<p>HERTY GERTY TUBULAR KEY MACHINE</p>  <p>AIHG-1 796⁰⁰</p> <p>AIHG1-605C Carbide Cutter 97⁰⁰</p> <p>Duplicate tubular keys without having to make a large investment. Extremely easy to operate: Decode the original key with the supplied decoder and place the blank on the index hub. Dial the desired cut-depth, turn the hand crank, and you've made your tubular key. In just seconds, this extraordinary equipment will cut #137 tubular keys — Ace standard, small (137S), large(137A, UL), offset right and left; in addition to Gem, Taylor, and others with spacing anywhere from 0° to 360 ° Supplied complete with decoder, special high speed steel cutters and complete instructions in a convenient wooden case.</p>	<p>EJECTOR PUNCHES</p> <p>TBIP </p> <p>TBMP </p> <p>Two tools for ejecting IC cores.</p> <p>TBIP - Originally designed for use with THE BLOCK, this punch is suitable for most any I/C core.</p> <p>TBMP - Use this time saving 4 pronged punch to eject cores. Suitable for manual use and with A-1's service equipment. Ejects cores with two hits instead of 6 or 7.</p> <p>AITBIP AITBMP 24⁰⁰ 40⁰⁰</p>	<p>COMPLETE SERVICE KIT FOR I/CORE</p>  <p>Includes A1 tools</p> <p>TB1 Decoding Block TB2 Multi-Use Capping Block TB3 Dumping Block</p> <p>AIICKT 430⁰⁰</p> <p>If purchased separately, a combined price of 427.70. Buy as a kit and save 32.70</p>
<p>PLUG SPINNER</p>  <p>AI26 72⁴⁶</p> <p>This tool is a must when it's easier to pick a lock backwards instead of in the right direction. With the lock picked in the direction, simply wind the spinner in the proper direction, set the trigger, insert the blade into the plug and then release the trigger. The plug is now picked in the right direction.</p>	<p>THE BLOCK</p> <p>An interchangeable core hold fixture, designed to service Best/Falcon type systems with a maximum of seven pins. It's easy-to-use; just drive the pin stacks into the Block where the pin tray area keeps them separated. Works better than shimming or hand disassembly because, when opened, all pin stacks are accessible yet secure. Made of anodized aircraft alloy.</p>  <p>AITB1 186⁰⁰</p>	<p>CAPPING BLOCK</p>  <p>AITB2 176⁰⁰</p> <p>Designed to save you space, time and money, TB2 is more than just a capping block. It is a versatile and compact workstation for interchangeable cores that's lie having two capping blocks in one unit. Made with hard anodized aircraft alloy and heat-treated steel, it comes with two different tops which allows it to cap Best, Eagle, Arrow and Falcon cores.</p>
<p>DUMPING BLOCK</p>  <p>AITB3 108⁰⁰</p> <p>Dumps and holds pins and springs from dozens of cores made by Best, Eagle, Arrow and Falcon. Using the standard ejector pin (included), simply drive the pin stacks into the lower compartment until they are ready to be disposed. Hardcoat anodized aluminum construction.</p>	<p>DUO BLOCK</p> <p>Can be used for both .140 and .150 spacing. Ideal for capping Best® type cylinders and KABA Peaks®. Caps both standard and spring (slide covered) I/cores.</p>  <p>AITB4 164⁰⁰</p>	<p>CORBIN RUSSWIN IC SERVICE BLOCK</p> <p>The first multipurpose fixture for servicing CorbinRusswin interchangeable core.</p> <ul style="list-style-type: none"> • Control lug can swing out for pinning or checking of the control shear line • Holds core secure for the safe staking or removal of the spring cover • Allows for pinning of both 6 & 7 pin cores • Durable anodized aircraft alloy  <p>AITB5 214⁰⁰</p>

CAPSAVER™ PRESS FOR INTERCHANGEABLE CORE

The most time consuming task of capping cores is placing the small caps onto each chamber of the core. With the CapSaver™ Press, A-1's exclusive CapSaver™ strips will replace traditional caps. The CapSaver™ press actually punches and forms the caps as it seats them into the core.

Users will realize a considerable amount of direct savings in both time and materials. Actual tests demonstrate that 30 seconds is saved just in the time spent loading the 6 or 7 caps before staking them.

Each CapSaver™ strip is designed to cap four 6 or 7 pin cores and costs users about half as much as the caps produced by a leading manufacturer (suggested dealer price).

AICAP-5 CapSaver™ Press for I/Core	1520.00
AICS-50 CapSaver™ Strips - 50 count	50.00
AICS-250 CapSaver™ Strips - 250 count	250.00

CAPPING PRESS

Caps and dumps IC cores. The only capping press which also dumps cores, this machine costs about half as much as many less versatile capping presses.

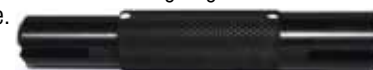

AI40A	Accessory Top	96.00
AI40B	Accessory Kit for .140 spacing	170.00
