PRODUCT HIGHLIGHTS

IPS 4K

One of the secrets behind LG TVs' outstanding UHD performance is the specially designed display panel. IPS 4K delivers true colors that remain more consistent at wide viewing angles, with four times the resolution of Full HD. With IPS 4K, any seat can be the best in the house.

LED Plus

All LG LED TVs deliver crystal-clear images and vivid colors, but LED Plus goes even further, with local dimming technology that provides greater contrast.

ULTRA Luminance

ULTRA HD picture quality becomes even more dynamic with an extended range of brightness. By enabling higher peak brightness and an enhanced contrast ratio, ULTRA Luminance makes 4K images even more striking.
