chocolate

ME830d

Some of contents in this manual may differ from your phone depending on the software of the phone or your service provider.

LG Electronics Inc

Part 15.21 statement

" Change or Modifications that are not expressly approved by the manufacturer could void the user's authority to operate the equipment. "

Part 15.105 statement

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. if this equipment does cause harmful interference or television reception, which can be determined by

turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

LIMITED WARRANTY STATEMENT

1. WHAT THIS WARRANTY COVERS:

LG offers you a limited warranty that the enclosed subscriber unit and its enclosed accessories will be free from defects in material and workmanship, according to the following terms and conditions:

- (1) The limited warranty for the product extends for ONE (1) year beginning on the date of purchase of the product.
- (2) The limited warranty extends on to the original purchaser of the product and is not assignable or transferable to any subsequent purchaser/end user.
- (3) This warranty is good only to the original purchaser of the product during the warranty period as long as it is in the U.S., including Alaska, Hawaii, U.S. Territories and Canada.
- (4) The external housing and cosmetic parts shall not be covered under these limited warranty terms.
- (5) Upon request from LG, the consumer must provide information to reasonably prove the date of purchase.
- (6) The customer shall bear the cost of shipping the product to the Customer Service Department of LG. LG shall bear the cost of shipping the product back to the consumer after the completion of service under this limited warranty.

2. WHAT THIS WARRANTY DOES NOT COVER:

- (1) Defects or damages resulting from use of the product in other than its normal and customary manner.
- (2) Defects or damages from abnormal use, abnormal conditions, improper storage, exposure to moisture or dampness, unauthorized modifications, unauthorized connections, unauthorized repair, misuse, neglect, abuse, accident, alteration, improper installation, or other acts which are not the fault of LG, including damage caused by shipping blown fuses spills of food or liquid.
- (3) Breakage or damage to antennas unless caused directly by defects in material or workmanship.
- (4) That the Customer Service Department at LG was not notified by consumer of the alleged defect or malfunction of the product during the applicable limited warranty period.
- (5) Products which have had the serial number removed or made illegible.
- (6) The limited warranty is in lieu of all other warranties, express or implied either in fact or by operations law, statutory or otherwise, including, but limited to any implied warranty of marketability or fitness for a particular use.
- (7) Damage resulting from use of non-LG approved accessories.
- (8) All plastic surfaces and all other externally exposed parts that are scratched or damaged due to normal customer use.
- (9) Products operated outside published maximum ratings.
3
- (10) Products used or obtained in a rental program.
- (11) Consumables (such as fuses).

3. STATE LAW RIGHTS:

No other express warranty is applicable to this product. THE DURATION OF ANY IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTY OF MARKETABILITY, IS LIMITED TO THE DURATION OF THE EXPRESS WARRANTY HEREIN. LG INFOCOMM INC. SHALL NOT BE LIABLE FOR THE LOSS OF THE USE OF THE PRODUCT, INCONVENIENCE, LOSS OR ANY OTHER DAMAGES, DIRECT OR CONSEQUENTIAL, ARISING OUT OF THE USE OF, OR INABILITY TO USE, THIS PRODUCT OR FOR ANY BREACH OF ANY EXPRESS OR IMPLIED WARRANTY, INCLUDING THE IMPLIED WARRANTY OF MARKETABILITY APPLICABLE TO THIS PRODUCT. Some states do not allow the exclusion of incidental or consequential damages or limitations on how long an implied warranty lasts; so these limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

4. HOW TO GET WARRANTY SERVICE:

To obtain warranty service, please call the following web address:

For Your Safety

Important Information

This user guide contains important information on the use and operation of this phone. Please read all the information carefully for optimal performance and to prevent any damage to or misuse of the phone. Any changes or modifications not expressly approved in this user guide could void your warranty for this equipment.

Before You Start

Safety Instructions

WARNING! To reduce the possibility of electric shock, do not expose your phone to high humidity areas, such as the bathroom, swimming pool, etc.

Always store your phone away from heat. Never store your phone in settings that may expose it to temperatures less than 32°F or greater than 104°F, such as outside during extreme weather conditions or in your car on a hot day. Exposure to excessive cold or heat will result in malfunction, damage and/or catastrophic failure.

Be careful when using your phone near other electronic devices. RF emissions from your mobile phone may affect nearby in adequately shielded electronic equipment. You should consult with manufacturers of any personal medical devices such as pacemakers and hearing aides to determine if they are susceptible to interference from your mobile phone.

Turn off your phone in a medical facility or at a gas station. Never place your phone in a microwave oven as this will cause the battery to explode.

IMPORTANT! Please read the TIA SAFETY INFORMATION on page 78 before using your phone.

Safety Information

Read these simple guidelines. Breaking the rules may be dangerous or illegal. Further detailed information is given in this user guide.

- ▶ Never use an unapproved battery since this could damage the phone and/or battery and could cause the battery to explode.
- ▶ Never place your phone in a microwave oven as it will cause the battery to explode.
- ▶ Do not dispose of your battery by fire or with hazardous or flammable materials.
- ▶ Make sure that no sharp-edged items come into contact with the battery. There is a risk of this causing a fire.
- ▶ Store the battery in a place out of reach of children.
- ▶ Be careful that children do not swallow any parts such as rubber plugs (earphone, connection parts of the phone, etc.). This could cause asphyxiation or suffocation.

- ▶ Unplug the power cord and charger during lightning storms to avoid electric shock or fire.
- ▶ When riding in a car, do not leave your phone or set up the hands-free kit near to the air bag. If wireless equipment is improperly installed and the air bag is activated, you may be seriously injured.
- ▶ Do not use a hand-held phone while driving.
- ▶ Do not use the phone in areas where its use is prohibited. (For example: aircraft).
- ▶ Do not expose the battery charger or adapter to direct sunlight or use it in places with high humidity, such as a bathroom.
- ▶ Never store your phone in temperatures less than -4°F or greater than 122°F.
- ▶ Do not use harsh chemicals (such as alcohol, benzene, thinners, etc.) or detergents to clean your phone. There is a risk of this causing a fire.
- ▶ Do not drop, strike, or shake your phone severely. Such actions may harm the internal circuit boards of the phone.
- ▶ Do not use your phone in high explosive areas as the phone may generate sparks.
- ▶ Do not damage the power cord by bending, twisting, pulling, or heating. Do not use the plug if it is loose as it may cause a fire or electric shock.
- ▶ Do not place any heavy items on the power cord. Do not allow the power cord to be crimped as it may cause fire or electric shock.
- ▶ Do not handle the phone with wet hands while it is being charged. It may cause an electric shock or seriously damage your phone.
- ▶ Do not disassemble the phone.
- ▶ Do not place or answer calls while charging the phone as it may short-circuit the phone and/or cause electric shock or fire.
- ▶ Only use the batteries, antennas, and chargers provided by LG. The warranty will not be applied to products provided by other suppliers.
- ▶ Only authorized personnel should service the phone and its accessories. Faulty installation or service may result in accidents and consequently invalidate the warranty.
- ▶ Do not hold or let the antenna come in contact with your body during a call.
- ▶ An emergency call can be made only within a service area. For an emergency call, make sure that you are within a service area and that the phone is turned on.

FCC RF Exposure Information

WARNING! Read this information before operating the phone. In August 1996, the Federal Communications (FCC) of the United States, with its action in Report and Order FCC 96-326, adopted an updated safety standard for human exposure to radio frequency (RF) electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies.

The design of this phone complies with the FCC guidelines and these international standards.

CAUTION

Use only the supplied and approved antenna. Use of unauthorized antennas or modifications could impair call quality, damage the phone, void your warranty and/or result in violation of FCC regulations. Do not use the phone with a damaged antenna. If a damaged antenna comes into contact with skin, a minor burn may result. Contact your local dealer for a replacement antenna.

Body-worn Operation

This device was tested for typical body-worn operations with the back of the phone kept 0.6 inches (2.0cm) between the user's body and the back of the phone. To comply with FCC RF exposure requirements, a minimum separation distance of 0.6 inches(2.0cm) must be maintained between the user's body and the back of the phone. Third-party belt-clips, holsters, and similar accessories containing metallic components should not be used. Body-worn accessories that cannot maintain 0.6 inches(2.0cm) separation distance between the user's body and the back of the phone, and have not been tested for typical body-worn operations may not comply with FCC RF exposure limits and should be avoided.

Vehicle Mounted External Antenna (optional, if available)

A minimum separation distance of 8 inches (20cm) must be maintained between the user/bystander and the vehicle mounted external antenna to satisfy FCC RF exposure requirements. For more information about RF exposure, visit the FCC website at www.fcc.gov

FCC Part 15 Class B Compliance

This device and its accessories comply with part 15 of FCC rules. Operation is subject to the following two conditions: (1) This device and its accessories may not cause harmful interference, and (2) this device and its accessories must accept any interference received, including interference that may cause undesired operation.

Cautions for Battery

- ▶ Do not disassemble.
- ▶ Do not short-circuit.
- ▶ Do not expose to high temperature: 60°C (140°F).]
- ▶ Do not incinerate.

Battery Disposal

- ▶ Please dispose of your battery properly or bring to your local wireless carrier for recycling.
- ▶ Do not dispose in fire or with hazardous or flammable materials.

Adapter (Charger) Cautions

- ▶ Using the wrong battery charger could damage your phone and void your warranty.
- ▶ The adapter or battery charger is intended for indoor use only.

Do not expose the adapter or battery charger to direct sunlight or use it in places with high humidity, such as the bathroom.

You can access various WAP (Wireless Application Protocol) services such as banking, news, weather reports and flight information. These services are specially designed for mobile phones and they are maintained by WAP service providers.

Check the availability of WAP services, pricing and tariffs with your network operator and/or the service provider whose service you wish to use. Service providers will also give you instructions on how to use their services.

Once connected, the homepage is displayed. The content depends on the service provider. To exit the browser at any time, press the () key.

Navigating with the WAP browser

You can surf the Internet using either the phone keys or the WAP browser menu.

Using the phone keys

When surfing the Internet, the phone keys function differently to phone mode.

Key	Description
	Scrolls each line of the content area
	Returns to the previous page
	Selects options and confirms actions

Using the WAP browser menu

There are various menu options available when surfing the Mobile Web.

Note

- ▶ The WAP browser menus may vary, depending on your browser version.

Home

Menu 1.1

Connects to a homepage. The homepage will be the site which is defined in the activated profile. It will be defined by the service provider if you have not defined it in the activated profile.

Bookmarks

Menu 1.2

This menu allows you to store the URL of favourite web pages for easy access at a later time.

To create a bookmark

1. Press the left soft key  [Options].
2. Scroll to Add new and press the OK key.
3. After entering the desired URL press the OK key. Add a title and press the OK key again.

After selecting a desired bookmark, the following options are available.

- ▶ **Connect:** Connects to the selected bookmark.
- ▶ **Add new:** Select this to create a new bookmark.
- ▶ **Edit:** You can edit the URL and/or the title of the selected bookmark.
- ▶ **Delete:** Deletes the selected bookmark.
- ▶ **Delete all:** Deletes all the bookmarks.

Go to URL

Menu 1.3

You can connect directly to the site you want. After entering a specific URL, press the OK key.

Settings

Menu 1.4

You can set the profile, cache, cookie and security related to Internet service.

WAP profiles (Menu 1.4.1)

A profile is the network information used to connect to the Internet.

There are default profiles for some operators, stored in the phone memory. It's impossible to rename default profiles.

Each profile has submenus as follows:

- ▶ **Activate:** Activates the selected profile.
- ▶ **Settings:** Use this to edit and change WAP settings for the selected profile.

- **Homepage:** This setting allows you to enter the address (URL) of a site you want to use as homepage. You do not need to type `http://` at the front of each URL as the WAP Browser will automatically add it.
- **Gateway settings:** IP Address/Port Number: You need to enter IP address or Port number that you want.
- **Connection type:** This setting allows you to select the type among HTTP and HTTP with proxy and WAP.
- **Network profile:** You can select the relevant network profile.
- ▶ **Rename:** You can change the profile name.
- ▶ **Add new:** You can add a new profile.
- ▶ **Delete:** Deletes the selected profile from the list.
- ▶ **Delete all:** Deletes all profiles from the list.

Cache (Menu 1.4.2)

The information or services you have accessed are saved in the cache memory of the phone.

Clear cache (Menu 1.4.3)

Removes all context saved in cache.

Note

- ▶ A cache is a buffer memory, which is used to save data temporarily.

Security certificates (Menu 1.4.4)

A list of the available certificates is shown.

- ▶ **Authority:** You can see the list of authority certificates that have been stored in your phone.
- ▶ **Personal:** You can see the list of personal certificates that have been stored in your phone.

WAP Information (Menu 1.4.5)

Call history

You can check the record of missed, dialled, and received calls only if the network supports the Calling Line Identification (CLI) within the service area.

The number and name (if available) are displayed together with the date and time at which the call was made. You can also view call times.

All calls

Menu 2.1

You can view all lists of outgoing or incoming calls.

Missed calls

Menu 2.2

This option lets you view the last 50 unanswered calls.

You can also:

- ▶ View the number if available and call it.
- ▶ Enter a name for the number and save it in your contacts.
- ▶ Send a message to this number.
- ▶ Delete the call from the list.

Dialled calls

Menu 2.3

This option lets you view the last 50 outgoing calls (called or attempted).

You can also:

- ▶ View the number if available and call it.
- ▶ Enter a name for the number and save it in your contacts.
- ▶ Send a message to this number.
- ▶ Delete the call from the list.

Received calls

Menu 2.4

This option lets you view the last 50 incoming calls.

You can also:

- ▶ View the number if available and call it.
- ▶ Enter a name for the number and save it in your contacts.
- ▶ Send a message to this number.
- ▶ Delete the call from the list.

Call duration

Menu 2.5

Allows you to view the duration of your incoming and outgoing calls. You can also reset the call times. The following timers are available:

- ▶ **Last call:** Length of the last call.
- ▶ **Dialled calls:** Length of the outgoing calls.
- ▶ **Received calls:** Length of the incoming calls.
- ▶ **All calls:** Total length of all calls made and incoming calls since the timer was last reset.

Call costs

Menu 2.6

Allows you to check the cost of your **Last call**, **All calls** and **Cost setting**. To reset the cost, you need to enter the PIN2 code.

Data information

Menu 2.7

You can check the amount of data transferred over the network through the GPRS information option. In addition, you can also view how much time you are online.

Data time (Menu 2.7.1)

You can check the duration of **Last session** and **All sessions**. You can also **Reset** the call timers.

Data volume (Menu 2.7.2)

You can check the **Sent**, **Received** or **All** data volumes and **Reset**.

Tools

Favourites

Menu 3.1

This option allows you to add your own favourites to the list already provided. Once you create your own menu, you can access the desired function quickly in the idle screen by pressing the up navigation key.

Note

- ▶ Radio is already preset in favourites.

Alarm clock

Menu 3.2

You can set the alarm clock to go off at a specified time.

1. Select **On** and enter the alarm time you want.
2. Select the repeat period: Once, Mon-Fri, Mon-Sat, Sat-Wed, Sat-Thu and Everyday.
3. Select the alarm tone you want and press **[Set]**.

Calendar

Menu 3.3

When you enter this menu a Calendar will show up. On top of the screen there are sections for date. Whenever you change the date, the calendar will be updated according to the date.

And square cursor will be used to locate the certain day. If you see under bar on the calendar, it means that there is a schedule or memo that day. This function helps to remind you of your schedule and memo. The phone will sound an alarm tone if you set this for the note. To change the day, month, and year:

Key	Description
 	Yearly
 	Monthly
 	Weekly
 	Daily

In the scheduler mode, press left soft key **[Options]** as follows;

View (Menu 3.3.1)

Edit (Menu 3.3.2)

When one or more schedule is set, you can edit the selected schedule.

Send via Bluetooth (Menu 3.3.3)

You can send the selected schedule via

Bluetooth. Prior to sending, the Bluetooth connection should be made first.

Delete (Menu 3.3.4)

New schedule (Menu 3.3.5)

Allows you to add new schedule and memo for the chosen day. You can store up to 100 notes. Input the subject and then press left soft key  [OK]. You enter the appropriate information in the follow section; **Time, Repeat and Alarm.**

Calendar (Menu 3.3.6)

Jump back to the calendar screen.

Go to date (Menu 3.3.7)

You can go the chosen date directly.

Alert tone (Menu 3.3.8)

You can set the alarm tone of each chosen date.

View all schedules (Menu 3.3.9)

View all schedules and memo for the chosen

day. Use   to browse through the note lists. If you set alarm for the note, the alarm icon is displayed. If you want to view the note in detail, press left soft key  [Select]. Press left soft key  [Options] to delete, edit the note you selected.

Delete past (Menu 3.3.0)

You can delete the past schedules.

Delete all (Menu 3.3.*)

You can delete all scheduled items.

Calculator

Menu 3.4

This contains the standard functions such as +, -, x, ÷ : **Addition, Subtraction, Multiplication, and Division.** Furthermore, you can use the various functions of the calculator such as +/-, **sin, cos, tan, log, ln, exp, sqrt, deg, rad.**

1. Input the numbers by pressing numeric keys.
2. Use a navigation key to select a sign for calculation.
3. Then input the numbers.

4. Press key  to view the result.
5. To input a decimal, press  key. If you press  key, you can enter '(')'.
6. To end Calculator, press the right soft key  [Back].

Memo

Menu 3.5

1. Select the Memo by pressing the left soft key  [OK].
2. If the entry is empty, press the left soft key  [New].
3. Input the memo and then press left soft key  [OK].

Note

- ▶ If you want to change the text input mode, press the  in order.

Stop watch

Menu 3.6

1. Press [Start] to take time and record the lap time by pressing [Lap].
2. Press [Stop] to ascertain the record of lap time.
3. Press [Reset] to default condition.

Unit converter

Menu 3.7

This converts any measurement into a unit you want. There are 4 types that can be converted into units:

Area, Length, Weight and Volume.

1. You can select one of four unit types by pressing  [OK] key.
2. Select the unit you want to convert by pressing  and . It's impossible to input "-" symbol in unit converter.
3. Select the standard value by using  , .

World time

Menu 3.8

You can view clocks of the world's major cities.

1. Select the city belonging to the time zone by pressing  ,  ,  ,  key.
2. You can set the current time to the city time you select by pressing the left soft key  [Set].

SIM services

Menu 3.9

This menu depends on SIM and the network services.

You can enjoy multimedia functions such as camera, voice recorder, and MP3 for your fun and entertainment.

Note

- ▶ When the status of the battery indicates low, you may not be able to use the Camera or Multimedia functions.
- ▶ While using the Multimedia function, the battery status is changeable.

Camera

Menu 4.1

To take a picture with slide opened

1. Select **Camera**. If you want to access this menu directly, press and hold  momentarily.
2. Focus on the subject to capture the image, and then press the  key.
3. If you want to save it, press the  key. To send the picture by MMS select the left soft key  (Send). To delete the picture without saving press the right soft key  (Delete).

Note

- ▶ You can adjust the zoom and brightness by pressing the navigation keys.

Select the left soft key  for more options.

- ▶ **Mode:** Allows you to choose between **Single shot** or to take **Multi shot** photos successively.
 - **Multi shot/ Single shot**
- ▶ **Metering:** Determines the lighting based on a selected part of the subject. You can select from **Centered** and **Combined** to establish the best lighting.
- ▶ **Auto focus:** Automatically adjusts the focus for a clear, sharp image with a single press of a button. You can select **Macro** for close up shots.
- ▶ **White balance:** Allows you to change the settings according to the environment.
- ▶ **Quality:** Allows you to set the image quality from **Super fine/Fine/Normal**.

- ▶ **Delay timer:** Allows you to select the delay time (**10 seconds, 5 seconds, 3 seconds, Off**). Then the phone takes a photo after the specified time.
- ▶ **Size:** Allows you to set the image size to one of (**1600x1200**), (**1280x960**), (**640x480**), (**320x240**).
- ▶ **Shutter tone:** You can select from a choice of different sounds, or you can turn the sound off.
- ▶ **Save to:** You can select a storage location: **External** or **Phone**.
- ▶ **Flash:** Adds additional light when you take a photo in dark surroundings. You can also turn the flash **On/ Off** by pressing the  key while in the camera mode.
- ▶ **Image effect:** 4 settings are available: **Negation, Mono, Sepia, and Colour**.
- ▶ **Night mode: On/Off** Set to On for better pictures in poor lighting conditions.

Note

- ▶ When you are in camera mode, and there's no action for a while, the phone will automatically exit to idle mode.

Video camera

Menu 4.2

1. Select **Video camera** menu.
2. Press the  key to start recording. A timer will be displayed while recording is in progress.
3. To stop recording press the left soft key  (Stop).
4. When recording is completed, you have a choice of 3 options: Send by MMS by pressing the left soft key  (Send), Save by pressing the  key, or Delete by pressing the right soft key  (Delete).
5. You can also amend the brightness, size, quality and other settings by pressing the left soft key  (Options) before you start to record. Video camera settings menu is similar to the Photo camera settings, except following items:
 - ▶ **Recording time:** You may select recording time from the list: Unlimited, 90 Minutes, 30 Minutes, 5 Minutes and 1 Minute.
 - ▶ **Size:** You may select following resolution: 128x96, 176x144.

6. You can view the videos by pressing the right soft key  (Album).

MP3 player

Menu 4.3

The ME830d features an integrated MP3 player. You can enjoy listening to MP3 music files on your phone using a compatible headset or via the internal loudspeaker.

Note

- ▶ Because of the small dimension of the speaker, in some cases the audio may be distorted, especially at maximum volume and when there is an excess of bass sounds. Therefore, we recommend you to use the stereo headset in order to appreciate the high quality of your music.

The music player supports:

- ▶ **MPEG-1 Layer III, MPEG-2 Layer III, MPEG-2.5 Layer III:** Sampling frequency up from 8KHz to 48KHz. Bit rate up to 320Kbps, stereo.
- ▶ **AAC:** ADIF, ADTS formats (Sampling frequency from 8KHz to 48KHz)
- ▶ **AAC+:** V1: (Bit rate 16-128 kbps)
V2 : (Bit rate 16-48 kbps)
(Sampling frequency from 8KHz to 48KHz)
- ▶ **MP4:** Sampling frequency up from 8KHz to 48KHz, Bit rate up to 320Kbps, stereo.

Note

- ▶ The ME830d doesn't support the variable bit rates of all mentioned file types. Therefore, you can't change the file from MP3 format to AAC.

You can transfer MP3 files from a compatible PC to the memory in your phone using the Mass Storage. When you connect the phone to a PC using the USB cable (supplied in the box), the phone will be recognised as a removable disk through windows explorer. After you copy songs to the removable disk you should execute the safe removal of hardware from your PC.

Multimedia

Note

- ▶ You should copy MP3 files to My media\Music folder. If you copy to another folder, you won't be able to play the MP3 files.
- ▶ Supported operating systems: Windows 98 SE, Windows ME, Windows 2000, and Windows XP.

The following screen is displayed when playing MP3 files.

Repeat

Play all

Repeat all

Repeat one

Note

- ▶ In a case where an invalid file is included in the playlist, an error message will pop up and then it will go back to the prior screen.

1. Press MP3 menu, and then select MP3 player.
2. Press the left soft key  [Options] to access the following menus.
 - ▶ **Pause:** You can pause the music temporarily.
 - ▶ **View Playlist:** You can select the music you want to listen to from the playlist.
 - ▶ **Set as Ringtone:** You can set the current MP3 file as your ringtone.
 - ▶ **Settings:** Set the way you view and listen to your music. Please see the Settings part below for detailed information.

Playlist

This menu allows you to view the complete play list. You can move to the track by pressing the navigation key. In addition, if you select the option menu, you can delete the file or view its information.

Settings

▶ Equalizer

You can set the sound to different environments depending on the type of music you are listening to. This phone supports ten preset equalizer settings. When you enter this menu, you can select the most suitable setting from the list.

▶ Play mode

This menu allows to set the play mode: Play all, Repeat all, Repeat one.

▶ Set shuffle

If you select On, the tracks will be played at random.

▶ Visual effect

Change the visual effect on the display when the music is playing.

Note

- ▶ Most music is copyright protected by international treaties and national copyright laws. It may be necessary to obtain permission or a license to reproduce or copy music. In some countries national law prohibits private copying of copyrighted material. Please check the national legislation of the applicable country concerning the use of such material.

Radio

Menu 4.4

The ME830d features a built-in FM radio. The stereo headset must be plugged in to enable you to listen to the radio because the headset acts as the FM antenna.

Multimedia

1. Search the desired radio station using the left/right navigation keys.

Key operations

Left/Right navigation keys	Scans downward/ upward to the next receivable radio station.
Up/Down navigation keys	Increases/Decreases the volume level

Note

- ▶ To improve the radio reception, extend the headset cord which functions as the FM antenna.

2. You can preset channels by using the Auto scan feature or Edit in the Options menu.
3. After presetting radio channels, you can listen to other channel by pressing the corresponding number key (short press).
4. You can access the following option menus by pressing the left soft key [Options].
 - ▶ **Edit:** Edit channel presets individually. Enter the frequency, or scan using the navigation keys. Save by pressing OK.

- ▶ **Auto scan:** Select this to automatically scan through available stations. When it finds a station you can decide if you want to save it as as one of the 10 presets.
- ▶ **Reset all channels:** Cancels all preset channels.
- ▶ **Listen via speaker:** You can listen to the radio through the internal built-in speaker. You will still need the headset plugged in to act as the antenna.

Voice recorder

Menu 4.5

You can record voice memo. The following [Options] menus are available.

- ▶ **Storage**
You can choose Phone or External memory.
- ▶ **Recording mode**
You can choose **General** mode of unlimited recording or **MMS** mode of recording up to 30 seconds.

Record

1. Press OK to start recording. Once recording is started, the message Recording and the counter is displayed.
2. If you want to pause or resume recording, press left soft key or OK key.
3. If you want to finish recording, press right soft key [Stop].

Album

You can view the Sounds folder which lists all sound files saved in the memory.

Messaging

New message

Menu 5.1

This menu includes functions related to SMS (Short Message Service), MMS (Multimedia Message Service), Email, voice mail, as well as the network's service messages.

Text (Menu 5.1.1)

You can write and edit text messages

1. Enter the New message menu by pressing the left soft key  [OK].

The following [Options] menus are available.

Options

- ▶ **Send to:** Sends text messages.

1. Enter numbers of recipient. Also, you can select Options and choose from Contacts, or Recent messages to send a text message.
2. Press  key to add more recipients.
3. Once the numbers have been entered, press the left soft key  to send the message. All messages will automatically be saved in the outbox folder, even after a sending failure.

▶ Insert

- **Symbol:** You can add special characters.
 - **Image:** You can insert the default graphics or other available graphics in My Folder that are available for short messages.
 - **Sound:** You can insert sounds that are available for short messages.
 - **Default image:** You can insert basic animations.
 - **Default sound:** You can insert sound effects.
 - **Text template:** You can insert preset text templates already set in the phone.
 - **Contact:** You can insert phone numbers or e-mail addresses from the address book.
 - **Business card:** You can add your signature to the message.
- ▶ **Save to drafts:** Stores messages in Drafts.
 - ▶ **T9 languages:** T9 is set to off by default. Here you can turn it on, and also select the language.
 - ▶ **New T9 word:** Enter a new T9 word.
 - ▶ **Clear text:** You can clear the text.

- ▶ **Exit:** If you press Exit whilst writing a message, you will be taken back to the message menu. The message you have written is not saved.

Note

- ▶ The ME830d supports EMS release 5 and is able to send colour pictures, sounds, text styles, etc.. The other party may not receive pictures, sounds or text styles you sent properly if their phone does not support such options.

Multimedia (Menu 5.1.2)

You can write and edit multimedia messages. You can check the message file size in the upper right hand corner of the display when creating a new message.

1. Enter the New message menu by pressing the left soft key  [OK].
2. If you want to write a new message, select **Multimedia**.
3. You can create a new message or choose one of the text templates already made.

The maximum available file size that can be inserted to an MMS-message - is 300 kb.

Options

- ▶ **Send to:** You can send multimedia messages to multiple recipients and set priorities for your message.
- ▶ **Insert:** You can add symbols, images, videos, sounds, new slides, text templates, contacts, business card, and others.

Note

- ▶ All messages will be automatically saved in the outbox folder, even after a sending failure.

- ▶ **Preview:** You can preview multimedia messages you have created.
- ▶ **Save:** You can save multimedia messages To drafts or As template.
- ▶ **Edit subject:** Allows you to modify the multimedia message you have chosen..
- ▶ **Remove media**
- ▶ **Slide duration:** You can set the duration of slides by the second.

Messaging

- ▶ **T9 languages:** Select the language for T9 input mode. You can also activate or - deactivate T9 input mode.
- ▶ **New T9 word:** Enter a new T9 word.
- ▶ **Exit:** You can get back to the Message menu.

Note

- ▶ If you select a picture with a large file size (200K for example) on writing multimedia message, the loading duration will take around 10 seconds. Furthermore, you can't activate any keys during the loading time. After about 10 seconds, you should be able to write the message.

Email (Menu 5.1.3)

To send/receive an email, you should set up the email account details. Refer to Email on page 50 first.

1. You can input up to 20 email addresses in the To and Cc field.

Tip: To input "@" , press the  and select "@".

2. Key in the subject of the mail and press

OK.

3. After writing an email message, press the left soft key  [Options]. You can access the following option menus.

- ▶ **Send:** Sends the email message.
- ▶ **Send to:** You can edit recipients.
- ▶ **Insert**
- ▶ **Attachment:** You can attach a file with this menu.
- ▶ **Preview:** You can preview the email.
- ▶ **Save to drafts:** Select this to save the message in Drafts.
- ▶ **Edit subject:** You can edit the subject.
- ▶ **T9 languages:** Select the language for T9 input mode. You can also activate or deactivate the T9 input mode.
- ▶ **New T9 word:** Enter a new T9 word.
- ▶ **Clear text:** You can clear text while writing the message.
- ▶ **Exit:** If you select this while writing the message, you can exit from writing the message and go back to the previous screen. The message you have written is not stored.
- ▶ **Contacts:** You can go to the phonebook.

- ▶ **Edit email:** You can edit the email body.

Note

- ▶ For each e-mail account you may save up to 40 messages (totally 200 for five accounts). In Inbox folder you may save not more than 20 messages. Drafts and Outbox folders - 5 messages, and in Sent folder up to 10 messages. In case Drafts, Outbox or Sent folder is full, and you try to save a new message to one of these folders, the oldest saved message will be automatically deleted.
- ▶ The maximum size for one sent message is 300 kb with attachments, and the maximum size for one received message is 300 kb. In case you receive a message with more than 5 attachments, only 5 of them will be received. Some attachments may display incorrectly.

Inbox

Menu 5.2

You will be alerted when you have received a message. They will be stored in the Inbox.

In the Inbox you can identify each message by icons. For details see the icon directive.

Icon	Icon directive
	Multimedia message
	Short message
	SIM message
	Read multimedia message
	Read text message
	Push message
	Notified multimedia message

If the phone shows 'No space for SIM message', you have to delete some SIM messages from the Inbox. If the phone displays 'No space for message', you can make space in each repository by deleting messages, media and applications.

* SIM message

SIM message means that the message is exceptionally stored in the SIM card. You can move this message to the phone.

- ▶ **Information:** Displays the information of the selected draft.
- ▶ **Multi delete:** Deletes selected drafts at one time.
- ▶ **Delete all:** Deletes all of the messages in the folder.

Outbox

Menu 5.5

This menu allows to view the message which is about to be sent or has failed to send.

After sending the message successfully, the message will be moved to sent folder.

Icon	Icon directive
	MMS Unsent
	Waiting to be sent
	Sending MMS

- ▶ **View:** You can view the message.
- ▶ **Delete:** You can delete the message.
- ▶ **Resend:** You can resend the message.
- ▶ **Edit:** You can edit the message.
- ▶ **View information:** You can check the information of each message.
- ▶ **Multi delete:** Deletes selected drafts at one time.
- ▶ **Delete all:** You can delete all the messages in the outbox.

Sent

Menu 5.6

This menu allows you to view the messages which have been sent. You can check the time and the contents of the message.

Voicemail

Menu 5.7

Once this menu has been selected, simply press the left soft key  [OK] to listen to voicemail. You can also hold down the  key in standby mode to listen to voicemail.

Note

- ▶ When you receive a voicemail, your phone will display an icon and you will hear an alert. Please check with your network provider for details of their service in order to configure the handset correctly.

Info message

Menu 5.8

(Dependent on network and subscription)

Info service messages are text messages delivered by the network to mobile phones.

Messaging

They provide general information such as weather reports, traffic news, taxis, pharmacies, and stock prices.

Each type of information has a specific number assigned to it. Contact your service provider for more information on this service.

When you have received an info service message, you will see a popup message to show you that you have received a message or the info service message is directly displayed.

To view the message again, follow the sequence shown below;

Read (Menu 5.8.1)

1. When you have received an info service message and select Read to view the message, it will be displayed on the screen. You can read another message by scrolling ,  or  [Next].
2. The message will be shown until another message is selected.

Topics (Menu 5.8.2)

(Dependent on network and subscription)

- ▶ **View list:** You can see Info service message numbers which you added. If you press  [Options], you can edit and delete the info message category which you added.
- ▶ **Active list:** You can select info service message numbers in the active list. If you activate an info service number, you can receive messages sent from the number.

Templates

Menu 5.9

Text (Menu 5.9.1)

You have 6 text templates as below;

- Please call me back.
- I'm late. I will be there at
- Where are you now?
- I'm on the way.
- Urgent! Please contact.
- I love you

Multimedia (Menu 5.9.2)

After you have saved a new template, you can use the following options.

- ▶ **Save:** Allows you to save the multimedia message.
- ▶ **Insert:** You can add photos, images, sounds, contacts, symbol, text templates and my business card.
- ▶ **Preview:** Preview your multimedia message.

Note

- ▶ You may send files via Bluetooth only if they are stored in the phone memory, not on the memory card. To send files from the external memory you must first copy it to the internal phone memory.
- ▶ When you connect the phone with a PC via Bluetooth, you can both send and receive files to the Music and Video folders. You can copy any file type to the Others. You can only receive files from the Photos, Sounds, and Images folders. You can only view or play files in the Others folder if the file types are supported. When connecting with a PC via USB cable you will only see the following folders in the internal memory: Images, Sounds, Videos, and Others. You can see all folders in the external memory.

Games & Apps

Menu 6.5

In this menu, you can manage the Java applications installed in your phone. You can play or delete downloaded applications, or set the connect options.

External memory

Menu 6.6

This menu allows you to view Videos, Photos, Music, Text, Images, Sounds and Others in memory card.

If the external memory is not available, a pop up message “Please insert external memory” is displayed.

Note

- ▶ The SIM card must be installed in order for the phone to be recognised as a removable disk.

New Fantastic LG

- ▶ The ME830d works as a mass storage device. If you connect the USB cable, you can use the phone as a Removable Disk. You can download MP3 files, photos, videos, text files etc. this gives you fast access from the PC to phone, by just connecting the USB cable.

Note

- ▶ MASS STORAGE function will only work when the phone is in idle mode.
- ▶ DO NOT remove the cable while you are downloading files. After you download the files, you need to click “Safely Remove Hardware” on the PC  and then disconnect the cable.
- ▶ When you copy a file to the removable disk, you can see a message on the display “transferring”. It means MASS STORAGE is working and data is being transferred. While “transferring”, do not disconnect the cable. If you disconnect the cable while “transferring”, data will be lost or corrupted and possibly damage the phone.
- ▶ If you receive a call when using as MASS STORAGE the call will be rejected, but after you remove the cable you will be able to see the missed call.

In Profiles, you can adjust and customise the phone tones for different events, environments, or caller groups.

There are five preset profiles: **General**, **Silent**, **Vibrate only**, **Outdoor** and **Headset**.

Each profile can be personalised. Press the left soft key [Menu] and select **Profiles** using up/down navigation keys.

Activate (Menu 7.X.1)

1. A list of profiles is displayed.
2. In the Profiles list, scroll to the profile you want to activate and press the left soft key  [OK].
3. Then, select **Activate**.

Personalise (Menu 7.X.2)

Scroll to the desired profile in the Profile list. After pressing the left soft key  or the [OK] key, select **Personalise**. The profile setting option opens. Set the options as required.

- ▶ **Call alert type:** Set the alert type for incoming calls.

- ▶ **Ring tone:** Select the desired ring tone from the list.
- ▶ **Ring volume:** Set the volume of the ringing tone.
- ▶ **Message alert type:** Set the alert type for messages.
- ▶ **Message tone:** Select the alert tone for messages.
- ▶ **Keypad tone:** Select the desired keypad tone.
- ▶ **Keypad volume:** Set the volume of keypad tone.
- ▶ **Slide tone:** Allows to set the slide tone for the environment.
- ▶ **Effect sound volume:** Set the volume of the effect sound.
- ▶ **Power on/off volume:** Set the volume of tone when switching the phone on/off.

Contacts

Search

You can change the language for the display texts in your phone. This change will also affect the Language Input mode.

Connectivity (Menu 9.5)

Bluetooth (Menu 9.5.1)

Bluetooth® functionality enables compatible mobile devices, peripherals and computers that are in close proximity to communicate directly with each other without wires. This handset supports built-in Bluetooth connectivity, which makes it possible to connect them with compatible Bluetooth headsets, computer applications and so on.

Note

- ▶ When you receive data from another Bluetooth device, the phone requests confirmation. After confirming the transfer, the file will be copied on to your phone.
- ▶ Depending on the file type, it will be stored in the following folders:
 - MP3 (.mp3, mp4, aac): Music folder.
 - Video (.3GP): Video folder.
 - Phonebook contacts (.VCF): Phonebook.
 - Other files (*.*) : File storage folder.
 - Calendar (.VCS): Calendar
- ▶ Supported *Bluetooth* software (*Bluetooth stacks*) for DUN: Recommended drivers WidComm Bluetooth for Windows 1.4 and 3.0
- ▶ Print via Bluetooth: It is available in printers which support Basic Printing Profile. You can print with "Send via Bluetooth" menu for the printers which support Object Push Profile. If the file size is the more than each of 500KB (Animated GIF file) 200KB(others), the popup message is displayed "Not supported".

▶ Set Bluetooth

You can activate or cancel the Bluetooth function.

▶ Paired devices/Handsfree devices

You can view all devices which your ME830d is already paired to. If you enter Paired devices or Handsfree devices menu, you access the options:

- **Add new:** Allows to search new Bluetooth devices and add them to your phone's list of paired devices. When you select Add new your handset will start to search for Bluetooth devices within range. Once the device you wish to pair appears on the list press the right soft key [Stop]. Scroll to the desired device and press the left soft key [Pair]. You will then be asked to enter a passcode. The passcode can be any code you wish to use (the same passcode must be used by both devices) or is one that is predetermined by the manufacturer of the device you are trying to pair with. Please check the User Manual of the

device you are initiating the pair with to see if it already has a predetermined passcode in place.

- **Assign name:** Allows you to change the name of the paired Bluetooth device and how it is displayed on the handset.
 - **Set as authorised/Set as unauthorized:** Allows you to set an authorised connection between each Bluetooth device. For example if you regularly use a Bluetooth headset with your phone then setting the connection as authorised will mean the headset will automatically connect to the handset each time the headset is powered on.
 - **All services:** Allows to view all services which are supported by Bluetooth device..
 - **Delete:** Allows to delete a paired Bluetooth device.
- ▶ **Settings**
- **My handset's visibility:** This indicates whether or not your handset will be visible to other Bluetooth devices.

- **My handset's name:** You can set the name of Bluetooth device. The default name is LG ME830d.

▶ **Supported services**

Displays a list of Bluetooth services the handset supports.

- Headset
- Handsfree
- File transfer
- Image printing
- Dial-up networking
- Business card transfer
- Browsing other services
- Serial port device

Network selection (Menu 9.5.2)

You can select a network which will be registered either automatically or manually. Usually, the network selection is set to Automatic.

Settings

▶ Automatic

If you select Automatic mode, the phone will automatically search for and select a network for you. Once you have selected “Automatic”, the phone will be set to “Automatic” even though the power is off and on.

▶ Manual

The phone will find the list of available networks and show you them. Then you can select the network which you want to use if this network has a roaming agreement with your home network operator. The phone let you select another network if the phone fails to access the selected network.

▶ Preferred

You can set a list of preferred networks and the phone attempts to register with first, before attempting to register to any other networks. This list is set from the phone's predefined list of known networks.

GPRS attach (Menu 9.5.3)

You can set GPRS service depending on various situations.

▶ Switch on

If you select this menu, the phone is automatically registered to a GPRS network when you switch the phone on. Starting a WAP or PC dial-up application created the connection between phone and network and data transfer is possible. When you end the application, GPRS connection is ended but the registration to the GPRS network remains.

▶ When needed

If you select this menu, the GPRS connection is established when you connect a WAP service and closed when you end the WAP connection.

Network profile (Menu 9.5.4)

▶ Data connections

- **Bearer:** You can set the bearer data service.

1 Data/2 GPRS

- **Data settings:** Appears only if you select Data Settings as a Bearer/service.

Dial number: Enter the telephone number to dial to access your WAP gateway.

User ID: The users identity for your dial-up server (and NOT the WAP gateway).

Password: The password required by your dial-up server (and NOT the WAP gateway) to identify you.

Call type: Select the type of data call : Analogue of Digital (ISDN).

Linger time: You need to enter timeout period. After entering that, the WAP navigation service will be unavailable if any data is not input or transferred.

Call speed: The speed of your data connection; 9600 or 14400 (Depends on Operator)

- **GPRS settings:** The service settings are only available when GPRS is chosen as a bearer service.

APN: Input the APN of the GPRS.

User ID: The users identify for your APN server.

Password: The password required by your APN server.

- **Proxy settings**

Proxy: Activates or cancels proxy.

IP address: Input the IP address of the Proxy server you access.

Port: Input the Proxy Port.

- **DNS settings**

Primary server: Input the IP address of the primary DNS server you access.

Secondary server: Input the IP address of the secondary DNS server you access.

Settings

USB connection mode (Menu 9.5.5)

Allows you to set a mode for USB connection. Select Data service if you want to use it with the PC data kit. For Mass storage function, refer to the page 62.

Calling (Menu 9.7)

You can set the menu relevant to a call by pressing  [OK] in the Setting menu.

Call divert (Menu 9.7.1)

The Call divert service allows you to divert incoming voice calls, fax calls, and data calls to another number. For details, contact your service provider.

- ▶ **All voice calls:** Diverts all voice calls unconditionally.

- ▶ **If busy:** Diverts voice calls when the phone is in use.
- ▶ **If no reply:** Diverts voice calls which you do not answer.
- ▶ **If out of reach:** Diverts voice calls when the phone is switched off or out of coverage.
- ▶ **All data calls:** Diverts to a number with a PC connection unconditionally.
- ▶ **All fax calls:** Diverts to a number with a fax connection unconditionally.
- ▶ **Cancel all:** Cancels all call divert service.

The submenus

Call divert menus have the submenus shown below.

- ▶ **Activate:** Activates the corresponding service.
 - **To voice mail centre:** Forwards to message centre. This function does not apply to All data calls and All fax calls menus.
 - **To other number:** Input the number for call diverting.

- **To favourite number:** You can check recent five diverted numbers.
- ▶ **Cancel:** Deactivate the corresponding service.
- ▶ **View status:** View the status of the corresponding service.

Answer mode (Menu 9.7.2)

- ▶ **Slide up:** Simply slide open the phone to answer the call. (set as default)
- ▶ **Any key:** press any key to answer the call except for the End key and the right soft key.
- ▶ **Send key only:** the Send key must be used to answer the call.

Send my number (Menu 9.7.3) (Network and subscription dependent)

- ▶ **Set by network:** If you select this, you can send your phone number depending on two line service such as line 1 or line 2.
- ▶ **On:** You can send your phone number to another party. Your phone number will be shown on the receiver's phone.

- ▶ **Off:** Your phone number will not be shown.

Call waiting (Network Service) (Menu 9.7.4)

- ▶ **Activate:** If you select Activate, you can accept a waiting (receiving) call.
- ▶ **Cancel:** If you select Cancel, you cannot recognize the waiting (receiving) call.
- ▶ **View status:** Shows the status of Call waiting.

Minute minder (Menu 9.7.5)

If you select **On**, you can check the call duration by beep sound every minute during a call.

Auto redial (Menu 9.7.6)

- ▶ **On:** When this function is activated, the phone will automatically try to redial in the case of failure to connect a call.
- ▶ **Off:** Your phone will not make any attempts to redial when the original call has not connected.

Settings

Send DTMF (Menu 9.7.7)

You can send touch tones during an active call to control your voice mailbox or other automated phone services.

Security

Menu 9.8

PIN code request (Menu 9.8.1)

In this menu, you can set the phone to ask for the PIN code of your SIM card when the phone is switched on.

If this function is activated, you'll be requested to enter the PIN code.

1. Select PIN code request in the Security menu, and then press  [OK].
2. Set **Enable/Disable**.
3. If you want to change the setting, you need to enter PIN code when you switch on the phone.
4. If you enter wrong PIN code more than 3 times, the phone will lock out. If the PIN is blocked, you will need to key in PUK code
5. You can enter your PUK code up to 10

times. If you put wrong PUK code more than 10 times, you can not unlock your phone. You will need to contact your service provider.

Handset lock (Menu 9.8.2)

Note

▶ The default security code for this phone is **0000**.

You can use security code to avoid unauthorized use of the phone. Whenever you switch on the phone, the phone will request security code if you set phone lock to **when switch on**. If you set phone lock to **when SIM changed** your phone will request security code only when you change your SIM card.

Touchpad lock (Menu 9.8.3)

You can lock the touchpad of your phone keeping you from using touchpad sensitivity unnecessarily.

Call barring (Menu 9.8.4)

The Call barring service prevents your phone from making or receiving certain category of calls. This function requires the call Network password. You can view the following submenus.

- ▶ **All outgoing calls:** The barring service for all outgoing calls.
- ▶ **Outgoing international:** The barring service for all outgoing international calls.
- ▶ **Outgoing international when roaming:** The barring service for all international outgoing calls except home network.
- ▶ **All incoming:** The barring service for all incoming calls.
- ▶ **Incoming when roaming:** The barring service for all incoming calls when roaming.
- ▶ **Cancel all:** You can cancel all barring services.
- ▶ **Change password:** You can change the password or Call Barring Service.

The submenus:

- **Activate**

Allows to request the network to set call restriction on.

- **Cancel**

Set the selected call restriction off.

- **View status**

View the status whether the calls are barred or not.

Fixed dial number(FDN)(Menu 9.8.5) (SIM dependent)

You can restrict your outgoing calls to selected phone numbers.

The numbers are protected by your PIN2 code.

- ▶ **On:** You can restrict your outgoing calls to selected phone numbers.
- ▶ **Off:** You can cancel fixed dialling function.
- ▶ **Number list:** You can view the number list saved as Fixed dial number.

Settings

Change codes (Menu 9.8.6)

PIN is an abbreviation of Personal Identification Number to prevent use by unauthorized person.

You can change the access codes: **Security code, PIN code, PIN2 code.**

1. If you want to change the Security code/PIN/PIN2 code input your original code, and then press  [OK].
2. Input new Security code/PIN/PIN2 code and verify them.

Memory status Menu 9.9

You can check free space and memory usage of each repository, Internal memory, Multimedia memory and External memory. You can go to each repository menu.

Reset default Menu 9.0

You can initialize all factory defaults. You need Security code to activate this function.

There are a variety of accessories available for your mobile phone. You can select these according to your personal communication requirements.

Standard Battery

Travel Adapter

This charger allows you to charge the battery while away from home or your office.

Data cable/CD

You can connect your phone to PC to exchange the data between them.

Hands free earmicrophone and music player controller combo

- ▶ **Stereo headset**
- ▶ **Controller:**

Answer & End button, music player control, volume control, Hold button and microphone.

Note

- ▶ Always use genuine LG accessories.
- ▶ Failure to do this may invalidate your warranty.
- ▶ Accessories may be different in different regions; please check with our regional service company or agent for further enquiries.
