## VOICE COMMAND FEATURES

The VX6100 by LG is enabled with speaker-independent voice recognition. This technology makes it possible for any user to dial a number by speaking the name of a contact entered in the phone book or by speaking the digits of a phone number. Voice command also provides quick and easy access to other essential features and when coupled with speakerphone and driving mode, offers true hands-free usage without additional equipment.

### Activating Speakerphone

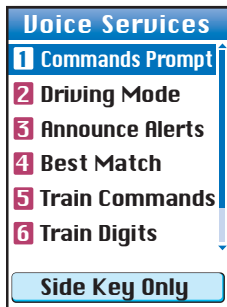

1. From main screen, press the **speakerphone** icon (up) on the Navigation Key and "**Speaker On**" will appear on the screen. To deactivate, press the key again and "**Speaker Off**" will appear on the screen.

## VOICE SETTINGS

### Commands Prompt

Allows you to select how voice recognition is activated.

1. From the **Settings (8)** menu, select **Voice Services (7)**.
2. Select **Commands Prompt (1)**.
3. Use the Navigation Key to select from **Flip Open** or **Side Key Only** and press **OK**.
