Welcome to your LG U370 handset

Your guide is designed to do two things. First, there's an explanation on how to use your new LG U370, so finding your way around the handset will soon become second nature. Then there's an introduction to the wide range of services offered. This will make sure you get the best from them. If all you want to do is power up and get going, that's fine!

Part 15.21 statement

" Change or Modifications that are not expressly approved by the manufacturer could void

the user's authority to operate the equipment. "

Part 15.105 statement

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules.
These limits are designed to provide reasonable protection against harmful interference in a residential installation.
This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. if this equipment does cause harmful interference or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to

which the receiver is connected

- Consult the dealer or an experienced radio/TV technician for help.

LIMITED WARRANTY STATEMENT

1. WHAT THIS WARRANTY COVERS:
LG offers you a limited warranty that the enclosed subscriber unit and its enclosed accessories will be free from defects in material and workmanship, according to the following terms and conditions:
(1) The limited warranty for the product extends for ONE (1) year beginning on the data of purchase of the product.
(2) The limited warranty extends on to the original purchaser of the product and is not assignable or transferable to any subsequent purchaser/end user.
(3) This warranty is good only to the original purchaser of the product during the warranty period as long as it is in the U.S., including Alaska, Hawaii, U.S. Territories and Canada.
(4) The external housing and cosmetic parts shall not be covered under these limited warranty terms.
(5) Upon request from LG, the consumer must provide information to reasonably prove the date of purchase.
(6) The customer shall bear the cost of shipping the product to the Customer Service Department of LG. LG shall bear the cost of shipping the product back to the consumer after the completion of service under this limited warranty.

2. WHAT THIS WARRANTY DOES NOT COVER:
(1) Defects or damages resulting from use of the product in other than its normal and customary manner.
(2) Defects or damages from abnormal use, abnormal conditions, improper storage, exposure to moisture or dampness, unauthorized modifications, unauthorized connections, unauthorized repair, misuse, neglect, abuse, accident, alteration, improper installation, or other acts which are not the fault of LG, including damage caused by shipping blown fuses spills of food or liquid.
(3) Breakage or damage to antennas unless caused directly by defects in material or workmanship.
(4) That the Customer Service Department at LG was net notified by consumer of the alleged defect or malfunction of the product during the applicable limited warranty period.
(5) Products which have had the serial number removed or made illegible.
(6) The limited warranty is in lieu of all other warranties, express or implied either in fact or by operations law, statutory or otherwise, including, but limited to any implied warranty of marketability or fitness for a particular use.
(7) Damage resulting from use of non-LG approved accessories.
(8) All plastic surfaces and all other externally exposed parts that are scratched or damaged due to normal customer use.
(9) Products operated outside published maximum ratings.
3
(10) Products used or obtained in a rental program.
(11) Consumables (such as fuses).

3. STATE LAW RIGHTS:
No other express warranty is applicable to this product. THE DURATION OF ANY IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTY OF MARKETABILITY, IS LIMITED TO THE DURATION OF THE EXPRESS WARRANTY HEREIN. LG INFOCOMM INC. SHALL NOT BE LIABLE FOR THE LOSS OF THE USE OF THE PRODUCT, INCONVENIENCE, LOSS OR ANY OTHER DAMAGES, DIRECT OR CONSEQUENTIAL, RISING OUT OF THE USE OF, OR INABILITY TO USE, THIS PRODUCT OR FOR ANY BREACH OF ANY EXPRESS OR IMPLIED WARRANTY, INCLUDING THE IMPLIED WARRANTY OF MARKETABILITY APPLICABLE TO THIS PRODUCT. Some states do not allow the exclusive of imitation of incidental or consequential damages or limitations on how long an implied warranty lasts; so these limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.
4. HOW TO GET WARRANTY SERVICE:
To obtain warranty service, please call the following web address:

For Your Safety

Important Information

This user guide contains important information on the use and operation of this phone. Please read all the information carefully for optimal performance and to prevent any damage to or misuse of the phone. Any changes or modifications not expressly approved in this user guide could void your warranty for this equipment.

Before You Start

Safety Instructions

WARNING! To reduce the possibility of electric shock, do not expose your phone to high humidity areas, such as the bathroom, swimming pool, etc.

Always store your phone away from heat. Never store your phone in settings that may expose it to temperatures less than 32°F or greater than 104°F, such as outside during extreme weather conditions or in your car on a hot day. Exposure to excessive cold or heat will result in malfunction, damage and/or catastrophic failure.

Be careful when using your phone near other electronic devices. RF emissions from your mobile phone may affect nearby in adequately shielded electronic equipment. You should consult with manufacturers of any personal medical devices such as pacemakers and hearing aides to determine if they are susceptible to interference from your mobile phone.

Turn off your phone in a medical facility or at a gas station. Never place your phone in a microwave oven as this will cause the battery to explode.

IMPORTANT! Please read the TIA SAFETY INFORMATION on page 78 before using your phone.

Safety Information

Read these simple guidelines. Breaking the rules may be dangerous or illegal. Further detailed information is given in this user guide.

- Never use an unapproved battery since this could damage the phone and/or battery and could cause the battery to explode.
- Never place your phone in a microwave oven as it will cause the battery to explode.
- Do not dispose of your battery by fire or with hazardous or flammable materials.
- Make sure that no sharp-edged items come into contact with the battery. There is a risk of this causing a fire.
- Store the battery in a place out of reach of children.
- Be careful that children do not swallow any parts such as rubber plugs (earphone, connection parts of the phone, etc.). This could cause asphyxiation or suffocation.

- Unplug the power cord and charger during lightning storms to avoid electric shock or fire.
- When riding in a car, do not leave your phone or set up the hands-free kit near to the air bag. If wireless equipment is improperly installed and the air bag is activated, you may be seriously injured.
- Do not use a hand-held phone while driving.
- Do not use the phone in areas where its use is prohibited. (For example: aircraft).
- Do not expose the battery charger or adapter to direct sunlight or use it in places with high humidity, such as a bathroom.
- Never store your phone in temperatures less than- 4°F or greater than 122°F.
- Do not use harsh chemicals (such as alcohol, benzene, thinners, etc.) or detergents to clean your phone. There is a risk of this causing a fire.
- Do not drop, strike, or shake your phone severely. Such actions may harm the internal circuit boards of the phone.
- Do not use your phone in high explosive areas as the phone may generate sparks.
- Do not damage the power cord by bending, twisting, pulling, or heating. Do not use the plug if it is loose as it may cause a fire or electric shock.
- Do not place any heavy items on the power cord. Do not allow the power cord to be crimped as it may cause fire or electric shock.
- Do not handle the phone with wet hands while it is being charged. It may cause an electric shock or seriously damage your phone.
- Do not disassemble the phone.
- Do not place or answer calls while charging the phone as it may short-circuit the phone and/or cause electric shock or fire.
- Only use the batteries, antennas, and chargers provided by LG. The warranty will not be applied to products provided by other suppliers.
- Only authorized personnel should service the phone and its accessories. Faulty installation or service may result in accidents and consequently invalidate the warranty.
- Do not hold or let the antenna come in contact with your body during a call.
- An emergency call can be made only within a service area. For an emergency call, make sure that you are within a service area and that the phone is turned on.

FCC RF Exposure Information

WARNING! Read this information before operating the phone.

In August 1996, the Federal Communications (FCC) of he United States, with its action in Report and Order FCC 96-326, adopted an updated safety standard for human exposure to radio frequency (RF) electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies.

The design of this phone complies with the FCC guidelines and these international standards.

CAUTION

Use only the supplied and approved antenna. Use of unauthorized antennas or modifications could impair call quality, damage the phone, void your warranty and/or result in violation of FCC regulations. Do not use the phone with a damaged antenna. If a damaged antenna comes into contact with skin, a minor burn may result. Contact your local dealer for a replacement antenna.

Body-worn Operation

This device was tested for typical body-worn operations with the back of the phone kept 0.79 inches (2cm) between the user's body and the back of the phone. To comply with FCC RF exposure requirements, a minimum separation distance of 0.79 inches(2cm) must be maintained between the user's body and the back of the phone. Third-party belt-clips, holsters, and similar accessories containing metallic components should not be used. Body-worn accessories that cannot maintain 0.79 inches(2cm) separation distance between the user's body and the back of the phone, and have not been tested for typical body-worn operations may not comply with FCC RF exposure limits and should be avoided.

Vehicle Mounted External Antenna (optional, if available)

A minimum separation distance of 8 inches (20cm) must be maintained between the user/bystander and the vehicle mounted external antenna to satisfy FCC RF exposure requirements. For more information about RF exposure, visit the FCC website at www.fcc.gov

FCC Part 15 Class B Compliance

This device and its accessories comply with part 15 of FCC rules. Operation is subject to the following two conditions: (1) This device and its accessories may not cause harmful interference, and (2) this device and its accessories must accept any interference received, including interference that may cause undesired operation.

Cautions for Battery

- Do not disassemble.
- Do not short-circuit.
- Do not expose to high temperature: 60°C (140°F).]
- Do not incinerate.

Battery Disposal

- Please dispose of your battery properly or bring to your local wireless carrier for recycling.
- Do not dispose in fire or with hazardous or flammable materials.

Adapter (Charger) Cautions

- Using the wrong battery charger could damage your phone and void your warranty.
- The adapter or battery charger is intended for indoor use only.

Do not expose the adapter or battery charger to direct sunlight or use it in places with high humidity, such as the bathroom.

Getting Started

Using the Battery, Charger and USIM Card

Installing the Battery

To install the battery, insert the bottom of the battery (1) into the opening on the back of the phone, making sure that the references on the videophone (2) coincide. Push the battery (3) until the battery latch on the back of the videophone (3) clicks.

Removing the Battery

Turn the power off. (If power is left on, there is a chance you could lose the stored telephone numbers and messages.) Press the latches ① and open the battery ②. Then remove the battery.

Getting Started

The battery is fully discharged, it will take approximately (under 30 minutes) to charge the battery to minimum operating level. When the red light is on, the handset can not be powered on. The red light will be off when the battery is charged to minimum operating level.

Warning

You can make video call with charger connected.
But if the battery capacity is under 10% the battery can be discharged when you use video call even though the charger is connected.

Charging the Battery

To use the charger provided with your phone:

1. With the battery in position on the phone, connect the lead from the charger to the side of the phone. Check that the arrow on the lead connector is facing towards the front of the phone.
2. Connect the charger to a standard AC wall outlet. Only use the charger that comes included with the package.

Warning

Do not force the connector as this may damage the phone and/or the charger.

Disconnecting the Charger

When charging is finished, disconnect the charger from the power outlet and from the phone by pressing on the grey tabs on both sides of the connector while pulling the connector out.

Notice

The battery delivered with your phone has to be fully charged before using it. Do not remove the battery or the USIM card while charging.

If your phone is being charged, the display will show the charging status.

If the battery fails to charge completely:

After turning the phone on and off, please attempt to recharge the battery.

After detaching and reattaching the battery, please attempt to recharge the battery.

Getting Started

Battery Information and Care

1. Never use a non LG approved battery as this could damage the phone and / or battery and could cause the battery to explode.
2. The battery does not need to be fully discharged before recharging.
3. Use only LG approved chargers specific to your phone model since they are designed to maximise battery life.
4. Do not disassemble or short-circuit the battery.
5. Keep the battery's metal contacts clean.
6. Replace the battery when it no longer provides acceptable performance. The battery can be recharged several hundred times before replacement.
7. Recharge the battery after long periods of non-use to maximise battery life.
8. Do not expose the battery charger to direct sunlight or use it in areas of high humidity such as a bathroom.
9. Battery life will decrease if exposed to extremely hot or cold temperatures.
10. Battery life will vary due to usage patterns and environmental conditions.

11. The use of extended backlighting, Browser, and data connectivity kits affect battery life and talk/standby time.

Installing the USIM card

Your USIM card contains your phone number, service details and contacts and must be inserted into your handset.

If your USIM card is removed then your handset becomes unusable until a valid one is inserted. Always disconnect the charger and other accessories from your handset before inserting and removing your USIM card.

Your USIM card may only be used in handsets which are enabled for 3 services. Any attempt to use the USIM card in other handsets may result in serious damage to the handset and may prevent you from being able to use it, including the making of emergency calls.

Notice

When you need to remove the USIM card, slide it towards the top of the phone and take it out of the holder.

Getting Started

Notice

Before installing always make sure that the phone is switched off and remove the battery.
The metal contact of the USIM card can be easily damaged by scratches. Pay special attention to the USIM card while handling and installing. Follow the instructions supplied with the USIM card.

Getting to know your LG U370

Caution

Risk of explosion if battery is replaced by an incorrect type.
Dispose of used batteries according to the instructions.

Congratulation on having chosen the new LG U250 videophone, the personal communication device with a refined and exclusive design, which is enhanced by the latest generation of HSDPA (High Speed Download Packet Access) technology. This technology will enable you to access the Internet and mobile portal services with the speed of broadband, guaranteeing increased productivity and more fun and enjoyment when you are relaxing!

Note

the LG U250 videophone has a download transmission speed of up to 1.8 Mbps. Ask your network operator for more information about the areas that are already covered by the HSDPA broadband data transmission service.

Your handset's home screen

Your handset's home screen is divided into three basic displays: the icon indicator bar; a central window that includes the home screen; and the prompt bar. Each of these is described below:

Getting to know your LG U370

The icon indicator bar

The icon indicator bar shows what operations are currently taking place, it also the displays the status of the battery and signal strength. This appears through all activities. The table beiow gives a brief explanation of the icons and their function.

The home screen

The central window of your start screen displays an image of your choice, when in use, this screen will display all of your functions and services.

The prompt bar

The prompt bar displays in the soft boxes. These are activated by pressing the appropriate soft key under each one.

Display Information

The table below describes various display indicators or icons that appear on the phone's display screen.

On-Screen Icons

Icon	Description
	Battery level - indicates the amount of power in your battery. The greater the amount of solid colour the greater the power.
	Call diverting - indicates call divert option has been selected.
	Call reject - indicates call reject option has been selected.
	Voice message - indicates when you have a new voice message (This symbol may not appear in your 3 region).
	Text - indicates when you have a new text message.
	Multimedia - indicates when you have a new Multimedia message.
	3G network - indicates whether you are in the 3 video service area.
	When you leave the 3 video service area, your handset roams onto the voice & picture network or when abroad onto another network(2G/3G)
	2G network - indicates the strength of your handset's connection with a 2G network.
	No-service area - indicates you are in the no-service area.
	Roaming service - indicates that you are using a roaming service.
	Service message message - indicates that there is new Service message content.

Getting to know your LG U370

Icon	Description
	Indicates the Bluetooth connection is activated.
	Alarm - indicates an Alarm.
	Normal - indicates the General profile is activated
	Silent - indicates the silent menu in Profile.
	Vibrate only - indicates whether the vibrate function is on or off.
	Headset - indicates the headset menu in Profile.
	Outdoor - Indicates the loud profile is activated.
	Indicates activation of the Multitasking function.
	Indicates that the download function is activated.
	Indicates that the browser is activated.

Your handset's keys and navigation

(1) The soft keys

The left and right soft keys activate the prompts that appear in the soft boxes directly above them. These prompts change according to the screen content.

(2) The navigation key

Use for quick access to phone functions.

(3) The OK key

The button in the centre of the Navigation key allows you to select objects on the screen.

Once you have scrolled to your desired choice use the OK key to select it. This function can be used in the majority of screens.

(4) The Multitasking key

(5) The Clear key

This key has three functions. It will take you back to your previous screen and when in a text entry screen, it acts as a delete key. You can use the integrated Speaker during a call by press hold the key.

(6) The Send key

This key is used to make and answer voice calls.

(7) The End key (On/Off)

This key is used to end calls and close down applications.

General Functions

Turning your handset on

Ensure that your USIM card is in your handset and the battery is charged. Press the key.

Enter the USIM PIN code that was supplied with your USIM card if PIN code setting is on.

After a few seconds you will be registered on the network.

Turning your handset off

Press and hold the key until power is off.
There may be some delay while the handset powers down.
Do not re-power the handset during this time.

Access Codes

You can use the access codes described in this section to avoid unauthorised use of your phone. The access codes (except PUK and PUK2 codes) can be changed by using the Change codes feature [Menu #.5.3]

PIN code (4 to 8 digits)

The PIN (Personal Identification Number) code protects your USIM card against unauthorised use. The PIN code is usually supplied with the USIM card. When the PIN Code Request is set to Enable, your

phone will request the PIN code every time it is switched on. When the PIN Code Request is set to Disable, your phone connects to the network directly without the PIN code.

PIN2 code (4 to 8 digits)

The PIN2 code, supplied with some USIM cards, is required to access functions such as Fixed Dial Number. These functions are only available if supported by your USIM card.

PUK code (4 to 8 digits)

The PUK (PIN Unblocking Key) code is required to unlock a blocked PIN code. Contact 3 Customer Services for the code.

PUK2 code (4 to 8 digits)

The PUK2 code, is required to unlock a blocked PIN2 code. Contact 3 Customer Services.

Security code (4 digits)

The security code protects the unauthorised use of your phone. The default security code is set to ‘0000’ and the security code is required to delete all phone entries and to restore the handset to factory setting.

Barring Password

The barring password is required when you use the call barring function. The password is obtained from the 3 Customer Services when you subscribe to this function.

Making and Answering calls

Ensure you tell the other party before recording a voice call.

Making and Answering a video call

You can make/answer a video call to a 3G video phone the other party must have a 3G video phone and be in a video service area.

To make/answer a video call, do the following.

1. Input the phone number using the keypad, or select the phone number from the calls made/received lists.

Note

To correct mistakes, press the key once to delete the last number, or press and hold the key to delete all numbers.

2. If you do not want to use the Speaker, ensure you have the headset plugged in.

General Functions

Note

The video call may take some time to connect. Please be patient. The connection time will also depend on how quickly the other party answers the call. While the video call is connecting, you will see your own images; after the other party has answered, their image will be displayed on screen.

3. Press the end key to finish the call.

Making a voice/video call

1. Make sure your handset is powered on.
2. Enter the number including the full area code.

- To delete a digit press the C key.

  To delete all digits press and hold the C key.

3. Press the key to make a voice call.
4. Press the key to finish the call.

Note

To activate the Speaker during a Voice call, you have to press and hold the OK key for at least 2 secs.

Making a voice/video call from Contacts

It is easy to call anyone whose number you have stored in your Contacts. Press the down navigation key to access contact list.

Scroll to your chosen contact and press the key. To make a voice call press the key.

Press the key to finish the call.

Making International Calls

1. Press and hold the key for the international prefix. The '+' character can be replaced with the international access code.
2. Enter the country code, area code, and the phone number.
3. Press the key.

Answering a Call

When you receive a call, the phone rings and the flashing phone icon appears on the screen. If the caller can be identified, the caller's phone number (or name if stored in your Contacts) is displayed.

Using the Speaker

You can use the integrated Speaker during a call by press hold the key. The speaker is automatically deactivated when you end the call.

General Functions

Warning

Due to higher volume levels, don't place the phone near your ear while the Speaker is enabled.

Signal Strength

If you are inside a building, being near a window may give you better reception. You can see the strength of your signal by the signal indicator on the main screen ( ).

Entering Text

You can enter alphanumeric characters using the keypad.
For example, storing names in the Contacts, writing a message, creating a personal greeting or scheduling events in the calendar all require entering text.

Following text input methods are available in the handset.

Changing the Text Input Mode

1. When you are in a field that allows characters to be entered, you will notice the text input mode indicator in the upper right corner of the display.
2. Short pressing the # * key cycles between T9Abc , T9abc , Abc , abc and 123 .

Using the T9 Mode

The T9 predictive text input mode allows you to enter words easily with a minimum number of key presses. As you press each key, the handset begins to display the characters that it thinks you are typing based on a built-in dictionary. As new letters are added, the word changes to reflect the most likely candidate from the dictionary.

1. When you are in the T9 predictive text input mode, start entering a word by pressing keys 2 abc to 9 wxyz . Press one key per letter.

- The word changes as letters are typed - ignore what's on the screen until the word is typed completely.
- If the word is still incorrect after typing completely, press the * + key once or more to cycle through the other word options.

Example

Press 4 ghi 6 mno 6 mno 3 def to type Good

Press the * + key to get Home

- If the desired word is missing from the word choices list, add it by using the ABC mode.

2. Enter the whole word before editing or deleting any keystrokes.

General Functions

3. Complete each word with a space by pressing the 0 key.

   To delete letters, press the C key.

   Press and hold down the C key to erase entire words.

Using the ABC Mode

Use the 2 abc to 9 wxyz keys to enter your text.

1. Press the key labeled with the required letter:

- Once for the first letter
- Twice for the second letter
- And so on

2. To insert a space, press the 0 . key once.

   To delete letters, press the C key.

   Press and hold down the C key to clear the display.

Using the 123 (Number) Mode

The 123 Mode enables you to enter numbers in a text message(a telephone number, for example).

Press the keys corresponding to the required digits before manually switching back to the appropriate text entry mode.

Using the Symbol Mode

The symbol mode enables you to enter various symbols or special characters.

To enter a symbol, press the OK key.

Use the navigation and numeric keys to select the desired symbol and press the OK key.

General Functions

Character chart

General text entry rules for use with the abc mode. Use the keypad to enter letters, numbers, symbols, and other characters with the abc mode. Press the same key repeatedly to cycle through available characters. If you do not press a key for 2 seconds, the character in the block cursor is accepted, and the cursor moves to the next position.

Key	Characters in the Order Display	
	Lower case	Upper case
1	.,?!‘“1-()@/:_	.,?!‘“1-()@/:_
2	abc2àáâãäåæç	ABC2ÀÁÂÃÄÅÆÇ
3	def3èéêë	DEF3ÈÉÊË
4	ghi4ìíîï	GHI4ÌÍÎÏ
5	jkl5£	JKL5£
6	mno6ñòóôõöøœ	MNO6ÑÒÓÔÕÖØŒ
7	pqrs7ß$	PQRS7ß$
8	tuv8ùúûü	TUV8ÙÚÛÜ
9	wxyz9	WXYZ9
0	space 0	space 0

Notice

Refer to the table below for more information on the characters available using the keys.

Your handset offers a set of functions that allow you to use and customise the handset. These functions are arranged in menus and sub-menus, accessed via the two soft keys marked left soft key and right soft key .

Each menu and sub-menu allows you to view and alter the settings of a particular function. The roles of the soft keys vary according to the applications and services; the label on the bottom line of the display just above each key indicates its current role.

Press the left soft key to access the available My stuff.

Press the right soft key to access the available Planet 3.

Calling

Make video call

You can make a video call using this menu.

1. Enter the number you want to dial.

-. You can key in the number.

-. You can select the number from Search contacts using the left soft key [Options]

2. Press the center key [Video call] to make a video call.

Call durations

Shows call duration time by type. Press the left soft key [Option] and select [Clear] to reset. A security code will be requested.

Data volume

You can check Sent, Received, All data volumes,and Reset all.

Call divert

This menu allows you to configure the call divert service which diverts incoming calls to a user-specified number.

Voice calls

- **All voice calls:** Diverts all incoming voice calls unconditionally.
- **when busy:** Diverts incoming voice calls when the line is busy.
- **No answer:** Diverts incoming voice calls when there is no answer.
- **Not reachable:** Diverts incoming voice calls when the handset is turned off or the handset is out of the network service coverage

Video calls

You can divert video calls to other 3 handsets that support video calling.

- **All video calls:** Diverts all incoming video calls unconditionally.
- **when busy:** Diverts incoming video calls when the line is busy.
- **No answer:** Diverts incoming video calls when there is no answer.
- **Not reachable:** Diverts incoming video calls when the handset is turned off or the handset is out of the network service coverage.

Deactivate all

All call divert settings are deactivated.

Calling

Call barring

Call barring allows you to restrict from making and receiving calls with your handset. For this function, you need the barring password, which you can obtain from 3 Customer Service.

Voice calls

The following options are available:

- **All outgoing:** Calls cannot be made.
- **Outgoing international:** International calls cannot be made.
- **Outgoing international calls except home country:** When abroad, calls can be made only to numbers within the current country and to your home country, which is where your home network provider is located.
- **All incoming:** Calls cannot be received.
- **Incoming when abroad:** Calls cannot be received when you are using your handset outside your home service area.

Video calls

You can have follow options as Voice calls have.

Deactivate all

All call barring settings are deactivated; calls can be made and received normally.

Fixed dial numbers

You can fix dialling to specified phone numbers only. This information is saved on the USIM card. You must enter your PIN2 code for authentication.

Call waiting

The network will notify you of a new incoming call while you have a call in progress. Select Activate to request the network to activate call waiting, Deactivate to request the network to deactivate call waiting, or View status, to check if the function is active or not.

Common settings

Call reject

This menu allows you to enable or disable rejection of all calls or calls categorized as Unregistered, Contacts or Groups.

- **Reject On/Off:** To Enable or Disable the Call Reject.

- **Reject list:** To select the category of call reject numbers.
  - **All calls:** If this category is selected, all calls will be rejected.
  - **Contacts:** If this category is selected, all numbers in contacts list will be rejected.
  - **Groups:** If this category is selected, all numbers belonging to the selected groups will be rejected.
  - **Unregistered:** If this category is selected, all un-registered numbers will be rejected.
- **Reject group:** If the Reject Category 'Groups' is selected from the Reject List, the group, which has to be rejected, can be selected here.

Send my number

This network service allows you to set your phone number to be displayed On or hidden Off from the person whom you are calling. Select Set by network to reset the handset to the setting that you have agreed upon with 3 Customer Service.

Auto redial

The menu enables you to configure the auto redial function when a call attempt has failed.

Answer mode

Allows you to determine when to answer the handset.

- **Press send key:** You can answer an incoming call by only pressing the key.
- **Press any key:** You can answer an incoming call by pressing any key, except the key, and soft keys.
- **Open flip:** This option allows you to answer a call simply by opening the flip.

Minute minder

This function sounds an alert notification every 1 minute after call connection.

BT answer mode

This menu allows you to determine when to answer an incoming call in using Bluetooth connection mode.

- **Hands-free:** You can answer an incoming call on the hands-free device that is connected with your handset. When the phone is receiving a call, a ring tone will be heard on the hands-free.
- **Handset:** This feature allows you to answer an incoming call on the handset, even though the handset is connected with hand-free device.

Calling

Save new number

This menu allows you to save number after finishing ongoing/incoming calls to/from the unregistered number.

Video call Setting

You can set the screen display when making /receiving a video call.

- **Use private image:** Determine whether to show the private image or not.
- **Select private image:** Select the still image to be displayed.
- **Mirror:** Select to activate the mirror effect or not.
  - **On:** Displays the image flipped side to side.
  - **Off:** Displays the image as it is.
- **My image size:** Select my image size to be displayed.
- **My image position:** Select the position where your image will be displayed.

Messages

- **Filter:** Views the filtered messages.
- **Message information** : You can check the message type, date, time, size and where it's saved.

Outbox - messages waiting to be sent

Outbox is a temporary storage place for messages waiting to be sent. When you press the Send, the message moves to the Outbox and from there the message is sent. If the message fails to be sent from the Outbox, another attempt will be made. After five attempts the message will no longer be sent automatically. In order to send the message that has failed five times, you must press the Resend from the Options menu. Failed : The maximum number of sending attempts has been reached. Sending has failed. If you were trying to send a text message, open the message and check that the Sending options are correct.

Sent items

1. You can view sent messages. Select a message and then press the OK key to view the message.
2. You can view the previous or next message by using the left and right navigation keys.

3. You can use the following functions by using the left soft key [Options].

- **Reply to:** Creates reply to the selected message.
- **Forward:** You can forward a selected message.
- **Edit:** You can edit a selected message.
- **Create new message:** You can write a new message.
- **Mark/Unmark:** You can mark or unmark the selected message.
- **Filter:** Views the filtered messages.
- **Delete:** You can delete a selected message.
- **Message Information:** Displays information about the selected message.

Templates

Text Templates

- You can add, edit, and delete frequently-used phrases.

Multimedia Templates

- You can add, edit, and delete pre-installed or user-created templates in order to create multimedia messages more easily.

Messages

Emoticons

You can add, edit, and delete frequently used emoticons. You can save emoticons that are frequently used in the input window in advance.

Settings

Text message

Text message centre

The number of the Text message gateway is pre-loaded in your 3 handset and you should not change this. If you delete or change this by mistake contact 3 Customer Services for support.

Delivery report

Allows you to activate or deactivate the report function. When this function is activated, the network informs you whether or not your message has been delivered.

Validity period

Allows you to set the length of time for which your text messages will be stored at the Text message centre while attempts are made to deliver them to the recipient.

Message types: Text, Voice, Fax, X.400, Email

Usually, the type of message is set to Text. You can convert your text into alternative formats. Contact your service provider for the availability of this function.

Character encoding

Auto/ Default alphabet/ Unicode.

- **Auto(default):** Message with single byte character is normally encoded in Default alphabet(GSM7). Message with double-byte character is automatically encoded in unicode(UCS2).
- **Default alphabet:** Message with even double byte character is encoded in single byte. Please note that double byte characters with accent may be converted into single byte character without accent.
- **Unicode:** Message is encoded in double byte. Please note that you may be charged double.

Send long text as

Select a long text message as Multiple SMS or MMS

Messages

Multimedia message

Select Multimedia message from the Settings menu to configure Multimedia message related options.

Retrieval mode

You can set the retrieval mode using Home network and Roaming network respectively. If you select Automatic, you will receive multimedia messages automatically. If you select Manual, you will only receive a notification message in the inbox and then you can decide whether to download multimedia messages or not.

Delivery report

This menu allows you to determine whether to request a delivery confirmation mail to a recipient, and whether to allow sending delivery confirmation mail to a sender.

- Request report: Determines whether to request a delivery confirmation mail for a Multimedia message.
- Allow report: Determines whether to allow sending a delivery confirmation mail for a delivery confirmation mail request.

Read reply

This menu allows you to determine whether to request a read confirmation mail to a recipient, and whether to allow sending read confirmation mail to a sender.

- Request reply: Determines whether to request a read confirmation mail for a Multimedia message.
- Allow reply: Determines whether to allow sending a read confirmation mail for a read confirmation mail request.

Priority

You can select the priority level of the messages (Low, Normal and High).

Validity period

This menu allows you to configure the term of validity for a message when transmitting a Multimedia message. The message will be saved in the Multimedia server only for the configured term.

Slide duration

This menu allows you to configure the duration of each page when writing the message.

Delivery time

Configures the delivery time of message to the recipient. The Multimedia message centre will deliver the message after the delivery time.

Multi. msg centre

The details for the Multimedia gateway are pre-loaded onto your handset and should not be changed. If you change or delete these by mistake contact 3 customer services for support.

You can add or edit the profile of multimedia message except the default profile.

Email

Email accounts

This menu allows you to edit, delete and add an Email account.

To set up an Email account, do the following.

1. Select Messages/Settings/Email/Email accounts after pressing the OK key in the idle screen
2. You can edit a selected Email account by pressing the left soft key[option].

3. Enter details **Username** (your phone number with Country code without + eg 447782227302), **Password**, **Email address**, **Reply email address, etc.**

4. You can authenticate by pressing the OK key [Save].

Once you have set up details of your other accounts, you can collect mail from those accounts by retrieving from Mailbox.

To retrieve an email, do the following:

1. Select the mail server you want to retrieve in the Mailbox.

2. Choose the email by using the navigation key.

3.Press the left soft key [Option], and then select [Retrieve] or [Message synchronisation].

4. Press the OK key.

Allow reply email

Determines whether to allow sending a read confirmation mail for a read confirmation mail request.

Request reply email

Determines whether to request a read confirmation mail.

Messages

Retrieve interval

You can configure Retrieve interval to retrieve Emails automatically from the incoming mail server. When a new Email arrives, an icon appears at the top of the screen. You can select the auto receiving time slot to Off, 15 minutes, 30 minutes, 1hour, 2 hours, 4 hours or 8 hours. Please note that additional charges may be incurred using the Retrieve interval feature.

Include message in Fwd & Reply

Determines whether to include the original message when you forward the message or reply to it.

Include attachment

Determines whether to include the attachment file when you forward the message to it.

Auto Retrieval in Roaming

Retrieves email account automatically when you move in roaming area.

New Email noti. info

When new email message is retrieved automatically in UE, you can decide to pop up notification information.

Signature

You can configure a text signature to be attached to the end of an Email. The configured signature text is automatically or manually attached to the end of the Email when composing.

Priority

You can select the priority level of E-mails (Low, Normal and High).

Videomail

This menu allows you to get the video mail if this feature is supported by the network service provider. Please check with your network service provider for details of their service in order to configure the handset accordingly.

Voicemail

This menu allows you to get the voice mail if this feature is supported by the network service provider. Please check with your network service provider for details of their service in order to configure the handset accordingly.

Service message

You can configure the service message receipt option.

Messages

Info. service

Info service messages are text messages sent by the network to GSM phone users. They provide general information such as weather reports, traffic news, taxis, pharmacies, and stock prices. Each type of information is associated with a number, which can be obtained from the service provider. When you receive an info service message, a popup message will indicate a new message receipt or the info service message will be displayed directly.

My stuff 6
