RYTAN RY256RAMM

RYTAN APPLIED MACHINE FOR MEDECO Double-duty, speedy, semi-automatic key duplicating machine that will cut standard cylinder as well as high security Medeco, Emhart and Biaxial keys.

While offering great capacity and versatility, RAMM uses a standard cutter wheel and stylus. Its two large 1 3/8" ball bearing assemblies on the cutter shaft enable proper adjustment of cutter wheel center line for angled cuts. RY256's 3/4" carriage shaft is the largest in the industry. Its powerful 115V AC motor will operate on a 500 watt REDI-LINE generator. The polyflex drive belt has a deep 60° 'V' that resists slippage.

Optional code duplicating conversion kit is available. Sold with a one year limited warranty.

Features—

- Single-handed operation to change cutter angle. Same control locks cutter head in straight or angled positions
- Large carriage with wide spaced key vises
- Massive, solid machine base
- Built-in cutter shaft lock for easier wheel removal
- Factory built full-function key gauges.
- Simple, reliable depth adjustment

**• TOOLS
• LOCK PICK INSTRUMENT SETS**

“THE PROFESSIONAL SERIES” LOCK PICK INSTRUMENT SETS

All Rytan instruments are made of the finest stainless steel or blue clock spring steel, hardened and finished to high performance standards.

Dual-component, form-fitting ergonomic handles are permanently fused for assured long life. Provided in top grain leather instruction cases.

Picks Available Individually

Type 1-9 Instruments

Our most economical set. Down-sized and ideal for the student or apprentice locksmith.

Contains traditional rake, hook, and diamond style picks, plus basic tension wrenches, broken key extractors and double-ended combination instruments.

RYP-15 64.50

Type 2 - 11 Instruments

Affordable priced assortment of traditional sized tools plus broken key extractors as well as “L” and adjustable tweezer wrenches.

RYP-13 70.00

Type 3 -10 Instruments w/ Mini Picks

One of our most popular sets. An exciting new concept in picking tools. The pick blades are scaled down by 20% making them ideal for opening locks with small keyways. Great for groovings that confine the movement of traditional tools.

Includes key extractors and tension tools.

RYMRPK-10 72.40

Type 4 - 16 Instruments

A medium sized set that includes the popular traditional size styles and our new Triple Ball, Diamond-Hook and Riffle designs.

RYPK 124.00

CYLINDER REMOVAL TOOL FOR KWIKSET

The Rytan Cylinder Removal Tool Pops the cylinders out of popular “400” series knob locks in a jiffy! The self-aligning design insures that the expanding tips come in direct contact with the retainer clips every time. Simply insert the tool and push the spring loaded handle -- out pops the cylinder. Mfd. of machined alloy steel & aluminum.

 Replacement Blades for RY36

“PLUG POPPER”

GLOVE COMPARTMENT PLUG REMOVAL TOOL

Complete servicing system for removing glove compartment cylinder plugs from the following popular American-made vehicle: **Chrysler 1989-UP, Ford 1979-UP, General Motors 1982-UP and Jeep 1987-UP.**

Enables use of Rytan’s specialized progression methods to generate various keys for the vehicle.

RY17 79⁹⁰

Type 5 - 32 Instruments

Similar to the Type 4 set, but extra emphasis on rake styles. Includes all types of tension wrenches and extra key extractors.

RYPK-32 214.00

Type 7 - 25 Instruments

Our newest and most popular pick set. Eight of the most important traditional picks and all five miniature styles. Includes an extended assortment of tension wrenches and broken key extractors.

RYRMP 182.00

RYTAN PLUG SPINNER

The unique new Plug Spinner from Rytan will turn the plug past the shear line without relocking. Will not overspin the plug, as rotation is confined to 180° either left or right. Simply cock the shaft knob, insert tip into key way and push the button!
