- Plain paper fax
- 33.6K fax modem
- Integrated telephone handset
- Reliable and easy to use
- LexExpress 1-year replacement warranty

Proud Sponsors of the **LEXMARK INDY 300**

Print

The Lexmark X4270 boasts the leading inkjet technology that has kept Lexmark at the forefront of the imaging market.

Capable of 4800 x 1200 dpi print resolution for beautiful, photo-quality prints and print speeds of 19 ppm in black and 10ppm in colour, the X4270 is the perfect fit for the home office or small business.

Featuring Lexmark's AccuFeed™ paper handling system to virtually eliminate paper jams, the X4270 can accommodate a wide range of media to provide top-quality printouts at the touch of a button.

The Lexmark X4270 is a compact office centre featuring convenient stand-alone colour and mono faxing with integrated handset, one-touch black and colour copying, high-resolution scanning and brilliant photo-quality prints.

Copy

With copy speeds of up to 18 cpm in mono and 6 cpm in colour, the Lexmark X4270 makes fast work of black and colour photocopying. And you don't even need to switch on your computer to make copies!

With the touch of a button, the X4270 can produce up to 99 copies of your document and reduce or enlarge them to between 25 and 400 percent of the original size.

Home users and small business alike will benefit from the convenience of multi-up printing, which allows you to copy up to 8 original pages onto a one-page copy.

The Lexmark X4270 features a stand-alone fax capability that lets users send and receive faxes in either colour** or mono, without a PC. Faxing has never been so simple with the in-built 33.6 Kbps fax modem, phone keypad for manual dialling and caller ID display.

The 79 speed dials (including 20 groups), 5 quick-dial buttons, broadcast function and auto-answer button make faxing from your X4270 fast and convenient. With a handy 30-page Auto Document Feeder and a convenient 160-page memory, you don't need to worry about lost fax pages ever again!

The X4270 also comes with Lexmark Fax Solutions software for faxing electronic documents from your PC and works in conjunction with your telephone answering machine.

**Sending and receiving colour faxes is possible only when sending and receiving from another colour capable fax machine.

Scan

Producing colourful documents is easy with the high-resolution scanner technology included in the Lexmark X4270. The 48-bit colour sheet-fed scanner makes it fast and simple to scan colour graphics, text documents and even colour photographs.

With 600 x 1200 dpi optical scan quality and Optical Character Recognition software for converting scanned documents into editable files, the Lexmark X4270 makes scanning a breeze.

Scan pages up to A4 with just one touch

LEXMARK X4270

All-In-One
Print Centre

Five convenient functions for small business and home users.

Print, fax, copy, scan and phone, all from one convenient, desktop unit with the Lexmark X4270. This intelligent, compact office centre makes it easy for home and business users to create professional, high-quality documents at the touch of a button.

Does this printer have a warranty?

When you purchase the Lexmark X4270, you automatically receive a 1-year LexExpress Onsite Exchange Warranty. That means you receive FREE technical support. If you have a problem with your X4270 and our printer experts can't solve it over the phone, we'll send a replacement printer to your door by express courier to minimise the inconvenience to you.

What is Lexmark's AccuFeed™ technology?

AccuFeed is a unique paper handling system originally developed for Lexmark's high-end laser printers. It uses variable pressure to feed paper into the printer, virtually eliminating paper jams across a broad range of paper types and thickness.

Why are Genuine Lexmark Ink cartridges better?

Cartridges and printheads are where the 'magic' of printing take place. They let us achieve amazing 4800 x 1200 dpi, giving us brilliant, true-to-life photographic images and clear, crisp text.

Buying a Genuine Lexmark Ink cartridges is like replacing your entire printer, because you get a new printhead every time you replace your cartridge. This ensures optimal output quality through the life of your printer, and it saves ink as the printer doesn't need a regular auto-cleaning cycle.
