BRASS CONVERTIBLE REKEYABLE PIN TUMBLER PADLOCKS 83/45

In seconds the 83/45 converts to either a key-retaining or non-key retaining padlock. (All it takes is a Phillips head screwdriver.) This means that in just one lock you have the instant capability to meet your customers' needs for either retaining or non-key retaining security. The Z-Bar makes the difference.

VIDEO SURVEILLANCE PRODUCTS

7" Home & Commercial Video Surveillance Set Touch & App

Includes:

- 1x 7" LCD monitor with docking station
- 1x IR wireless outdoor camera 2.4 GHz incl. camera mount and mounting material
- 1x network cable
- 2x power supply units
- 1x antenna

The set contains everything you need to put the product into operation: a wireless outdoor camera for 24/7 operation and a 7" wireless monitor with an intuitive touchscreen for easy operation. Just download the ABUS app and "park" the monitor in the docking station. Operating the device via the touchscreen is very easy with the user-friendly menu. Recordings are made directly to an SD card in the monitor. The complete set includes the monitor and one wireless camera. The surveillance set can be extended with up to four cameras (TVAC16010C), which means you can add up to three additional cameras.

ABTVAC16000C 7" Surveillance Set 499.00

3.5" Home & Commercial Video Surveillance Set

Includes:

- 1x 3.5" TFT monitor
- 1x IR wireless external 2.4 GHz camera, including camera mount and installation material
- 1x 4 GB SD card
- 2x power supply units
- 1x chinch-BNC adaptor
- 1x AV cable
- 1x antenna

This complete package offers everything to quickly set up a wireless video surveillance system for your home or smaller properties (from 1 up to 4 cameras). It contains a 2.4 GHz wireless monitor and an IR wireless outdoor camera with a PIR motion sensor to transmit video and audio signals wirelessly over medium to large distances and then display them on the monitor. No wiring is needed. Interferences and disturbances are as good as non-existent, since the video and audio data are converted to digital signals, which enables a good range and transmission quality. As soon as the camera's PIR sensor detects movement, it transmits video and audio data to the monitor, which then starts recording to the SD card. You can connect up to 4 cameras (TVAC15010C) to the monitor and display the videos in a quadruple view.

Wireless Surveillance Set - TVAC18000C

- Complete set with recorder, 2 x wireless outdoor cameras, 3 x power supply units and accessories
- Simple step-by-step installation with app and QR code (iOS, Android)
- App access of up to 4 cameras
- Recording on max. 32 GB micro-SD card (accessory) or max. 2 TB external hard disk drive via USB port
- Up to 3 months of continuous recording with 500 GB external hard disk drive (accessory)
- Sturdy, weatherproof outdoor cameras (IP66)
- Professional integrated motion detection (PIR sensor) with alarm function
- VGA resolution and infrared night vision function
- Low network load thanks to compressed data transfer
- Integrated motion detection (PIR sensor)

ABTVAC18000C 700.00

ABTVAC18010C 220.00
IR Wireless Camera for this set.

DIGITAL DOOR VIEWER HD

Includes:

- 1x digital door viewer
- 1x fixing bracket
- 1x tightening device (washer)
- 1x door viewer lens
- 1x door viewer cylinder
- 2x AA batteries

With this battery-operated digital door viewer, you always know who is standing in front of your door. The video door viewer makes it easy for you and your family to recognize strangers at your door – thanks to HD resolution (720p) and the display with zoom function. Thanks to the display which can be viewed with both eyes at a convenient distance, the door viewer is ideal for children, senior citizens and people wearing glasses. The monitor is activated with the push of the button. The recording takes place automatically (three individual images) – in case you later want to know who it was. The scope of delivery includes everything that you need to retrofit the door: including an optical door viewer (14 mm), batteries, and a mount. Time needed for practiced hands: Just a few minutes!

ABTVAC80000C Digital Door Viewer Set 199.00

KeyGarage™ for easy management of access rights

With KeyGarage™, ABUS offers an intelligent and secure solution for storing keys. Secured by an individually set code, the strong steel plate housing protects keys and code cards against unauthorized use.

If you need to make your keys accessible to other people, the KeyGarage™ presents a simple and secure solution to do so. All that is required is giving the code to those people that should be given access. As people enter or leave this group, the code can be changed quickly and easily – 10,000 different codes are possible. KeyGarage™ is therefore ideal for car rental companies, real estate agents, mobile healthcare, and many others.

Intelligent technology

The solid metal housing and strong locking cover made from pressure-cast zinc secure several keys and code cards against unauthorized use. A plastic cover protects the dial mechanism against all kinds of weather.

KeyGarage™ 737

- Compact portable key safe
- Solid metal housing provides excellent security
- Can hold up to 7 keys
- Vinyl-coated shackle and back protect surfaces
