Wireless 11g USB Adapter Quick Installation Guide

Please follow the quick steps to install your USB Stick.
▲ Important: We strongly recommend install the software first before you plug the card into your computer.

160 mm

1. Utility & Driver Installation

- Turn on your computer and make sure Windows is running.
- Insert the Installation CD into the CD-ROM drive.
- The Autorun wizard will appear.
- Follow the on-screen instructions to install the driver, and click **Finish** to complete installing the utility.
- If the Autorun function does not automatically start, go to your Windows **Start** menu and choose "Run", type "D:\Setup.exe" (where d: is your CD-ROM drive), and click "OK".

正面

2. Insert Your Adapter

- Insert Wireless 11g USB Adapter into available USB slot on your computer. Your computer will appear **Found New Hardware Wizard** screen.
- Select "**Install the software automatically (Recommended)**", and then click "**Next**".
- Windows will notify you that the driver has not passed Windows Logo testing. This is normal, and it has been verified that this adapter does work with Windows. Click "**Continue Anyway**" to proceed.
- Click "**Finish**" to complete the installation.

3. Installation is completed!

After installing the Adapter, the Wireless Client Manager icon will appear in your Windows System Tray (bottom right hand corner of Windows desktop screen). You can also double-click the system icon which appears on your Windows desktop to start the utility.

Note: Windows XP has a built-in configuration tool **Wireless Zero Configuration**. You can click on **Wireless Client Manager** system icon to select.

FCC CAUTION

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Installation and use of this Wireless LAN device must be in strict accordance with the instructions included in the user documentation provided with the product. Any changes or modifications (including the antennas) made to this device that are not expressly approved by the manufacturer may void the user's authority to operate the equipment. The manufacturer is not responsible for any radio or television interference caused by unauthorized modification of this device, or the substitution of the connecting cables and equipment other than manufacturer specified. It is the responsibility of the user to correct any interference caused by such unauthorized modification, substitution or attachment. Manufacturer and its authorized resellers or distributors will assume no liability for any damage or violation of government regulations arising from failing to comply with these guidelines.

FCC RF Radiation Exposure Statement: This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

Note:

This EUT is in compliance with SAR for general population /uncontrolled exposure limits in ANSI/IEEE C95.1-1999 and had been tested in accordance with the measurement methods and procedures specified in OET Bulletin 65 Supplement C.

FCC Statement

FCC ID : PPQ-WN4321ZH

This device complies with Part15 FCC Rules. Operation is Subject to the following two conditions : (1)This device may not cause harmful interference. (2)This device must accept any interference received including interference that may cause undesired operation
