Q14

HELLO THERE

Set up your device with the **motosync** app:

motorolanetwork.com/sync

NEED HELP?

Web motorolanetwork.com/support

Email support@motorolanetwork.com

Phone 1-800-753-0797

LET'S GET STARTED

Step 1

Download the free **motosync** app for iOS or Android

On your mobile phone, download the **motosync** app, available on the Apple App Store and Google Play.

Step 3

Manage, personalize, and secure your home WiFi

With **motosync**, you can easily run a speed test, protect all connected devices, set parental controls, share WiFi with guests, and much more!

Step 2

Set up your Motorola device

Create or sign into your **motosync** account and follow the guided instructions to set up your router and extenders, if applicable.

IN THIS PACKAGE

Q14 router / extender

1st device set up will be the router

Power adapter

1 per device

Ethernet cable

1 per package

Q14 BUTTONS AND PORTS

WPS button

Press to automatically connect wireless devices, without needing to enter the network password

WAN/LAN port

• Router: connect the Ethernet cable from this port to your internet device (e.g. modem)

• Extender: second LAN port to connect wired devices

LAN port

Connect wired devices

Power port

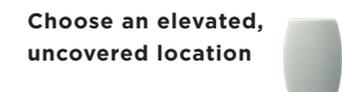

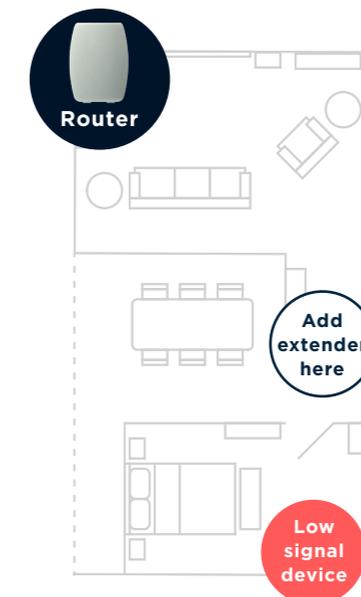

Connect to the supplied power adapter

Reset button

Using a paperclip or similar object, press for 10 seconds to reset the Q14 device to factory defaults

PLACEMENT TIPS

We recommend placing your extender midway between the router and the desired WiFi coverage area. If you have multiple extenders, evenly space them throughout your home. See the example below.

Q14 - Additional Regulatory Compliance Information

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

FCC regulations restrict the operation of this device to indoor use only.

The operation of this device is prohibited on oil platforms, cars, trains, boats, and aircraft, except that operation of this device is permitted in large aircraft while flying above 10,000 feet.

Operation of transmitters in the 5.925-7.125 GHz band is prohibited for control of or communications with unmanned aircraft systems.

IMPORTANT NOTE:

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 41cm between the radiator & your body.
