BUILDING BASICS

Getting Started:

To begin your model, find the **1** and follow the numbers. Each piece has its own shape and color. Just look at the pictures, find the pieces in your set that match and then connect them together. Try to face your model in the same direction as the instructions while you build. Faded colors show you this section is already built. You'll want to connect the new section to the place where the arrows are pointing.

Connectors:

There are blue and gray Connectors with special long slots. They slide together as you see in the pictures. Push these parts together until you hear a "click."

Spacers:

There are places in your model where you need to add blue and silver Spacers. Be sure to use the right color and count them carefully.

Inicia a construção: Para começar o teu modelo, procura o 1 e segue os números. Cada peça tem a sua própria forma definida e cor. Basta simplesmente olharaes para a ilustração, procurar as peças do teu jogo correspondentes às que estás a ver e, em seguida, conectar umas nas outras. Enquanto estás a montar as peças, tenta manter o teu modelo na mesma direcção, conforme mostrado na ilustração, para assim ligares as peças correctamente. As cores desbotadas indicam que esta secção já está montada. Passarás então a fazer a conexão da nova secção no local indicado pelas setas.

Conectores: É muito importante que posições os conectores azuis e cor de prateados numa direcção específica. Presta muita atenção às instruções e coloca estes conectores horizontal ou verticalmente, exactamente conforme se mostra nas ilustrações. Junta as partes simultaneamente e com firmeza até ouvires um "estalido".

Espaçadores: Existirão certos pontos no teu modelo que necessitam a colocação de espaçadores azuis e prateados. Assegura-te que os contas cuidadosamente.

Basisstappen voor K'NEX bouwen

Begin te bouwen: Om met je model te beginnen, vind eerst het nummer 1 en volg de nummers. Elk stuk heet zijn eigen vorm en kleur. Kijk gewoonweg naar de afbeeldingen, vind de overeenstemmende stukken terug in je geheel en maak ze aan mekaar vast. Tracht je model in dezelfde richting te plaatsen als de aanwijzingen terwijl je bouwt en monteert. De vervaagde kleuren duiden aan dat dit deel reeds is opgebouwd. Gelieve het nieuwe deel vast te koppelen op de plaats aangeduid door de pijlen.

Koppelstukken: Er zijn blauwe en zilveren koppelstukken met speciale lange gleuven. Ze schuiven in mekaar zoals je kunt zien op de afbeeldingen. Duw deze onderdelen in mekaar tot je een "klik" hoort.

Tussenstukken: In je model zijn er plaatsen waar blauwe en zilveren tussenstukken moeten toegevoegd worden. Verzeker je ervan de juiste kleur te gebruiken en tel ze zorgvuldig.

K'NEX grundläggande bygginformation

Börja bygga: Varje del har sin egen färg och form. Titta på bilden, hitta delarna som passar och sätt ihop dem. Försök att hålla din modell i samma riktning som på bilden så att du får delar på rätt ställe. De bleka färgerna anger sektioner som du redan byggt. Du ska koppla nästa delar till ställena som anges med pilarna. Det finns inte pilar för varje kopplingspunkt.

Kopplingar: Det finns blå och silverfärgade kopplingar med speciellt långa hål som skjuts samman. Tryck ihop delarna tills du hör ett klick-ljud.

Mellanstänger: Det finns ställen i din modell där du måste placera mellanstänger. Använd rätt typ och räkna dem omsorgsfullt.

Oplysninger om batterier:

Forsigtig: Sådan undgås det. at batterierne lækker

- Sorg for at sætte batterierne rigtigt i og for altid at følge brugsanvisningen fra legetøjs- og batteriproducenten.
- Lad være at blande gamle og nye batterier sammen, eller at blande alkaliske, almindelige (kulstof-zink) eller genopladelige (nikkel-cadmium) batterier med hinanden. Det er kun tilladt at bruge batterier af samme eller tilsvarende type iflg. anbefaling.

- Tag altid svage elle ubrændte batterier ud af produktet, og pas på ikke at kortslutte polerne.

Vigtige råd

- Det anbefales at bruge 2 (LR6) alkaliske batterier.
- Batterier, der kan genoplades, frarådes.
- Tag genopladelige batterier ud af legetøjet, inden de oplades; de må kun oplades under opsyn af en voksen.
- Batterier, som ikke er genopladelige, må ikke genoplades.
- Støv delene godt af. Lad være at nedsænke dem i vand.

- Tag alle batterier ud, hvis ingen skal lege med legetøjet i en længere periode.

- Undlad at stikke stænger mindre end 5,08 cm ind i nogen som helst åbninger i motoren; de vil beskadige mo-toren, og de kan ikke fjernes.

Sådan sættes der batterier i, og sådan tages de ud:

- Brug en lille stjerneskruetækker til at løsne skruen. Sæt 2 friske AA-batterier (eller LR6) i batterirummet, sorg for korrekt polaritet (+/-) iflg. illustrationen.

K'NEX bygningsprincipper

Begynd at bygge: Hver del har sin egen farve og form. Se på billedet, find de dele, der matcher, og sæt dem sammen. Proov at holde din model i samme retning som billedet, så du kommer til at sætte delen fast på den rette plads. De falmede farver er de afsnit, du allerede har bygget. Du skal samle de næste dele på det sted, som pilene peger på. Der findes ikke nogen pil for hvert eneste samlingssted.

Samestykker: Der er blå og solvfarvede samlestykker med særlige lange slidser, som skydes sammen. Skub delene sammen, indtil du hører et "klik".

Afstandsstykker: Der er steder i modellen, hvor du får brug for at tilføje afstandsstykker. Sørg for at bruge de rette stykker og tæl den omhyggeligt.

Tietoa paristoista:

Varoitus! Vältä paristovuotoja

- Asenna paristot oikein ja noudata aina lelun ja paristojen valmistajien ohjeita;
- Älä sekoita vanhoja ja uusia paristoja tai alkaali-, normaali- (hiili-sinkki) tai ladattavia (nikkeli-cadmium) paristoja. Vain samaa tai vastaavaa tyyppiä olevia paristoja saa käyttää;

K'NEX perusrakennusohjeita

Aloita rakentaminen: Jokaisella osalla on oma värinsä ja muotonsa. Katso kuvaa, etsi käsiisi toisiinsa sopivat palat ja pane ne yhteen. Yritä pitää mallisi samassa suunnassa kuin kuvassa jotta varmasti kiinnität osan oikeaan kohtaan. Haaleat värit osoittavat rakenteita, jotka olet jo tehnyt. Liitä seuraavat osat nuolien osoittamiin kohtiin. Nuolia ei ole jokaisessa liitäntäkohdassa.

Liittimet: Sarjassa on joissain ja hopeanvärisiä liittimiä, joissa on erityisen pitkiä aukkoja, jotka työnnetään toisiinsa. Työnnä osat yhteen kunnes kuulet napsahduksen.

Välitangot: Mallissasi on paikkoja joihin sinun on lisättävä välitankoja. Varmista, että käytät oikeita ja laske ne huolellisesti.
