

HB70 HANDSET

Features:

- Easily operated by both left and right handers
- Ergonomic and elegant design
- Tactile switches secure long lifetime
- Up to 10 easy-touch buttons
- Protection class IP66
- 600 mm coiled cable
- Colour black (RAL 9005)

Options:

- Customised front cover
- Memory options
- Simultaneous drive of more actuators
- Colour grey (RAL7035) / dark grey (RAL 7016 - only CB6/LA27 system)
- Protection class IP66 washable
- Protection class IP51 (CS27)

Usage:

- Compatible with most LINAK control boxes
- Approved according to: EN 60601-1, EN 60335-1 and UL 60601-1 as part of a LINAK actuator system

CARELINE[®]
IMPROVING EFFICIENCY

HB70 combines ergonomic design and functionality.

LINAK offers HB70 with protection class IP 66 as standard and a range of options such as control of up to 5 actuators, memory and simultaneous drive. HB70 is designed to operate with most LINAK control boxes.

Dimensions (mm):

Precautions:

- It is not possible to combine the HB7x with the binary based CB9..PM/PN.
- The IP66 Washable version has a special adhesive for the front covers.
- The **HB75xEx** used together with the CB140 will give trend and anti-trend on channel 1 and 2 of the control box when using the last button row.
- All front covers use the codes W0 (not Washable) and WW (Washable)

Memory:

- The memory and parallel functions require the control box to have a microprocessor.
- When storing the memory position on the CB20, CB14, CB18MKII and newer versions the actuators must be run to the desired position and the "store" button (S) must be pushed. Then the desired memory position button (1, 2 or 3) must be activated within 2 seconds.

Box Colour

- + = Grey - RAL 7035 (not for CB6)
- = Black (not for CB6)
- = = Dark grey - RAL 7016 (Only for CB6 and CS27)

Front cover = XX (see page "HB70 Standard front covers")

Functionality = XX (see next page)

IP Degree

- 1 IP51 (if cable type 0 (Only CS27))
- 6 IP66
- 9 IP66 washable ("WW" means washable, as part of the front cover code)

Number of ROWS (exclusive rows for memory)

Max. 5 rows
 Max. 3 rows for memory types (not including memory rows)

HB-Type

For customised front covers, please contact the sales department at LINAK A/S.

Functionality overview for the HB7X :

- 0x (HB40 like) for: CB6 (CB6 with 3 ch. = ch.1,3 and 4), CB7, CB8, CB18 (max. 3 channels),TDC, CBJH, sometimes CB9..AX and CB12 - see also Hx
- Ex (Matrix) for: CB9..Px (not CB9..PM/..PN) and CB14
- EF (Matrix) for: CB140
- Hx (HB40 like, common gnd) for simultaneous drive on both CB9 and CB12
- EW (Memory / Matrix) for: CB9..Px (not CB9..PM/..PN) and CB14
- LO (Binary) for: CB18MKII and newer versions
- Vx (OPENBUS™ functionality)

Functionality explanation:

The digits above the functionality drawings are to be used as part of the product item number.

- On page 3, in the ordering example, there is a space reserved for 2 "functionality" digits (between the IP degree and the last 2 digits of the front cover number).
- I.e. if you need a HB72 you can e.g. choose between "02" and "H2" functionalities.
- "02" functionality is compatible with CB6, CB7, CB8,..... ;
- "H2" functionality for simultaneous drive on both CB9 and CB12
