

Microwaving

Advantium Oven

Things that are normal

Interference

- TV/radio interference might be noticed while using the microwave. Similar to the interference caused by other small appliances, it does not indicate a problem with the microwave. Move the radio or TV as far away from the microwave as possible, or check the position of the TV/radio antenna.

Lights

- The oven light will not come on during a microwave cooking cycle. For about 5 seconds of light, press the MICROWAVE/OVEN LIGHT pad. The oven light will come on automatically when the door is opened.

Oven Heat

- Cookware may become hot because of heat transferred from the heated food. Oven mitts may be needed to handle the cookware.
- Steam or vapor may escape from around the door.

Sounds

- You may hear a dull thumping sound while the oven is operating.
