

# DUAL TECH PENDANT

## USER'S MANUAL

## Dual Tech Pendant (DTP)

A long life battery, designed to last for approximately five years powers the Elcombe Dual Tech Pendant (DTP) contained herein. When the battery runs low, or it is damaged, the entire pendant needs to be replaced. For a replacement pendant contact your dealer or Elcombe Systems Limited.

**Warning:** There are no user-serviceable parts in the pendant. Do not try to replace batteries in the pendant. Do not dispose of the pendant in fire or expose it to temperatures in excess of 60° C (140° F). Do not crush, puncture, open, dismantle, or mechanically interfere with the pendant.

## Replacement

## Regulations

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. This equipment has been tested and found to comply with the limits for a Class B Computing Device, pursuant to part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation.

This equipment has been tested and found to comply with the limits for a “Class B” digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- reorient or relocate the receiving antenna
- increase the separation between the equipment and receiver
- connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by Elcombe Systems Limited could void the user's authority to operate the equipment.

Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation in the device.

L'utilisation de ce dispositif est autorisée seulement aux conditions suivantes: (1) il ne doit pas produire de brouillage, et (2) l'utilisateur du dispositif doit être prêt à accepter tout brouillage radioélectrique reçu, même si ce brouillage est susceptible de compromettre le fonctionnement du dispositif.
