

User Guide

BEFORE OPERATING THIS PRODUCT, PLEASE READ, UNDERSTAND, AND FOLLOW THESE INSTRUCTIONS.

WARNING :

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ⌘ Reorient or relocate the receiving antenna.
- ⌘ Increase the separation between the equipment and receiver.
- ⌘ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ⌘ Consult the dealer or an experienced radio/TV technician for help.

2 This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions : (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

3. Shielded cables must be used with this unit to ensure compliance with the Class B FCC limits.

SAFETY PRECAUTIONS

Always follow these basic safety precautions when using your

device. This will reduce the risk of fire, electric shock, product damage and personal injury.

- **Warning:** Do not expose the device to rain or moisture to prevent fire or electric shock hazard.
- Do not use the earphone at a high volume to prevent hearing damages.
- Do not expose the device to water (dripping or splashing) and no objects filled with liquids can be placed on the unit, such as vases.
- Keep the device away from direct sunlight and heat source such as radiators or stoves.
- Do not place the device on unstable cart, stand, tripod, bracket or table. The unit may fall, resulting in possible damage or injury.
- Unplug Never place heavy or sharp objects on the LCD panel or device.
- **Unplug the power from the outlet when the unit is not in use.**
- The battery (battery or batteries or battery pack) shall not be exposed to excessive heat such as sunshine, fire or the like.

Correct Disposal of this product. This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.

- For indoor use only.

- The maximum ambient temperature around the power supply is 30 °C.
- The direct plug-in adapter is used as disconnect device , the disconnect device shall remain readily operable.
