☼ : Scene atmosphere light

IV. Product Parameters

Product Model: : LeUBS201

Bluetooth Specifications: Bluetooth V4.0

Transmission Distance: $\leq 10\text{M}$ (depending upon operation environment and devices to which it connects)

USB Recharge Voltage: DC 5V--300mA

Built-in Battery: Lithium

battery Output Power: 3W

Frequency Response: 150Hz-

16KHz Sensitivity: 80db \pm 2db

Signal to Noise Ratio (SNR): $\geq 70\text{dB}$

Product Dimensions: 106.5*58.93mm

VI.Connection Schematic

(completed by artist)

BI. Common Function Description

Power-on Status: Press the Power Button to turn the speaker on and it beeps simultaneously with the blue indicator flashing. Press the Power Button to turn the speaker off

Bluetooth Connection: Once switched on, the speaker starts searching for other Bluetooth devices automatically and at the same time, the blue indicator goes on and off. When found a Bluetooth device, the speaker prompts whether to pair up or not. If selected Yes, it pairs up with the device and meanwhile, the blue indicator flashes slowly and a beep is also generated by the speaker. If failed to detect any other Bluetooth device within 10 minutes, the speaker will shut itself down. Turn it back on again to start search. All the paired devices will engage in automatic connection when the speaker is turned on.

Hints: Please recharge when the battery loses its power considerably or the connection is failed.

Bluetooth Music Playback: When connected, the speaker plays music immediately. While playing music, Move and hold the shake button +\- to adjust the volume. While playing music, Move shake button to select tracks upwards or downwards. While playing music, press shake button to pause and press again to resume.

Call Pick-up: When connected, the speaker plays music immediately, the speaker beeps when a call comes in., it beeps; press shake button to pick it up and to terminate conversation. Press shake button again to end conversation. Press and hold to reject pick it up.

AUX Playback: Use the supplied audio cable to connect the speaker to another music player such as computer by plugging one end to the speaker's AUX port and the other end to the music player's audio port. When the music player starts playing music, the speaker sounds right away. Move and hold shake button +\- can adjust volume.

Intelligent Quick Recharge: Recharge can be performed in the standby mode or power-off situation. Before recharging, plug the mini-USB end of the supplied USB cable to the speaker's USB port and the other end to the USB port of the computer or the USB recharger. When fully recharged, the red indicator goes off.

VIII. Compatibility

IX. Compatibility

BLUETOOTH V4.0 include below devices: A2DP、HFP、AVRCP。Support mobile phone, iPad PC as well as a majority of intelligent devices that support Bluetooth.

X. Troubleshooting

Faults	Phenomena	Solutions
	Unable to pair up with other devices	1. Check whether the speaker is still in the process of search or switch it off and then on. 2. There are too many Bluetooth devices in the proximity that cause difficulty in connection. Please turn them off.

The sound is rather low or distorted	1.Check the Bluetooth device's volume and then adjust it to a proper level. 2.Recharge the battery
The music stops from time to time	1.Check whether the speaker's effective transmission range is exceeded or there is an obstacle standing between the speaker and other Bluetooth devices. ◦
The Bluetooth indicator remains off	1.It suggests the battery power drops quite low and retry once being recharged. 2.Turn it on again.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
