

Bone Conduction BT Headphones

User Manual

Z8

FCC ID: 2ARGR-L898ZRF

Healthy comfortable Earsfree

You can hear outside voice while listening music.
Release the ears, free enjoy.

Wearing Way

As show in the picture, hang the earphone on the back of the neck, and at the same time, the earphone should stick on the cheekbone in front of the ear rather than on the ear.

Pairing Method

- Long press the power button for 3 seconds to power on the headphones
- Please keep the BT headphones and the cellphone in the range of 1 meter if it's the first pairing
- The red and blue lights flash alternately when entering the pairing mode after BT headphones power on (if it doesn't enter pairing mode, please press the "play" button for 3 seconds until the red and blue lights flash alternately)
- Open the BT set on your cell phone or the devices with BT function. Then search the BT devices and choose pairing name "Z8". Enter "0000" pin code if needed.
- The blue LED flash slowly when it's paired successfully

Note:

1. When the distance between the BT headphones and the BT devices is far than 10 meters or 33 feet, the BT headphones will disconnect from the devices. After that, once they are in the range of 33 feet, they will automatically reconnect.

However, if the BT headphones with the devices disconnect more than 3 minutes, you may need to double click the "Multifunction Button" to reconnect the devices.

2. If the BT headphones is paired, long press the "Multifunction Button" for 3 seconds, the BT headphones reenter the pairing mode which other cellphone can find the BT headphones and connect it.

Charging Method

With a standard Micro USB cable(attach with the package)to connect the B T headphones and the USB port of your PC or wall charging source,the B T headphones will be charged.it takes 3 hours for full charging.When charging, the LED indicator is in RED,after finish charging, the LED indicator will turn in BLUE.

Note:

- 1.Because the battery may lose some power in the storage, here kindly suggest charging your headphones full before the first time you use it.
- 2.When charging, the headphones can not be used
- 3.If not use headphones for a long time,suggest charging ti once a month to keep battery life

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio

frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
