

# ROBOT SHOWDOWN™

**TYCO® RC 90 DAY LIMITED WARRANTY.** This product is thoroughly tested and inspected before shipment and is guaranteed to be free from factory defects in material and workmanship for a period of 90 days from the date of purchase. Mattel will repair or replace any defective part or unit free of charge during this period. This warranty is valid provided the product has been used in accordance with the instructions and proof of purchase is furnished. This warranty does not apply to worn or defective batteries, or to items which have been damaged or abused by the consumer. This warranty gives you specific legal rights and is in addition to and does not diminish your statutory or other legal rights. **IMPORTANT:** Please return your product in its original package and keep a record of what you return.

**Ⓢ GARANTIE: LES VEHICULES RADIO-COMMANDES TYCO® SONT GARANTIS 90 JOURS** Ce produit Tyco, qui subit de nombreux essais et vérifications avant sa sortie d'usine, est garanti contre les défauts d'usine au niveau des matériaux et de la main d'oeuvre, pendant 90 jours à compter de la date d'achat. Mattel réparera ou remplacera gratuitement toute pièce ou unité défectueuse pendant cette période de garantie. La présente garantie est valable à condition que l'utilisation du produit corresponde aux instructions et qu'une pièce justificative de l'achat soit présentée. La présente garantie ne s'applique pas aux piles usées ou défectueuses, ni aux éléments endommagés ou maltraités par le consommateur. La présente garantie vous accorde certains droits légaux spécifiques, s'ajoutant à vos autres droits légaux et sans préjudice contre eux. **IMPORTANT:** Merci de conserver votre ticket de caisse: il vous sera réclamé par le Service Consommateurs. Veuillez conserver une liste des articles renvoyés. **ATTRIBUTION DE JURIDICTION (FRANCE):** Tout litige concernant l'interprétation ou l'exécution de la garantie du Fabricant sera soumis pour la France, au Tribunal de Commerce de Paris.

**Ⓢ TYCO® RC 90 DAGEN GARANTIE • RADIO CONTROL VOERTUIGEN MET AFSTANDSBEDIENING** Dit product is getest en onderworpen aan een grondige inspectie en wordt gedurende een periode van 90 dagen vanaf de aankoopdatum gegarandeerd wat betreft fabriekfouten. Gedurende deze periode ontvangt Mattel eventuele defecte onderdelen of eenheden kosteloos. Deze garantie geldt voor een defect ontstaan bij normaal gebruik van het product conform de bijgevoegde instructies. U dient het aankoopbewijs mee te sturen. Deze garantie dekt geen schade veroorzaakt door defecte of versleten batterijen noch schade door abnormaal of verkeerd gebruik. Deze garantie geeft u specifieke wettelijke rechten en is een aanvulling op en geen vermindering van uw wettelijke of andere rechten. **BELANGRIJK:** Bewaar een lijstje van de teruggestuurde stukken.

**Ⓢ GEWAHRLEISTUNG** Dieses Produkt wurde vor der Lieferung gründlich getestet und überprüft. Sollten dennoch Mängel an Material und Verarbeitung auftreten, wird Mattel während eines halben Jahres (gesetzliche Gewährleistungspflicht Deutschland/Österreich) bzw. eines Jahres (gesetzliche Gewährleistungspflicht Schweiz) alle Mängel kostenlos beseitigen oder das Gerät austauschen. Die Gültigkeit dieser Zusage gilt nicht für Batterien oder Teile, die vom Benutzer beschädigt oder missbräuchlich verwendet wurden. Wichtig: Bewahren Sie bitte Ihren Rechnungsbeleg auf. Bitte sehen Sie von Einwendungen ab, die nicht zuvor mit dem Kundendienst abgesprochen wurden.

**Ⓢ GARANZIA • TYCO® GARANTISCHE PER 90 GIORNI I PROPRI VEICOLI RADIOCOMANDATI E TRASMETTITORI** Questo articolo viene testato e revisionato sotto tutti gli aspetti prima di essere spedito, ed è pertanto garantito da difetti di materiale e di produzione per un periodo di 90 giorni a partire dalla data di acquisto (fa fede lo scontrino fiscale). La presente garanzia non è valida per danni causati da incuria, uso ed installazione errati non conformi alle avvertenze riportate nel libretto di istruzione, per incidenti, manomissioni o per riparazioni errate e per i danni intervenuti durante il trasporto da e per il cliente. Essa non si applica alle pile consumate o difettose, né ad elementi danneggiati dal consumatore o utilizzati da quest'ultimo in modo scorretto. È escluso il risarcimento dei danni diretti o indiretti causati a persone o cose conseguente all'uso o alla sospensione dall'uso dell'apparecchio. Sono esclusi dalla garanzia cavetti, spine e parti elettroniche in genere. **IMPORTANTE:** Ricevete il vostro TYCO® RC nella confezione originale e completa di tutti pezzi.

**Ⓢ CARRO TELECOMANDATO TYCO® - GARANTIA LIMITADA DE 90 DIAS** O produto de Tyco foi objeto de minuciosos testes e controlos com as instruções antes de sair da fábrica. Tem portanto garantia contra qualquer defeito de fabrico, no que diz respeito tanto ao utilizador como ao produto, por um prazo de 90 dias, a partir da data de compra. Durante esse período, a Mattel reparará ou substituirá gratuitamente as peças ou unidades defeituosas sem qualquer custo para o consumidor. A presente garantia será válida sempre que o produto tenha sido utilizado de acordo com as instruções de manuseamento e na condição de que seja apresentado o recibo da compra. Esta garantia não inclui o desgaste ou defeitos das pilhas, nem as unidades que tenham sido utilizadas de forma incorrecta ou danificadas pelo consumidor. A presente garantia outorga direitos jurídicos expressos e também quaisquer outros direitos do comprador, estabelecidos pela Lei ou de outra índole, sem detrimimento dos mesmos. **IMPORTANTE:** Envie o produto na embalagem original e guarde uma relação dos artigos enviados.

**Ⓢ POLITICA DE GARANTIA** Mattel do Brasil Ltda ga rante este produto por un prazo de 2 anos em todas as suas partes de fabricação a partir da data de aquisição. Em caso de defeito, ligar para 0800-550780 esta garantia não se aplica a prejuízos decorrentes de acidentes e má utilização do produto.

**Ⓢ 90-DAY LIMITED WARRANTY** Mattel, Inc. warrants to the original consumer purchaser that this product will be free of defects in material and workmanship for ninety (90) days (unless specified in alternate warranties) from the date of purchase. If defective, return the product along with proof of the date of purchase, postage prepaid to Mattel Canada Inc., Consumer Service, 6155 Freemont Blvd., Mississauga, Ontario L5R 3W2 for replacement with an identical toy or a similar toy of equal or greater value according to availability. This warranty gives you specific legal rights and you may have other rights which vary from province to province. This warranty does not cover damage resulting from accident, misuse or abuse. Valid for products sold in Canada only.

**Ⓢ GARANTIE LIMITEE DE 90 JOURS** Mattel garanti à l'acheteur initial que le produit est couvert contre les vices de matériau ou de fabrication pour une période de 90 jours (à moins d'indication contraire dans d'autres garanties) à compter de la date d'achat. Tout produit défectueux doit être retourné, accompagné d'une preuve de la date d'achat et dûment affranchi, au Service à la clientèle de Mattel Canada Inc., 6155, Freemont Blvd, Mississauga (Ontario) L5R 3W2, où il sera remplacé par un produit identique ou un produit semblable de valeur égale ou supérieure, selon la disponibilité. La présente garantie procure certains droits légaux à l'acheteur, qui peut également bénéficier de droits supplémentaires qui varient d'une province à l'autre. La présente garantie ne couvre pas les dommages occasionnés par un accident ou un usage abusif ou inapproprié. Valable pour les produits vendus au Canada seulement. **QUESTIONS OU COMMENTAIRES? COMPOSEZ SANS FRAIS LE 1 800 665-MATTEL (1 800 665-6288) du lundi au vendredi, de 8 h à 17 h (HNE) ou de 5 h à 14 h (HNP).**

**Ⓢ PÓLIZA DE GARANTIA** Mattel de México, S.A. De C.V., garantiza sus productos por un periodo de 90 días en todas sus partes y mano de obra, a partir de la fecha de entrega. Condiciones: 1.- El consumidor presentará el producto en el lugar donde lo adquirió y/o presentarlo o enviarlo a nuestro centro de servicio ubicado en Lebriza 296-A, Col. Cerro de la Estrella, Iztapalapa C.P. 09880, México, D.F. Tels: 426-44-87 y 426-44-38 2.- Durante la vigencia de esta política nos comprometemos a efectuar sin cargo la reparación, en un plazo que no excedera de 30 días a partir de la fecha de recepción del producto en nuestro centro de servicio, o el cambio del producto defectuoso en su caso. Así mismo cubrimos gastos que se deriven de la presente garantía. 3.- Reclamaciones para este producto podrán ser atendidas en nuestro centro de servicio. Esta garantía se invalida en los siguientes casos: si ha sufrido un deterioro esencial, grave o irreparable por causa del consumidor, por daños causados por maltrato, mal uso, golpes accidentales o intencionales, o que el artículo se hay expuesto a elementos como agua (la excepción de que el instructivo indique otra cosa), ácidos, fuego, intemperie, así como daños causados por baterías que se dejen dentro del juguete por largos periodos de tiempo sin uso.

## HOW TO PLAY

These instructions are in two parts (please read both parts before operating):

1. These "How to Play" instructions give you detailed instructions for game play.
2. The Owner's Manual tells you about basic operation and battery installation.

Please read all consumer and safety information before operating. Keep all instructions for future reference: they contain important information.

## I. INTRODUCTION

ROBOT SHOWDOWN™ is a cool action set. You control the full-function R/C vehicle. The awesome pursuit robot uses infrared technology to track and follow the vehicle. If the robot hits your vehicle's rear bumper three times, the vehicle will flip over... the robot wins. But if you can hit the robot's rear bumper with the vehicle, you'll shut down the robot... and you win. Keep reading for detailed step-by-step instructions.

## II. SETUP

Please refer to Owner's Manual for detailed battery installation instructions.

1. Install batteries in vehicle, transmitter and robot.
2. Hold the vehicle right-side-up. Carefully and firmly push the flip arm into position until it clicks securely in place. The flip arm requires some effort to operate: make sure that it has clicked into position before releasing it.
3. Make sure the mode switch is in unlocked position.
4. Turn vehicle switch on. The vehicle power switch has 3 positions: indoor [GRAPHIC], off [GRAPHIC], and outdoor [GRAPHIC]. Select the proper position for indoor or outdoor use.
5. Turn robot switch on. The robot will make a cool "power-up" sound.

**⚠ CAUTION: Flip arm can be activated during handling. Keep clear of the flip arm when handling.**

When you take the robot out of the package, its upper body will be rotated to one side. Rotate the upper body so the robot is facing front before starting play.

## III. SKILL LEVEL

1. Use the robot's select button to choose your skill level. After the "power-up" sound ends, press the select button as follows:

Press once for "easy" skill level (1 beep)

Press a second time for "medium" skill level (2 beeps)

Press a third time for "expert" skill level (3 beeps)

Press again to return to "easy" skill level and cycle through skill levels again.

2. Once you've selected your skill level, press and hold the select button to

start. The robot will "laugh" to confirm your choice.

## IV. GET STARTED

1. Place the vehicle on the ground, about 1 meter from the robot (any direction).
2. The robot will turn around in "search" mode, looking for the infrared signal from the vehicle. The robot's headlight will come on when it's in tracking mode.
3. Start driving the vehicle. The robot will lock on to the infrared signal and follow, trying to hit the vehicle's rear bumper.

## V. HOW TO WIN

1. If the robot hits the vehicle's rear bumper three times, the vehicle will flip over. The robot wins!
2. At random intervals during the chase, the robot will "run low" on power. When that happens, the "low power" alert sound will go off, the robot's lights will flash, and it will stop moving to "recharge." At this time the robot is vulnerable to attack.
3. While the robot is vulnerable, you can steer your vehicle to come up behind the robot and hit its rear bumper. That will deactivate the robot. You win! When the robot is deactivated, it will fall forward and make a "power down" sound.

## VI. RESET

If you've won:

1. To start over, return the robot to its upright position. (You'll feel a click.)
2. Press the select button again to choose a skill level and start over.

If the robot has won:

1. Deactivate the robot by tapping the robot's rear bumper.
2. Hold the vehicle right-side-up. Carefully and firmly push the flip arm into position until it clicks securely in place. The flip arm requires some effort to operate: make sure that it has clicked into position before releasing it.
3. Press the select button again to choose a skill level and start over.

## IMPORTANT INFORMATION

1. **⚠ CAUTION: Flip arm can be activated during handling. Keep clear of the flip arm when handling.**
2. If the flip arm does not spring out after three hits, reset the mechanism by holding the vehicle right-side-up while moving the mode switch from unlocked position to locked position – then back to unlocked position.
3. For long-term storage, store the vehicle with the flip arm released. Storing the vehicle this way will maintain best performance.
4. To operate the vehicle as a full-function R/C – without the robot – hold the vehicle right-side-up while moving the mode switch to locked position. This will lock the flip arm. Move the mode switch back to unlocked position (while holding the vehicle right-side-up) to unlock the flip arm for robot pursuit action.
5. If you are taking a quick "break" from play – or if you are transporting your vehicle from one place to another – hold the vehicle right-side-up while

moving the mode switch to locked position. This will lock the flip arm. Move the mode switch back to unlocked position (while holding the vehicle right-side-up) to unlock the flip arm for robot pursuit action.

## VII. TIPS & HINTS

1. In "easy" skill level, the robot stays vulnerable for a longer period, giving you a better chance to deactivate it. In "medium" and "expert" skill levels, the periods of vulnerability get shorter...making for a more challenging game.
2. The best tracking range is 3-4 meters between vehicle and robot. If your vehicle gets beyond this distance, drive it back into range. The robot will "reacquire" the vehicle's infrared signal once the vehicle is back in range.
3. If an obstacle interrupts the infrared beam between the robot and the vehicle, the connection will be temporarily broken. The robot will go back into "search" mode until it reacquires the vehicle's signal. You can use this feature to "hide" from the robot...for extra game action.
4. This product is not designed for use in confined areas. Make sure you have enough room to play.
5. The infrared emitters on the top of the vehicle and the infrared receivers inside the robot must be clean and unobstructed for proper operation. If necessary, carefully use a brush – or a clean, dry cloth – to clear any obstruction.
6. The robot's movable arms are designed to "break away" on impact. Simply reattach them to the robot's body.
7. Like many other infrared devices, this product may operate poorly around bright reflective surfaces (like mirrors). In addition, some electronic devices with remote controllers may affect its operation. You may need to choose an alternative place to play.
8. For best performance when playing indoors, make sure the vehicle's 3-position power switch is set to "indoor" position [GRAPHIC]. For best performance when playing outdoors, make sure the vehicle's 3-position power switch is set to "outdoor" position [GRAPHIC].
9. The infrared emitters on the top of the vehicle draw battery power whenever the vehicle is switched on. Be sure to turn the vehicle and the robot switches OFF when not in use, and remove all batteries for storage.

## OWNER'S MANUAL

These instructions are in two parts (please read both parts before operating):

1. This Owner's Manual tells you about basic operation and battery installation.
2. The "How to Play" instructions give you detailed instructions for game play.

Please read all consumer and safety information before operating. Keep all instructions for future reference: they contain important information.

### I. CONTENTS

- ① R/C Vehicle
- ② R/C Transmitter
- ③ Pursuit Robot

### II. VEHICLE

Bottom View

- ① 3-position power switch
- ② Spring-activated flip arm
- ③ Mode switch (lock/unlock)
- ④ Battery doors (2)
- ⑤ Steering adjuster (adjust, if necessary, to keep vehicle running straight)

Side View

- ① Infrared emitters (4)
- ② Spring-activated rear bumper

Refer to label on transmitter and vehicle for frequency.

### III. ROBOT

Bottom View

- ① ON/OFF switch
- ② Battery door
- ③ Battery latch

Side view

- ① Select button
- ② Infrared receivers (inside robot body)
- ③ Spring-activated rear bumper
- ④ Spring-activated front bumper

### IV. TRANSMITTER CONTROLS

The vehicle is a full-function radio control vehicle. You control it with the transmitter.

The pursuit robot is not radio-controlled. It uses infrared technology to track and follow the vehicle. It is not controlled with the transmitter.

- ① FORWARD
- ② REVERSE
- ③ LEFT
- ④ RIGHT

### V. BATTERY INSTALLATION

(1) Vehicle

- ① Open battery doors as shown.
- ② Insert 4 LR6 (AA) batteries, with polarity (+/-) as shown inside battery compartments.
- ③ Replace battery doors.

 CAUTION: Flip arm can be activated during handling. Keep clear of the flip arm when handling.

(2) Transmitter

- ① Open battery cover as shown.

- ② Install one 6LR61 (9V) battery with polarity (+/-) as shown inside battery compartment.
- ③ Replace battery cover.

(3) Robot

- ① Rotate battery latch to unlocked position.
- ② Open battery door as shown.
- ③ The robot operates on 6 LR6 (AA) batteries. To install, slide battery dividers up to top of battery compartment and install three batteries, with polarity (+/-) as shown inside battery compartment. Slide battery dividers back down until they are touching the three batteries you just installed. Now install three more batteries, with polarity (+/-) as shown inside battery compartment.
- ④ Replace battery door and rotate battery latch to locked position.

### VI. IMPORTANT INFORMATION

Notes to Adults:

To ensure that the child's play is both safe and fun, please review all operating instructions and safety rules with your child.

Safety Tips

 CAUTION:

- Flip arm can be activated during handling. Keep clear of the flip arm when handling.
- NEVER drive your vehicle on streets! They're for real cars!
- DO NOT pick up vehicle while in motion.
- Keep fingers, hair and loose clothing away from the tires and the wheel hubs while the vehicle is switched ON.
- Adult supervision is recommended when this vehicle is being operated.
- To avoid accidental operation, remove all batteries when not in use.

### BATTERY SAFETY INFORMATION

- Insure that battery polarity is correct.
- Use only batteries of the type recommended (or equivalent).
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Remove used-up batteries immediately. Remove batteries if vehicle will not be used for a long period.
- Do not recharge non-rechargeable batteries.
- Do not short-circuit terminals.
- Remove rechargeable batteries before recharging (if the batteries are designed to be removable).
- Recharge batteries only under adult supervision (if the batteries are designed to be removable).

Battery Performance Note:

This is a high-performance product that needs lots of power. The product is supplied with standard alkaline batteries. For best performance, we STRONGLY RECOMMEND that you replace those batteries, when necessary, with extra-high-performance alkaline batteries. Battery life may vary depending on battery brand.

### VII. IMPORTANT INFORMATION

1.  CAUTION: Flip arm can be activated during handling. Keep clear of the flip arm when handling.
2. If the flip arm does not spring out after three hits, reset the mechanism by holding the vehicle right-side-up while moving the mode switch from unlocked position to locked position – then back to unlocked position.
3. For long-term storage, store the vehicle with the flip arm released. Storing the vehicle this way will maintain best performance.
4. To operate the vehicle as a full-function R/C – without the robot – hold the vehicle right-side-up while moving the mode switch to locked position. This will lock the flip arm. Move the mode switch back to unlocked position (while holding the vehicle right-side-up) to unlock the flip arm for robot pursuit action.
5. If you are taking a quick "break" from play – or if you are transporting your vehicle from one place to another – hold the vehicle right-side-up while moving the mode switch to locked position. This will lock the flip arm. Move the mode switch back to unlocked position (while holding the vehicle right-side-up) to unlock the flip arm for robot pursuit action.

### VIII. QUICK TIPS

1. When the vehicle or robot starts to lose power, it may lose functions or performance. It's time for fresh batteries. Running time may change depending on your driving style.
2. Radio interference can make your vehicle run badly. Interference can be caused by other R/C vehicles running on the same frequency; electrical wires; large buildings; or CB radios. Try to stay away from these!
3. Point your transmitter antenna up - not down toward your vehicle. If your vehicle gets too far away, it won't work properly.
4. Don't drive in sand or through water or snow. If the vehicle or robot does get wet, allow it to dry thoroughly overnight before operating again.
5. Don't store the vehicle or robot near heat or in direct sunlight. Always turn switches OFF and remove all batteries for storage.
6. The best tracking range is 3-4 meters between vehicle and robot.
7. For best performance when playing indoors, make sure the vehicle's 3-position power switch is set to "indoor" position [GRAPHIC]. For best performance when playing outdoors, make sure the vehicle's 3-position power switch is set to "outdoor" position [GRAPHIC].
