**Initial setup instructions****Note:** Depending on your model type, your computer might not have all of the connectors that are described in this section.

1. Connect the keyboard cable to the appropriate keyboard connector.

2. Connect the mouse cable to the appropriate mouse connector.

3. Connect the display cable to the appropriate video connector.

Note: If your computer is installed with a graphics card, be sure to use the monitor connector(s) on the graphics card.

4. If you have audio devices, attach them using the following instructions.

- 1 **Audio line-in connector:** This connector receives audio signals from an external audio device, such as a stereo system.
- 2 **Audio line-out connector:** This connector sends audio signals from the computer to external devices, such as powered stereo speakers.
- 3 **Microphone connector:** Use this connector to attach a microphone to your computer to record sound or use speech-recognition software.
- 4 **Headphone connector:** Use this connector to attach headphones to your computer to listen to music or other sounds without disturbing anyone.

5. If you have powered speakers with an ac power adapter, do the following:
 - a. Connect the cable that runs between the speakers, if necessary. On some speakers, this cable is permanently attached.
 - b. Connect the ac power adapter cable to the speakers.
 - c. Connect the speakers to the audio line-out connector or the headphone connector on the computer.
 - d. Connect the ac power adapter to an ac power source.

6. If you have unpowered speakers with no ac power adapter, do the following:
 - a. Connect the cable that runs between the speakers, if necessary. On some speakers, this cable is permanently attached.
 - b. Connect the speakers to the audio line-out connector or the headphone connector on the computer.

7. If you have any additional devices, connect them to the appropriate connectors. Your computer might not have all connectors that are shown.

- 1 **USB 2.0 connector:** Use this connector to attach a device that requires a USB 2.0 connector, such as a keyboard, a mouse, a scanner, a printer, or a personal digital assistant (PDA).
- 2 **USB 3.0 connector:** Use this connector to attach a device that requires a USB 2.0 or 3.0 connector, such as a keyboard, a mouse, a scanner, a printer, or a personal digital assistant (PDA). A USB 3.0 connector provides high transmission speeds to reduce the time that is required for data transmission.
- 3 **Serial port:** Use this port to attach an external modem, a serial printer, or other devices that use a 9-pin serial port.
- 4 **Ethernet connector:** Use this connector to attach the computer to an Ethernet-type local area network or to a cable modem. **Important:** To operate the computer within FCC limits when it is connected to an Ethernet network, use a Category 5 Ethernet cable.

8. Connect the power cord or the power adapter to the computer first and then to a properly-grounded electrical outlet. Ensure that all power cord connectors are securely and completely plugged into receptacles.

Power cord for tower and small desktop computers

9. Press the power button on the front of the computer.
10. Follow the on-screen instructions to complete the setup.

Read this flyer before using your computer

This flyer provides critical safety and regulatory information for Lenovo computers and instructions on how to access electronic versions of the publications developed for your computer.

Read first — regulatory information

Computer models equipped with wireless communications comply with the radio frequency and safety standards of any country or region in which it has been approved for wireless use. In addition, if your product contains a telecom modem, it complies with the requirements for connection to the telephone network in your country.

Be sure to read the Regulatory Notice for your country or region before using the wireless devices contained in your computer. To obtain a PDF version of the Regulatory Notice, refer to the "Downloading publications" section below.

Downloading publicationsElectronic versions of your computer publications are available from the Lenovo Support Web site. To download the publications for your computer, go to <http://www.lenovo.com/ThinkCentreUserGuides> and follow the instructions on the screen.**Service and Support information**

The following information describes the technical support that is available for your product, during the warranty period or throughout the life of your product. Refer to the Lenovo Limited Warranty for a full explanation of Lenovo warranty terms. See "Lenovo Limited Warranty notice" later in this document for details on accessing the full warranty.

If you purchased Lenovo services, refer to the following terms and conditions for detailed information:

Safety information

This section contains important safety information for Lenovo products. Additional safety information is provided in the *User Guide* for your product. See "Accessing your *User Guide*" for additional information.

Laser compliance statement

CAUTION:

When laser products (such as CD-ROMs, DVD drives, fiber optic devices, or transmitters) are installed, note the following:

- Do not remove the covers. Removing the covers of the laser product could result in exposure to hazardous laser radiation. There are no serviceable parts inside the device.
- Use of controls or adjustments or performance of procedures other than those specified herein might result in hazardous radiation exposure.

DANGER

Some laser products contain an embedded Class 3A or Class 3B laser diode. Note the following:

Laser radiation when open. Do not stare into the beam, do not view directly with optical instruments, and avoid direct exposure to the beam.

Plastic bag notice

CAUTION:

Plastic bags can be dangerous. Keep plastic bags away from babies and children to avoid danger of suffocation.

Lithium coin cell battery notice

DANGER

Danger of explosion if battery is incorrectly replaced.

When replacing the lithium coin cell battery, use only the same type or equivalent type that is recommended by the manufacturer. The battery contains lithium and can explode if not properly used, handled, or disposed of.

- Do not:**
- Throw or immerse into water
 - Heat to more than 100°C (212°F)
 - Repair or disassemble

Dispose of the battery as required by local ordinances or regulations.

The following statement applies to users in the state of California, U.S.A.

California Perchlorate Information:

Products containing manganese dioxide lithium coin cell batteries may contain perchlorate.

Perchlorate Material - special handling may apply, See www.dtsc.ca.gov/hazardouswaste/perchlorate

Using headphones or earphones

If your computer has both a headphone connector and an audio line-out connector, always use the headphone connector for headphones (also called a headset) or earphones.

CAUTION:

Excessive sound pressure from earphones and headphones can cause hearing loss. Adjustment of the equalizer to maximum increases the earphone and headphone output voltage and the sound pressure level. Therefore, to protect your hearing, adjust the equalizer to an appropriate level.

Excessive use of headphones or earphones for a long period of time at high volume can be dangerous if the output of the headphone or earphone connectors do not comply with specifications of EN 50332-2. The headphone output connector of your computer complies with EN 50332-2 Sub clause 7. This specification limits the computer's maximum wide band true RMS output voltage to 150 mV. To help protect against hearing loss, ensure that the headphones or earphones you use also comply with EN 50332-2 (Clause 7 Limits) or a wide band characteristic voltage of 75 mV. Using headphones that do not comply with EN 50332-2 can be dangerous due to excessive sound pressure levels.

If your Lenovo computer came with headphones or earphones in the package, as a set, the combination of the headphones or earphones and the computer already complies with the specifications of EN 50332-1. If different headphones or earphones are used, ensure that they comply with EN 50332-1 (Clause 6.5 Limitation Values). Using headphones that do not comply with EN 50332-1 can be dangerous due to excessive sound pressure levels.

Lenovo Limited Warranty notice

This product is covered by the terms of the Lenovo Limited Warranty, version L505-0010-02 08/2011. Read the Lenovo Limited Warranty (LLW) at http://www.lenovo.com/warranty/llw_02.
