Instructions

Receiver Battery Installation:

Press the plastic clip to open the cover of transmitter, install the 12V/23A battery(included), then close the cover.

Music Selection

There are 52 chime tones for TeckNet WA688. Press the "Music" button to choose a favorite chime, every time you press the button, it would play the next chime for your selection. Once chose a chime, stop press the "Music" button.

Volume Adjustment

There are 4-level volumes for TeckNet WA688. Press "Volume" button to increase the volume. When the volume reaches its maximum, press the button again it would turn to minimum volume.

Pairing Method

Receiver1:
(1) Plug one receiver into AC socket. Press the "Music switch" button, and choose a favorite chime first.
(2) Either operation below is available for pairing program.
A: Press "Volume" and "Music" button simultaneously, LED light of the receiver will flash, along with warning tone "Dingdong" to enter pairing mode.
B: Press "Volume" button for 5 seconds, LED light of the receiver will flash, along with warning tone "Dingdong" to enter pairing mode. When above either 1 or 2 step is finished, press the button of the transmitter, LED of the receiver will flash, the selected chime tone will be played at the same time, which means pairing successfully.
Receiver2: Pairing method is the same as Receiver 1.

Change Chime Tone:
No need to delete the pairing before changing the chime tone.
1. Firstly, press the "Music" button to select a new chime tone.
2. Then press "Volume" and "Music" button simultaneously; or hold the "Volume" button for 5 seconds, the LED of transmitter would flash along with warning tone "Ding~Dong" then press the button of transmitter, the receiver would play the new chime tone just selected.

Delete Pairing

Press "Music" button for 5 seconds to delete pairing memory. The LED would flash along with warning tone "Ding~Dong", that means the pairing is deleted.

Receiver and Transmitter Installation

Transmitter

Method 1: Adhesive Tape for Transmitter
Apply the double-sided adhesive tape on the back of transmitter case. Remove the top layer of the tape and attach the transmitter in desired location on the wall and press hard for 30 seconds.
Method 2: Screw for Transmitter
There are screw locator knockouts at the back of transmitter - punch these out to allow the screws to pass through and use screwdriver to tighten the screws to fix it on the wall.

Receiver: Insert the receiver into AC socket directly.
Note: Please complete the music selection and pairing to make sure that the doorbell works properly before installing the receiver and transmitter.

Maintenance

1. Ideally, use high quality alkaline batteries. This will last longer and reduce the chance of electrolyte leakage.
2. In order to protect the precision internal electronic components, it's advisable that unqualified users should not attempt to open the unit for maintenance.
3. Do not exposure to continuous direct sunlight or humid environment.this will adversely affect the unit.
4. Properly usage would extend the lifetime of the product.
