Safety

- Make sure the power supply voltage corresponds to the voltage of the unit, that is, the voltage label on the power supply cord, and needs to open the net cover, the rating label is located on the lower center of the plastic cover.
- The speaker that is not exposed to dropping or splashing.
- Do not place any source of danger on the speaker (e.g. liquid filled vessels, lit candles).
- Make sure that there is enough free space around the speaker for normal use.
- Please use the speaker safely in an environment with temperature between 0 °C and 45 °C.
- Only use attachments and accessories supplied by the manufacturer.

Battery safety precaution

- Danger of explosion if a battery is incorrectly replaced. Replace only with the same or equivalent type.
- A battery battery pack or battery installed shall not be exposed to excessive heat such as sunshine, fire or hot fire.
- A battery in extreme high or low temperature during use, storage or transportation, and low air pressure at high altitude or low pressure at sea level.
- Do not replace a battery with an incorrect type that can defeat a safeguard (for example, some battery types).
- Disposing a battery into fire or on other mechanically crushing or cutting a battery can result in an explosion.
- Leaving a battery in an extremely high temperature surrounding, or an extremely low air pressure environment may result in an explosion or leakage of flammable liquid or gas.

A Warning

- Never remove the casing of this speaker.
- Never unplug any part of this speaker.
- Place this speaker on a flat, hard and stable surface.
- Never place this speaker on other electrical equipment.
- Only use this speaker indoors.
- Keep this speaker away from water, moisture and liquid-filled objects.
- Risks of explosion if a battery is directly shorted, naked flame or heat.
- Risk of explosion if a battery is replaced by an incorrect type.

Notice

Herby, TP Vision Europe B.V. declares that this speaker is in compliance with the applicable regulations and other relevant provisions of Directive 2014/53/EU. You can find the Declaration of Conformity on www.philips.com/support.

This speaker is designed and manufactured with high quality materials and components, which can be recycled and reused.

When this crossed-out wheeled bin symbol is attached to a product it means that the product is covered by the European Directive 2012/19/EU, which means that you should dispose of this product in a separate collection point for electrical and electronic products.

Please be informed about your local rules and do not dispose your old products with your household waste. Correct disposal of your old products will help prevent potential negative consequences for the environment and human health.

Your speaker contains batteries covered by the European Directive 2013/56/EU, which means that you should dispose of them in a separate collection point for electrical and electronic products. Please be informed about your local rules and do not dispose your old products with your household waste. Correct disposal of your old products will help prevent potential negative consequences for the environment and human health.

FC Radiation Exposure Statement
This device complies with FCC Part 15B radio frequency limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF rules. This equipment must not be co-located or operated in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation and antenna removing the no-collocation statement.

Canada Statement
This device contains license-exempt transmitters/receivers that comply with Innovation, Science and Economic Development Canada's license-exempt (RSS) Operation is subject to the following two conditions:
(1) This device must not cause interference.
(2) This device must accept any interference, including that which may cause undesired operation of the device.
The device meets the exemption from the routine evaluation limits in section 25 of RSS 102 and complies with RSS-207 FCC Exposure, users can obtain Canadian FCC/ICES on RF exposure and compliance.

Environmental Information
All unnecessary packaging has been omitted. We have tried to make the packaging easy to separate into three main materials: cardboard (box), polystyrene foam (buffer) and polystyrene foam (padding). Please be informed about your local rules and do not dispose your old products with your household waste. Correct disposal of your old products will help prevent potential negative consequences for the environment and human health.

Specifications
General overview
Model: TA5750S
Dimensions (W x H x D): 231 x 87 x 85 mm
Weight (Main Unit): 0.864 kg

Speakers
Speaker impedance: 30Ω
Speaker Maximum Input Power: 30W
Speaker Driver: 50x90mm

Bluetooth
Version: 5.0
Frequency range: 2402 - 2480 MHz
Maximum power transmitted: 8.28dBm
Compatible Bluetooth-profiles: A2DP/AVRCP

Amplifier
Output Power: 30W
Frequency Response: 20 - 20000 Hz
Signal to Noise Ratio: 70 dB

General Information
Power requirement: 30W
Dimensions (W x H x D): 231 x 87 x 85 mm
Weight (Main Unit): 0.864 kg
