

BBQ THERMOMETER INSTRUCTION MANUAL

MODEL: LTV-BBQ1 /LTV-BBQ1v2
DC: 011419

More information can be found on our website here: bit.ly/ltv-bbq1

POWER UP

1. Insert 2-AAA batteries into your BBQ Thermometer.
2. Hold the POWER button  to turn on or off.
3. Adjust time settings.

BBQ Thermometer

Cable Cartridge

Cable Cartridge will slide over the front of the thermometer to protect the screen during storage.

If you purchase an additional Cable Cartridge (with Temperature Probe), it will "stack" on the current cartridge.

SETTINGS

1. Hold the SET button to enter the Settings Menu.
2. Use the PLUS (+) button to adjust and SET button to confirm and move to the next setting.

Settings Menu order:

- Hour
- Minutes
- Fahrenheit/Celsius

USE TEMPERATURE PROBE

1. Unwind Temperature Probe from Cable Cartridge. Connect to either A or B jack on the side of the thermometer. Allow a few seconds for temperature to appear.
2. Insert the metal probe into the thickest part of your meat.

One Probe

Two Probes

Two Probes:
Toggle Time
and Probe on
the top.

- With a single probe attached, the Probe Temperature will appear in the bottom section with the Time on top.
- If using two Temperature Probes, both readings will show on the display. Press the PLUS (+) button to switch between Time & top Temperature Probe readings.

No Probe is
attached.

Probe
incorrectly
inserted or
broken..

- When no Temperature Probe is attached, only the Time will show.
- **Err** will display if the Temperature Probe is not inserted fully into the jack, or it is broken.

CONNECT TO THE LA CROSSE VIEW™ APP

If you already own a La Crosse View connected display, you can use your La Crosse View app to view your BBQ Thermometer readings, as well as set temperature alerts right on your phone.

1. Open your La Crosse View app and select ADD DEVICES from the main menu.

2. Scan the bar code or type in the Device ID on the back of your BBQ Thermometer. 

3. Give the device a Name and Location, and press Save

TRANSMISSION INDICATOR

The Transmission Indicator  relates to the Temperature Probe readings sent to your La Crosse View App.

- A solid indicator tells you your thermometer has power and the Temperature Probe is connected.
- This indicator will flash twice during each transmission
- No indicator will show if the thermometer is not updating to your app, or if your probe is not inserted.

Note: The LTV-BBQ1 thermometer is fully functional without being connected to the La Crosse view app.

BACKLIGHT

- Press any button for a 10 second backlight.

LOW BATTERY INDICATOR

When the Low Battery Indicator  is displayed, replace the batteries in your BBQ Thermometer.

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Increase separation between equipment & receiver.
- Consult the dealer or an experienced radio/TV technician for help.

This device must not be co-located or operating in conjunction with any other antenna or transmitter.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

CAUTION!

The manufacturer is not responsible for any radio or TV interference caused by unauthorized changes or modifications to this equipment. Such changes or modifications could void the user authority to operate the equipment.

All rights reserved. This manual may not be reproduced in any form, even in part, or duplicated or processed using electronic, mechanical or chemical process without the written permission of the publisher.

This booklet may contain errors or misprints. The information it contains is regularly checked and corrections are included in subsequent editions. We disclaim any responsibility for any technical error or printing error, or their consequences. All trademarks and patents are recognized.

WARNING: This product can expose you to chemicals including styrene, which is known to the State of California to cause cancer. For more information go to: www.P65Warnings.ca.gov

Canada Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation

est autorisée aux deux conditions suivantes :

- 1) L'appareil ne doit pas produire de brouillage;
2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
