THANK YOU FOR MAKING US A PART OF YOUR HOME!

IMPORTANT!
RETURN YOUR WARRANTY REGISTRATION CARD WITHIN 10 DAYS.
SEE WHY INSIDE.

Return your Warranty Registration card today to ensure you receive all the benefits you're entitled to.

Once your MAGNAVOX purchase is registered, you're eligible to receive all the privileges of owning a MAGNAVOX product. So complete and return the Warranty Registration Card enclosed with your purchase at once. And take advantage of these important benefits.

Warranty Verification

Registering your product within 10 days confirms your right to maximum protection under the terms and conditions of your MAGNAVOX warranty.

Owner Confirmation

Your completed Warranty Registration Card serves as verification of ownership in the event of product theft or loss.

Model Registration

Returning your Warranty Registration Card right away guarantees you'll receive all the information and special offers which you qualify for as the owner of your model.

Congratulations on your purchase, and welcome to the "family!"

Hurry! REGISTRATION NEEDED WITHIN 10 DAYS

Dear MAGNAVOX product owner:

Thank you for your confidence in MAGNAVOX. You've selected one of the best-built, best-backed products available today. And we'll do everything in our power to keep you happy with your purchase for many years to come.

As a member of the MAGNAVOX "family," you're entitled to protection by one of the most comprehensive warranties and outstanding service networks in the industry.

What's more, your purchase guarantees you'll receive all the information and special offers for which you qualify, plus easy access to accessories from our convenient home shopping network.

And most importantly you can count on our uncompromising commitment to your total satisfaction.

All of this is our way of saying welcome-and thanks for investing in a MAGNAVOX product.

P.S.   Remember, to get the most from your MAGNAVOX product, you must return your Warranty Registration Card within 10 days. So please mail it to us right now!

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

This "bolt of lightning" indicates uninsulated material within your unit may cause an electrical shock. For the safety of everyone in your household, please do not remove product covering.

The "exclamation point" calls attention to features for which you should read the enclosed literature closely to prevent operating and maintenance problems.

WARNING: TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS EQUIPMENT TO RAIN OR MOISTURE.

CAUTION: To prevent electric shock, match wide blade of plug to wide slot, fully insert.

ATTENTION: Pour éviter les choc électriques, introduire la lame la plus large de la fiche dans la borne correspondante de la prise et pousser jusqu'au fond.

4 Safety Information

. . . .

Safety Precautions

Warning: To prevent fire or shock hazard, do not expose this equipment to rain or moisture.

Federal Communications Commission (FCC) Warning: Any unauthorized changes or modifications to this equipment void the user's authority to operate it.

Laser Safety

This unit employs a laser. Only a qualified service person should remove the cover or attempt to service this device, due to possible eye injury.

CAUTION: USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE.

CAUTION: VISIBLE AND INVISIBLE LASER RADIATION WHEN OPEN AND INTERLOCK DEFEATED. DO NOT STARE INTO BEAM. THE BEAM IS LOCATED INSIDE, NEAR THE DECK MECHANISM.

Special Information for Canadian Users

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Radio/TV Interference

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
1) Reorient or relocate the receiving antenna.
2) Increase the separation between the equipment and the receiver.
3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4) Consult the dealer or an experienced radio/TV technician for help.

Copyright Protection

Unauthorized copying, broadcasting, public performance and lending of Discs are prohibited.

This product incorporates copyright protection technology that is protected by method claims of certain U.S. patents and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.

Declaration of Conformity

Model Number: MDV410, MDV430
Trade Name: Magnavox
Responsible Party: Philips Consumer Electronics
                   P.O. Box 14810
                   Knoxville, TN 37914-1810
                   (865) 521-4316

Manufactured under license from Dolby Laboratories. "Dolby" and the double-D symbol are trademarks of Dolby Laboratories.
Welcome!

This owner's manual describes two models: the MDV410 and the MDV430. The display panels of these two Players have a different appearance. Also, the MDV430 has COMPONENT VIDEO OUT jacks, but the MDV410 does not. Otherwise, the two models operate identically. Unless noted otherwise, the MDV430 is shown in this manual.

These Digital Video Disc Players provide high picture quality, clear sound, and endless playback features available on Digital Video Discs (DVDs). Add options to your DVD viewing - watch a director's cut of a movie, listen to the producer's comments, or play your favorite scene over and over again. The possibilities are limited only by your choices and the materials available on the DVD.

You can listen to Audio Compact Discs and MP3 files on this DVD Player as well.

To get the most enjoyment from the DVD Player, read this owner's manual carefully. It describes how to access the features listed below.

Features

- Audio Language choices *
- Camera Angles *
- DVD Menus in a desired language *
- Markers
- MP3 Playback

- Parental Controls*
- Paused/Fast/Slow/Step-by-Step Playback
- Program Playback
- Random Playback
- Repeat, A-B Repeat

- Specific Time/Title/ Chapter/Track Playback
- Subtitles *
- Zoom

* If available on the Disc

When referring to this manual, remember...

DVD   Indicates the feature described is available on some Digital Video Discs.

AUDIO CD   Indicates the feature described is available on some Audio Compact Discs.

MP3   Indicates the feature described is available with MP3 files.

Disc Menus...

Some explanations in this manual describe the DVD Disc Menus. These menus are set by the movie producers and will vary among Discs. Not all Discs have menus. However, if the Disc has a menu, you can access the Disc Menu by pressing the MENU button on the remote control. *Details are on page 20.*

DVD Player Setup Menus...

Some instructions explain how to use the DVD Player's Setup menu to set features of the DVD Player or the Disc. Access the DVD Player's Setup menu by pressing SETUP on the remote control when Disc playback is stopped. Even if a feature is set up in the DVD Player's menu, it may not be available if the current Disc does not include that feature.

Available Disc Features...

All the features described in this manual may not be available on every Disc. If the feature is not available on the Disc, you cannot use the DVD Player to make the feature available. An "X" will appear in the top right corner of the TV screen if you try to access a feature that is not available on the current Disc or not available at the current time.

This unit employs TruSurround system
TruSurround by SRS(●) of SRS Labs, Inc. as virtual technology.

TruSurround and the (●) symbol are trademarks of SRS Labs, Inc.
TruSurround technology is incorporated under license from SRS Labs, Inc.

6 Playable Discs

・・・

Playable Discs

This DVD Player will play Digital Video Discs (DVDs) and Audio Compact Discs
(CDs), and has limited playability of finalized Digital Video Discs Rewritable
(DVD+RW) and Compact Discs Rewritable (CD-RW).
To play a DVD on this DVD Player, make sure the Disc meets the requirements for
Region Codes and Color Systems as described below.
Discs that have the following logos will play on this DVD Player.

| DVD | DVD | Audio CD | CD-RW (limited) | DVD+RW (limited) |

Region Codes

DVDs must be labeled for ALL regions or for Region 1 in order to play on this DVD
Player. You can not play DVDs that are labeled for other regions.
Look for the symbols below on your DVDs. If these region symbols do not appear on
your DVD, you cannot play the DVD in this DVD Player.

The number inside the globe refers to a region of the world. Region 1 represents the
United States, Canada, upper regions of North America, Bermuda, the U.S. Virgin
Islands, and small regions near Australia.
A Disc encoded in a specific region format can only play on DVD Players with the
same region code. For example, if a Disc is labeled for Region 2, you can not play the
DVD on this DVD Player.

Color Systems

Different color systems are available throughout the world. The most common color
systems are NTSC, which is used primarily in the United States and North America,
PAL, and SECAM.
This DVD Player uses the NTSC color system. Therefore, the Discs that you play
must be recorded in the NTSC system. You cannot play Discs recorded in other for-
mats. The color system of the DVD may be listed on the DVD or on the Disc case.

Unacceptable Discs

If you insert an unacceptable type of disc, "Please insert a playable disc" will appear on
the TV screen. (Also, "- - - - - " will appear on the display panel of the MDV430. There
is no indication on the front of the MDV410 if an unacceptable Disc is in the disc tray.)
The following Discs will not play on this DVD Player.

• CD-ROM
• Compact Disc-Interactive (CD-I)
• DVD-RAM
• DVD-ROM
• Super Audio CD (SACD) (The Audio
  CD layer of a hybrid SACD may play.)

• Photo CD
• Video CD
• Video Single Disc (VSD)

Audio of the following discs might play, but video will not be accessible.
• Compact Disc-Graphic (CD-G)
• Compact Disc-Video (CD-V)

Putting Batteries in the Remote Control

1 **Remove the battery compartment lid** on the bottom of the remote control by sliding the lid down and off, following the direction of the arrow on the lid.

2 **Place two AA batteries inside the battery compartment** with their + and − ends aligned as indicated.

3 **Replace the battery compartment lid.**

1

2

3
Using the Remote Control
Point the remote control at the DVD Player's remote sensor (see page 16) when using the remote control to operate the DVD Player.
Do not put objects between the remote control and the DVD Player.

Recycling Guidelines/Battery Safety
● Your new product and its packaging contain materials that can be recycled and reused. Specialized companies can recycle your product to increase the amount that needs to be properly disposed. Your product uses batteries that should not be thrown away when depleted but should be disposed of as small chemical waste. Please find out about the local regulations on disposal of your old product, batteries, and packaging whenever you replace existing equipment.
● Battery Usage CAUTION - To prevent battery leakage that may result in bodily injury or damage to the unit:
   • Install ALL batteries correctly, with the + and - markings on the battery aligned as indicated on the unit;
   • Do not mix batteries, for example, old with new or carbon with alkaline; and
   • Remove batteries when the unit will not be used for a long time.

8 Hookups

Depending on your TV and other equipment you wish to connect, there are various ways you could connect the DVD Player. Use only one of the connections described in the following pages.

Before you begin...
● Refer to the manuals of your TV, Stereo or other devices as necessary. Note the style of jacks and connectors on the other equipment. Determine how to choose different Audio and Video In channels on your other equipment so you can see and hear the DVD Player on the TV, Stereo, etc.
● Disconnect all equipment from the power outlets. Connect the equipment to the power outlets only after you have finished hooking up everything. Never make or change connections with equipment connected to the power outlet.

Determining the best possible connection...
Your hookup will be determined primarily by feature availability of your existing equipment. However, the following guidelines describe which options have the best picture and sound quality.

★★★★ COMPONENT VIDEO OUT jacks provide the best picture quality. These are available on the MDV430 only.
★★★ Use the S-VIDEO OUT jack for excellent picture quality.
★★ Use the yellow VIDEO OUT jack for good picture quality.
★★ **If your TV only has an RF-style jack, usually labelled Antenna In or 75 ohm, you will need an RF adapter in order to connect the DVD Player to the TV.** Ask your electronics retailer for details. The DVD picture still will exceed the quality of videotapes and other analog recordings.

★★★★ Digital audio connections provide the clearest sound. Connect the DVD Player's DIGITAL AUDIO OUT COAXIAL jack to your Stereo for the best sound quality.
★★★ If digital connections are not possible, connect the DVD Player's red and white AUDIO OUT jacks to the Audio In jacks of your Stereo or TV.

Remember...
● Connect the DVD Player directly to the TV. For example, do not connect the DVD Player to a VCR, then connect the VCR to a TV. This type of connection may distort the picture and sound. Also, your VCR might have the copy protection system, which could further distort the DVD image.
● Set the TV to the correct Video In channel. Such channels may be called AUX or AUXILIARY IN, AUDIO/VIDEO or A/V IN, EXT1 or EXT2 or External In, etc. These channels often are located near channel 00. See your TV owner's manual for details. Or, keep changing channels at the TV until you see the DVD logo or DVD playback on the TV screen. (The DVD Player power must be on.)
● Set the Stereo to the correct channel or "source" mode.
● Do not connect the DVD Player's AUDIO OUT jacks to the PHONO IN jack of your Stereo.
● Depending on your connection, you may need to purchase additional cables.
● You only need one audio connection and one video connection.
● If you do not connect the DVD Player to a Dolby Digital-compatible Stereo, set DOLBY DIGITAL to OFF on the DVD Player. *Details are on pages 11 and 39.* Playing a Disc when the settings are wrong could distort the sound or damage the speakers.
Once you determine the best option, find your choice on pages 9-13. Follow the specific steps for the hookup you chose.

Connecting the DVD Player to a TV only
TV has AUDIO (red and white) and VIDEO (yellow) IN jacks

Back of TV
(example only)

1 Connect the supplied red and white audio cables to the red and white AUDIO OUT jacks on the DVD Player and to the red and white AUDIO IN jacks on the TV, matching the cable colors to the jack colors.

2 Connect the supplied yellow video cable to the VIDEO OUT jack on the DVD Player and to the VIDEO IN jack on the TV.

3 Connect the TV's power cord to a power outlet.
Turn on the TV and set it to the Audio/Video In channel, which also may be referred to as A/V In or Auxiliary In. This channel usually is near channel 00. See your TV owner's manual for details.

4 Connect the DVD Player's power cord to a power outlet.
Press the POWER ⏻ button to turn on the DVD Player.
You should see the DVD logo on the TV screen. If you do not, check your connections and make sure the TV is set to the correct Audio/Video In channel.

10 Hookups (cont'd)

Connecting the DVD Player to a TV only
### TV has AUDIO (red and white) and S-VIDEO IN jacks
Back of TV
(example only)

1 **Connect the supplied red and white audio cables to the red and white AUDIO OUT jacks on the DVD Player and to the red and white AUDIO IN jacks on the TV, matching the cable colors to the jack colors.**

2 **Connect an S-Video cable (not supplied) to the S-VIDEO OUT jack on the DVD Player and to the S-VIDEO IN jack on the TV.**

3 **Connect the TV's power cord to a power outlet.**
Turn on the TV and set it to the S-VIDEO IN channel. This channel may be near channel 00. See your TV owner's manual for details.

4 **Connect the DVD Player's power cord to a power outlet.**
Press the POWER ⏻ button to turn on the DVD Player.
You should see the DVD logo on the TV screen. If you do not, check your connections and make sure the TV is on the correct S-Video In channel.

. . . .

Connecting to a TV and a Stereo that is Dolby Digital or MPEG compatible

Some Discs are recorded in a 5.1 channel Dolby Digital Surround format. These Discs will sound best if you connect the DVD Player to a Stereo that has Dolby Digital.

● Set DOLBY DIGITAL to ON if you connect the Player to a Dolby Digital-compatible Stereo. *Details are on page 39.*
● If you play an MPEG audio disc and connect the Player to an MPEG-compatible Stereo, set MPEG to ON. *Details are on page 39.*
● Select 5.1 channel Dolby Digital Surround sound if available in the DVD's menu.
● This DVD Player does not support the Digital Theater System (DTS).

1 **Connect a coaxial digital audio cable (not supplied) to the COAXIAL jack on the DVD Player and to the COAXIAL DIGITAL AUDIO IN jack on the Stereo.**

2 **Connect the supplied yellow video cable to the yellow VIDEO OUT jack on the DVD Player and to the VIDEO IN jack on the TV.**
You may use S-Video or Component Video (MDV430 only) if S-Video or Component Video is available on your TV. *See pages 10 and 12 for these optional video connections.* Remember, you only need one video connection between the TV and the DVD Player.

3 **Plug in the Stereo's power cord. Turn on the Stereo and select the Auxiliary IN station.** During Disc playback, you will adjust the volume at the Stereo. See your Stereo owner's manual for details.

4 **Plug in the TV's power cord. Turn on the TV and set it to the correct Video In channel.** During Audio CD playback, you may check the Disc status on your TV screen. During DVD playback, you will watch the program on the TV. See your TV owner's manual for details.

5 **Connect the DVD Player's power cord to a power outlet. Press the POWER ⏻ button to turn on the DVD Player.**
You should see the DVD logo on the TV screen. If you do not, check your connections and make sure the TV is on the correct channel.

12 Hookups (cont'd)

● ●

Connecting to a TV and a Stereo
TV has Component Video In Jacks
(possible only with MVD430)
**1** **Connect the supplied red and white audio cables to the red and white AUDIO OUT jacks on the DVD Player and to the red and white AUDIO IN jacks on the Stereo, matching the cable colors to the jack colors.**
You can use the Digital Audio Out Coaxial connection instead if your Stereo has a Coaxial In jack. *Details are on pages 11 and 13.* Remember, you only need one audio connection.

2 **Connect component video cables (not supplied) to the COMPO-NENT VIDEO OUT jacks on the DVD Player and to the COMPO-NENT VIDEO IN jacks on the TV.**

3 **Plug in the Stereo's power cord. Turn on the Stereo and select the Stereo's Auxiliary IN station.** During Disc playback, you will adjust the volume at your Stereo. See your Stereo owner's manual for details.

4 **Plug in the TV's power cord. Turn on the TV and set it to the Component Video In channel, which may be near channel 00.** During Audio CD playback, you may check the status of Audio CDs on your TV screen. During DVD playback, you will watch the program on the TV. See your TV owner's manual for details.

5 **Connect the DVD Player's power cord to a power outlet. Press the POWER ⏻ button to turn on the DVD Player.**
You should see the DVD logo on the TV screen. If you do not, check your connections and make sure the TV is on the correct Component Video In channel.

● ●

Connecting to a TV and a Stereo
### *with Digital Input jacks, Mini-Disc Deck or Digital Audio Tape Deck*

● If the Disc is recorded in 5.1 channel Dolby Digital Surround, you cannot copy the Disc in digital sound using a Mini-Disc or Digital Audio Tape Deck.

Back of Stereo
(example only)

Back of TV
(example only)

1 Connect a coaxial digital audio cable (not supplied) to the **COAXIAL jack on the DVD Player and to the COAXIAL DIGITAL AUDIO IN jack on the Stereo.**

2 Connect the supplied yellow video cable to the yellow **VIDEO OUT jack on the DVD Player and to the VIDEO IN jack on the TV.**
You may use S-Video or Component Video (MDV430 only) if S-Video or Component Video is available on your TV. *See pages 10 and 12 for these optional video connections.* Remember, you only need one video connection between the TV and the DVD Player.

3 Plug in the Stereo's power cord. Turn on the Stereo and select the **Auxiliary IN station.** During Disc playback, you will adjust the volume at the Stereo. See your Stereo owner's manual for details.

4 Plug in the TV's power cord. Turn on the TV and set it to the correct **Video In channel.** During Audio CD playback, you may check the status of the Disc on your TV screen. During DVD playback, you will watch the program on the TV. See your TV owner's manual for details.

5 Plug in the DVD Player's power cord. Press the **POWER** ⏻ **button to turn on the DVD Player.** You should see the DVD logo on the TV screen . If you do not, check your connections and make sure the TV is on the correct channel.

Cr Cb COMPONENT VIDEO
OUT jacks.*

DVD		AUDIO CD

Before you begin, turn on the power of the TV, stereo, and any other equipment connected to the DVD Player. Make sure the TV and the stereo (if applicable) are set to the correct channel. *Details are on pages 8-13.*

1 **Press POWER to turn on the DVD Player.** P-ON will appear briefly on the display panel of the MDV430. The red POWER light will appear on the front of the MDV410 when the power is on.

2 **Press OPEN/CLOSE ▲ to open the Disc tray.**

3 **Place a Disc into the tray.** Make sure the Disc is sitting properly in the recessed groove of the tray. Some DVDs are recorded on both sides. Make sure the side you want to play is facing up. Or, if the DVD is recorded on only one side, place the Disc in the tray with the label facing up (shiny side facing down).
4 **Press OPEN/CLOSE ▲ to close the tray.** Disc playback may start automatically. Or, if the DVD has a menu, the menu may appear on the screen instead. *Details are on page 20.*
With some Audio CDs, playback will not begin until you press Play ▶.
To search forward or backward during playback, see page 22.

5 **Press Stop ■ to stop playback.**

Remember, this DVD Player will play only certain Discs. See page six for details.
Helpful Hints

• *An "X" may appear in the top right corner of the TV screen when you try a feature. This means either the feature you tried is not available on the Disc, or the DVD Player can not access the feature at this time. This does not indicate a problem with the DVD Player.*

• *If a Disc is dirty or has scratches, the pictures may appear distorted and playback may stop. In such cases, remove the Disc and turn off the DVD Player. Unplug the power cord, then reconnect it to the power outlet. Clean the Disc, then turn on the DVD Player again and reinsert the Disc for playback.*

• *If a Disc has multiple layers, the picture may freeze occasionally. This happens when the first layer switches to the second layer. This is not a malfunction.*

20 Menus

●●

DVD

DVD Disc Menus

Some DVDs contain menus that describe the contents of
the Disc or allow you to customize Disc playback. For
example, the menu may offer choices for subtitle languages,
director's commentary, or soundtrack playback.
To use the DVD menu and select playback features, follow
these steps.

1 **Press MENU.** The DVD's main menu will appear.

2 **Press ▲ ▼ ◄ ► to select an item, then press
OK.** Continue this process to set up all the features
you wish to see on the Disc or to start playback.
Title Menu

Some DVDs have a Title Menu, which lists the Titles avail-
able on the Disc. Use the Title Menu to start playback at a
specific Title.

1 **While playback is stopped, press TITLE.** The
Title Menu will appear.
If a Title menu is not available, the "X" may appear
on the TV screen. If the DVD only has a main menu,
the main menu may appear when you press the
TITLE button.

2 **Press ▲ ▼ ◄ ► to select the desired Title,
then press OK.**
Playback will begin at the Title you selected.
Helpful Hints

- *Menus may vary among Discs.
  Refer to the literature accompa-
  nying the Disc for details.*
- *Not all DVDs have Title menus.*
- *Some DVDs may refer to
  Chapters as "scenes." Some
  DVDs may refer to the Title
  Menu as the "scene index."*
- *The TITLE button may not be
  active with all DVDs.*

Paused and Step-by-Step Playback, Resume On 21

DVD   AUDIO CD

Paused and Step-by-Step Playback

1 **During playback of a DVD or Audio CD, press PAUSE II.** Playback will pause and the sound will be mute.
During DVD playback, press PAUSE II repeatedly to advance the picture one frame at a time.

2 **Press Play ► to resume playback.**
DVD   AUDIO CD

Resume On
You may choose to resume playback from the point at which playback stopped last.

1 **Press Stop ■ during playback.** In a few seconds, the following Resume message will appear on the TV screen.

> Press 'PLAY' to play from here.
> To play the beginning, press 'STOP' first
> and then 'PLAY'.
2 **Press Play ►.** In a few seconds, playback will resume from the point at which playback stopped last.
Helpful Hints

- *To cancel resume playback and start playing the Discs from the beginning, press Stop ■ a second time while playback is stopped.*
  The ■ will appear briefly at the top right corner of the TV screen. Press Play ► to play the Disc from the beginning.
- *Resume On is retained when you turn off the DVD Player's power. When you turn on the power again later, RESUME ON will appear on the TV screen when the Disc is loaded and ready for playback. Press Play ► to resume play at the point you last stopped it.*
- *Opening the disc tray will cancel Resume On.*

22 *Fast Forward/Reverse Search*

●●●

DVD   AUDIO CD

1 **During playback, press Fast Forward ►► or Reverse ◄◄ on the remote control.**
● On a DVD, pressing Fast Forward ►► or Reverse ◄◄ repeatedly will forward or reverse the picture at twice, eight times, 30 times, or 60 times the normal playback speed. Sound will be mute.
Use Fast Forward ►► for a forward search. Press Reverse ◄◄ for a reverse search.

Press Reverse ◄◄ during DVD playback.
Press Fast Forward ►► during DVD playback.

◄◄x2	►►x2
◄◄x8	►►x8
◄◄x30	►►x30
◄◄x60	►►x60
● On an Audio CD, you may search forward or backward at 16 times the normal playback speed (◄◄x16 or ►►x16). Pressing the Fast Forward ►► or Reverse ◄◄ button repeatedly will not affect the speed of the search. Sound will be intermittent during searching on an Audio CD.
Use Fast Forward ►► for a forward search. Press Reverse ◄◄ for a reverse search.

Press the Reverse ◄◄ button during Audio CD playback.

◄◄x16
Press the Fast Forward ►► button during Audio CD playback.

►►x16

2 **Press Play ► to return to normal playback.**
DVD

Slow Motion

1 **Press PAUSE ❙❙ during playback.**

2 **Press Fast Forward ▶▶.** Slow motion playback will begin. Press Fast Forward ▶▶ repeatedly during slow motion playback to vary the speed of slow motion playback. You may play the DVD at 1/16, 1/8, or 1/2 the normal playback speed.

Press Fast Forward ▶▶ while play is paused.

▶ x1/16

Press Fast Forward ▶▶ again.

▶ x1/8

Press Fast Forward ▶▶ again.

▶ x1/2

Press Fast Forward ▶▶ again.
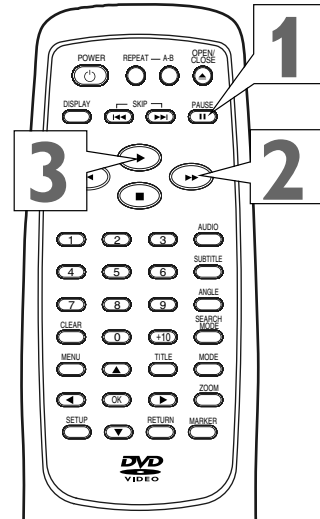

3 **Press Play ▶ to return to normal playback.**

DVD

Zoom

You can enlarge the DVD picture during playback or when you have paused the picture. The picture can be two or four times larger than normal.

1 **Press ZOOM during playback or when play is paused.** The picture will appear twice as large. Press ZOOM again to make the picture four times as large as normal.

2 **While the picture is enlarged, press ▲ ▼ ◀ ▶ to move the zoomed image up, down, left, or right.** To remove the ■ from the lower right screen corner, press OK.

ZOOM [x2] → ZOOM [x4] → ZOOM [OFF]

3 **To return the picture to its normal size, press ZOOM so that ZOOM [OFF]** appears briefly in the top right corner of the TV screen.
Helpful Hints

- *The sound will be mute when playback is paused and during slow motion playback.*
- *You can not play the DVD in reverse slow motion.*

24 Specific Track Playback

••

AUDIO CD

There are three ways to begin playback on an Audio CD at a specific Track. You may use the Number buttons, the SEARCH MODE button, or the SKIP ⏮ ⏭ buttons.

A **Using the Number Buttons to Select a Track**
Press the Number buttons to enter the desired Track number. Playback will start at the selected Track. You may select a Track with the Number buttons during playback or when playback is stopped.
For single-digit Tracks (1-9), press a single Number button. For example, to play Track three, press the Number 3 button.
For Tracks 10 and above, press the +10 button once so the Track Search display (TR) appears on the TV screen. Then press the Number button of the first digit, then press the Number button of the second digit.
For example, to play Track 26, press the +10 button, then press the Number 2 button, then press the Number 6 button.
If you enter a Track number that is not available on the Disc, playback will not begin (or the current Track will continue to play). An "X" will appear in the top right corner of the TV screen.

B **Using SEARCH MODE to Select a Track**
Press SEARCH MODE once so the Track Search display appears (TR). Within 30 seconds, press the Number buttons to select the Track number you desire. Playback will begin at the selected Track.
For a single-digit Track (1-9), enter a zero first. For example, to play Track 5, press 0, 5.
For Tracks numbered 10 or above, use the Number buttons. For example, for Track 15, press the Number button 1, then the Number button 5. (You do not have to use the +10 button.)

TR: __/26
C **Using SKIP ⏮ ⏭ to Select a Track**
Press SKIP ⏭ during playback to skip the current Track and move to the next Track. Press SKIP ⏭ repeatedly to skip subsequent Tracks.
Press SKIP ⏮ during playback to return to the beginning of the current Track. Press SKIP ⏮ repeatedly to go to previous Tracks.
Helpful Hints

• The SKIP ⏮/ ⏭ buttons are not active when playback is stopped.
• You can not use SKIP ⏮/ ⏭ to go from the last Track on the disc to the first Track.
Specific Title/Chapter Playback, Specific Time Playback 25

DVD

Specific Title/Chapter Playback
1 **Press SEARCH MODE** so the Title/Chapter Search display appears on the TV screen.

2 **Within 30 seconds, press ▲ or ▼ to select the TT (Title) space, then press the Number buttons to enter the Title number.** CH (Chapter) will be selected next automatically.

3 **While CH is selected and within 30 seconds, press the Number buttons to enter the Chapter number.** The DVD Player will begin playback at the selected Chapter.

```
TT:4 / 4
CH:12/17
```
DVD   AUDIO CD

Specific Time Playback

1 **During playback, press SEARCH MODE repeatedly** so the Time Search display appears on the TV screen.

```
TIME    __:__:__
TOTAL 1:29:00
```
2 **Within 30 seconds, use the Number buttons to enter the elapsed playing time at which you want playback to begin.** Within a few seconds, playback will start at the specified time.
 ●Example: 1 hour, 23 minutes and 30 seconds
           1 → 2 → 3 → 3 → 0
 ● Make sure the time you enter is within the total time of the current Title or Track. If it is not, you must re-enter a valid time.
 ● If you make a mistake, press CLEAR. Then, enter the correct information.

Helpful Hints

• *Title/Chapter playback is not available with some DVDs.*
• *Press SKIP ▶▶| during DVD playback to skip the current Chapter and move to the next Chapter. Press SKIP ▶▶| repeatedly to skip subsequent Chapters. Press SKIP |◀◀ during DVD playback to return to the beginning of the current Chapter. Press SKIP |◀◀ repeatedly to go to previous Chapters.*
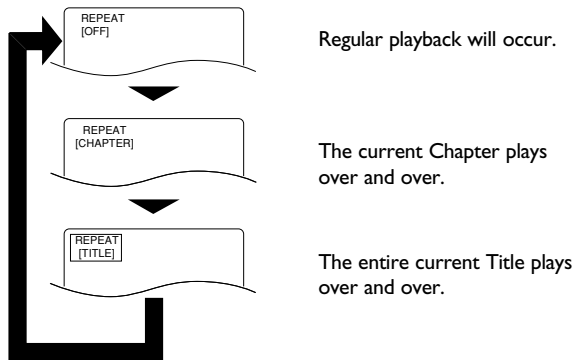

26 Repeat Playback

· ·

DVD		AUDIO CD

1 **Press REPEAT repeatedly until the repeat mode you want appears in the top left corner of the TV screen.**
● On a DVD, repeatedly pressing REPEAT during playback lets you choose Repeat Chapter, Repeat Title, or Repeat Off.
● Selecting a new Chapter or Title will cancel repeat playback on a DVD.

REPEAT [OFF] — Regular playback will occur.

REPEAT [CHAPTER] — The current Chapter plays over and over.

REPEAT [TITLE] — The entire current Title plays over and over.

● On an Audio CD, repeatedly pressing REPEAT during playback lets you choose Repeat Track, Repeat All, or Repeat Off.
● Selecting a new Track will cancel repeat playback on an Audio CD.

REPEAT [OFF] — Repeat playback is cancelled.

REPEAT [TRACK] — The current Track will play repeatedly.

REPEAT [ALL] — The entire Audio CD will play repeatedly.

Helpful Hint

• *Repeat playback is not available with some Discs.*

DVD	AUDIO CD

You can play a section of an Audio CD or DVD repeatedly. Follow these steps to set up the section that you want to play over and over.

2-4

1

1 **Press Play ▶ to play the Disc to the point at which you want repeated playback to begin.**

2 **Press A-B REPEAT to set the starting point (A).** If you make a mistake, press CLEAR. This will erase point A and let you start over. REPEAT [OFF] will appear briefly on the TV screen.
REPEAT
[A –]

3 **Play the Disc to the point at which you want repeated playback to end, then press A-B REPEAT again.** Within a few seconds, the section will begin to play. The segment will play over and over until you cancel the A-B Repeat feature.
REPEAT
[A–B]

4 **To cancel A-B Repeat Playback, press A-B REPEAT so REPEAT [Off] appears on the TV screen.** Regular Disc playback will resume.

MAGNAVOX
Helpful Hints

- *A-B Repeat playback is not available with some DVDs.*
- *With DVDs, the entire A-B repeat section must be within a single Title. The DVD Player will automatically set the end point (B) at the end of the Title if you do not set "B" before the end of the Title is reached.*
- *With Audio CDs, the A-B repeat section must be within a single Track. The DVD Player will automatically set the end point (B) at the end of the Track if you do not set "B" before the end of the Track is reached.*
- *Point B must be later on the Disc than Point A.*
- *You can not set up A-B Repeat Playback during Repeat playback (as described on page 26).*
28 Programmed Playback

AUDIO CD

You may determine the order in which Tracks will play. The order that you set is called the Program. To set up programmed playback, follow these steps.

1 **While playback is stopped, press MODE.** The Program screen will appear.

```
PROGRAM    TIME  0:00:00  1/1

--

START:  PLAY    DELETE:  CLEAR
RANDOM: MODE     EXIT:    RETURN
```
2 **Press the Number buttons to enter the number of the first Track you want to play.**
● Press CLEAR to erase the last Track in the Program.
● Enter single-digit Tracks with a single Number button. For example, for Track three, press the Number 3 button.
● For Tracks 10 and above, press the +10 button, then the Number button for the first digit, then the Number button for the second digit. For example, to play Track 26, press the +10 button, then press the Number 2 button, then press the Number 6 button.
● The first Program screen can display 50 Tracks. Press ▼ to go to the next page, which can display 49 Tracks. Press ▲ to return to the first Program screen.

```
PROGRAM    TIME  2:07:43  1/1

02 05 07 04 10 14 06 15 21 08
20 28 10 25 35 12 30 42 11 34
49 16 40 58 18 45 63 01 03  _

START:  PLAY    DELETE:  CLEAR
RANDOM: MODE     EXIT:    RETURN
```

3 **Repeat step 2 until you have selected all the Tracks you wish to play in the Program.** Make sure the Track numbers you enter are available on the Audio CD. If you enter an incorrect Track number, you must re-enter a valid Track number.

4 **Press Play ▶.**
The Tracks will play in the order in which you programmed them. The Program will play once. Turning off the Player or opening the disc tray will erase the Program.
Helpful Hints

• *You can not use the Number buttons or SEARCH MODE to select another Track during programmed playback. You may use the SKIP ▶▶| / |◀◀ buttons to select other Tracks within the Program. Details are on page 24.*
• *You can not combine random playback with programmed playback.*
• *You may play a Program or a Track within a Program repeatedly. During programmed playback, press REPEAT so REPEAT [ALL] or REPEAT [TRACK] appears. The entire Program or the current Track will play over and over.*
• *You can not alter a Program during program playback.*
• *While the Program is playing, press MODE to see the Program screen. The currently playing Track will appear in yellow. To remove the Program screen, press RETURN.*
• *A Program can have a maximum of 99 Tracks.*

AUDIO CD

Random Playback

You may play the Tracks of an Audio CD in Random order instead of the order in which they are recorded (1,2,3...). To set up Random Playback, follow these steps.

1 **While playback is stopped, press MODE twice so the RANDOM screen appears.**

> RANDOM
>
> START: PLAY   EXIT: MODE

2 **While the RANDOM screen appears, press Play ▶.** The Tracks will play in random order. After each Track plays once, playback will stop.
MP3

MP3 Playback

1 When you put a CD-RW with MP3 files in the DVD Player, the MP3 menu will appear on the TV screen. **While playback is stopped, press ▲ or ▼ to select the Album or Track you want to play.**
● If you choose a Track, press Play ▶or OK. The tracks will play in the order in which they were recorded, i.e. 1, 2, 3, starting with the Track you selected.
● If you select an Album and press OK, the Track selection screen will appear. Press ▲ or ▼ to select the Track you want to play, then press Play ▶ or OK.
● Choose FIRST PLAY to start play from the first Track listed.
● Press the TITLE button to go back to the first item on the first MP3 screen.

2 To stop playback, press Stop ■ .
Helpful Hints

- *Folders are known as Albums; files are known as Tracks.*
- *A "+" will appear at the start of the Album name.*
- *If all the Tracks can not appear on the screen at the same time, ▼ indicates more Tracks on the next screen; ▲ indicates previous screens. The current screen number and the total number of screens will appear on the screen.*
- *The player will recognize a total of 255 Albums and Tracks.*

●●

MP3
MP3 Display Information
You can check the MP3 files during playback.

1 **Press DISPLAY during playback.** The currently playing Track will be highlighted in yellow.

2 **Press DISPLAY again.**
The elapsed playing time of the current track will appear at the top of the display.
🔁 D indicates Disc repeat

🔁 A indicates Album (folder) repeat

🔁 T indicates Track repeat.

3 **Press DISPLAY again to remove the display.**
MP3

MP3 Track Selection

1 **Press the SEARCH MODE button.**
● The SEARCH menu will appear.
● The current Track or the Track at which play will Resume (Resume On) will be highlighted. If Resume is off and playback is stopped, the first Track of the Disc will be highlighted.

```
ALBUM NAME    1/1

4 **Press Stop ■** to stop playing the Program.

Helpful Hints

- *Press CLEAR to delete the last item in the Program.*
- *Turning off the DVD Player's power or opening the Disc tray will erase the entire Program.*
32 Audio Language, Stereo Sound Mode

DVD

Audio Language

The DVD Player allows you to select a language for DVDs during playback. You can change the language only if multiple languages are available on the DVD.
1 **Press AUDIO during playback so the audio display appears at the top of the TV screen.** Press AUDIO repeatedly until you select your desired language.

AUDIO 1.ENG DolbyD 5.1CH 48k/3

AUDIO 2.FRE DolbyD 5.1CH 48k/3

AUDIO 3.JPN DolbyD 5.1CH 48k/3
AUDIO CD

Stereo Sound Mode

1 **Press AUDIO repeatedly during playback to choose AUDIO STEREO, AUDIO L-CH, or AUDIO R-CH.**

AUDIO STEREO — Both right and left channels are active (stereo).

AUDIO L-CH — Only the left channel is active.

AUDIO R-CH — Only the right channel is active.

Helpful Hints

- *If a desired language is not available after pressing AUDIO several times, the DVD does not have that language.*
- *The display will disappear after about five seconds.*
- *Some DVDs only allow you to change the language in the Disc menu.*
- *If you are using the COAXIAL jack, changing the sound mode is not applicable. Details are on pages 11 and 13.*
- *For some Audio languages, three dashes (- - -) may appear instead of a three-letter abbreviation for the language (ENG, FRE, etc.).*
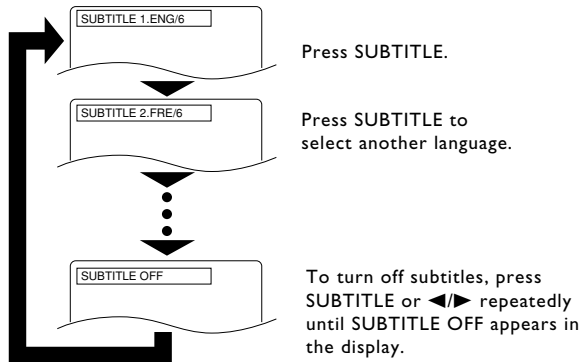

DVD

The DVD Player allows you to select a language for subtitles during playback. You may select only the subtitles that are available on the Disc.

1 **Press SUBTITLE repeatedly to select a subtitle language.** The subtitle display will appear at the top of the TV screen. The number of available languages appears at the right of the audio display. In this example, six languages are available (1/6). The display will disappear after about five seconds.

SUBTITLE 1.ENG/6

Press SUBTITLE.

SUBTITLE 2.FRE/6

Press SUBTITLE to select another language.

SUBTITLE OFF

To turn off subtitles, press SUBTITLE or ◄/► repeatedly until SUBTITLE OFF appears in the display.
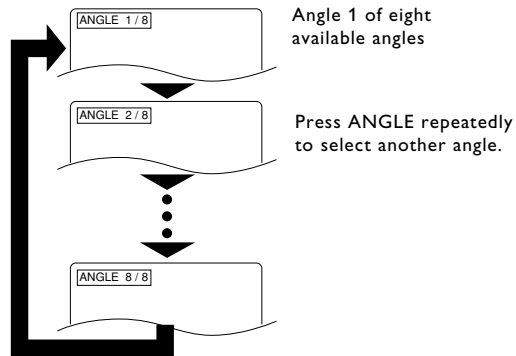

MAGNAVOX

Helpful Hints
• *With some DVDs, you may select a subtitle language only in the Disc menu.*   • *If the desired language does not appear after pressing the SUBTITLE button several times, the Disc does not have subtitles in that language.*   • *The subtitles may be delayed for a few seconds.*   • *For some Subtitle languages, three dashes (- - -) may appear instead of a three-letter abbreviation for the language (ENG, FRE, etc.).*

34 Camera Angles

● ●

DVD

Some DVDs contain scenes that were recorded from differ-
ent angles. You may select a camera angle with the DVD
Player's remote control during playback.

1 **Press ANGLE repeatedly to select a different
angle.** The Angle display will appear in the top left
corner of the TV screen. The number of available
angles appears at the right of the Angle display. In this
example, eight angles are available (1/8).
The Angle display will disappear after about five sec-
onds. Playback will continue from the angle you
selected, as long as it is available.

ANGLE 1 / 8   Angle 1 of eight
                        available angles

ANGLE 2 / 8   Press ANGLE repeatedly
                        to select another angle.
ANGLE 8 / 8

Helpful Hints

- *The current camera angle will
appear when you first press
ANGLE.*
- *If the Disc contains sequences
recorded from different camera
angles, the angle symbol will
appear at the top right corner of
the screen. You can change the
camera angle when the symbol
appears on the screen. ANGLE
ICON must be ON. Details are
on pages 40-41.*
- *The camera angle will not
change if the Disc does not con-
tain sequences recorded from
different camera angles.*

RATING EXPLANATIONS
• ALL - Parental Controls is inactive.
  All discs can play.
• 8 - Adult material
• 7 - NC-17 Not appropriate for
  children under 17
• 6 - R - Restricted; parental
  approval required for viewers
  under 18.
• 4 - PG-13 - Unsuitable for children
  under 13.
• 3 - PG - Parental Guidance sug-
  gested.
• 1- G - General Audience; recom-
  mended for audiences of all ages.

Helpful Hints

• *When you play a Disc whose rat-
  ing exceeds the level you set, a
  message will appear on the
  screen, indicating the Disc cannot
  play. If this happens, remove the
  Disc, then select a level that
  allows playback. Or, select All to
  turn off Parental Controls. Load
  the Disc again and begin playback
  as usual. Some Discs may allow
  you to enter your four-digit pass-
  word to begin playback. Refer to
  the instructions of the Disc.*
• *Some DVDs are not compatible
  with Parental Controls. Make sure
  the DVD plays according to the
  Parental Controls settings you
  have made before you allow chil-
  dren access to the DVD Player.*
• *You can not change Parental Level
 settings until you enter the correct
  password.*

38 Marker Setup Screen

• •

| DVD | | AUDIO CD |

Use Markers to remember your favorite places on a Disc.
To set the Markers, follow these steps. Before you begin,
play the Disc to approximately the point at which you want
to place the Marker.

1 **During playback, press MARKER.** The Marker dis-
play will appear in the top left corner of the screen.

    ┌─────────────────────┐
    │ **1** 2 3 4 5 AC   │
    │ NOT SET   │
    │   │
    └─────────────────────┘
2 **Within 30 seconds, press ◄ or ► to select 1, 2,
3, 4, or 5.** Make sure "NOT SET" appears in the dis-
play beneath the number you select.

3 **Within 30 seconds, play the Disc to the point at
which you want to set the Marker.**

4 **When the Disc reaches the point that you want
to remember, press OK.** The Title and elapsed play-
ing time (DVD) or Track and its elapsed playing time
(Audio CD) will appear in the display.

    ┌─────────────────────┐   ┌─────────────────────┐
    │ **1** 2 3 4 5 AC   │   │ **1** 2 3 4 5 AC   │
    │ TT01_0:12:01   │   │ TR 05_0:00:41   │
    │   │   │   │
    └─────────────────────┘   └─────────────────────┘

5 **To return to the Marker later, press MARKER
during playback. Press ◄ or ► to choose the
Marker you want, then press OK.** Disc play will
continue from the marked point.

2, 4-5

1,5
Helpful Hints

• *Opening the disc tray or turning
off the DVD Player will erase all
the Markers.*
• *To erase a single Marker, press
MARKER, then press ◄ or ► to
select your desired Marker. Press
CLEAR. "NOT SET" will appear
on the Marker display. Press
RETURN or MARKER to remove
the display.*
• *To erase all the Markers, press
MARKER, then press ► repeat-
edly to select "AC." Press OK.
Press MARKER to remove the
display.*

1 **While playback is stopped, press SETUP.** The setup screen will appear.

DVD

Black Level Settings
Adjust the Black Level Settings to make the black parts of the picture as bright as you prefer.

1 **Press MODE during playback.**

2 **Press OK repeatedly to choose ON or OFF.**
ON makes the dark parts brighter. OFF shows the original picture as recorded.

BLACK LEVEL : ON
DVD

SRS TruSurround Setting
You can enjoy improved stereo sound when you play Discs in Dolby Digital, PCM 48 kHz, or MPEG Audio.

1 **Press MODE twice during playback.**

2 **Press OK repeatedly to choose ON or OFF.**
The default setting is OFF. Choose ON only if you connected the DVD Player to a stereo that has a Dolby Digital or MPEG decoder. *Details are on page 11.* Make sure the current DVD is recorded in Dolby Digital, PCM 48 kHz, or MPEG Audio.

SRS TruSurround ON
Helpful Hints
• *SRS TruSurround is available only when the DVD Player is connected to a TV or Stereo using the red and white AUDIO OUT jacks on the DVD Player.*
• *If you connected the DVD Player to a stereo using the COAXIAL DIGITAL AUDIO OUT jack as described on page 11, turn off SRS TruSurround; otherwise, there will be no sound.*

Care and Maintenance, Glossary 45

Care and Maintenance
Cleaning the DVD Player
• Wipe the front panel and other exterior surfaces of the DVD Player with a soft, slightly damp cloth.
• Never use a solvent, thinner, benzene, or alcohol to clean the DVD Player. Do not spray insecticide liquid near the DVD Player. Such chemicals may discolor the surface or damage the DVD Player.
Cleaning a Disc
• Use a soft, dry cloth to wipe the Disc.
• Wipe the Disc in a straight line from the center to the edge. Never wipe the Disc in a circular motion.
• Do not use detergent or abrasive cleaning agents.
• Handle the Discs by the edges so fingerprints and dust do not adhere to the surfaces of the Discs.
• Always store the Disc in its protective case when it is not in use.

Checking the Laser
• If the DVD Player does not operate as described in this owner's manual, the laser may be dirty. Consult an Authorized Service Center for inspection and cleaning of the laser.

Don't use cleaners.
Wipe Discs from the center to the edge.

Handle Discs by the edges.

Glossary
AUDIO OUT Jacks: Jacks on the back of the DVD Player that send audio to another system (TV or stereo).
COAXIAL jack: Sends digital audio to a stereo, allowing you to adjust the volume at the stereo. The stereo must have a Coaxial In jack. This connection provides the 5.1 channel surround sound as heard in movie theaters.
COMPONENT VIDEO OUT Jacks (MDV430 only): Jacks on the back of the DVD Player that send high-quality video to a TV that has Component Video In jacks.
Dolby Digital: A surround sound system that provides 5.1 channel sound as used in movie theaters.
Letterbox: A TV Aspect setting (4:3). Displays the video in full-width, with black bars at the top and bottom of the TV screen. This format is used often when you see a movie in a theater. If the Disc does not include a letterbox format , selecting Letterbox may have no effect. (For example, some DVD discs are two-sided, with one side playing in Letterbox and the other side playing in a normal format.)
**Pan & Scan:** A TV Aspect setting (4:3). Displays the video with full-height picture, with one or both sides of the picture trimmed to fit your screen.
Remote Control: The small electronic unit that came with your DVD Player; allows you to operate your DVD Player from a distance.
S-Video: Produces a clearer picture by sending separate signals for the luminance and the color. If you connect an optional S-Video cable, you will not need to use the supplied yellow video cable. You can use S-Video only if your TV has an S-Video In jack.
VIDEO OUT Jack: Jack on the back of the DVD Player that sends video to a TV. Use the supplied yellow video cable to make this connection.
Wide: A TV Aspect setting (16:9). Displays the video appropriately when you connect the DVD Player to a widescreen TV.

••

If you are having problems with your product, check this list of problems and possible solutions before requesting service. You may be able to solve the problem yourself. If you need to call a customer service representative, please know the model number and serial number of your product before you call. This information is on the back of the product. Also, please take a moment to identify the problem you are having, and be prepared to explain this to the representative. If you believe the representative will need to help you with operations, please stay near the product. Our representatives will be happy to assist you.

The DVD Player has no power.
• Make sure the power cord is connected completely to an AC (alternating current) outlet.
• Press the POWER ⏻ button to turn on the DVD Player. "P-ON" will appear briefly on the display panel of the MDV430 as the power is turning on. The red POWER light will appear on the front of the MDV410 when the power is on.

The remote control will not operate the DVD Player.
• Aim the remote control directly at the DVD Player's remote sensor. *Details are on page 16.*
• Remove all obstacles between the remote control and the DVD Player.
• Inspect and/or replace the batteries in the remote control. *Details are on page seven.*
• Use the remote control within 23 feet of the DVD Player.

No picture
• Make sure the video cable is connected correctly. You may connect either the yellow video cable (supplied), an optional S-Video cable, or optional component video (MDV430 only) cables. You only need one video connection between the DVD Player and the TV. *Details are on pages 8-13.*
• Make sure the TV is set to the correct Video channel (usually the AUX IN, A/V IN, Auxiliary In, EXT or External In, Component Video In or S-Video In channel). These channels usually are located near channel 00. Check your TV owner's manual for details. Or, change channels at the TV until you see the DVD logo or DVD playback on the TV screen.
• Insert a Disc that is playable on this DVD Player. *Details are on page six.*

Disc cannot play.
• Insert a playable Disc. *Details are on page six.*
• Place the Disc correctly in the recesses in the Disc tray. If the Disc is one-sided, place the Disc in the tray with the label facing up. If the Disc is two-sided, make sure the side you want to play is facing up.
• Clean the Disc. *Details are on page 45.*
• Check the Parental Controls and adjust if necessary. *Details are on pages 36-37.*

No sound
• Connect the audio cables firmly. Make sure the cables are connected to the AUDIO IN jacks on the TV or audio equipment. *Details are on pages 8-13.*
• Check the Audio Settings of the DVD Player. *Details are on page 39.*
• Turn on the power of the audio equipment and make sure it is set to the correct channel, usually Auxiliary IN. Refer to the owner's manual of the audio equipment for details.
• Check the Audio Settings of the Disc. For example, you may have selected "soundtrack" playback on a DVD. Only the music of the movie will play, not the characters' dialog; music might not be recorded throughout the entire DVD. *Details are on page 32.*
Distorted picture
• Connect the DVD Player directly to the TV. *Details are on page eight.*
• There are some cases where the picture may be distorted slightly and briefly; this is
   not a malfunction of the DVD Player.

You can not change the camera angle.
• The DVD might not contain segments recorded from different camera angles. See if
   multiple angles are available by referring to the DVD case or menu for more infor-
   mation. *Details are on page 34.*

You can not change the audio or subtitle language.
• The DVD does not contain audio or subtitles in the desired language. Not all DVDs
   contain audio or subtitles in multiple languages. See if other languages are available.
   Details are on page 32-33.

An "X" appears on the TV screen, prohibiting an operation.
• You can not access the current operation at the current time or the feature is not
   available on the Disc. For example, some menus or features can be accessed or
   changed only when Disc play is stopped, while some are available only during play-
   back. Check the instructions for accessing the feature before trying again. *Details are
   on page five.*

The DVD Player turns off after 35 minutes.
• If AUTO POWER OFF is activated, the DVD Player turns off automatically if play-
   back stops for more than 35 minutes and you press no buttons on the remote con-
   trol or the DVD Player. When you receive the DVD Player, the factory has set
   AUTO POWER OFF to ON. *Details are on pages 40-41.*

A large DVD logo appears on the TV screen.
• The DVD logo will appear on the TV screen if you stop Disc playback for more than
   five minutes and you do not press any buttons on the remote control or the DVD
   Player. The logo will appear on the screen for 35 minutes, then the Player will turn
   off automatically as described above. To prevent damage to your TV's picture tube,
   avoid leaving the DVD logo on the TV screen. Turn off the DVD Player when it is
   not in use. A prolonged still image, including TV station identification logos or video
   games, may damage your TV picture tube.
