1. Overview and Specifications of the remote control

(1) Overview

- This remote control is a product that can control the TV by using it as if it were a wireless mouse in user's residence. While the existing infrared remote controls were used for the products that are within the sight of the user, this product is a RF remote control with frequency range of 2.4 GHz that can control appliances located within distance of 10 m regardless of the direction within user's residence.

(2) Specifications

Item	Description
Model Name	AN-MR300Q
Frequency band	2.402GHz ~ 2.480GHz
Channels	79

Reception sensitivity	-86 dBm
Size	52.8 x 141.1 x 26.8 (Tolerance \pm 1 mm)
Weight	99.4 g
Power supply	DC 3V (AA Alkaline Battery 2ea)
Operating temperature	0°C to +60°C

2. Cautions

- (1) After replacement of the battery, use the remote controller following pairing in accordance with user manual.
- (2) If the unit does not operate after replacement of battery, take the battery out and reattempt pairing in accordance with the user manual.
- (3) If the remote controller is not being used for prolonged period of time, it is recommendable to remove the battery from the unit.
- (4) Do not dismantle or exert heat to the battery.
- (5) Do not drop battery or exert extreme impact that may even cause the case to be damaged.
- (6) Do not immerse the battery in water.
- (7) There is danger of explosion if the battery is inserted reversely.
- (8) Discard the used battery into designated location.

3. Customer Support

- (1) See the service contact in the TV manual.
- (2) Warranty period: 1 year

If you find a technical defect or problem in the course of normal use during the warranty period, please contact your dealer. This warranty applies only to the purchaser in the region where the product is purchased.

4. User Notice

(1) Federal Communications Commission(FCC) Statement

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- . Reorient or relocate the receiving antenna.
- . Increase the separation between the equipment and receiver.
- . Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- . Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- 1) this device may not cause harmful interference, and
- 2) this device must accept any interference received, including interference that may cause undesired operation of the device.

Indoor use only

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

FCC RF Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
