# Introduction

Congratulations on your purchase of the advanced and compact KT610 3G video mobile phone, designed to operate with the latest digital mobile communication technology.

This user's guide contains important information on the use and operation of this phone. Please read all the information carefully for optimal performance and to prevent any damage to or misuse of the phone. Any changes or modifications not expressly approved in this user's guide could void your warranty for this equipment.

# For Your Safety

Please read these simple guidelines. Not following these guidelines may be dangerous or illegal. Further detailed information is given in this manual.

## Warning

- ▶ Mobile Phones must be switched off at all times in aircrafts.
- ▶ Do not hold the phone in your hand while driving.
- ▶ Do not use your phone near petrol stations, fuel depots, chemical plants or blasting operations.
- ▶ For your safety, use ONLY specified ORIGINAL batteries and chargers.
- ▶ Do not handle the phone with wet hands while it is being charged. It may cause an electric shock or seriously damage your phone.
- ▶ Keep the phone in a safe place out of small children's reach. It includes small parts which, if detached, may cause a choking hazard.

## Caution

- ▶ Switch off the phone in any area where required by special regulations. For example, do not use your phone in hospitals or it may affect sensitive medical equipment.
- ▶ Emergency calls may not be available under all mobile networks. Therefore, you should never depend solely on your mobile phone for emergency calls.
- ▶ Only use ORIGINAL accessories to avoid damage to your phone.
- ▶ All radio transmitters carry risks of interference with electronics in close proximity. Minor interference may affect TVs, radios, PCs, etc.
- ▶ Batteries should be disposed of in accordance with relevant legislation.
- ▶ Do not dismantle the phone or battery.

# Guidelines for safe and efficient use

Please read these simple guidelines. Not following these guidelines may be dangerous or illegal. Further detailed information is given in this manual.

## Certification information (SAR)

### THIS DEVICE MEETS INTERNATIONAL GUIDELINES FOR EXPOSURE TO RADIO WAVES

Your mobile device is a radio transmitter and receiver. It is designed and manufactured not to exceed the limits for exposure to radio frequency (RF) recommended by international guidelines (ICNIRP). These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines were developed by independent scientific organisations through periodic and thorough evaluation of scientific studies. The guidelines include a substantial

safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for mobile devices employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit stated in the international guidelines is 2.0 W/kg\*. Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR of the device while operating can be well below the maximum value. This is because the device is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a base station, the lower the power output of the device. Before a phone model is available for sale to the public, compliance with the European

R&TTE directive must be shown. This directive includes as one essential requirement the protection of the health and the safety for the user and any other person. The highest SAR value for this device when tested for use at the ear is 0,537 W/kg.

This device meets RF exposure guidelines when used either in the normal use position against the ear or when positioned at least 1.5 cm away from the body. When a carry case, belt clip or holder is used for body-worn operation, it should not contain metal and should position the product at least 1.5 cm away from your body. In order to transmit data files or messages, this device requires a quality connection to the network. In some cases, transmission of data files or messages may be delayed until such a connection is available. Ensure the above separation distance instructions are followed until the transmission is completed. The highest SAR value for this device

when tested for use at the body is 1,32 W/kg.

\* The SAR limit for mobile devices used by the public is 2.0 watts/kilogram (W/kg) averaged over ten grams of body tissue. The guidelines incorporate a substantial margin of safety to give additional protection for the public and to account for any variations in measurements. SAR values may vary depending on national reporting requirements and the network band. For SAR information in other regions please look under product information at [www.lgmobile.com](http://www.lgmobile.com).

# Guidelines for safe and efficient use

## Product care and maintenance

**WARNING!** *Only use batteries, chargers and accessories approved for use with this particular phone model. The use of any other types may invalidate any approval or warranty applying to the phone, and may be dangerous.*

- ▶ Do not disassemble this unit. Take it to a qualified service technician when repair work is required.
- ▶ Keep away from electrical appliances such as a TV's, radios or personal computers.
- ▶ The unit should be kept away from heat sources such as radiators or cookers.
- ▶ Never place your phone in a microwave oven as it will cause the battery to explode.
- ▶ Do not drop.
- ▶ Do not subject this unit to mechanical vibration or shock.
- ▶ The coating of the phone may be damaged if covered with wrap or vinyl wrapper.
- ▶ Do not use harsh chemicals (such as alcohol, benzene, thinners, etc.) or detergents to clean your phone. There is a risk of this causing a fire.
- ▶ Do not subject this unit to excessive smoke or dust.
- ▶ Do not keep the phone next to credit cards or transport tickets; it can affect the information on the magnetic strips.
- ▶ Do not tap the screen with a sharp object as it may damage the phone.
- ▶ Do not expose the phone to liquid or moisture.
- ▶ Use accessories, such as earphones and headsets, with caution. Ensure that cables are tucked away safely and do not touch the antenna unnecessarily.
- ▶ Please remove the data cable before powering on the handset.

## Efficient phone operation

To enjoy optimum performance with minimum power consumption please.

- ▶ Do not hold the antenna when the phone is in use. If you hold it, it can affect call quality, it may also cause the phone to operate at a higher power level than needed and shorten talk and standby times.

## Electronic devices

All mobile phones may get interference, which could affect performance.

- ▶ Do not use your mobile phone near medical equipment without requesting permission. Avoid placing the phone over pacemakers (i.e. in your breast pocket.)
- ▶ Some hearing aids might be disturbed by mobile phones.

- ▶ Minor interference may affect TVs, radios, PCs, etc.

## Road safety

Check the laws and regulations on the use of mobile phones in the areas when you drive.

- ▶ Do not use a hand-held phone while driving.
- ▶ Give full attention to driving.
- ▶ Use a hands-free kit, if available.
- ▶ Pull off the road and park before making or answering a call if driving conditions so require.
- ▶ RF energy may affect some electronic systems in your motor vehicle such as a car stereo or safety equipment.
- ▶ If your vehicle is equipped with an air bag, do not obstruct it with installed or portable wireless equipment. It can cause serious injury due to improper performance.

# Guidelines for safe and efficient use

If you are listening to music whilst outside and about, please ensure that the volume is at a reasonable level so that you are aware of your surroundings. This is particularly imperative when attempting to cross the street.

## Avoid damage to your hearing

Damage to your hearing can occur if you are exposed to loud sound for long periods of time. We therefore recommend that you do not turn on or off the handset close to your ear. We also recommend that music and call volumes are set to a reasonable level.

## Blasting area

Do not use the phone where blasting is in progress. Observe restrictions, and follow any regulations or rules.

## Potentially explosive atmospheres

- ▶ Do not use the phone at a refueling point. Don't use near fuel or chemicals.
- ▶ Do not transport or store flammable gas, liquid, or explosives in the compartment of your vehicle, which contains your mobile phone and accessories.

## In aircraft

**Wireless devices can cause interference in aircraft.**

- ▶ Turn off your mobile phone before boarding any aircraft.
- ▶ Do not use it on the ground without crew permission.

## Children

Keep the phone in a safe place out of small children's reach. It includes small parts which if detached may cause a choking hazard.

## Emergency calls

Emergency calls may not be available under all mobile networks. Therefore, you should never depend solely on your mobile phone for emergency calls. Check with your local service provider.

## Battery information and care

- ▶ You do not need to completely discharge the battery before recharging. Unlike other battery systems, there is no memory effect that could compromise the battery's performance.
- ▶ Use only LG batteries and chargers. LG chargers are designed to maximize the battery life.
- ▶ Do not disassemble or short-circuit the battery pack.
- ▶ Keep the metal contacts of the battery pack clean.
- ▶ Replace the battery when it no longer provides acceptable performance. The battery pack may be recharged hundreds of times until it needs replacing.
- ▶ Recharge the battery if it has not been used for a long time to maximize usability.
- ▶ Do not expose the battery charger to direct sunlight or use it in high humidity, such as the bathroom.
- ▶ Do not leave the battery in hot or cold places, this may deteriorate the battery performance.
- ▶ Risk of explosion if battery is replaced by an incorrect type.
- ▶ Dispose of used batteries according to the manufacturer's instructions.
- ▶ If you need to replace the battery, take it to the nearest authorized LG Electronics service point or dealer for assistance.
- ▶ Always unplug the charger from the wall socket after the phone is fully charged to save unnecessary power consumption of the charger.

# Getting started

## Installing the SIM card and battery

### 1. Installing the SIM card.

Your SIM card contains your phone number, service details and contacts and must be inserted into your handset. Always disconnect the charger and other accessories from your handset before inserting and removing your SIM card. Slide the SIM card into the SIM card holder. Make sure that the SIM card is properly inserted and the gold contact area on the card is facing downwards. To remove the SIM card, press down lightly and pull it in the reverse direction.

To insert the SIM card

To remove the SIM card

### Note

► The metal contact of the SIM card can easily be damaged by scratches. Pay special attention to the SIM card while handling. Follow the instructions supplied with the SIM card.

### 2. Install the battery.

Slide the battery upwards until it snaps back into place.

### 3. To remove the battery.

Turn the power off. (If the power is left on, there is a chance you could lose the stored telephone numbers and messages.)

Press and hold down the battery release button and slide the battery down.

## Charging the battery

Before connecting the travel adapter to the phone you must first install the battery.

1. With the arrow facing you as shown in the diagram push the plug on the battery adapter into the socket on the left side of the phone until it clicks into place.
2. Connect the other end of the travel adapter to the mains socket.

### Note

► Only use the charger included in the box.

3. The moving bars on the battery icon will stop after charging is complete.
4. Ensure the battery is fully charged before using the phone for the first time.

# Getting started

## Caution

- ▶ Do not force the connector as this may damage the phone and/or the travel adaptor.
- ▶ If you use the battery pack charger when abroad, use an attachment plug adaptor for the proper configuration.
- ▶ Do not remove your battery or the SIM card while charging.

## Warning

- ▶ Unplug the power cord and charger during lightning storms to avoid electric shock or fire.
- ▶ Make sure that no sharp-edged items such as animal teeth or nails, come into contact with the battery. This may cause a fire.

## Disconnecting the charger

Disconnect the charger from the phone as shown in the diagram below.

## How to use a memory card

<Memory card>

### <How to insert memory card>

- 1 Turn the phone off. Inserting or removing the memory card when the phone is on may damage the files stored in the memory card.
- 2 Lift the plastic cover which protects the slot.

- 3 Insert the memory card into the slot. The gold contacts behind memory card must be facing down while inserting into the

phone. Don't push the memory card too much. If it doesn't go into the slot easily, you may be trying to insert it in the wrong way or there could be a foreign object in the slot.

- 4 Once inserted, push the memory card until you hear a 'Click', meaning that the memory card has been correctly engaged.

- 5 Close the plastic slot protection.
- 6 To remove the memory card, open the slot protection and push the memory card to unlock it. Carefully extract the memory card.

#### Attention:

- ▶ Avoid using the memory card when the battery is low.
- ▶ When writing to the card, wait for the operation to complete before removing the card.
- ▶ The card is designed to fit easily into the system one way only.
- ▶ Do not bend the card or force it into the slot.
- ▶ Do not insert any memory cards other than those made by memory card.
- ▶ If the memory card has been formatted using FAT32, format the memory card using FAT16 again.

For more information on the memory card, please refer to the memory card instruction manual.

# Getting started

## Memory card formatting

Before you start to use the memory card you have to format it. After you insert the memory card, select  → **Organiser** → **Memory**, then press .

This operation should only be done when you insert the memory card for the first time. During formatting various folders will be created for different data types.

## Turning the handset on/off

### Turning your handset on

Ensure that your SIM card is in your handset and the battery is charged. Press and hold  until the power comes on. Enter the SIM PIN code that was supplied with your SIM card if the PIN code request is set to On. After a few seconds you will be registered on the network.

### Turning your handset off

Press and hold  until the power goes off. Or press  and select Switch off!. There may be a few seconds delay while the handset powers down. Do not turn the handset on again during this time.

# General functions

## Making and answering calls

### Making a voice call

1. Enter the number including the full area code.

- ▶ To delete a digit press  .  
To delete all digits press and hold  .

2. Press  to make the call.

3. When you have a call in progress, you can access the followings by pressing the left soft key [Options].

- ▶ **Activate loudspeaker/handset:** You can switch on/off the loudspeaker to allow others nearby to participate in the conversation, for example.
- ▶ **End active call:** Select this if you want to finish active call.
- ▶ **Hold:** Select this to put a caller on hold. Select **Unhold** to continue your conversation.

- ▶ **Call Mute:** Select this to switch the microphone off. To switch it back on, press Unmute.
- ▶ **New call:** Select this to make a new call. Activating call is automatically held.
- ▶ **Open active standby:** select this to open active standby screen.
- ▶ **Conference:** Select this to create a conference call to converse with multiple people at the same time.

### Tip

- ▶ *To add a participant to a conference call, call the new participant, press the left soft key [Options] and select Conference > Add to conference.*
- ▶ **Switch to video call:** Ends the active call and automatically make a video call to the same number.
- ▶ **Send MMS:** You can send a media file to the other party as a multimedia message.

# General functions

- ▶ **Send DTMF:** To send touch tones.

## Tip

- ▶ *While a call is in progress, you can press the number keys to send DTMF tones. You can use DTMF tones to communicate with voice mailboxes and computerised telephony systems.*

- ▶ **Help:** Use this option to get to know the phone feature.

4. Press  to finish the call, or close the handset.

## Making a call from the call logs

1. In standby mode, press  and the latest incoming, outgoing and missed phone numbers will be displayed.
2. Select the desired number by using the up/down navigation keys.
3. Press  to call the number.

## Making a Video call

You can make a video call in a 3G covered service area. If the called user has a 3G video phone in a 3G covered service area, the call will be established. You can also answer a video call for video incoming call.

1. Input the phone number using the keypad, or select the phone number from the calls made/received lists.

- ▶ To correct mistakes, press  briefly to delete the last number, or press and hold  to delete all numbers.

2. If you do not want to use the speakerphone, ensure you have the headset plugged in.
3. To start the video function, press the left soft key [Options] and select **Call** → **Video call**.

- ▶ You will be notified that you will need to close other applications to make the video call.

**Note**

- ▶ *The video call may take some time to connect.*

4. Adjust the camera position if necessary.
5. When you have a video call in progress, you can access the followings by pressing the left soft key [Options].

▶ **Enable**

- Sending video: Select this to send your own video image.
- Sending audio: Select this to unmute the microphone so as to allow audio sending.
- Sending aud. & video: Select this to send your video and audio.

**Note**

- ▶ *You can zoom your video image in or out using up /down navigation keys.*

▶ **Disable**

- Sending video: Select this not to send your video image.

- Sending audio: Select this to mute the microphone so as not to allow audio sending.

- Sending aud. & video: Select this not to send your video and audio.

- ▶ **Activate loudspeaker/handset:** You can switch on/off the loudspeaker to allow others nearby to participate in the conversation, for example.

- ▶ **Video preference:** Select **Clearer detail** to set received video quality preference with a lower frame rate but a good image quality. Select **Smoother video** to use a higher frame rate but a lower image quality.

- ▶ **Send snapshot:** You can take a picture and send it to the other party. Press **Capture** to take the picture and **Use video** to return to the regular video call after sending it.

# General functions

- ▶ **Share image:** You can send an image in the **Image** folder in **My stuff**.
- ▶ **End active call:** Select this to answer a video call while you already have another video or voice call in progress.
- ▶ **Open active standby:** To open the standby mode image on the display.
- ▶ **Use secondary camera:** Select this to use the secondary camera.
- ▶ **Change image order:** To switch the location of the other party's and your own video or still image on the display.
- ▶ **Zoom in/out:** You can zoom your video image in or out.
- ▶ **Switch to voice call:** Ends the video call and automatically redial the same number for a regular voice call.

- ▶ **Help:** Use this option to get to know the phone feature.

6. Press  to finish the call, or close the handset.

## Making a voice/video call from Contacts

It is easy to call anyone whose number you have stored in your Contacts.

1. Move the joystick to the down to access the contacts list.
2. Scroll to the contact to make a call.
3. Press  to make a voice call. Press the left soft key and select **Make video call** to make a video call.
4. Press  to finish the call.

## Making international calls

1. Press  twice for the international prefix. The '+' character prefixes the international access code.
2. Enter the country code, area code, and the phone number.

3. Press .

## Adjusting the volume

During a call, if you want to adjust the earpiece volume, use (  ) on the left side of the phone.

## Answering a call

When you receive a call, the phone rings and the flashing phone icon appears on the screen. If the caller can be identified, the caller's phone number (or name if stored in your Contacts) is displayed.

1. Press  to answer an incoming call.

### Note

- ▶ To reject an incoming call, press  or the right soft key twice.
- ▶ If Anykey answer is set to On (Menu → Settings → Phone → Call → Anykey answer), any key will answer a call except .

2. End the call by pressing .

### Note

- ▶ You can answer a call while using the Contacts or other menu features.
- ▶ When the compatible headset is connected, you can also answer a call using the headset key, as well as using the phone. To reject an incoming call, press .
- ▶ You can mute the ringtone when a call comes in by pressing the right soft key [Silence].

## Shortcut to activate silent mode

You can activate the silent mode by pressing and holding down  when Flip of the phone is closed. Or press  and select **Silent**.

## Entering text

You can enter alphanumeric characters using the keypad.

For example, storing names in Contacts, writing a message, creating a personal greeting or scheduling events in the calendar all require

# General functions

entering text. The following text input methods are available with the handset.

## T9 Mode

 Abc  abc

This mode lets you enter words with only one keystroke per letter. Each key on the keypad has more than one letter. The T9 mode automatically compares your keystrokes with an internal dictionary to determine the correct word, thus requiring far fewer keystrokes than the traditional ABC mode. This is sometimes known as predictive text.

**Mode**  Abc  abc

This mode lets you enter letters by pressing the key labeled with the required letter once, twice, three or four times until the letter is displayed.

## 123 Mode (Numbers Mode)

 123

Type numbers using one keystroke per number. To change to 123 mode in a text entry field, press the  key until 123 mode is displayed.

## Changing the text input mode

When you are in a field that allows characters to be entered, you will notice the text input mode indicator in the upper right corner of the LCD screen.

- ▶ Press  to cycle between  Abc,  abc,  Abc,  abc.
- ▶ Press and hold  to switch between text entry mode and number entry mode.

## Using the T9 Mode

The T9 predictive text input mode allows you to enter words easily with a minimum number of key presses.

As you press each key, the handset begins to display the characters that it thinks you are typing based on a built-in dictionary. As new letters are added, the word changes to reflect the most likely candidate from the dictionary.

1. When you are in the T9 predictive text input mode, start entering a word by pressing **2abc** to **9wxyz**. Press one key per letter.

- ▶ The word changes as letters are typed. Ignore what's on the screen until the word is typed completely.
- ▶ If the word is still incorrect after typing completely, press **\*+**  once or more to scroll through the other word options.

### Example

Press **2abc** **4ghl** **2abc** **6mno** to type

**Good.**

Press **\*+**  to get **Home**.

- ▶ If the desired word is missing from the word choices list, add it by using the ABC mode.

2. Enter the whole word before editing or deleting any keystrokes.

3. Complete each word with a space by pressing **0..**.

To delete letters, press **<**. You can press and hold down **<** until the entire words are deleted.

## Using the ABC Mode

Use **2abc** to **9wxyz** to enter your text.

1. Press the key labelled with the required letter:
  - ▶ Once for the first letter.
  - ▶ Twice for the second letter.
  - ▶ And so on.
2. To insert a space, press **0..** once. To delete letters, press **<**. Press and hold down **<** to clear the display.

# General functions

## Using the 123 (Number) mode

The 123 mode enables you to enter numbers in a message (a telephone number, for example). Press the keys corresponding to the required digits before manually switching back to the appropriate text entry mode.

In the text entry mode, you can enter numbers by long press on the corresponding keys.

## Using the symbol mode

The symbol mode enables you to enter various symbols or special characters.

1. To enter a symbol, press Edit key [  ] and select **More symbols**. The symbol list window is shown up.
2. After selecting the desired one using navigation keys, press .

## On-screen icons

3. Select the contact to whom you want to assign the speed dial. Select the phone number.

You can call a phone number linked to a speed dialling key in standby mode by pressing the speed dial and then .

## Note

- ▶ To call a number linked to a speed dialling key just by pressing and holding the speed dial in standby mode, open **Settings** → **Phone** → **Call** → **Speed dialing** and select **On**.

To assign a speed dialling key to a different phone number:

1. Scroll to the speed dialling number and press the left soft key [Options].
2. Select **Change**.
3. Select the new contact and number.

You can remove a number linked to a speed dial by pressing the left soft key [Options] and selecting **Remove**.

The contact and phone number you remove will remain in your **Contacts**.

## Themes

You can change the look of your phone's display. In Themes, you can select different themes, which consist of various settings that affect the appearance of your phone's display.

Some themes may also include ringtones or message alert tones.

## General

You can preview or change the theme used for all applications that do not have their own themes or download more themes to your phone.

## Menu view

You can change the display appearance of applications in **Menu** between **Grid** and **List** formation.

## Wallpaper

You can change the background image on the display in standby mode. To change the background image on the display in standby mode, scroll to Image and press .

## Power saver

You can change the option that appears as power saver when your device has been idle and no keys have been passed for some time: **Date and time**, **Text** or **Animation**.

# Tools

## Tip

- ▶ You can key in the Power saver time-out after which the power saver is turned on, in **Menu** → **Settings** → **General** → **Personalisation** → **Display**.

## Note

- ▶ You can also choose any other power saver you may have installed on your phone.

Using the left soft key [Options], you can access the followings: **Preview**, **Settings**.

## Actv. keys

You can view and manage usage rights for media files in your phone. Some media files, such as images, music or video clips are protected by digital usage rights.

The activation keys for such files may allow or restrict their usage. For example, with some activation keys you may listen to a music track only a limited number of times. During one

playback session you may rewind, fast-forward or pause the track, but once you stop it, you have used one of the instances allowed.

## Valid keys

To view detailed info about your usage rights for a media file, such as their validity status and whether you can send the media file to other devices, scroll to the corresponding activation key and press .

## Tip

- ▶ In the activation key details view, you can see the validity status of the key, details about your usage rights and restrictions for the corresponding media file and where the media file is currently saved on your device.

Using the left soft key [Options], you can access the followings. **Get new key**, **Reload**

To delete the activation key for a media file and the media file itself, scroll to the key and press .

## Invalid keys

To view detailed info about your expired or missing usage rights for a media file, scroll to the corresponding activation key and press **OK**.

### Tip

- ▶ *Activation keys expire when you run out of instances when you are allowed to use a media file or the time period for using the file ends.*
- ▶ *In the activation key details view, you can see the validity status of the key, details about your usage rights and restrictions for the corresponding media file and where the media file is saved on your device.*

Using the left soft key [Options], you can access the followings. **Get new key, Reload.**

### Note

- ▶ *You may not be able to buy more instances or extend the usage period for all media files.*

## Not in use

Unused activation keys are usually for media files that have been deleted from the device or saved on a removed memory card. To view detailed info about an activation key not in use, scroll to it and press **OK**. Using the left soft key [Options], you can access the followings.

**Reload, Restore activation keys.**

## App. mgr.

You can install and update Java and other applications or components compatible with the Symbian operating system.

You can receive software installation packages via e-mail or multimedia messaging, transfer them from a computer or download them from the Web.

To download and install software from the Web, select **Download apps**.

# Tools

Scroll to an application and press the left soft key [Options] to access the followings: **Install, Open, View details, Send, Remove, View log, Settings**

## GPS data

### Note

- *For the GPS data application to function correctly, a satellite-based positioning method must be in use. To select the positioning method used to detect the location of your device, press Option → Positioning settings.*

## Navigation

You can view navigating info to your trip destination. Duration provides you with an estimate of the remaining time before you reach your destination at your current travelling speed.

### Tip

- *The top of the display must point in the direction you are moving for the direction to your destination to remain valid.*

Using the left soft key [Options], you can access the followings: **Set destination, Stop navigation, Save position, Satellite status.**

## Position

You can view positioning info, such as the latitude and longitude coordinates and the altitude of your current location. You can also see the accuracy of this info.

Using the left soft key [Options], you can access the followings: **Save position, Satellite status.**

## Trip distance

You can view your travelling info, such as the distance, duration you have travelled, your average speed and maximum speed.

Using the left soft key [Options], you can access the followings: **Start, Stop, Resume, Reset, Restart, Clear, Satellite status.**

## Note

- *The GPS data application must receive positioning info from at least 3 satellites to function as a travelling aid. If the satellite signal is lost during the trip, the trip distance values you can see are not current, but based on the latest positioning info available.*

## Landmarks

You can map particular locations in your device and make it easy to find them.

Using the left soft key [Options], you can access the followings: **Edit, New land mark, Delete, Add to category, Send, Call, Go to web address, Mark/Unmark, Edit categories, Landmark icon.**

## Device mgr.

To view or update the current software version of your device.

Using the left soft key [Options], you can access the followings: **Install update, Check for updates, Settings.**

## Note

- *Before the installation, make a backup of the data in your device, and check that the device battery has enough power or connect the charger.*

## Help

You can read instructions about using the applications and functions of your phone.

## About

You can see the copyright information of this product.

# Settings

## General

You can edit the general settings of your device or restore the original default device settings.

## Personalisation

To edit settings related to the display, standby mode and general functionality of your device.

- ▶ **Display:** You can edit brightness, list font size and other display settings. After setting each value, press the right soft key [Back]: **Brightness, List font size, Power saver time-out, Welcome note / logo or Light time-out.**
- ▶ **Standby mode:** To select the general theme for your device, edit the theme settings and display or hide the operator logo. **Active standby, Shortcuts or Active standby apps.**
- ▶ **Tones:** To edit settings for the various sounds produced by your phone.

- ▶ **Themes:** To change the look of your device's display.

## Note

- ▶ **Language:** To select the languages for the phone texts and for you to write messages, notes and other texts.

## Date and time

To edit time and date settings.

## Enhancement

You can edit settings related to the various enhancements such as **Headset** and **Wireless car kit** you can use with your device.

- ▶ **Headset:** **Default profile, Automatic answer.**
- ▶ **Wireless car kit:** **Default profile, Automatic answer.**

## Security

You can edit settings related to the security of your personal information on your phone or SIM card and data

connections between your device and the network.

► **Phone and SIM card:** To change the PIN and other security codes and edit other security settings for your phone and SIM card: **PIN code request, PIN code, PIN2 code, Keypad autolock period, Phone autolock period, Lock code, Lock if SIM card changed, Confirm SIM services.**

► **Certificate management**

To view and manage the digital certificates in your phone.

► **Security module**

To view or edit security modules.

## Factory settings

To restore the default settings of your device or remove any operator settings, press the left soft key [Yes] and key in the lock code.

### Note

► *Default lock code is 12345.*

## Positioning

The location of your device can be detected and the info can be used by other applications in your device.

## Phone

You can edit the general settings related to making and receiving calls.

### Call settings

► **Send my caller ID:** Scroll to **Yes** to display your caller identity to the people you call, **No** to hide it or **Set by network** to follow the default setting of your home network.

► **Call waiting:** To be notified of incoming calls while you have a call in progress, select **Activate**.

► **Reject call with SMS:** To send an explanatory text message to callers when you reject their call, select **Yes**.

► **Message text:** Key in the text for the message to send to rejected callers.

# Settings

- ▶ **Image in video call:** To send a still image to video callers if you disable sending your video during the calls.
- ▶ **Automatic redial:** To have your phone redial when numbers are busy or calls are not answered, select **On**.
- ▶ **Show call duration:** To have the length of a call displayed during the call, select **Yes**.
- ▶ **Summary after call:** To have the duration of a call briefly displayed after the call, select **On**.
- ▶ **Speed dialling:** To call the phone numbers to which you have assigned speed dialling keys by pressing and holding the speed dial key, select **On**.
- ▶ **Anykey answer:** To answer incoming calls by pressing any key except the End and Power keys, select **On**.
- ▶ **Line in use (shown if ALS is supported by SIM):** Select either of your phone lines as the primary line for making calls and sending messages.

- ▶ **Line change (shown if ALS is supported by SIM):** To prevent the primary line from being changed, select **Disable**. You need your PIN2 code to change this setting.

## Note

- ▶ *The accessibility of some Call settings depends on the availability and your subscription to the network services. Contact your service provider for more information.*

## Call divert

You can divert incoming calls to your voice mailbox or to another phone number.

- ▶ **Voice calls:** You can divert incoming voice calls to your voice mailbox or to another phone number. Select **Activate** → **To voice mailbox** or **To other number**.

To cancel the diverting of calls, scroll to the active divert options, press the left soft key [**Options**] and select **Cancel**.

To check your current diverts, scroll to the call divert options, press the left soft key [Options] and select **Check status**.

- ▶ **Data and video calls:** You can divert incoming data and video calls to another phone number.

## Call barring

You can restrict the receiving of calls: **Outgoing calls/ International calls/ International calls except to home country/ Incoming calls/ Incoming calls when abroad**.

To edit mobile call barring settings, you need a password. You obtain the barring password from your service provider upon subscription to this network service. Call barring affects all voice and data calls, except emergency calls. Scroll to barring options, press **OK** and select:

- ▶ **Activate** to restrict calls.
- ▶ **Cancel** to undo call restriction.
- ▶ **Check status** to see if calls are restricted or not.

## Network

You can select the network type, the manner of selecting networks and indicate when your phone is used in a Micro Cellular Network: **Network mode, Operator selection, Cell info display**

## Connection

You can edit access point and other connection settings.

## Bluetooth

You can edit settings for Bluetooth connectivity. For further information. Bluetooth provides you with wireless connections to other Bluetooth devices such as computers or other phones: **Bluetooth, My phone's visibility, My phone's name**.

### Tip

- ▶ *Give a unique name to your phone to make sure it is easy to recognise when there are several Bluetooth devices in the vicinity.*

# Settings

## USB

You can change the device type to which you normally connect your phone with the USB cable. **USB mode, Ask on connection.**

## Access points

You can view, create, and manage access points. An access point is where your phone connects to the network by way of a data call or packet data. To use e-mail and multimedia services or to browse web pages, you must first define internet access points for these services.

1. To create a new access point, press the left soft key [**Options**] and select **New access point**.
2. Scroll to the following settings and press  to edit: **Connection name, Data bearer, Dial-up number, User name, Prompt password, Password, Authentication, Homepage, Data call type, Maximum data speed.**

3. To save your settings, press the right soft key [Back].

The icons on the left-hand side of the access points indicate their data bearers.

To edit an access point, scroll to it and press .

To delete an access point, scroll to it and press .

## Note

- *For further information, please refer to the Help option on the handset.*

## Packet data

You can set when to use packet data connections and key in the access point to be used if you use your phone as a modem for a computer.

### ► Packet data connection:

Define when to use packet data connections.

- **Access point:** If you use the phone as a modem to enable packet data connectivity from a computer, scroll to this and press . Key in the access point name and press

**OK.** Contact your service provider for the access point name for modem connections.

To save your settings, press the right soft key [**Back**].

## SIP settings

You can create or edit session initiation protocol (SIP) profiles, which are necessary for making Internet calls.

To create a SIP profile, press the left soft key [**Options**] and select **New SIP profile** → **Default profile** or **Use default profile** to select a profile as the basis for the new profile.

To edit a SIP profile, scroll to it and press .

To select the SIP profile you want to use by default for communications sessions, scroll to the profile, press the left soft key [**Options**] and select **Default profile**.

To delete a SIP profile, scroll to it and press .

## Note

► *SIP profiles may be preset in your device or you may receive them from your service provider. You may not be able to edit or manage SIP profiles.*

## Configurations

You can view or delete trusted servers from which your phone may receive configuration settings. You can receive messages from your network operator, service provider, or company information management department. These messages contain configuration settings for trusted servers and are automatically saved in **Configurations**. From trusted servers you may receive configuration settings for access points, multimedia or e-mail services, and synchronisation settings.

To delete configurations for a trusted server, scroll to the server and press . The configuration settings for other applications provided by this server are also deleted.

# Settings

## Note

- *For example, you may need to delete trusted server configurations and the configuration settings provided by it when you change your service provider.*

## Applications

You can edit the settings of different applications.

### RealPlayer

You can change RealPlayer video or connection settings:

**Video, Streaming.**

### Camera

You can edit image or video settings. For further information, please refer to p.35-37.

### Voice recorder

You can select the recording quality and default memory for your sound clips: **Recording quality, Memory in use.**

## App. manager

You can edit the Application manager settings.

Some software packages that you install in your device may contain certificates for additional security:

**Software installation, Online certificate check, Default web address.**

## Log

You can set the time period to keep log events and to display call duration during calls.

## Note

- *If you select **No log**, all log contents are permanently deleted.*

## Tip

- *You may also edit the settings of other applications installed in your device by your service provider that appear on the list.*

# Accessories

There are various accessories for your mobile phone. You can select these options according to your personal communication requirements.

## Charger

## Hands free ear-microphone and controller combo

## Standard Battery

## Data cable/CD

You can connect your phone to PC to exchange the data between them.

## Note

- ▶ Always use genuine LG accessories.
- ▶ Failure to do so may invalidate your warranty.
- ▶ Accessories may vary in different regions: please check with our regional service company or agent for further information.

## WARRANTY CARD

This LG handset and charger comes with a 12-month warranty from date of purchase or 15 months from manufacturing date of corresponding IMEI No. Of the unit whichever is earlier, against defect in material or workmanship. In case of a defect, LG Electronics India Pvt. Ltd. undertakes to get the set repaired free of charge through its authorised service centre (ASC) or service dealer subject to following conditions:

### Terms and Conditions

1. This warranty is applicable to the first purchase and in no case it can be transferred or extended.
2. Repair of this product will be carried out on a carry in basis to the nearest ASC.
3. While the company will make every effort to carry out repairs at the earliest, it however is made explicitly clear that the company is under no obligation to do so in a specified period of time.
4. The company or its authorised ASC/ service dealer reserves the right to retain any parts of the component/s replaced at its discretion. In the event of a defect being noticed in the equipment during the warranty period.
5. This warranty entitles the purchaser to free of cost repairs of the unit within warranty period and does not entitle for replacement or refund of entire unit. Claims, if any, to this warranty shall in no case exceed the purchase price of the unit.
6. In case of any software upgradation of the phone, no warranty is provided on phone memory or phone book.
7. The warranty is void in case the serial no./ IMEI no. is tampered / disfigured or details in the warranty card are not properly filled up at the time of purchase.
8. This warranty is not valid for damages resulting due to negligence, mishandling, improper use, tampering, breakage, soaking, fire, unauthorised repair and failure due to network upgrades.
9. Batteries are covered under warranty for a period of 6 months from date of purchase or 9 months from date of corresponding IMEI no. of the unit whichever is earlier
10. Warranty does not cover accessories external to the equipment supplied by the dealer.
11. The Delhi / New Delhi courts shall have the jurisdiction to try any dispute and /or suits related to or arising out of this agreement.
