Directiva sobre baterías – Información para usuarios

En la Unión Europea, esta etiqueta indica que las baterías de este producto deberían ser recogidas por separado y no desechadas con la basura doméstica. Las sustancias en las baterías pueden tener un impacto negativo para la salud y el medio ambiente. Usted juega un papel importante en el reciclado de baterías de desecho, contribuyendo de ese modo a la protección, conservación y mejora de la calidad del medio ambiente. Deberían ponerse en contacto con su autoridad local o con el fabricante para obtener detalles acerca de la recogida y los esquemas de reciclaje disponibles. Safety

CAUTION: There is a danger of battery exploding if it is incorrectly installed. Replace the battery only with the same or equivalent type recommended by the manufacturer. Do not dispose of the battery along with household waste. Contact your local waste disposal agency for the address of the nearest battery deposit site.

- A damaged battery may pose a risk of personal injury. Damage may include impact or shock that dents or punctures the battery, exposure to a flame, or other deformation. Do not disassemble the battery. Handle a damaged or leaking battery pack with extreme care. If the battery is damaged, electrolyte may leak from the cells or fire may result which may cause personal injury.
- Do not expose (store or place) your portable device or battery pack to a heat source. When heated to excessive temperatures, battery cells could vent or explode, posing risk of fire.
- Keep the battery away from children.
