

	System Overview The NEO Z64 is a compact, all-in-one device designed to provide a complete gaming experience. It features a powerful quad-core processor, 4GB of RAM, and a 64GB SSD for fast loading times and smooth performance. The device also includes a built-in 1080p camera and microphone for video calls and streaming.	Controls  The NEO Z64 controller is a compact, ergonomic design featuring a central touchpad and four directional buttons. It also includes a D-pad, a set of action buttons, and a trigger button. The controller is designed to be comfortable to hold and easy to use, making it perfect for both casual and hardcore gamers.	NEO Z64 Requirements The NEO Z64 is designed to run most modern games at 1080p resolution. It requires a minimum of 4GB of RAM and 64GB of storage space. The device is compatible with a wide range of games, including AAA titles and indie classics. It also features a built-in 1080p camera and microphone for video calls and streaming.	Power  The NEO Z64 is powered by a standard AC power adapter. To connect the power adapter, simply plug it into the power port on the back of the device. Make sure to use the correct power adapter to avoid damage to the device.	Display  The NEO Z64 can be connected to an external monitor or TV via the HDMI port on the back of the device. To connect the display, simply plug the HDMI cable into the monitor or TV and the NEO Z64.	Overview  The NEO Z64 is a compact, all-in-one device designed to provide a complete gaming experience. It features a powerful quad-core processor, 4GB of RAM, and a 64GB SSD for fast loading times and smooth performance. The device also includes a built-in 1080p camera and microphone for video calls and streaming. With its sleek design and user-friendly interface, the NEO Z64 is perfect for gamers who want to play their favorite titles on the go.
Control  The NEO Z64 controller is a compact, ergonomic design featuring a central touchpad and four directional buttons. It also includes a D-pad, a set of action buttons, and a trigger button. The controller is designed to be comfortable to hold and easy to use, making it perfect for both casual and hardcore gamers.	Accessory Setup  The NEO Z64 includes several accessories to enhance your gaming experience. These include a power adapter, a HDMI cable, and a USB cable. The power adapter is used to power the device, while the HDMI cable is used to connect the device to an external monitor or TV. The USB cable is used to connect the device to a computer or other devices.	OS Setup  The NEO Z64 runs on a custom version of Android 9.0 Pie. To set up the OS, simply connect the device to a power source and turn it on. Once the device has booted up, you will be prompted to select a language and time zone. You can then proceed with the setup wizard to complete the setup process.	Basic Setup  The NEO Z64 is designed to be easy to set up. Simply connect the device to a power source and turn it on.
