ITL 950
The Most Cost Effective Code Machine Ever

- Both 12 volt and 120 volt usage
- Repeatable accuracy (+/-) .002"
- Communication port
- Over 600 manufacturers' depths and spaces built in
- 99 custom tables for new depths and spaces
- 1 year parts and labor warranty (cutter not included)
- One cutter does all (w/minor exceptions)

- ITL 950C**
Preloaded with automotive Codes
- Keymark® ready
 - Normal mode - Laser cut mode - Half cut mode
 - Medeco/Emhart™ head and program included
 - Inserts for double-sided automotive keys
 - Magnetic insert caddy

ITL MMX
Compact, Affordable Yet Powerful

- Codes from major car manufacturers included
- Micro-stepping for precision
- Half-cut, Laser -cut and Normal Modes
- 600+ spaces and depths
- Plug into inverter for mobile use
- Updateable via USB Port
- Medeco™ Head
- Supplied with automotive cutter
- Compatible with majority of commercially available software
- Warranty: One year parts and labor (cutter not included)

TO BE USED WITH ANY XP NOTEBOOK, LAPTOP OR PC

Power: 120VAC & 12VDC standard
240VAC & 12VDC special order

Dimensions (LxWxH0): 12" x 11" x 7.5"

Net Weight: 36 lbs.

ITL SIDEWINDER

Superb Features and Performance at an Affordable Price

STAND ALONE SIDEWINDER

Universal Jaw for North American high security car keys
Codes for major car manufacturers included
Micro-stepping for precision
Updateable via **USB** port
 For **mobile and shop** use
Bright LED Light as a work light
Warranty: One year parts and labor (cutter not included)

MACHINE SPECIFICATIONS
Repeatable accuracy of X-Y axis:
 +/- .0015" (.04mm)
Power: 120 volt AC, 240 volt AC (special order)
Keypad: Alpha-numeric Display: 4 lines
 20 characters per line
Dimensions: (LxWxH): 12" x 7.5" x 16"
 (305 x 191 x 407mm)
Net Weight: 32lbs (14.5Kg)
Gross Weight: 42lbs (19Kg)
