

1 Download the App

Download the Lenovo Link app from the Google Play Store or App Store.

All pictures and illustrations in this document are for your reference only and may differ from the final product.

2 Configure the plug

1. Power on the smart plug and ensure that the device is prepared for configuring. The blue light should be flashing slowly.
2. Register a Lenovo ID and log in from the Lenovo Link app. There are two ways to add a device: (1) by clicking the "ADD DEVICE" button in the middle part, or (2) by pressing the "+" icon at the upper right hand corner. Choose the Lenovo Smart Plug.
3. On the next screen, enter your Wi-Fi network name and password. The Wi-Fi network must be 2.4 GHZ.
4. Connect to your plug's Wi-Fi network with `Lenovo_103_XXXX`.

Figure as follows:

5. Once setup is complete, the blue light will stop flashing and turn red. You will be prompted to create a name for your plug.

If for some reason the setup fails, reset and repeat the setup process.

How to reset your plug

When plugged in, press and hold the power button on the side for 5 seconds until the blue light begins flashing. Use the Lenovo Link app to reconfigure the network settings.

Safety Instructions

- Use the product indoors only.
- Do not use the product in wet or damp areas.
- Do not use an extension cord. Plug the product directly into electrical outlet.
- Do not remove ground pin (middle pin).
