Getting to know your LCD Screen

Turning Your Ego LS On/Off

Press and hold the Power/Mode Key to either turn your Ego LS On or Off

Changing Camera Modes

Press the Power/Mode Key to toggle through the different modes: 720P / 1080P / Photo / Continuous Photo / Burst / Wireless Settings / Other Settings

Taking Videos

Press the Shutter/Select Key to start or stop recording.

Taking Photos

Press the Power/Mode Key until you select the desired photo mode :

- Single Photo - (Red LED)
- Continuous Photo - (Purple LED)
- Burst - (Yellow - LED)

Press the Shutter/Select Key to take a picture.

For Continuous Photo Mode, press the Shutter/Select Key to start the recording of photos at a rate that you set in the settings menu. Press the Shutter/Select Key again to stop recording.

Using your Ego LS

Step 1. Download the Liquid Image LIVE app

From your smartphone or tablet go to the Google Play Store or Apple Store, search for and select Liquid Image LIVE and follow the on screen instructions.

Step 2. Connecting the Ego LS to a Smartphone or Tablet

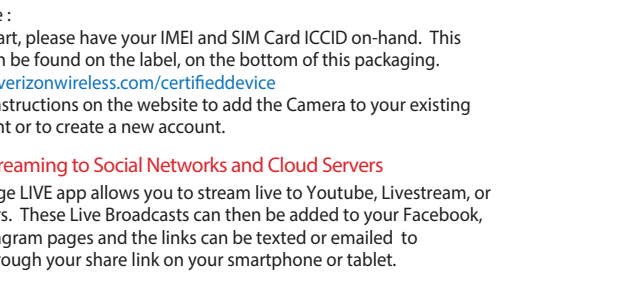

From your smartphone or tablet, go to the Settings Menu and turn Wi-Fi on. Select the EGO LS Camera, which will appear as "DIRECT-LICEgoLS" and enter password "LICEgoLS".

Step 3. Open the Liquid Image LIVE app

Open the Liquid Image LIVE app and tap on the Connect Button on the screen. Select the Ego LS Camera that you would like to connect with.

Using the Liquid Image LIVE app

Basic Features of the Liquid Image LIVE app

Devices and software are constantly evolving - the screen images and icons you see here are for reference only.

More Information

Download a User Guide from www.liquidimageco.com/pages/support or call (800) 985-2053 to order a copy.

Step 4. Activate your 4G LTE Service

Activate on line :
1) Before we start, please have your IMEI and SIM Card ICCID on-hand. This information can be found on the label, on the bottom of this packaging.
2) Go to www.verizonwireless.com/certifieddevice
3) Follow the instructions on the website to add the Camera to your existing wireless account or to create a new account.

Step 5. Set up Streaming to Social Networks and Cloud Servers

The Liquid Image LIVE app allows you to stream live to Youtube, Livestream, or to Cloud Servers. These Live Broadcasts can then be added to your Facebook, Twitter, or Instagram pages and the links can be texted or emailed to your friends through your share link on your smartphone or tablet.
