than one letter. The T9 mode automatically compares your keystrokes with an internal dictionary to determine the correct word, thus requiring far fewer keystrokes than the traditional ABC mode. This is sometimes known as predictive text. If you press  key, you can activate or cancel T9 mode.

ABC mode

This mode lets you enter letters by pressing the key labelled with the required letter once, twice, three or four times until the letter is displayed.

123 mode (Number mode)

Type numbers using one keystroke per number.

Changing the text input mode

1. When you are in a field that allows characters to be entered, you will notice the text input mode indicator in the upper right corner of the LCD screen.
2. If T9 is on, you can change the mode to T9Abc, T9ABC, 123, T9abc by pressing . When T9 is off, the mode will be changed to Abc, ABC, 123, abc.

Using the T9 Mode

The T9 predictive text input mode allows you to enter words easily with a minimum number of key presses. As you press each key, the handset begins to display the characters that it thinks you are typing based on a built-in dictionary. As new letters are added, the word changes to reflect the most likely candidate from the dictionary.

1. When you are in the T9 predictive text input mode, start entering a word by pressing **2nd** to **9th**. Press one key per letter.

- ▶ The word changes as letters are typed. Ignore what's on the screen until the word is typed completely.
- ▶ If the word is still incorrect after typing completely, press ***#** once or more to scroll through the other word options.

Example

Press **4th** **6th** **6th** **3rd** to

type **Good**.

Press ***#** to get **Home**.

- ▶ If the desired word is missing from the word choices list, add it by using the ABC mode.
2. Enter the whole word before editing or deleting any keystrokes.

3. Complete each word with a space by pressing **0th**. To delete letters, press **⌫**.

Using the ABC Mode

Use **2nd** to **9th** to enter your text.

1. Press the key labelled with the required letter:

- ▶ Once for the first letter.
- ▶ Twice for the second letter.
- ▶ And so on.

2. To insert a space, press **0th** once. To delete letters, press **⌫**.

General functions

Refer to the following table for more information on the characters available using the alphanumeric keys.

Key	Characters in the order display	
	Lower case	Upper case

Games & Apps

My games & apps Menu 1.1

You can easily download games and other applications in this menu. It has two folders, Games and Applications, as default. Each folder has an embedded link for downloading games or applications. Please note that additional costs may be incurred when using online services. You can create a folder using the left soft key [Options].

Settings Menu 1.2

Activating a profile

1. Move the cursor to the profile you would like to activate.
2. Press .

Adding a new profile

1. Select Add new from the Options menu. The following items need to be configured.

Service name	Enter an account name for the profile.
Connection mode	Choose from the given list of connection modes. (Default is TCP with Proxy or TCP without Proxy)
IP address	Enter the WAP Gateway IP address provided by the operator. (e.g. 195. 115. 025. 129)
Proxy server port	Port details are provided by the operator, depending upon the Connection mode.
Access point	Choose from the given list of access points. (For more details on adding or editing a new access point, refer to page 98.)

2. Press the  [Save] to save any configuration changes.

You can edit and delete a profile by selecting **Edit** and **Delete** from the **Options** menu.

Calling

Make Video call

Menu 2.1

You can make a video call using this menu.

1. Enter the number you want to dial.

- ▶ You can key in the number.
- ▶ You can select the number from Search contacts using the left soft key [Options]
- ▶ You can find the number from call logs by pressing  [Video call].

2. Press the ceter key [Video call] to make a video call.

During a video call

When you are in a video call, the screen will show the contact's name and duration of call, contact's image, volume indicator, video control panel, and your image.

You can access the following option menus by pressing the left soft key [Options].

- ▶ Mute/Unmute
- ▶ Speaker (On /Off)

- ▶ Bluetooth/Handset talk (When the Bluetooth headset is connected)
- ▶ Hold/Resume
- ▶ Capture
- ▶ View sender number
- ▶ Go to contacts
- ▶ Go to messages
- ▶ Settings
- ▶ End call

Incoming video call

When a video call is received, the caller's information is displayed as following.

- ▶ **Picture/Animation:** Displays picture ID, graphic image configured in Contacts, or default animation indicating the incoming call.
- ▶ **Caller's name and number:** Shows incoming caller's number. If the number is stored in Contacts, displays the name of the contacts.

Picture ID and animation setting is used in the order of Contacts, video file used in Group ringtone, and video file used in Profile.

Also, sound can be set for the incoming video call. The sound setting is used in the order of Contacts, Group ringtone, and Profile.

You can accept the incoming call by pressing the center key [Accept]. Also you can accept the incoming call and show the private image by pressing the left soft key [Private].

The incoming call ringing can be silenced by pressing the right soft key [Silent]. It can be also silenced by long press on  on the left side of the phone. When ringing is silenced, press the right soft key [Reject] to reject the call.

Call logs

Menu 22

Missed calls (Menu 2.2.1)

Allows you to view missed call records, make a call, send a message, and save the number in Contacts.

Received calls (Menu 2.2.2)

Allows you to view received call records, make a call, send a message, and save the number in Contacts.

Dialled calls (Menu 2.2.3)

Allows you to view dialled call records, make a call, send a message, and save the number in Contacts.

All calls (Menu 2.2.4)

Allows you to view the missed, received, and dialled call records. You can make a call, or send a message to the number you have selected from the records. You can also save the number in Contacts.

Calling

Call duration

Menu 2.3

You can view call time by types. Press the left soft key [Options] to choose either partial initialisation or entire initialisation. Also press right soft key [Clear] to initialise a selected duration type. Initialization will require your Security code.

The following timers are available:

- ▶ **Last call:** Shows the latest call time in units of hours/minutes/seconds.
- ▶ **Received calls:** Shows incoming call time.
- ▶ **Dialled calls:** Shows outgoing call time.
- ▶ **All calls:** Shows total call time.

Data volume

Menu 2.4

Allows you to check the sent, received and all data volume transferred.

Press the left soft key [Clear all] to choose entire initialization. You can also use the confirm key [Clear] for the initialization of the selected volume type. Initialization will require your Security code.

Call costs

Menu 2.5

1. This function displays the call costs of the Last call and All calls.
2. To initialise, press the center key [Clear] and enter the PIN2 code.
3. You can select either **Units** or **Currency** in **Set call cost**. According to your setting, the call cost is displayed during a call (If USIM and Network support Advice Of Charge(AOC)).
4. In the **Set limit** configuration, select **On** to configure the cost limit. When a cost limit is configured, and the call costs reach the limit, making a call will not be allowed.

Call divert

Menu 2.6

Call divert menus for voice and video calls are provided.

If you press , you can activate call divert menu.

Voice calls (Menu 2.6.1)

- ▶ All voice calls
- ▶ When busy
- ▶ No answer
- ▶ Not reachable

1. When the number list is not existed

Converts to an editor for entering a divert number. You can input the number to divert a call directly or search it in phonebook. If you press  [Divert], the phone will send the request to service provider after entering the number. While waiting for the result from the network, a Requesting message and animation appears.

2. When the number list is existed

Displays To other number menu including of the number list. While waiting for the result from the network, a Requesting message and animation appears.

3. Option menu

After activating All voice calls menu, selecting the Options menu at the bottom of the menu displays the Deactivate, Deactivate all, View status and clear list menus.

The View status menu shows the settings on the network. If you select this menu, Requesting. message and animation appear. Then the network settings are displayed when the information is received from the network. If you select the Deactivate menu, the call divert numbers registered in the network are deleted after user confirmation. Clear list menu will delete all divert number list.

Calling

Video calls (Menu 2.6.2)

▶ All video calls

1. When the number list is not existed

Converts to an editor for entering a divert number. You can input the number to divert a call directly or search it in phonebook. If you press  [Divert], the phone will send the request to service provider after entering the number. While waiting for the result from the network, a Requesting message and animation appears.

2. When the number list is existed

Displays To other number menu including of the number list. While waiting for the result from the network, a Requesting message and animation appears.

3. Option menu

After activating the All video calls menu, selecting the Options menu at the bottom of the menus displays the Deactivate, Deactivate all, View status and clear list menus.

If you select the Deactivate menu, the call divert numbers registered in the network are deleted after user confirmation. Selecting the Cancel all menu will display the operation result after showing the Requesting message and animation. Clear list menu will delete all divert number list.

▶ When busy

1. When the number list is not existed

It operates the same as All voice calls menu.

2. When the number list is existed

It operates the same as All voice calls menu.

3. When Option menu is selected

It activates and operates If busy menu. It operates the same as All voice calls menu.

▶ **No answer**

1. When the number list is not existed

It operates the same as All voice calls menu.

2. When To a number is selected

It operates the same as All voice calls menu.

3. When Option menu is selected

Activates and operates No answer menu. It operates the same as All voice calls menu except that users can configure delay time in the Set waiting time menu in the menu list.

▶ **Not reachable**

1. When the number list is not existed

It operates the same as All voice calls menu.

2. When the number list is existed

It operates the same as All voice calls menu.

3. When Options menu is selected

Activates and operates If out of reach menu. It operates the same as All voice calls menu.

Call barring

Menu 27

Call barring menus for Voice and Video calls are provided.

The menu consists of Voice calls, Video calls and Deactivate all. The Voice calls and Video calls menus have the following submenus.

The Call barring menu consists of All outgoing, Outgoing international, Outgoing international calls except home country, All incoming and Incoming when abroad submenus.

Calling

The All outgoing menu bars dialling all outgoing calls, the Outgoing international menu bars dialling outgoing international calls, and the Outgoing international calls except home country menu bars dialling outgoing international calls except for the Home PLMN country. All incoming rejects all incoming calls and the Incoming when abroad menu rejects incoming calls when roaming.

Voice calls (Menu 2.7.1)

Video calls (Menu 2.7.2)

► All outgoing

1. When  is selected, it receives the Barring password from user, and activates the barring service on the network. A requesting message and animation appears. When the network answers, the result of the operation is displayed.
2. When the Options menu is selected, it activates the Outgoing calls menu. Select the Options menu from the soft menus on the lowest menu. Then Deactivate, Deactivate all, View status and Change password menus appear. The Deactivate menu deactivates the barring service after the user's Barring password is entered. The **Deactivate all** menu deactivates all barring services configured in the network after the user's Barring password has been entered. The **View status** menu enables users to view the current network configuration.

Selecting **View status** menu displays the Requesting message with animation and the result of the operation when the network answers. **Change password** menu enables users to change the current barring password.

▶ **Outgoing international**

1. When  is selected, it operates in the same way as the **Outgoing calls** menu.
2. When the Options menu is selected, it activates and operates the International calls menu. It operates in the same way as the **Outgoing calls** menu.

▶ **Outgoing international calls except home country**

1. When  is selected, it operates in the same way as the **Outgoing calls** menu.
2. When the Options menu is selected – It activates and operates the **International except home country** menu. It operates in the same way as

the **Outgoing calls** menu.

▶ **All incoming**

1. When  is selected, it operates in the same way as the **Outgoing calls** menu.
2. When the Options menu is selected, it activates and operates the Incoming calls menu. It operates in the same way as the **Outgoing calls** menu.

▶ **Incoming when abroad**

1. When  is selected, it operates in the same way as the **Outgoing calls** menu.
2. When the Options menu is selected, it activates and operates the Incoming calls when abroad menu. It operates in the same way as the **Outgoing calls** menu.

Deactivate all (Menu 2.7.3)

Calling

Fixed dial numbers Menu 2.8

- ▶ **FDN ON/OFF:** Select whether to activate FDN or not. PIN authentication is required.
- ▶ **FDN List:** Displays the current FDN list. You can edit, add, or delete fixed dial numbers. PIN2 authentication is required to edit, add, or delete the list. And the configuration information is saved on the USIM. The information saved on the USIM is used when FDN restricts outgoing calls.
- ▶ **Deactivate:** Deactivates Call waiting service. Selecting this item displays requesting message and animation. When the network answers, the result of the operation is displayed.
- ▶ **View status:** Displays activated Call waiting service group item of the network. Selecting this item displays requesting message and animation. When the network answers, the result of the operation is displayed.

Call waiting Menu 2.9

- ▶ **Activate:** Activates waiting service. Selecting this item, displays requesting message and animation. When the network answers, the result of the operation is displayed.

Common setting Menu 2.10

Call reject (Menu 2.10.1)

You can set whether to reject incoming calls.

1. Select **On** in Reject menu to activate call reject. The Reject list menu appears.

Select **Delete** from **Options** menu. You can delete multiple bookmarks using the **Mark/Unmark** option.

Editing a bookmark

Select **Edit** from **Options** menu. Edit the title and associated URL information. Press  to save.

Saved pages

Menu 9.4

The phone can save the page on display as an offline file. Up to 20 pages can be saved.

History

Menu 9.5

You can view the list of the pages you've already connected.

Browser settings

Menu 9.6

You can change the settings for browser connectivity, display, security, and certificates.

Profiles (Menu 9.6.1)

Select the appropriate profile by pressing . This will activate the profile to initiate the browser launch.

Character encoding (Menu 9.6.2)

Sets the browser default character set to one of the following:

Automatic, English(ASCII), English(ISO), English(LATIN), Unicode(UCS2 BE), Unicode(UCS2 LE), Unicode(UCS2 Auto), Unicode(UTF-16 BE), Unicode(UTF-16 LE), Unicode(UTF-16 Auto), Unicode(UTF-8).

Browser

Scrolling control (Menu 9.6.3)

Allows you to set the scroll speed by selecting the number of lines to scroll. Select the menu from 1 line, 2 lines or 3 lines.

Show image (Menu 9.6.4)

Allows you to enable or disable the image display during browsing.

Note

- ▶ Enabling this function will delay displaying images until the completion of transmission. Disabling this function will prevent the browser from downloading images from the server, thus allowing faster transmission.

Cache (Menu 9.6.5)

Enabling Cache allows you to store accessed pages to your phone. Once a page has been stored in the Cache it will greatly enhance the page loading speed on subsequent browsing of the same page.

Cookie (Menu 9.6.6)

Enabling Cookie allows you to store cookies sent from the server. Disabling this function will prevent cookies from being stored on your phone.

JavaScript (Menu 9.6.7)

Select whether to turn JavaScript **On** or **Off**.

Reset settings (Menu 9.6.8)

Select this to reset your phone to its default browser configuration.

Security (Menu 9.6.9)

Certificates

If stored, a list of root/ca certificates required for WTLS/TLS can be found here. Certificates can be viewed from the list.

Session clear

Secure (WTLS/TLS) session data can be cleared using this option. Session data should be cleared to establish a new secure session.

Connectivity

Bluetooth

Menu *.1

Bluetooth connection

Your phone has built-in Bluetooth wireless technology which makes it possible for you to connect your phone wirelessly to other Bluetooth devices such as a handsfree, PC, PDA or other phones.

You can, for example, have a conversation via a cordless Bluetooth handsfree or browse the Internet, wirelessly connected via a mobile phone. You can also exchange, for example, business cards, calendar items and pictures.

Note

► We recommend that your phone and the Bluetooth device you are communicating with be within a range of 10 meters. The connection may be improved if there are no solid objects between your phone and the other Bluetooth device.

1. Getting started

- **Menu** → #. **Settings** → 7. **Connectivity** → 1. **Bluetooth** → 1. **Turn on/off**

To use the Bluetooth function, you must first set **Turn on**.

2. Configuring Bluetooth settings

- **Menu** → #. **Settings** → 7. **Connectivity** → 1. **Bluetooth** → 2. **Settings**

- **My visibility:** Set [My handset's visibility] to [Show to all] so that other devices can detect your phone when they are searching for a Bluetooth device. If you select [Hidden], other devices will not be able to detect your phone when they are searching for a Bluetooth device.
- **My name:** You can name or rename your phone as it will appear on other devices. Your phone's name will be shown on other devices only when [My handset's visibility] is set to [Show to all].
- **Bluetooth usage:** To use the Bluetooth function, set it to [On]. Otherwise, set it to [Off].

Note

- ▶ When user uses Bluetooth Device in the handset, the security of the handset is at risk. Therefore, we recommend that Bluetooth visibility be set to Hidden after configuration or device pairing. For incoming files via Bluetooth regardless of paired devices, you can choose to accept or reject the connection, after checking the sender details.

3. Supported services device

Pairing Devices(Pairing with a device)

If a paired Bluetooth device already exists.

- **Menu → #. Settings > 7. Connectivity → 1. Bluetooth → 1. Paired devices → Option → Add new device**

If there is no paired Bluetooth device.

Connectivity

- **Menu** → #. **Settings** → **7. Connectivity** → **1. Bluetooth** → **1. Paired devices** → **Add new device**

Option

▶ **Connect**

1. If you want to open the connection to the selected device, select the **Connect**.
2. If you want to close the connection to the selected device, select the **Disconnect**.

▶ **Add new device:** Using this menu, you can pair a new Bluetooth device with your phone.

▶ **Delete:** Using this menu, you can delete the paired Bluetooth device.

▶ **Delete all:** Using this menu, you can delete all of the paired Bluetooth devices.

<Pairing devices>

1. To search for a Bluetooth device to pair, press **Add new device**.
2. Screen shows **Searching for devices**. Bluetooth devices within a range of 10m will be found.
3. If Bluetooth devices are found, these devices are listed on the screen. If no Bluetooth device is found, you will be asked if you want to search again.
4. Pairing procedure
 - Press . A window will appear on the screen asking you to enter your password.
 - After creating a password (of 1 to 16 digits), the user of the other device must enter the password for pairing. The user of the other device must know the password in advance for authentication.

<Deleting devices>

1. Select a device to delete from the Paired devices screen.
2. You can delete a device by pressing the Delete key or by selecting Options > Delete. To delete all paired devices, select Options > Delete All.

<Transmitting data using Bluetooth>

1. To transmit data from your phone to another Bluetooth device, first select the application where the target data is saved. For example, to send data in the My Files to another device, select Menu > 6. My Files > 1. Pictures / 2. Sounds / 3. Videos / 5. Bluetooth data / 6. Other files / 7. External memory > Select data to transmit > Send > 3. Bluetooth
2. Transmitting data
 - 1) Last device found is displayed. If the desired device does not exist in the list, select [More devices].

- 2) Select the device to which you want to transmit data from the devices on the screen and press .
- 3) If the other party selects [Yes] for [Connection request], the data is transmitted.

<Receiving data using Bluetooth>

Menu → #. Settings → 7. Connectivity → 1. Bluetooth → 1. Paired devices

If another party attempts to transmit data, the [Connection request] question will appear on the screen. If you select [Yes], the data will be transmitted to your phone.

During data transmission, the Bluetooth icon flashes.

<Bluetooth data storage folder>

You can check the received data by selecting Menu → 6. My Files → 5. Bluetooth data.

Connectivity

4. Device

<Connecting a headset>

Menu → #. Settings → 7. Connectivity
→ 1. Bluetooth

1. Connect the headset according to the procedures described in the Pairing Devices section.
2. To use the headset, select the headset from the registered devices, press the Option key and then select 3.Connect.
3. To check that the selected headset has been connected successfully, press the Option key. If it is properly connected, 3.Disconnect will appear. If it is not connected, 3.Connect will appear.

<Connecting a handsfree kit>

1. Menu → #. Settings → 7. Connectivity → 1. Bluetooth
2. Connect the handsfree kit according to the procedures described in the Pairing Devices section.

3. To use the handsfree kit, select the handsfree kit from the registered devices, press the Option key and then select 3.Connect.

4. To check that the selected handsfree kit has been connected successfully, press the Option key. If it is properly connected, 3.Disconnect will appear. If it is not connected, 3.Connect will appear.

Server sync

Menu *2

Note

- ▶ This service is not available in all countries. Please contact your service provider for further information.

If Sync service is supported by your network operator, this service function synchronizes the data in a phone and the data on a server such as Contacts, Calendar, Tasks, and Memo via a wireless

network.

Connect

1. Select the Connect item and then press .
2. Connect to the server with the selected server profile and the synchronization animation is displayed while the synchronization is performed.

Logs

Select the Logs item and then press to view the log for the last synchronization operation performed.

Server synch. centre

1. Select the Server synch. centre item and then press .
2. This menu allows you to configure the profile for a synchronization server.
 - ▶ **Profile name:** Input the name for the profile.
 - ▶ **Host address:** Contact your service provider.

Connectivity

- ▶ **SyncML proxy:** Contact your service provider.
 - ▶ **User name:** Enter your user ID for synchronization server.
 - ▶ **Password:** Input your password.
 - ▶ **Contacts:** Select whether to synchronise Contacts or not.
 - ▶ **Contact name:** Input the contacts database name for server access.
 - ▶ **Calendar:** Select whether to synchronise Calendar or not.
 - ▶ **Calendar name:** Input the calendar database name for server access.
 - ▶ **Tasks:** Select whether to synchronise Tasks or not.
 - ▶ **Tasks name:** Input the Tasks database name for server access.
 - ▶ **Memo:** Select whether to synchronise Memo or not.
 - ▶ **Memo name:** Input the Memo database name for server access.
- ▶ **Sync type:** Select the synchronization type below.
 - **Normal**

The phone and the server are required to exchange information about the modified data.
 - **Backup**

The phone sends all the data from a database to the server. The server is expected to replace all data in the target database with the data sent by the phone. This means the phone overwrites all the data in the server database.
 - **Restore**

The server sends all its data from a database to the phone. The phone is expected to replace all data in the target database with the server sent by the server. This means the server overwrites all data in the phone database.

USB connection

Menu *3

- ▶ **Access point:** Select an access point to use for the data connection.
- ▶ **Sync mode:** Select the synchronization mode below.

- Manual

The synchronisation will only occur when explicitly initiated by the user.

- Automatic

The application will automatically initiate a sync, based on the preferences defined (either a regular reminder or after changes have been made.)

- Sync frequency

Select the automatic sync preference when you choose automatic sync mode.

Organiser

Calendar

Menu 0.1

Schedule inquiry and search

1. Reference by Months

You can refer to your schedule by months. The cursor is on the current date, and the registered date is marked. The schedule saved for the date where the cursor is located is represented by a grey box. Pressing the shortcut key  moves to the previous year and pressing  move to the next year and pressing  moves to today. Pressing  moves to the previous month, and  moves to the next month. Pressing  moves to the weekly calendar. You can move the date using  /  /  / .

2. Detailed reference

You can refer to a detailed schedule, that is the whole contents of the schedule configured by the user. You can send the schedule to another phone or an Internet site through SMS (Text message) or MMS (Multimedia message) or E-mail or Bluetooth using the left soft key [Options].

Add new event

You can add an event. You can configure the start date, end date, start time, end time, contents, type of event, repetition, alarm of the schedule.

- ▶ **Set type:** Appointment, Birthday, Anniversary
- ▶ **Set repeat:** Once, Daily, Weekly, Monthly, Annually, User setting
- ▶ **Set alarm:** No alarm, On time, 15 mins before, 30 mins before, 1 hour before, 1 day before, 3 days before, 1 week before

Delete schedule

1. Delete previous schedules

You can delete all previous schedules using this function.

2. Delete all schedules

You can delete all saved schedule contents using this function.

Set up and release holiday

You can set up or release user holidays. Press the left soft key [Options] and select **Set holiday**.

The selected date will be displayed in red.

To release the holiday, press the left soft key [Options] and select Clear holiday.

Schedule notification

If the user has configured the alarm setting, the specified alarm sound will ring. If the notification time is before the schedule start time, you can set up the alarm again.

To do

Menu 0.2

You can view, edit and add tasks to do. Tasks are displayed in time order. Tasks that have been completed or not completed are displayed in different ways.

Add

To add a task, press the left soft key [Options] in the Tasks list management screen and select Add new event option. Then input the date, description and priority for the task.

When you have finished entering the data, press the center key [Save] to save the new task.

Detailed view and Edit

To view detailed task contents, locate the cursor on the desired item in the Tasks list, and then press the center key. You can send, edit and delete a task using the left soft key [Options].

Organiser

Set job status

Tasks set as finished are displayed as crossed out below the unfinished tasks in the Tasks list. You can set Finished tasks to Not finished by selecting Options.

Memo

Menu 0.3

Using the memo management function, you can view and manage saved memo contents, and add new memo.

Add memo

To add a new memo, press the left soft key [Add] or [Add new memo] in Options. Enter the contents of the memo. You can save the memo to the list by pressing the center key [Save].

Edit and delete memo

Highlight the desired memo and press  to view its contents. You can edit or delete the contents of a memo using the left soft key [Options]. You can return to the memo management screen by pressing right soft key [Back]. You can select Multiple or All memos using the Mark/Unmark option and then delete a memo using the Delete option.

Secret memo

Menu 0.4

You can write the secret memo to protect your privacy. You enter the security code to use this menu.

Add private memo

To add a new memo, press the left soft key [Add] or [Options]. Enter the contents of the memo. You can save the memo to the list by pressing the center key [Save].

Edit and delete a private memo

Highlight the desired memo and press  to view its contents. You can edit or delete the contents of a memo using the left soft key [Options]. You can return to the memo management screen by pressing right soft key [Back]. You can select Multiple or All memos using the Mark/Unmark option and then delete a memo using the Delete option.

Date finder

Menu 0.5

Settings

Menu 0.6

Calendar (Menu 0.6.1)

You can set the configurations to view the calendar.

- ▶ **Default view:** You can set the default value to view a calendar; Month view, Week view
- ▶ **Week start time:** 1AM, 2AM, 3AM, 4AM, 5AM, 6AM, 7AM, 8AM, 9AM, 10AM, 11AM, 12PM
- ▶ **Week starts on:** You can set the default day to start a week; Sunday, Monday

Backup calendar & to do (Menu 0.6.2)

You can create the backup files of the calendar or tasks entries saved in the phone when you insert an external memory.

Organiser

Restore calendar & to do (Menu 0.6.3)

You can reset the backup files of calendar or tasks when you insert an external memory.

Memory info. (Menu 0.6.4)

You can view the information of available memory regarding Calendar, Tasks, Memo and Secret memo.

Clear all (Menu 0.6.5)

Settings

Phone

Menu #.1

Auto key lock (Menu #.1.1)

If you activate this function, the keypad will be locked automatically in standby mode without requesting the action of key.

Language (Menu #.1.2)

Select the display language. You can select Automatic language option to change display language to the USIM card supported language.

Power save (Menu #.1.3)

Decide whether to activate the power save mode or not.

Handset information (Menu #.1.4)

This functions shows the USIM card telephone number, model name and software version of the mobile phone.

Screen

Menu #.2

This menu allows you to personalise the display options of the screens and of the menus entire graphic interface.

Screen theme (Menu #.2.1)

You can set the screen theme to be displayed on the main screen.

Home screen (Menu #.2.1.1)

- ▶ **Wallpaper:** You can select an image to be displayed on the main screen.
- ▶ **Homescreen items:** You can select which items to display on the screen: Calendar + Clock, Calendar, Clock, Clock + Key guide, Dual clock, Key guide or Do not show.
- ▶ **Clock type:** You can select the type of clock.
- ▶ **Clock font colour:** You can select the colour of displaying the clock.

Settings

Outgoing call picture (Menu #.2.1.2)

You can select the image to be displayed while dialling a number.

Start up picture (Menu #.2.1.3)

You can select the image to be displayed while the phone is being switched on.

Power off picture (Menu #.2.1.4)

You can select the image to be displayed while the phone is being switched off.

Menu style (Menu #.2.2)

You can select the desired menu style from Grid style and One by one style.

Font (Menu #.2.3)

You can set the font style, dialling font size, and dialling font colour using , .

Backlight (Menu #.2.4)

You can set the backlight duration and the brightness on the Home screen and the duration on the Keypad individually.

Welcome message (Menu #.2.5)

After selecting On, you can write a welcome message.

Date & Time

Menu #.3

Although the current time is automatically configured when the phone is registered to the network, users can configure the time and date directly using this menu. The time configured by the user is valid only while the phone is turned on.

Time (Menu #.3.1)

1. Select the Time item from the Date & time list, and then press .
2. Move to your desired field, Hour, Minute, or am/pm field using the navigation keys. (When you have selected 12 hour as Time format)
3. Enter Hour, and Minutes using the number keys.
4. Select the time format using , .
5. Scroll down to select the hour indicator format i.e. Off, Cuckoo clock or Chime bell.
6. Press the right soft key [Done] to set the time with the specified value.

Date (Menu #.3.2)

1. Select the Date item from the Date & time list, and then press .
2. Select the date format using , .
3. Enter Day, Month and Year using the number keys.

4. Press the right soft key [Done] to set the date with the specified value.

Auto update date/time (Menu #.3.3)

When Auto Update is configured to On, the time and date are automatically updated according to the current time zone. If Confirm first is selected, the time and date update is confirmed before it is updated automatically.

Daylight saving (Menu #.3.4)

Select whether to activate the daylight saving function or not. You can set the Summer time difference of selected home city for 1 hour or 2 hours.

Settings

Newtwork

Menu #.4

Select Network (Menu #.4.1)

Select between Automatic and Manual.

- ▶ **Automatic:** Automatically searches for the network and registers the handset to the network. This is recommended for best service and quality.
- ▶ **Manual:** All the currently 2G(GSM) and 3G(UMTS) available networks are shown and you can select one of them for registration. If the registration of the network has failed, the network lists are listed again and you can select any other one for registration.

Network mode (Menu #.4.2)

You can set a type of network to search for

- ▶ **Automatic:** Searches all the networks connectable.
- ▶ **UMTS:** Searches only networks supporting 3G.

- ▶ **GSM 900/1800:** Searches only networks supporting GSM 900/1800 band.
- ▶ **GSM 1900:** Searches only networks supporting GSM 1900 band.

Preferred lists (Menu #.4.3)

If the network is searching automatically, you can add a preferable network to be connected to. And the following options are available.

- ▶ **Add new:** You can add a new network using the followings.
 - **Search:** You can select one from the network list stored in the phone.
 - **Enter new network:** You can enter the country code (MCC), the network code (MNC) and RAT to add.
- ▶ **Delete:** Deletes the selected network.
- ▶ **Edit:** You can modify the information of the selected network.

- ▶ **Move up:** Moves the selected network upward.
- ▶ **Move down:** Moves the selected network downward.

Access points (Menu #.4.4)

This menu shows the access point list. You can create new profiles, delete or edit them by using the Option Menu. However, you cannot delete or edit default configurations depending on country variant.

You can edit the following configuration items by pressing the left soft key [Option] and Edit.

Connection title	Access Point profile name.
Bearer	Choose the bearer from the list. (Default is UMTS.)
Authentication	Choose the authentication from the list. (Default is No auth)
User name	Information provided by service provider.
Password	Information provided by service provider.
APN	APN name to access network. Information provided by service provider.

Press confirm key to save any configuration changes.

Streaming (Menu #.4.5)

If you want to set different network setting to play streaming content, you can set different network settings.

Settings

Security

Menu #.5

PIN code request (Menu #.5.1)

When this is set to On, you are requested to enter your PIN each time you switch the phone on.

Note

- ▶ Press the right soft key in the PIN code entry window to return to the previous step.
- ▶ 3 incorrect PIN code entries would invalidate the PIN code. And you have to enter the PUK (PIN Unblock Key) code to configure the PIN code again.

Note

- ▶ The maximum number of times you may enter the PUK code is 10. (Note: If you enter an incorrect PUK code 10 times, the USIM card will be blocked and must be replaced.)
- ▶ If the PIN code request cannot be disabled by operator settings, you will not be able to choose this menu item.

Handset lock (Menu #.5.2)

You can lock your phone. The following 4 lock functions are available.

When switching on: Locks the handset whenever the handset is switched on.

If USIM changed: Locks the handset when the phone's USIM card has been changed.

Immediate: Locks the handset immediately.

None: Deactivates the lock function.

You are requested to enter the security code to confirm the selection.

- ▶ To unlock the handset, you need to enter the security code.

Change codes (Menu #.5.3)

You can change the PIN, PIN2, and the mobile phone password.

PIN code

PIN is the abbreviation for Personal Identification Number, and is used to restrict use by an unauthorised user.

PIN code change procedure

1. Select 'PIN code' from the 'Change codes' list and then press .
2. Enter the current PIN code, and press .

3. Enter the new PIN code, and press .

4. Enter the new PIN code once again, and press .

- ▶ If the PIN code is different from that of step 3, the procedure is restarted from step 3.

5. When the PIN code is changed properly, a Changed message is displayed. If you enter an incorrect PIN code in step 2, the procedure is restarted from step 2, and the number of attempts you have left to enter the number decreased by 1.

6. Press the right soft key in the PIN code entry window to return to the previous step.

Settings

Note

- ▶ Three incorrect PIN code entries in the PIN code entry window would invalidate the PIN code. In this case, you have to enter the PUK (PIN Unblock Key) code to configure the PIN code again. The maximum number of times you may enter the PUK code is 10. (Note: If you enter an incorrect PUK code 10 times, the USIM card will be blocked and must be replaced.)

PIN2 code

PIN2 is the abbreviation for Personal Identification Number 2, and is used to restrict use by unauthorised users as with the PIN. The PIN2 code change procedure is the same as the one for the PIN code. 3 incorrect PIN2 code entries would invalidate the PIN2 code. In this case, you have to enter the PUK2 code in order to use the PIN2 code again. The maximum number of times you may try to enter the PUK2 code is 10, like PUK1. 10 incorrect PUK2 code entries would invalidate the PIN2 code.

Security code

The security code is used to change the mobile phone password. The maximum number of attempts to enter the security code is not limited as it is with PIN and PIN2.

Auto key lock

If you select Off, the keypad can be activated only when the slide is open. If you select On, you can activate the keypad by pressing  ,  on the left side of the phone.

Memory manager Menu #.6

Handset common memory (Menu #.6.1)

This function shows the status of the user memory of the mobile phone. Since this function scans the overall file system for statistics, a few seconds are required.

Handset reserved memory

(Menu #.6.2)

This function shows the status of the User reserved memory. The usual contents are Text messages, Contacts, Calendar, Tasks, Memo. And it gives a clear illustration of the actual amount compared with the total amount for each item.

USIM memory (Menu #.6.3)

This function shows the status of the USIM card user memory.

External memory (Menu #.6.4)

This function shows the status of the External card user memory. This function displays the In-use and free memory usage statistics.

Primary storage setting (Menu #.6.5)

You can select the storage to download the file: Handset memory or External memory.

Settings

Reset settings

Menu #.7

Select this to reset your phone to its default configuration. You are requested to enter the security code.

Accessories

There are various accessories for your mobile phone. You can select these options according to your personal communication requirements.

Travel Adapter

This charger allows you to charge the battery while away from home or your office.

Standard Battery

Data cable/CD

You can connect your phone to PC to exchange the data between them.

Hands free ear-microphone and music player controller combo

► Stereo headset

► Controller:

Answer & End button, music player control, volume control, Hold button and microphone. After connecting the headset and the controller, plug the end of controller into the headset jack on the right side of the phone.

Note

- ▶ Always use genuine LG accessories.
- ▶ Failure to do this may invalidate your warranty.
- ▶ Accessories may vary in different regions: please check with our regional service company or agent for further information.
