

Welcome to a new way to be safe and smart.

With smart home device control, live streaming video and available professional security monitoring you can help keep safe all that matters most to you.

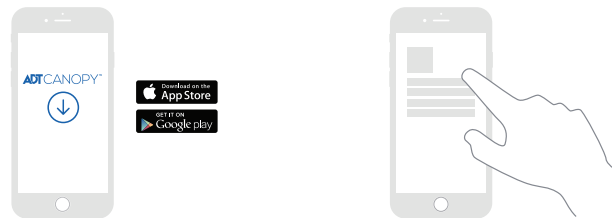

With this guide you'll set up your new device, download the mobile app and learn about how to get professional security monitoring and expanded video storage.

Let's get started!

- 1 Plug your device in and place in a central location with a clear view of your space or belongings you'd like to secure.

- 2 Download the ADT Canopy app to your mobile device.
- 3 Complete your device registration in the ADT Canopy app by following the prompts on-screen.

- 4 Complete your setup in the ADT Canopy app and sign up for emergency response and secure video storage options.

LG Smart Security and ADT Canopy bring you home security and smart home management that give you peace of mind, convenience and control from anywhere.
