Ordering Information

This price list cancels and supersedes all prior listings.

Orders are accepted with the understanding that they will be billed at prices in effect at time of shipment.

Prices are subject to change without notice.

We reserve the right to decline the whole or part of orders in which the price or quantity of goods is not acceptable to us.

Easy Order Placement

By Phone: 1-800-458-2424 Monday through Thursday 8:00 am ET to 7:00 pm ET, Friday 8:00 am ET to 4:30 pm ET

By Fax: Orders may be faxed to 1-800-922-9212

By Email: orders.rockwood@assaabloy.com

By Internet: <http://extranet.assaabloydss.com/> and select Order Entry under the Customer Service Menu

Terms and Conditions of Sale

Terms: 1% 15 days, net 30 days

Remit Payment To: PNC Bank/Rockwood, PO Box 644489, Pittsburgh, PA 15264-4489

Freight Policy

Freight Allowance: All prices are F.O.B. Rockwood, Pennsylvania. Full freight will be allowed on shipments of \$1,000 net and over within the continental limits of the United States (excluding Alaska and Hawaii). All shipments are routed most cost effective route of our choice. We reserve the right to designate the carrier.

Special Order Material

Special items made to your specifications are not returnable. These items are not subject to cancellation without consideration of expense involved at the cancellation date.

Samples

Salable samples will be charged at regular prices.

Returned Goods

Return no merchandise without written permission from the factory. Authorization will insure your receiving proper credit. Errors in shipping may occasionally occur. If this is the case immediately notify the factory, and we will gladly make the proper adjustments. If the error is at the customer's end, a minimum charge of 25% plus freight will be incurred for handling. Unauthorized claims for labor or charges will not be allowed. No credit will be allowed beyond six months after invoice date.

Shortages

Claims for shortages must be made within 30 days of invoice date.

Templates

Upon request we will furnish templates for any of our standard items of manufacture. Commonly used templates are available on our website at www.rockwoodmfg.com.

Product Weight Information

NOTE: Weights indicated throughout the price list are approximate for brass, bronze or stainless steel base material. Aluminum base materials weigh approximately $\frac{1}{3}$ the listed weights.

Engraving

Engraving may be added on many pulls. Call factory for pricing.

Post Mounted Pulls

It is our goal that you get the best possible functional and aesthetic door pull from our wide selection. On long door pulls there will naturally be a small amount of flexing between mounting points that are far apart. We offer the following guidelines to help you determine when a mid-post is required or when you should consider altering the location of the mounting posts (by moving them closer together) in order to minimize the flexing of the grip. Making the grip rigid by adding a mid-post is the ideal condition for long pulls on all doors but is particularly important on all glass doors that have an inherent flexing in the door itself. The combined flexing of the door and the pull can loosen mechanical joints and stress the fasteners.

Our recommendations for adding a mid-post to long door pulls is based on a theoretical pull load of 30 lbs. (foot pounds) maximum to open the door, which is a greater than the typical force required to open an average door. The maximum amount of deflection of the grip you will see at that force is $\frac{3}{8}$ ". The conditions on your job site can vary due to door weight, wind loading, closer settings, locked doors being aggressively pulled and other circumstances. It is our recommendation that you add a mid-post if there is any question about heavy or hard to open doors; having an extra mounting point always makes for a more stable and durable installation.

On long pulls, post can be positioned closer to each other and farther away from ends as a strategy to avoid mid-post if door condition permits.

POST MOUNTED PULLS SHAPES AND SIZES			
SHAPE	MATERIAL	MATERIAL Size	MAXIMUM CTC
Round			
	Stainless Steel	1"	70"
		1 1/4"	90"
		1 1/2"	110"
	Brass/Bronze	1"	57"
		1 1/4"	73"
		1 1/2"	87"
Aluminum	1"	66"*	
	1 1/4"	90"*	
	1 1/2"	115"*	
Oval			
	Stainless Steel	1" x 1 1/2"	100"
		1" x 1 7/8"	119"
Flat Oval			
	Stainless Steel	3/4" x 1 1/2"	93"
Square			
	Stainless Steel	3/4" x 3/4"	62"
Rectangular			
	Stainless Steel	1/2" x 1 1/4"	86"
		3/4" x 1 1/2"	110"
	Brass/Bronze	3/4" x 1 1/2"	89"
Rectangular			
	Stainless Steel	1/2" x 1 1/4"	52"
		3/4" x 1 1/2"	75"
	Brass/Bronze	3/4" x 1 1/2"	60"

*The maximum length of anodized aluminum pulls is 87" due to our tank size. Longer aluminum pulls are available in satin finish and clear coated or powder coat paint.

RM2150-16	22"	1"	395	435	323	243	272	316	355

- Add \$6/in. over 96".
- MP (Mid Post) - Add \$70 each (Recommended for maximum rigidity on long door pulls. See page 5 for guidelines.)
- Pulls with GripZone offer an additional aesthetic look, not a tactile feel. The grip zones are satin, the post and end sections are polished. US10B finish is not available on GripZone pulls.

NOTE: Post location on push bars can be located 1/8" from end for narrow & medium stile doors and 1" from end for flush and wide stile doors.

Special Finishes Description

32DMS (MicroShield®): As part of its promise to provide innovative solutions to their customers, ASSA ABLOY Group companies offer the MicroShield® technology, a silver-based antimicrobial coating designed to inhibit the spread of germs and bacteria.

32316 and **32D316** are made from alloy 316 stainless steel containing molybdenum and extra nickel giving it substantially higher corrosion resistance than the standard stainless steels typically used in door hardware. This finish is ideal for use in coastal, urban, and industrial areas that have harsh environmental conditions. **32316** (polish) finishes offer the best corrosion resistance and should be used in caustic environments.

10BE Dark Oxidized Satin Bronze equivalent: This finish provides the richness and warmth of the 10B/613 "living" finish, but maintains its original color and appearance and will not fade or wear over time. The 10BE finish is offered by Corbin Russwin, McKinney, Norton, Rixson, Rockwood, SARGENT and Yale, providing visual consistency between ASSA ABLOY Group brands.

* On most bronze finishes we will supply solid bronze material. Where solid bronze material is not available, we will use brass as a base material with a bronze look powder coat in its place.

*** Available on select items as indicated by the finish icon throughout the catalog.

MicroShield® is a registered trademark of Yale Security Inc., an ASSA ABLOY Group company.

Push and Pull Bar Mounting Details

Sizing of Push Bars

Flush Doors

- Door width:
- minus 5" for bent end bars
 - minus 5" for flat end post mount bars
 - minus 7" for round end post mount bars

Stile and Rail Doors or Doors with Lites

- Door width:
- minus width of one stile

CAUTION: Always confirm bars will not interfere with jamb or cause pinching hazard.

CAUTION: On narrow stile doors, be sure push bar base fits on the stile and bar does not interfere with the stop.

Handing of Doors

The handing of a door is determined from the outside of the opening.

Standing outside the door:

- If the hinges are on the right, it is a right hand door.
- If the hinges are on the left, it is a left hand door.
- If the door opens away from you, it is a regular bevel door.
- If the door opens toward you, it is a reverse bevel door.
