Simply the finest car opening tools available!

PRO-LOK® Wire Tools are manufactured from oil tempered steel. They are formed to the desired bend, heat treated and then plated with high-gloss zinc to prevent rust or corrosion, and then heat treated again. Our wire tools have "memory" which means that they won't lose their shape in the door. Our wire tools are strong and durable, yet small in diameter to allow you easy entry into those vehicles with tight weather-stripping. Our Slim Jims are made of round edged stainless steel, the highest quality material available. Rubber tips on "inside" tools to prevent damage. Packed with clear, full-color instructions. Made in the USA. Lifetime warranty against manufacturer's defect.

Xacto-Grip Tools - Now found on many PRO-LOK wire tools!

Flattened Edges - Tighter car doors have made it increasingly difficult to insert opening tools between the glass and weatherstripping. This tightness makes it more difficult to maneuver your tools in the door cavity. So, PRO-LOK has changed the size and shape of 25 of its car opening tools. We start with a 40% thicker diameter wire and flatten 2 sides of the wire. The tools are then shaped and heat-treated (some tools twice) for additional strength and breakage protection. The result is stronger but thinner tools. The flattened side of the tool is inserted between the weatherstripping and the glass. When the tool is rotated you have a stronger tool.

Knurled Tips - Tools that are designed to couple or seat on the lock linkage are knurled before our flattening process. This process provides you with a smooth tool on the sides with a textured surface that makes contact with the smooth locking linkage. The textured surface of the tool makes it easier to maneuver the linkage as opposed to slipping or sliding along the linkage. Less strength is required to manipulate the linkage.

Auto opening Lights just for you!

Lights are a necessity when opening cars today! Lights allow you to find the linkage rod guard plates, identify sensitive components inside the door, determine your target area, minimize the chance of damage or wire tangles, make your job go quicker and maximize your ability to open a car professionally. In addition to car opening, many other uses will be found once you own one of these lights. Safe work, auto repair work, general machine inspection and confined space illumination are only a few of the wide range of applications for these lights. See what you've been missing.

AA Battery lights (HARDBODY)	Heavy Duty Krypton Light	6v Halogen Lights	12v Halogen Lights
<p>We designed the HARDBODY lights with you in mind. The machined aluminum body is mated with a flexible 18" coaxial wand through a simple RCA connection. The elimination of a switch means a trouble-free light for you. The slim bulb allows you into tight spots to avoid wire tangles and trouble spots. These lights come complete with a bulb, suction cup clip and a protective storage case. Available in two versions: 2 cell-Broad Spectrum 3V bulb and 3 cell-Krypton 4.5V bulb. These lights are an inexpensive addition to your set of professional tools. Limited lifetime warranty. (Excluding bulb.)</p>	<p>Heavy Duty Krypton light When you need the extra brightness of a Krypton gas-filled bulb, the extended life of C-cell batteries and the versatility of a long reach coiled cord, the Heavy Duty Krypton light is the light for you. The high impact case features a handy belt clip on one side and a protective rubber pad on the other. The 50,000-cycle switch illuminates the slim bulb through the coiled cord and adjustable coaxial wand. Comes with a bulb and suction cup clip. Limited lifetime warranty. (Excluding bulb.)</p>	<p>Super Bright Halogen Lights! When it comes to brilliance, there is no competition. The 1 amp draw of this halogen bulb is so powerful, ordinary batteries couldn't handle it, so we found something that could... your Makita® drill battery, or your vehicle's cigarette lighter socket. See inside the door, even in direct sunlight. These lights provide unparalleled visibility. Use your existing Makita® rechargeable drill battery (7.2v, 9.2v, or 12v) for power. This light gives you the brightest light in the industry. Just snap your battery into the adapter and plug the cord into the wand. The light is inserted right alongside the window wedge, lowered into the door and moved into position. Handy belt clip on adapter provides hands-free operation.</p>

Lightning Fast Lock Installations!

Who can install a vertical rod panic bar and outside trim in less than 1 hour?

You can ... with the PRO-LOK® IN-Series Templates. Easy-to-Use, fast, precise and durable. We have assembled a group of installation templates that are all used with our Universal Clamp. You will get exacting accuracy and finished work in the same time as it takes others just to set up. Every time you use a PRO-LOK® template, your installation time will be faster, your installations more precise and professional looking. Time is money. The PRO-LOK® IN-Series Templates may be the best investment you ever make! *Reverse templates are available for the back side of the door. You can cut your time in half by not having to switch over when you are done with one side. Reverse templates also prevent splintering the back side of the door when drilling.

LONG REACH CAR OPENING TOOLS

AO42-LA 58" LONG ARM TOOL 53.90

The AO42-LA, 58" Long Arm Tool, offers the versatility to unlock a wide range of vehicles. This versatile tool is designed to enter into the passenger compartment of the vehicle through the door using wedges and/or door jack type tools. The soft vinyl tip allows for easy lock manipulation. Full Color Instructions included.

Made in the USA. Lifetime warranty against manufacturer's defect.

AO42-LAXL, 76" EXTRA LENGTH LONG ARM TOOL 79.90

The AO42-LAXL, 76" Extra Length Long Arm Tool, offers the versatility to open a wide range of vehicles. This versatile tool is designed to enter into the passenger compartment of the vehicle through the door using wedges and/or door jack type tools. The AO42-LAXL is capable of reaching across the vehicle to manipulate interior lock mechanism. Full Color Instructions included.

Made in the USA. Lifetime warranty against manufacturer's defect.

AO42-QC1 79.90

The AO42-QC1, Quick Change Long Reach Tool, gives you the versatility to unlock many vehicles on the road. The multi-piece Quick Change tool is designed to enter into the passenger compartment of the vehicle through the door using wedges and/or door jack type tools. The specialty formulated Glow-in-the-Dark tip comes in handy on some openings at night. When extra length is needed, simply use the 18" "extension" between the rigid "handle" and rigid tool "body". Our seamless design, not needing a bulky coupler, can reach up to 67" and can be stored easily. The AO42-QC2 is a convenient accessory offering more accessibility.

AO42-QC2 59.90

The AO42-QC2, Quick Change Long Reach Accessory Tools, are convenient additions to the AO42-QC1. The thin diameter tool bodies screw directly into the rigid "handle" or 18" "extension" without the use of a bulky coupler. The thinner material may provide less wedging or stress on the vehicle. It is easy to slightly bend the thin diameter bodies to pull or push on the desired unlocking feature.

What is so special about PRO-LOK®'s "BUTTER BITS"?

Would you imagine drilling a 3/8" hole in a piece of hardplate from a Mosler TRTL30 in 38 seconds? Would you like to be able to use one bit and be able to drill 25 holes in a piece of GSA hardplate in only 7 minutes? You can now do this & more with the incredible Butter Bits from PRO-LOK®. These Tungsten Carbide "Butter Bits" feature a special tip design that uses a unique negative rake angle and a shortened chisel edge that increases it's effectiveness and reduces tip failure. PRO-LOK®'s Butter Bits will benefit the locksmith who encounters hardplate while drilling safes.

LIT BUTTER BIT Brochure N/C - Detailing an overall view on hardplate drilling including most asked questions, hardplate drilling tips, common faults & symptoms and their remedies. Covers: Drill Speed, Drill Pressure, Drill bit types, 10 Simple Steps to Successful Hardplate drilling, Learning to "read" the chips, common faults & their remedies.

Premium Picks & Pick Sets

It's not as easy as it appears in the movies! There is no question that picking locks is an art/skill that requires an enormous amount of practice. PRO-LOK® may not be able to provide you with the time required to learn this art, but we can provide you with the highest quality tools to get the job done. Education on how to pick a lock that consists of not only the fundamental basics of how a lock works but expands into the reason why locks are pickable was our goal when we created our full color picking manual. Couple this education with the proper tools and you are well on your way to more successful picking skills. Whether you are looking for individual replacement picks or a complete kit, PRO-LOK® has the tools to meet your needs. The variety of our specialized picks will also meet the additional requirements to expand your arsenal of picking instruments. When needing picks, pick PRO-LOK®. Our picks are available individually or in sets. Various styles and shapes available. Pick guns, ace picks, padlock picks, tubular picks, shims; you name it... we've got it! All picks are manufactured from the finest full hard spring stainless steel.
