Multiaccess Combination Patterns

You can simultaneously use a voice call and packet transmission (i-mode, i-mode mail, etc.) as well as SMS with the multiaccessing function on the FOMA phone. The available combinations of operations for the multiaccessing function are shown below:

Current Transmission \ Transmission added	Voice call		Video-phone		i-appli	i-mode	i-mode mail		SMS		Packet transmission
	Outgoing	Incoming	Outgoing	Incoming			Sending	Receiving	Send	Receive	Sending
During a call	○※1	○※1※2	×	×※3	○	○	○	○	○	○	○
During a Video-phone call	×	×※3	×	×※3	×	×	×	×※5	×	×※7	×
While using i-appli	○	○	○※4	○※4	–	×	×	×※5	–	×※7	○※9
During i-mode	○	○	×	×	○※10	–	○※11	○※6	–	○※6	×
During a packet transmission with PC connection	○	○	×	×	○※8	×	×	×※5	○	○※5	–

O : Available x : Not available – : The combination is functionally not possible.

※1: If you have signed up for Call Waiting Service, you can make another voice call with the current voice call put on hold.

※2: If you have signed up for “Voice Mail” or “Call Forwarding Service”, and you have not yet activated either service, you can answer another incoming call after ending the current transmission.

※3: You can check the missed call after ending a call.

※4: You cannot use this menu during communicating i-appli.

※5: The message will be stored in i-mode center with a mark on upper of screen.

※6: You cannot receive message on downloading.

※7: You can receive SMS after ending current transmission.

※8: You cannot activate i-appli which needs data communication during transmitting by packet.

※9: If i-appli runs without connecting the network, the packet transmission can be activated.

※10: You can activate i-appli if you call from site of i-mode.

※11: You can send i-mode mail or i-appli if you compose the mail from the submenus of i-mode browser. You can insert the displayed site or URL into the body of mail.

Multitask Combination Patterns

You can run multiple functions simultaneously and use them switching displays with the Multitask function.

Using Multitask

1. While running each function, (MULTI)

You can confirm the functions running. You can switch functions by selecting the icon.

Icon	Description	Icon	Description
	Voice call function running		Calculator function running
	Mail function running		
	i-mode function running		Own number is displayed
	i-appli function running		Setting the network/ Displaying the history of recent calls
	Phonebook function※1 running		
(※2)	Data box function running		Tool function running※4
	Station function running※3		Setting the sound function

Icon	Description	Icon	Description
	Multimedia function running		Setting the display menu
	Scheduler function running		Setting the setting menu

※1: “Own number” function is not included.
※2: If you switch i-mode/ i-appli, the play is ended, and then is displayed.
※3: “Schedule” function is not included.
※4: “Custom menu”, “Infrared”, “Calculator”, “miniSD memory card” are not included.

2. Select ▶ ● ▶ Select from the following new functions ▶ ●

Call
The Phone Number entry display appears. → P46

Mail
The Mail menu appears. → P127

i-mode
The i-mode menu appears. → P109

i-appli
The Software List display appears. → P147

Search phonebook
The Phonebook Search display appears. → P60
- Although Search phonebook is normal application, it can be always activated until system memory is available.

Melody
The Melody Folder List display appears. → P164

Camera-mode
The Still Image Finder display appears. → P102

Scheduler
The Monthly Schedule display appears. → P183

Calculator
The Calculator display appears. → P175

Own number
Own number is displayed. → P65

- A few functions are not selected depending on activating the task. → P271

Information

- To bring up the Task Menu display from Stand-by display, press and hold (MULTI) for at least one second.
- When you activate multitask function, the submenus can be used.
- It may be a few cases that you cannot use “Search phonebook” depending on the memory status of FOMA handset.

Ending the task/ Going back to previous task

1. (CLR)/(☎)
   - You can go back previous menu.
   - You can end current task at the same time.

Combination of Functions

You may not be able to select some items on the Task Menu display depending on the added function. The combinations of active functions and added functions executable from the Task Menu are as follows:

Task menu item / Active function	Voice call	Mail	i-mode	i-appi	Phonebook search
During a Voice call	×	○	○	○	○※1
A function in the Mail menu running	○	×	×	×	○※1
A function in the i-mode menu running	○	×	×	×	○※1
A function in the i-appli menu running	○	×	×	×	○
A function in a menu other than the Mail/i-mode/i-appli menu running	○	○	○	○	○※2
Own number displayed	○	○	○	○	○

O : Available x : Not available

※1: You cannot use this menu when activate the menu from phonebook. You cannot use new phonebook function.

※2: You cannot use this menu when you use phonebook function.

- While using or running the following functions, press (MULTI) does not work:
  - – On displaying the warning message or info message/ During a voice call/ video-phone call/ while receiving a call
  - – During a video-phone call
  - – During data transmission with a personal computer connected
  - – While recording moving image
  - – While copying/ moving a data/ While deleting all data/ While downloading the data
  - – While exchanging a data via infrared

Task menu item / Active function	Melody	Camera	Schedule	Calculator	Own number
During a Voice call	×	×	○※3	○※3	○
A function in the Mail menu running	×	×	○※3	○※3	○
A function in the i-mode menu running	×	×	○※3	○※3	○
A function in the i-appli menu running	×	×	○	○	○
A function in a menu other than the Mail/i-mode/i-appli menu running	○	○	○	○	○
Own number displayed	○	○	○	○	×

Service Available with FOMA Phones

Available services	Phone number
Collect call (Calls charged to the receiver)	(No prefix) 106
Directory assistance for ordinary phones and DoCoMo mobile phones (Charges apply) (Unlisted phone numbers cannot be given.)	(No prefix) 104
Telegrams (Charges apply) | 8 a.m. to 10 p.m.	(No prefix) 115
Time check (Charges apply)	(No prefix) 117
Weather forecast (Charges apply)	Area code + 177
Emergency calls to police	(No prefix) 110
Emergency calls to fire station and ambulance	(No prefix) 119
Emergency calls for accidents at sea	(No prefix) 118
Disaster messaging service (Charges apply)	(No prefix) 171

Information

- When making a collect call (106), the recipient is charged call fee and a handling fee of ¥90 (¥94.5 with tax) for each a call. (As of March 2006)
- When using the Directory Assistance Service (104), you are charged a guidance fee of ¥100 (¥105 with tax) plus a call fee. For whom having weak eyesight or handicapped arms, the guidance is available charge free. For more details, dial 116 (NTT inquiry counter) from ordinary phones. (As of March 2006)
- When you dial 110/119/118 from the FOMA phone, you cannot be located. Tell the stuff at the police/fire station that you are calling from a mobile phone and then notify your phone number and a correct description of your current location so that they can call you back to confirm. Furthermore, remain still while talking to prevent your call from being disconnected. Do not turn off the power immediately after the call, but instead make sure that your phone can receive calls for at least 10 minutes.
- You might not be connected to regional police/fire station depending on the area from where you call. If this happens, use payphones or ordinary phones.
- If you use “Call Forwarding Service” for the ordinary phone and specify a mobile phone or automobile phone (mobile phone) as the forwarding destination, callers may hear ringing tone even when the mobile phone is busy, out of the service area, or the power is turned off depending on the settings of the ordinary phone/mobile phone.
- Note that the FOMA phone is not available to 116 (NTT inquiry counter), Dial Q2, Message Dial, and credit call services. (You can use auto credit call to the FOMA phone from ordinary phones or payphones.)

Introduction of Data Link

“FOMA L601i Data Link” is the program for data such as phonebook, bookmark exchange or transmission by using FOMA phone to a personal computer via connecting the FOMA USB cable (Option). You can edit and save the data by using personal computer.

- LG Electronics Japan jp.wowlg.com

For details related to installation, environments, operation, and limitation, refer to homepage or Installation guide and Help file of Data Link program.

OS

Windows98SE, WindowsME, Windows2000, WindowsXP (Japanese version)

- PC/AT transmission operator supported these OS

Warranty Limitation

LG Electronics Japan, Inc. shall undertake the flaw warranty of this software, and no other responsibility of a qualification. Moreover, any problems concerning Data Link software and related data shall be solved by responsibility and expense of an user.

“FOMA Data Link”

<Customer Service of LG Electronics Japan Inc.>

- Phone number 0120-813-023
  ※Can be called from mobile phone or PHS 03-5675-7323
  - Please confirm the phone number before you dial.
- Business hours 10:00 a.m ~ 6:00 p.m
  (Except for Saturday, Sunday and Holiday)

Troubleshooting

Problem	Check point	Reference
The FOMA phone does not turn on. (Cannot use)	Make sure the battery pack is attached to the phone correctly.	P38
	Make sure the battery is fully charged.	P41
Cannot operate by pressing buttons.	Turn off the power once and back on, or reattach the battery pack.	P38, 43
Cannot charge.	Make sure the battery pack is attached to the phone correctly.	P38
	Make sure that the charging is done in a correct way.	P39
appears and a busy tone sounds when making a call.	You may be outside the service area or receiving weak radio waves.	P31
Camera images are dark showing nothing when using the camera/video camera, or making a video-phone call.	Check the rotation direction of the camera.	P29, 101
"All lock" is displayed on the Stand-by display.	This may be because All Lock is activated.	P90
Different ring tones sound for incoming calls/incoming mail.	This may be the call/mail from a party whose ring tone/mail ring tone is set by Utilities per mail address.	P59
	This may be the call/mail from a party stored in a group and set with a ring tone/mail ring tone in Group Setting.	P64
Images or melodies selected return to default.	Make sure the UIM that was inserted when you downloaded images or melodies is inserted.	P37

When using at overseas

Problem	Check point	Reference
圏外 keeps displaying, and the International Roaming Service cannot be used.	Make sure the phone is in the international roaming service area and is not receiving weak radio waves.	P215
	Check the "International Roaming Service Manual" or WORLD WING's web site to see whether the service area or the carrier can be used with your phone.	–
	Change the "Network mode" to "Auto" or to the network supporting the service.	P88
	When you are using the FOMA phone for the first time after leaving Japan and entered overseas, power cycle the phone.	–
Cannot use Video-phone call/SMS/i-mode/Packet transmission.	Check the "International Roaming Service Manual" or WORLD WING's web site to see whether the service area or the carrier can be used with your phone.	–
	Change the "Network mode" to "Auto" or to the network supporting the service.	P88
Cannot receive Voice call or Video-phone call.	Make sure "Barring All Incoming when roam" is not set to restrict incoming calls.	P198
Remains 圏外 after returned from overseas.	Make sure "Network mode" is not set to "GSM".	P88

 *You need to obtain a miniSD memory card separately to use the functions related to the miniSD memory card. → P166

Error Messages

Message	Description	Reference
Invalid UIM requested software can't start	Cannot auto start i-appli software because of the UIM restrictions. Insert the UIM which had been inserted when the file was obtained and try again.	–
Invalid UIM requested service not available.	Cannot send mail because of the UIM restrictions. Insert the UIM which had been inserted when the mail was created and try again.	–
Invalid UIM cannot send	Cannot operate because of the UIM restrictions. Insert the UIM which had been inserted when the file was obtained and try again.	–
Invalid UIM, incorrect display	Cannot display because of the UIM restrictions. Insert the UIM which had been inserted when the mail was created and try again.	–
Insert FOMA card(UIM) / Insert UIM	No UIM is inserted. Insert it and try again.	–
Invalid UIM requested software can't start	Cannot start i-appli software because of the UIM restrictions. Insert the UIM which had been inserted when the file was obtained and try again.	–
Could not check new message	Was not able to connect i-mode successfully.	–
i-mode mail service is busy. Please try again later (555)	The line facility has trouble or line is very busy. Wait a while and try again.	–
miniSD memory card not ready	The miniSD card does not insert into a phone properly. Try again after re-	–
	inserting correctly.	
miniSD card ejected	On activating the miniSD memory card, the card is removed. After inserting the card correctly, operate it again.	P168

Message	Description	Reference
Invalid PUK1 Remaining: X	The entered PIN1 unblock code is wrong. Enter the correct one.	P97
Invalid PIN1 Remaining: X	The entered PIN1code is wrong. Enter the correct one.	P97
Invalid PIN1 (PIN2) Remaning:X	If you enter wrong PIN1/ PIN2 code over three times, PIN is locked. To unlock it, you enter PIN unlock code.	P97
Invalid PIN1 (PIN2) Remaning:X	If you enter wrong PIN1/ PIN2 code over three times, PIN is locked. To unlock it, you enter PIN unlock code.	P97
Please check SMS Center settings	The setting of the SMS center is wrong. Set the setting correctly and try again.	P93
SSL session cannot be established.	Connection was not established to the site which is supporting SSL communication. Try again.	–
SSL session failed.	Cannot connect because of the error in the server's authentication.	–
Root certificate is not valid.	The SSL certificate for that server is set to "Invalid" in the "Certificate" setting. Change the setting to "Valid" and try again.	P118
Please set “To type” receiver	The mail address (To-type) is not entered. Perform a transfer after entering it.	P139
There is data that can't register to UIM	When you copy the entry of phonebook from handset to UIM, the character may be inputted over the limitation or inputted the item cannot be registered.	P58
URL is too long to register	The URL for the site is too long, so it cannot be registered.	–
URL is too long to display	The URL for the site is too long, so it cannot be displayed.	–

Message	Description	Reference
Invalid URL	The URL is not entered correctly. Enter it correctly and try again.	–
No URL history	URL history is not recorded.	–
9K size cannot be used	"Frame shot" cannot be set because "Size restriction" is set to "9Kbyte". When you want to set "Frame shot", set "Size restriction" to "No restriction".	P104
There is no empty memory.	Since the memory number entered was already in use, so the phonebook entry cannot be saved. Enter a different memory number.	–
Address is not valid (451)	SMS was not able to be sent since the address is wrong. Perform the operation after entering a correct address.	–
Please input address	No address is entered. Perform a transmission after entering an address.	P139
No empty memory	An error occurred so you cannot create the animation.	–
Cannot start application	An error occurred so the i-mode function could not be started.	–
Incorrect password	The Terminal Security Code is wrong. Enter the correct Terminal Security Code.	P96
Can't copy some data Continue?	The data which cannot be copied is included. If you want to copy in this situation, select “Yes”.	–
Not moved	An error occurred so the file could not be moved.	–
error	An error occurred, so the operation of i-appli has been terminated.	–
Cannot rename Error in renaming	An error occured so you cannot change the name.	–

Message	Description	Reference
No response, Rewrite?	A time out occurred during a connection of Infrared data, so the communication was suspended. Select "Yes" to reconnect.	–
No response (408)	No response from the site or the Internet web page, so could not connect. Try again.	–
Same URL already stored. Overwrite?	The same URL is already registered. Select "Yes" to overwrite.	–
Same address is entered. Send?	The same address is entered. Select "Yes" to delete and send.	–
Exist same file	The same file name exists. Change the file name to save.	–
Exist same file	The same folder exists. Change the folder name.	–
Cannot add same desktop icon	You cannot copy the file in same folder. Select the other folder, and then (i) [Add].	–
All lock	All lock is set. After releasing the lock, try it again.	P90
MessageF (free) service unavailable while abroad. Please make sure the Center Inquiry functions on your mobile phone, does not check for MessageF, when making inquires to the i-mode center(556)	You cannot request MessageF in abroad. Exclude "MessageF" of "Request i-mode".	P119, 144
Not available if size is restricted	You cannot set "Setting saved quality" if you "Size" is "No restriction". If you set it, "Size" is set to "No restriction".	P104
Error in image. Does not work correctly	The memory space is short or an error occurred, so does not run correctly.	–
Cannot save image	An error occurred, so the image could not be saved.	–

Message	Description	Reference
Screen memos is full.	The screen memos are saved up to the maximum. By pressing "Yes", you can delete unnecessary screen memos.	–
Screen memos is full. Select item to delete	The screen memos are saved up to the maximum., so cannot save any more. Select "Yes" and delete unnecessary screen memos.	P112
Failed to load screen memo	Failed to read the screen memo so cannot be displayed.	–
No screen memos	No screen memos saved.	–
Cannot add screen memo	An error occurred, so the screen memo could not be saved.	–

Exceeds limit. Unable to paste all letters. Paste?	Because the maximum number of characters is exceeded, part of the text could not be pasted. Select "Yes" to paste the portion that can be pasted.	–
Exceeds limit. Unable to paste.	Because the maximum number of characters is exceeded, the text cannot be pasted. Perform the operation after deleting unnecessary text by pressing CLR.	–
Not enough memory Please delete some files	The memory is full. After deleting the unnecessary files, try again.	P156, 158, 162

Introduction of Options and Related Equipment

Combining various options with the FOMA phone, you can realize more versatile use from personal purpose to business purpose. Some products may not be dealt in depending on the area. Consult a handling counter for details. Refer to the user's manuals of respective options and related equipment for how to operate them.

- FOMA AC Adapter 01
- FOMA DC Adapter 01
- Rear Cover L01
- Battery Pack L01
- Flat-plug Stereo Earphone Set P01
- FOMA USB Cable
- Stereo Earphone Set P001※1
- Flat-plug Earphone/Microphone Set with Switch P01/P02
- Earphone/Microphone Set with Switch P001/P002※1
- FOMA AC Adapter for both overseas and domestic usage 01※2

※1 : Earphone Jack Adapter P001 is required.

※2 : When using overseas, the conversion plug adapter suited to the destination is required.

Warranty and Maintenance Services

Warranty

- Make sure that you have received a warranty card provided at purchase. After checking the contents of the warranty card as well as "Shop name and date of purchase", keep the warranty card in a safe place. If you notice that necessary items of the warranty card are not filled in, immediately contact the shop from where you purchased the FOMA phone. The term of warranty is one year from the date of purchase.
- All or part of this product including the accessories may be modified for improvement without notice.
- Data stored in the FOMA phone such as Phonebook entries may be modified or lost owing to malfunction, repairs, or other mishandling of the FOMA phone. You are advised to take a note of the Phonebook entries for just in case. If you have a personal computer Windows XP, Windows 2000, Windows Me, Windows 98SE, you can transfer and save the data stored in the Phonebook to your computer using the dedicated data link software and a FOMA USB Cable (Option). Also, when the FOMA phone is under repairs, the files you downloaded using i-mode and i-appli cannot be transferred to the new FOMA phone, except for some files, based on the Copyright Law.

Maintenance Services

When there is a problem with the FOMA phone

Before asking repairs, check “Troubleshooting” in this manual. If the problem remains unsolved, contact “Repairs” listed on the back page of this manual for consultation.

When repairs are necessitated as a result of consultation

Bring your FOMA phone to the repair counter specified by DoCoMo. Note that your phone is accepted for repair during the repair counter’s business hours. Also, make sure that you will bring the warranty card with you to the counter.

- In warranty period
  - Your FOMA phone is repaired charge free in accordance with the terms of warranty.
  - Make sure that you bring the warranty card to the counter for the repair. If you do not show the warranty card, or when troubles or damages are regarded to be caused by your mishandling, the repair cost is charged even within the warranty period.
  - The cost for troubles caused by the use of devices and consumables other than those specified by DoCoMo is charged even within the warranty period.
- Repairs may not be performed in the following cases: Repair may not be feasible when wet-detecting sticker is colored; when corrosion due to soaking, dew condensation, or perspiration was found by the test; when the internal parts are damaged or deformed. Even if repair is feasible, repair due to the reasons above is not covered by the warranty, so the repair cost is charged.
- After the warranty period

  We will repair your phone on request (charges will apply).
- Spare parts availability period

  The minimum storage period of the performance parts (parts required for maintaining performance) for repairing the FOMA phone is four years after production comes to an end. The FOMA phone can be repaired during this period. Even after the storage period, the FOMA phone may be repaired depending on the troubled portions. Contact “Repairs” listed on the back of this manual.

Other points to note

- Make sure not to modify the FOMA phone or its accessories.
  - Catching fire, giving injury, or causing damages may result.
  - To avoid radio wave interference or Network troubles, a technical standard for the FOMA phone and the UIM is specified by the law; you cannot use the FOMA phone and the UIM that do not satisfy the technical standard.

  - If you make modifications (parts replacement, modification, paints), we can repair the FOMA phone only when you restore the modified portions to their previous status before the modifications (to the DoCoMo genuine product). We may refuse repairing depending on the modifications.
  - Repairs of troubles or damages resulting from the modifications are charged even within the warranty period.

- Do not peel the name plate off from the FOMA phone. The name plate is a certificate for ensuring the technical standard. If the name plate is intentionally removed or replaced, the contents described in the name plate cannot be checked, as we cannot verify the conformity of the product to the technical standard. Note that we may refuse repair for some malfunctions in this case.
- Information such as settings of each function and total call time might be cleared (reset) depending on the trouble/repair or other handlings of the FOMA phone. In that case, make settings again.
- Parts generating magnetic field are used in the following places. Note that if you put a card such as cash card liable to be influenced by magnetic field close to them; the card might be adversely affected. <Specifications being confirmed>Places used: Earpiece (speaker)
- If the FOMA phone gets wet or humid, immediately turn the power off and remove the battery pack; then visit the repair counter. The phone may not be repaired depending on its condition.

Memory dial (Phonebook function) and downloaded information

- It is recommended to take a note of the information you have stored in the FOMA phone. We are not responsible for any change or loss of the information.
- When replacing or repairing your mobile phone, the data you created, obtained from external devices, or downloaded may be changed or lost. We at DoCoMo do not take any responsibility for the loss or change incurred to the data. We may replace your mobile phone with a new one instead of repairing, for our convenience sake, but we cannot export data to your new mobile phone except for some data. From this FOMA phone, we can move the images and ring melodies downloaded from the authorized i-mode sites to your new mobile phone at repairs. (There are some contents that cannot be moved. Also, we may not be able to move data depending on the degree of trouble.)

Specific Absorption Rate of the Mobile Phone

Specific Absorption Rat (SAR) Certification Information

This FOMA L601i model phone conforms to the technical standard defined by the country for exposure to radio waves on human body. The technical regulation established permitted levels of radio frequency energy, based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The regulation employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit is 2 watts/kilogram (W/kg)※ averaged over ten grams of tissue. The limit includes a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The value of the limit is equal to the international guidelines recommended by International Commission on Non-ionizing Radiation Protection (ICNIRP).

All phone models should be confirmed to comply with the regulation, before they are available for sale to the public. The highest SAR value for this FOMA L601i phone is 0.426W/kg. It was taken by the Telecom Engineering Center (TELEC), a Registered Certification Agency on the Radio Law. The test for SAR was conducted in accordance with the procedure defined by the country, using standard operating positions with the phone transmitting at its highest permitted power level in all tested frequency bands. While there may be differences between the SAR levels of various phones and at various positions, they all meet the technical regulation. Although the SAR is determined at the highest certified power level, the actual SAR of the phone during operation can be well below the maximum the maximum value. For further information about SAR, please see the following websites:

Ministry of Internal Affairs and Communications
http://www.tele.soumu.go.jp/j/ele/index.htm

Association of Radio Industries and Businesses
http://www.arib-emf.org/index.html

DoCoMo
http://www.nttdocomo.co.jp/product/

LG Electronics Japan
http://www.jp.lge.com/index.do

※: The technical regulation is provided in Article 14-2 of the Ministry Ordinance Regulating Radio Equipment.

Export/Re-export regulations of Japan and USA

The export and re-export regulations of Japan and United States apply to this product and its accessories. Exports (and re-exports) contrary to those laws and regulations, including but not limited to exports and re-exports to sanctioned countries and to restricted end uses or end users is prohibited. A user must apply for approvals or

permissions for export (or re-export) to the restricted countries at the user's expense and responsibility in accordance with such regulations. For further information, contact Japanese Ministry of Economy, Trade, and Industry or the U.S. Department of Commerce.

Radio Frequency (RF) Signals

THIS MODEL PHONE MEETS THE U.S. GOVERNMENT'S REQUIREMENTS FOR EXPOSURE TO RADIO WAVES.
Your wireless phone contains a radio transmitter and receiver. Your phone is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies.
The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate (SAR). The SAR limit set by the FCC is 1.6W/kg.※ Tests for SAR are conducted using standard operating positions accepted by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the output.
Before a phone model is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the limit established by the U.S. government-adopted requirement for safe exposure. The tests are performed on position and locations (for example, at the ear and worn on the body) as required by FCC for each model. The highest SAR value for this model phone as reported to the FCC when tested for use at the ear is 0.708W/kg, and when worn on the body, is 0.249W/kg. (Body-worn measurements differ among phone models, depending upon available accessories and FCC requirements). While there may be differences between the SAR levels of various phones and at various positions, they all meet the U.S. government requirement.
The FCC has granted an Equipment Authorization for this model phone with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this model phone is on file with the FCC and can be found under the Display Grant section at http://www.fcc.gov/oet/fccid after search on FCC ID BEJL601i.
For body worn operation, this phone has been tested and meets the FCC RF exposure guidelines when used with an accessory designated for this product or when used with an accessory that contains no metal and that positions the handset a minimum of 1.5 cm from the body.

※ In the United States, the SAR limit for wireless mobile phones used by the public is 1.6 watts/kg (W/kg) averaged over one gram of tissue. SAR values may vary depending upon national reporting requirements and the network band.

Declaration of Conformity

The product “FOMA L601i” is declared to conform with the essential requirements of European Union Directive 1999/5/EC Radio and Telecommunications Terminal Equipment Directive 3.1(a), 3.1(b) and 3.2.

This mobile phone complies with the EU requirements for exposure to radio waves.
Your mobile phone is a radio transceiver, designed and manufactured not to exceed the SAR※ limits※※for exposure to radio-frequency (RF) energy, which SAR※ value, when tested for compliance against the standard was 1.0W/kg. While there may be differences between the SAR※ levels of various phones and at various positions, they all meet※※※ the EU requirements for RF exposure.

※ The exposure standard for mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR.

※※ The SAR limit for mobile phones used by the public is 2.0 watts/kilogram (W/kg) averaged over ten grams of tissue, recommended by The Council of the European Union. The limit incorporates a substantial margin of safety to give additional protection for the public and to account for any variations in measurements.

※※※ Tests for SAR have been conducted using standard operating positions with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a base station antenna, the lower the power output.

Important Safety Information

AIRCRAFT

Switch off your wireless device when boarding an aircraft or whenever you are instructed to do so by airline staff. If your device offers a 'flight mode' or similar feature consult airline staff as to whether it can be used on board.

DRIVING

Full attention should be given to driving at all times and local laws and regulations restricting the use of wireless devices while driving must be observed.

HOSPITALS
Mobile phones should be switched off wherever you are requested to do so in hospitals, clinics or health care facilities. These requests are designed to prevent possible interference with sensitive medical equipment.

PETROL STATIONS
Obey all posted signs with respect to the use of wireless devices or other radio equipment in locations with flammable material and chemicals. Switch off your wireless device whenever you are instructed to do so by authorized staff.

INTERFERENCE
Care must be taken when using the phone in close proximity to personal medical devices, such as pacemakers and hearing aids.

Pacemakers
Pacemaker manufacturers recommend that a minimum separation of 15cm be maintained between a mobile phone and a pacemaker to avoid potential interference with the pacemaker. To achieve this use the phone on the opposite ear to your pacemaker and do not carry it in a breast pocket.

Hearing Aids
Some digital wireless phones may interfere with some hearing aids. In the event of such interference, you may want to consult your hearing aid manufacturer to discuss alternatives.

For other Medical Devices:
Please consult your physician and the device manufacturer to determine if operation of your phone may interfere with the operation of your medical device.

Select / (Storage) field ▶ Select Handset/UIM

■ **Entering a Name/Reading**
Select (Name) field ▶ Enter a name ▶ ●
Select (Reading) field ▶ Enter a reading ▶ ●
• Automatically inserted if a name is entered.

■ **Entering a Phone Number/Mail Address**
Select (Number) ▶ Enter a phone number ▶ ●
Select (Mail addr) ▶ Enter a mail address ▶ ●

■ **Selecting a Group**
Select (No group) field ▶ Select a group

■ **Setting an Image***
Select (Image) field ▶ Select a setup method

■ **Setting a Phone Ring Tone/Mail Ring Tone***
Select (Ringtone) field ▶ Select a setup method
Select (Mail ringtone) field ▶ Select a setup method

■ **Entering a URL***
Select (URL) field ▶ Enter a URL ▶ ●

■ **Entering a Home Address/Company Address***
Select (Postal code) field ▶ Enter a postal code ▶ ●
Select (Home addr) filed ▶ Enter a home address ▶ ●
Select (Company name) field ▶ Enter a company name ▶ ●
Select (Job title) field ▶ Enter a job title ▶ ●
Select (Company addr) field ▶ Enter a

company address ●

Select (Memo) filed ▶ Enter a text memo ▶ ●

※: Not displayed if the storage location for the phonebook is set to “UIM”.

3. After setting, [Save]

Storing from Call Records Such as Received Call Records

**1. On the Stand-by display, /●/ / **

2. Select a call record to store ▶ [Menu] ▶ “Add to phonebook”

3. Set each item ▶ After setting, [Save]

Searching Phonebook

1. On the Stand-by display, ●[Menu] ▶ “Phonebook” ▶ “Search phonebook” ▶ Select a search method ▶ ●

Modifying Phonebook

1. On the Stand-by display, ●

2. Select a phonebook to modify ▶ [Menu] ▶ “Edit”

- In case of changing the phonebook to display (Phone, FOMA card) [Menu] → “Display switch” → “Display data” → “Only Handset”/“Only FOMA card”.

3. Modify each item ▶ After modifying [Save]

Deleting Phonebook

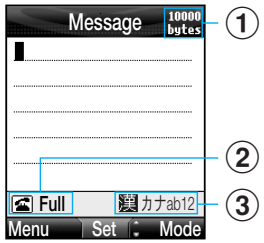
1. On the Stand-by display, ●

2. [Menu] ▶ “Delete”

- Delete: You can delete the selected phonebook.
- Delete selected: You can select and delete multiple phonebooks.
- Delete all: You can delete all the phonebooks.

Entering Characters

Character Entry Display



<Character Entry>

① Number of characters that can be entered: Displays the number of characters that can be entered in bytes.

② Operation guide area: Displays an operation you can perform by

③ Entry mode area: Display the entry mode. (The cursor is placed on the current mode.)

■ **To change the input mode,**
Press several times.

■ **To change Full/ Half pitch**
**Press **

■ **To switch from pictograph/ symbol/ face mode to text input mode,**
Press several times.

■ **To input full/ half pitch or change capital/ small mode,**
Press after inputting the character.

■ **To input a punctuation,**
Press several times.

■ **To input a character after feeding the line**
Press /●

Cutoff line

■ **To input a space,**
Press ✉ [Menu] ▶ Special input ▶ Space

■ **To delete a character**
Move the cursor the position to delete a character.

• A few cases may be not to operate properly by input mode.

Overseas Network and Available Services

Network	Icon	Voice	Packet transmission (i-mode/mopera U, etc.)	SMS	Video-phone
3G	3G	O	O	O	O
GPRS	2G	O	O	O	X
GSM		O	X	O	X

- Services marked with “O” may not be available depending on the communication carrier or the region.
- See the DoCoMo web page for the service available in each country or local area.
http://www.nttdocomo.co.jp/service/world/

Setting Network

During international roaming, available networks are automatically searched to complete the settings. See P5 for other settings such as manual search for the network.

Making Calls

If the other party uses the carriers support the FOMA video-phone, you can make a video-phone call by pressing 映/記 instead of ☎.

Making a Call from Abroad to Japan

- Make sure that “Auto assist setting” is set to “OFF”.
- You can also call WORLD WING/WORLD WALKER subscribers abroad by this operation.

1. **On the Stand-by display, press and hold 0 (わをん 記号) for at least one second to display “+”.**
2. **Enter “81” for the Country Code of Japan.**
3. **Enter the other party’s area code except for “0” and phone number ▶ ☎ (電話帳)**
4. **After talking, ☎**

Calling the Third Party in the Country You Are in

1. **Enter the other party’s area code and phone number ▶ ☎ (電話帳)**
2. **After talking, ☎**

Making Calls from the Country You Are In to Other Countries

• Make sure that “Auto assist Settings” is set to “OFF”. → P5

1. **On the Stand-by display, press and hold 0 (わをん 記号) for at least one second to display “+”**
2. **Enter other party’s country code (P11)**
3. **Enter the other party’s area code except for “0” and phone number ▶ ☎ (電話帳)**
4. **After talking, ☎**

Receiving the call

1. **When a call is incoming, press ☎ (電話帳)**

Receiving Calls

Receiving Calls from Japan

1. **Enter your mobile phone number just like calling in Japan ▶ ☎**

Receiving Calls from Countries Other Than Japan

1. **Enter the International access code of the originating country (P14)**
2. **Enter “81” for the country code of Japan**
3. **Enter your mobile phone number except for the first “0” ▶ ☎**

Changing Settings to Make Calls Easily

Auto Assist Setting

You can change the settings to make a call by automatically converting “+” to the IDD prefix code set in “IDD prefix setting”.

1. **On the Stand-by display, ◉[Menu] ▶ “Settings”**
2. **“Call feature” ▶ “International dial” ▶ “Auto assist setting” ▶ “Auto”/“OFF”**

- Auto: Converts “+” to the number set in “IDD prefix number” when dialing
- OFF: Does not convert “+”

Setting International Call Settings

You can set the international access number added to the beginning of the phone number for making an international call. “009130010” (WORLD CALL) is set by default.

1. **On the Stand-by display, ◉[Menu] ▶ “Settings”**
2. **“Call feature” ▶ “International dial” ▶ “IDD prefix setting” ▶ enter “IDD prefix name” and “IDD prefix code”**
   - IDD prefix name: Enter the name of an international call
   - IDD prefix code: Enter an international access code

Cutoff line

Change Settings to Select a Network Manually

You can change the settings to manually search for the network you use.

1. On the Stand-by display, ◉ [Menu] ▶ “Settings”

2. “Network” ▶ “Network selection”

3. “Manual”

- To change the setting back to automatic search, select “Auto”.

Setting the Types of Network You Search in Advance

Set types of network to be searched (3G/GSM).

1. On the Stand-by display, ◉ [Menu] ▶ “Settings”

2. “Network” ▶ “Network mode” ▶ “Auto” / “WCDMA” / “GSM”

- Auto: Searches all the networks connectable
- WCDMA only: Searches networks supporting WCDMA only
- GSM only: Searches networks supporting GSM/GPRS only

※Set the Network mode to “Auto” or “WCDMA only” after you return to Japan.

Selecting a Network from the List

You can register network (communication carrier) and set priority order for use.

1. On the Stand-by display, ◉[Menu] ▶ “Settings”

2. “Network” ▶ “Preferred lists”

Cutoff line

3. ✉[Menu] ▶ “Add new” ▶ “Search network” / “Enter new network”

- Search network: You can select a network from the list
- Enter new network: You can add a new network

Setting Priority Order for the Network

1. Select a network of which you want to change priority ▶ ✉[Menu] ▶ “Move up”/“Move down”

- Move up: Move the priority order up by one
- Move down: Move the priority order down by one

Displaying the Network Name

You can set whether to display the name of the network currently set on the Stand-by display.

1. On the Stand-by display, ◉[Menu] ▶ “Settings”

2. “Network” ▶ “Network name display” ▶ “Display on” / “Display off”

Change Settings to Reject Calls during International Roaming

1. On the Stand-by display, ◉[Menu] ▶ “NW service”

2. “Others” ▶ “Call barring” ▶ “Activate barring of incoming call – roam” ▶ “Barring all incoming calls” / “Data calls barring” ▶ enter your terminal security code ▶ ◉

- Barring all incoming calls: Bars all incoming calls
- Data calls barring: Bars incoming video-phone calls only

Cutoff line

You can change the address or payment plan, various procedures or requirements through DoCoMo e-site (ドコモeサイト).

From i-mode i Menu ⇒ 料金＆お申込 ⇒ ドコモeサイト

No packet transmission charge

From personal computer My DoCoMo（https://www.mydocomo.com/）⇒ 各種手続き（ドコモeサイト）

* When applying from i-mode, you need to have your “Network Security Code”.
* When applying from i-mode, the packet transmission fee is free. You are charged fee, however, when you access e-site from abroad.
* When applying from your computer, you need to have your “My DoCoMo ID-Password”.
* If you do not have or do not remember your “Network Security Code” and “My DoCoMo ID/Password”, contact DoCoMo Information Center for inquiries.
* This service may not be available depending on the contents of the contract.
* During system maintenance, you may not be able to access some services.

Don’t forget your FOMA phone…or your manners!

When using your FOMA phone, do not forget to show common courtesy and consideration to the people around you.

In the following cases, be certain to turn the power off.

■ Where use is prohibited
Some places prohibit the use of mobile phones. Be sure to turn off the power to your FOMA phone in any of the following places:
• In airplanes • In hospital
✻ Electronic medical equipment is used in places other than the actual wards. Make sure you have the power switched off even if you are in a lobby or waiting room.

■ While driving
Using the FOMA phone while driving interferes with safe driving and could cause danger.
✻ Park the car in a safe place before using the FOMA phone, or switch to Driving mode.

■ When in crowded places such as packed trains, where you could be near a person with an implanted cardiac pacemaker or implanted defibrillator operation can be affected by radio emissions from the FOMA phone.

■ When in theaters, movie theaters, museums, and similar venues
If you use your FOMA phone where you are supposed to be quiet, you will disturb those around you.

Adjust the volume of your voice and ring tone according to where you are.

■ If you use the FOMA phone in quiet places such as restaurants and hotel lobbies, keep the volume of your voice and the ring tone down.

■ Do not block thoroughfares when using the FOMA phone.

Respect privacy.

Please respect the privacy of individuals around you when taking and sending photos using camera-equipped mobile phones.

These functions help you keep your manners in public.

Handy functions are available such as for setting the response to incoming calls and setting all the tones to silent.

• **Manner Mode**
In Manner Mode or Super Silent, the keypad sound, ring tone and all other sounds generated by the FOMA phone are silenced. → P70

• **Vibrator**
When the vibrator is set, it vibrates for incoming calls. → P70

• **Voice Mail, Call Forwarding Service, etc.**
Callers can record a message or calls can be forwarded using optional services when you cannot come to the phone. → P190, P193
