

- 1. Place your mobile phone on the wireless charging pad, so that LED turns blue.  
If the LED does not turn blue, pick up the mobile phone and change location.**

- 2. If the LED turns red, it means FOD(Foreign Object Detect) or charging is not working.  
pick up your phone and check wireless charging pad if other object is placed.  
Remove all things on charging pad and place your phone again.**
- 3. If the LED turns green, it means full charged.**

# FCC Compliance statement

---

## FCC Notice :

This device complies with part 15 of the FCC rules and to RSS216 of Industry Canada. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Any changed or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

**FCC RF Radiation Exposure Statement:** This equipment complies with FCC RF Radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

This equipment should be installed and operated with a minimum distance of 10cm between the radiator and your body.
