The Model AirPoint iCon is installed in your Sensus iCon Electric Meters as original equipment. We do not supply a manual with this unit but we request that the following required statements be placed in the Sensus iCon manual to meet the requirements of the Federal Communications Commission CFR 47, Part 15, and Industry Canada RSS-210.

"This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) This device may not cause harmful interference, and, 2) This device must accept any interference received including interference that may cause undesired operation.

This device contains FCC ID: TEB-AIRPT652 / IC: 5931A-AIRPT652.

CAUTION TO USER: Changes or modifications not expressly approved by Hunt Technologies, Inc. could void the user's authority to operate the equipment."

Sincerely,

A handwritten signature in black ink, appearing to read "D Olson", is written over a light blue horizontal line.

Dear Sir or Madam:

We, Hunt Technologies, 6436 County Road 11, Pequot Lakes, MN 56472, are requesting Limited Modular Approval (LMA) on the AirPoint iCon (AirPoint transmitter board). The AirPoint iCon is installed in the Sensus iCon electric meters. Sensus will control the final installation by requiring that the AirPoint iCon be installed into the Sensus iCon meter per Hunt Technologies' specific instructions. Further, it will not transmit RF energy unless it is in a Sensus iCon meter due to the complexity of the communications protocol used between the two.

No manual exists for this product since Sensus is the integrator. However, Sensus will be instructed to include the following regulatory notices in their end product manuals:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device contains FCC ID: TEB-AIRPT652 / IC: 5931A-AIRPT652.

Caution: Changes or modifications not expressly approved by Hunt Technologies could void the user's authority to operate the equipment.

In addition, the wording "Contains FCC ID: TEB-AIRPT652 / IC: 5931A-AIRPT652" will be included on the label of the device in which the AirPoint iCon is installed.

Sincerely,

Dave Olson
Director of Engineering
