Part 15.21 statement

" Change or Modifications that are not expressly approved by the manufacturer could void

the user's authority to operate the equipment. "

Part 15.105 statement

This equipment has been tested and found to comply with the limits for a class B digital

device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in

a residential installation. This equipment generates uses and can radiate radio frequency

energy and, if not installed and used in accordance with the instructions, may cause harmful

interference to radio communications. However, there is no guarantee that interference will

not occur in a particular installation. If this equipment does cause harmful interference or

television reception, which can be determined by turning the equipment off and on, the user

is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to

which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Part 15 Class B Compliance

This device and its accessories comply with part15 of FCC rules.

Operation is subject to the following two conditions:

(1) This device & its accessories may not cause harmful interference.

(2) This device & its accessories must accept any interference received,

   including interference that may cause undesired operation.

Body-worn Operation

This device has been tested for typical body-worn operations

with the distance of 0.79inches (2.0cm) from the user's body.

To comply with FCC RF exposure requirements, a minimum separation distance

of 0.79inches(2.0cm) must be maintained from the user's body.

Additionally, Belt clips, holsters & other body-worn accessories may not contain
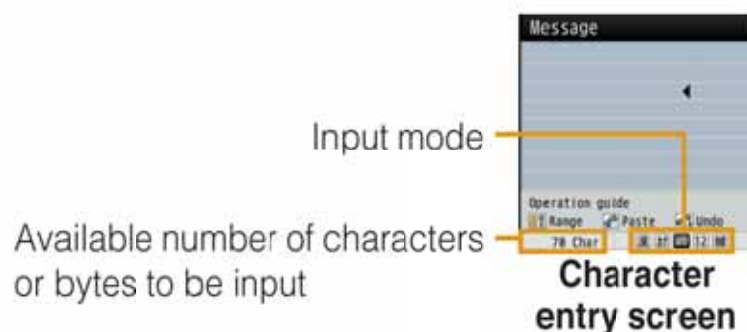

metallic components.

Character Entry

Entering Characters

Character entry is required in various situations such as when saving entries to Phonebook or creating mail. Learn how to enter characters beforehand to make use of the FOMA terminal.

Character entry screen

On the Character entry screen, the current input mode and operation guide are displayed.

Message

Input mode ┐

Operation guide
↑↓ Range 🖉 Paste ↷ Undo
70 Char   漢 カ 🔲 12 M

Available number of characters or bytes to be input

Character entry screen

Switching input mode

Switch the input mode according to the character type to be input. In some input modes, switching between full-pitch and half-pitch characters is available.

1 Character entry screen ▶ [ⅰ R][Mode]

2 [ⅰ R][Change]

· Each time you press [ⅰ R][Change], input modes are switched. When you press [✉][To full/To half], full-pitch and half-pitch modes are switched (except for Hiragana and Kanji input mode and Korean input mode).

漢   : Hiragana and Kanji input mode
カナ (カ)   : Katakana input mode
ab/AB*¹ (a/A*¹)
        : Alphabetical input mode
12 (1)   : Numeric input mode
韓*²   : Korean input mode

*1 Press [MENU 🖉][Upper/Lower] to switch between upper and lower cases.
*2 Appears when SMS input character is set to "JP/KR(70Chara)".

3 [■][Select]
The input mode is set.

Basic Operation

Character entry method

In Hiragana and Kanji input mode, enter characters using the following two prediction functions. Prediction input function: predicts conversion options. Next phrase prediction function: predicts the next phrase from the characters being entered.
Example: Entering characters "ドコモ太郎 (DOCOMO Taro)" in Hiragana and Kanji input mode

1 On the Character entry screen, enter "どこも (DOCOMO)"

"ど": [4] five times ▶ [＊] once
"こ": [2] five times
"も": [7] five times

Character input field ─

Prediction option field ─

```
Message
どこも◄
Prediction          ↑↓
どこも ドコモ
ドコモ提供
ドコモポイント 何処も
DOCOMO docomo ドこも
10000 bytes    ⊠ at ab 12
```

Conversion (Prediction) options predicted by the Prediction input function appear.

2 Use Navigation Up/Down key to move the cursor to the Prediction option field

3 Move the cursor to "ドコモ (DOCOMO)" ▶ [■] [Set]

4 Enter "たろう (Taro)"

"た": [4] once
"ろ": [9] five times
"う": [1] three times

5 Use Navigation Up/Down key to move the cursor to the Prediction option field

6 Move the cursor to "太郎 (Taro)" ▶ [■] [Set]

Entering pictograms/symbols/emoticons

Pictograms, symbols, and emoticons pre-installed in the FOMA terminal can be used when entering characters.

1 Character entry screen ▶ [📷] [Pict/Sym]

2 Use [i α] [Change] to select an input mode

3 Use [MENU] to switch types

4 Select a pictogram/symbol/emoticon to enter

┌─ Information ──────────────────
• Depending on the entry screen, pictograms, symbols, or emoticons may not be entered, or input mode/type may not be switched.

*1 When you use Multi number, you cannot make a call using Additional number.
*2 If you send a message to the FOMA terminal user, enter the other party's phone number in the same operation as in Japan.
*3 You need to make overseas usage settings for i-mode.
*4 You need to make i-Channel usage settings overseas. Packet communication charges apply for the automatic update for Basic channel information. (In Japan, it is included in i-Chanel usage fee.)

┌─ Information ─────────────
· Some services are unavailable depending on the international carrier or network you access. For countries, regions, and international carriers you can access, see "Mobile Phone User s Guide [International Services] or DOCOMO International Services website.
└──────────────────────────

Making a call to Japan while staying overseas

Make a call with "+81" prefixed to the other party's phone number.

1 **Stand-by display ▶ [0] (for over 1 second) ▶ [8] [1] ▶ Enter other party's phone number except the first "0"**

2 [☎]

■ **To make a videophone call**
Press [i☆][V. phone].

Making a call to outside the country you stay (except Japan)

**Make a call with "+" and a country code prefixed to the other party's phone number.**

· To make a call to a WORLD WING user overseas, enter "81" as a country code to make an international call to Japan.

1 **Stand-by display ▶ [0] (for over 1 second) ▶ Enter "Country code - Area code (City code) - Other party's phone number"**

· If an area code (city code) starts with "0", remove "0". (When calling some countries such as Italy, "0" may be required.)

2 [📞]

■ **To make a videophone call**
Press [📵][V. phone].

Making a call to a person in the country you stay

Make a call by dialing the other party's phone number from the area code (city code).

### 1 Stand-by display ▶ Enter "Area code (City code) - Other party's phone number"

2 [📞]

■ **To make a videophone call**
Press [📵][V. phone].

Making a call to WORLD WING user overseas

To make a call to a WORLD WING user overseas, make a call as an international call to Japan regardless of in or out of the country you stay.

1 Stand-by display ▶ [0](for over 1 second) ▶ [8][1] ▶ Enter the other party's phone number except the first "0"

2 [📞]

■ **To make a videophone call**
Press [📵][V. phone].

Receiving a call overseas

1 A call arrives

2 [📞]

Answer a call.

3 To end the call, [📞]

Information
- When a call arrives during the international roaming, the call is internationally forwarded from Japan. The caller is charged for call fees to Japan, and the receiver is charged for receiving the call.

Replying to i-mode mail

Reply to the sender of i-mode mail. Replying can be made by entering new text or quoting the text of the received i-mode mail.

1 Received mail detail screen ▶ MENU✐ [Menu] ▶ "Reply/Forward" ▶ "Reply"/"Reply with quote"

2 Enter a subject and message

3 ⓘα[Send]

Checking for new i-mode mail

When the FOMA terminal is out of service area, etc. and therefore i-mode mails are failed to be received, they are stored in the i-mode center. Check with the i-mode center for new messages to receive stored i-mode mails.

1 Stand-by display ▶ ✉ ▶ "Check New Messages"

Sorting mails

Set sorting criteria to automatically save mails to specified folders.

· Create sorting folders in "Inbox" and "Outbox" beforehand.

1 Stand-by display ▶ ✉ ▶ "Mail Setting" ▶ "Auto sort"

2 "Sort inbox"/"Sort outbox"

3 Select the sorting rule setting field

4 Select the Sorting criteria field ▶ Set the sorting criteria

5 Select the Folder to sort into field ▶ Select the folder for sorting mails ▶ ⓘα[Done]

Connect

Phonebook

Two types of Phonebooks are available with the FOMA terminal: FOMA terminal Phonebook to be saved on the FOMA terminal and UIM Phonebook to be saved on the UIM. Entry items that can be saved/set for each Phonebook are as follows.

Item		FOMA terminal Phonebook	UIM Phonebook
Entry details	Name (Reading)	1 entry	1 entry
	Phone number	5 entries	1 entry
	Mail address	3 entries	1 entry
	Group	31 groups	11 groups
	Image	1 entry	Not available
	Other settings	Secret code, Ringtone, Mail ringtone, etc.	Not available

Adding Phonebook Entries

Adding new phone number, mail address, etc.

1 **Stand-by display ▶ Navigation Down key (for over 1 second)**
2 **Select "Registered memory" field ▶ "Phone"/"UIM"**

3 **Set each item**

4 **[i α] [Done]**

Adding Phonebook entries from redial or received calls

Music

Music&Video Channel

- Music&Video Channel is a fee-based service requiring a subscription. You also need to subscribe to i-mode and i-mode packet flat-rate service.

- In addition to the usage fee for the Music&Video Channel, some programs may require additional information fees.

- After subscribing to Music&Video Channel, if you insert the UIM into a Music&Video Channel-incompatible FOMA terminal, the service becomes unavailable. However, service fees will still apply unless you cancel the Music&Video Channel subscription.

- You cannot set or obtain programs during international roaming.* When you go overseas, halt the distribution of programs beforehand. When you come back to Japan, resume starting distribution.
  * Packet communication charges apply if trying to set or obtain programs during international roaming.

- For details on Music&Video Channel, see "Mobile Phone User's Guide [i-mode] FOMA version".

- The Music&Video Channel service is provided in Japanese only.

i-motion

i-motion is a moving picture data with video and sound. i-motion can be downloaded from i-motion sites and can be played, saved, and set as the Stand-by display or ring tone, etc.

i-motion types

● Standard type

There are following two formats.
①Format to be played back after downloading (Up to 10MB)
②Format to be played back while downloading (Up to 10MB)
· Some standard-type i-motion may not be saved, depending on i-motion.

● Streaming type

This type allows you to play back i-motion while downloading. Up to 10MB of i-motion can be played back. Data is deleted after playback and cannot be saved on the FOMA terminal.

Downloading i-motion from sites

· Downloaded i-motion is saved to "i-mode" folder in "i-motion" of "Data Box" or a microSD card.

1 **While viewing a site ▶ Select i-motion**

2 **After playback or downloading, "Save"**
· If a microSD card is inserted, further select save location.

Playing i-motion

Play moving pictures you recorded or i-motion downloaded from sites or i-mode mails.

1 **Stand-by display ▶ ⌨MENU ▶ "Data Box" ▶ "i-motion"**

2 **Move the cursor to a folder ▶ [■][Open]**

3 **Move the cursor to a file ▶ [■][Play]**
· When playing back moving picture/i-motion (with video) for the first time, a confirmation appears asking whether to play i-motion in full screen at any time. Select "Yes" to play in full screen (horizontal).
· If you switch i-motion in full screen (horizontal) to vertical screen during playback, press ⌨CLR.
