Keep these instructions for future reference: they contain important information.

CAUTION: Surfaces may become hot and cause burns if electronics get wet. Do not operate vehicle through water or snow.

## CONTENTS

Vehicle
Transmitter
Power Clip (if supplied)
6.0V Jet Turbo® Battery Pack (if supplied)
6.0V Jet Turbo® Charger (if supplied)

## CHASSIS

Your vehicle's chassis may look slightly different, depending on the vehicle's design. Refer to label on transmitter and vehicle for frequency. Do not race vehicles with the same frequency.

## **RIGHT**

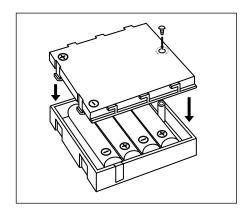

# POWER SYSTEMS

This vehicle can operate on 2 different power systems: the Power Clip (which uses 4 "AA" batteries) or the 6.0V NiCd rechargeable battery pack. For detailed information regarding NiCd vehicle battery charging and safety, please follow the specific instructions that came with your battery pack and charger.

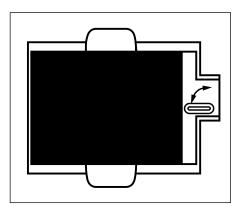

## POWER CLIP

Unscrew Power Clip cover screw and remove cover. Insert 4 "AA" batteries, with polarity (+/-) as shown inside Power Clip. Replace cover.

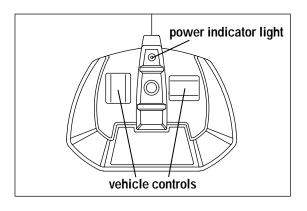

## VEHICLE BATTERY INSTALLATION

- 1. Rotate battery latch to open position.
- 2. Insert the battery you're using into battery compartment and slide it away from latch.
- 3. Make sure battery snaps securely in place and rotate latch to locked position.
- 4. To remove: turn latch, slide toward latch and lift out.

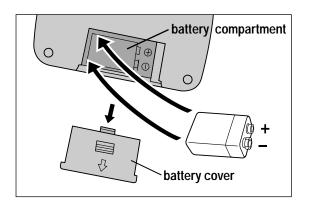

## TRANSMITTER BATTERY INSTALLATION

NOTE: Your transmitter is equipped with a special automatic ON battery-saving feature. Just turn your vehicle ON. Then push either transmitter stick and you will be able to run and control your vehicle.

- 1. To install transmitter battery, open battery cover as shown.
- 2. Install one 9V battery with polarity (+/-) as shown inside battery compartment.
- 3. Replace battery cover.

# NICO BATTERY INFORMATION

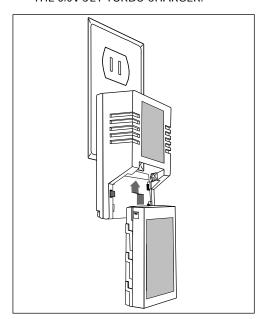

# BATTERY CHARGING/CARE — 6.0V JET TURBO® BATTERY

- 1. Plug wall pack charger into standard wall outlet.
- 2. Click the battery pack into the charger.

  Make certain the battery pack is secure in charger.
- 3. To disconnect, push the red button on the side of charger and simultaneously slide battery pack out.
- 4. After charging for 4 hours, the battery will feel warm. This condition is normal for fully charged batteries.
- 5. New battery packs must be charged for 51/2 hours the first two times charged. Subsequent charges will require only 4 hours. Charging the battery pack for more than 4 hours will not give you a longer running time. 4 hours is all that is required for a fully charged battery pack.
- 6. Unlike alkaline batteries, where the power loss is gradual, a NiCd (Nickel-Cadmium) battery will run for its normal running time and then lose most of its power at once. It is time to recharge the battery pack.
- 7. After use, the battery pack will be hot! Wait at least 20 minutes until the battery pack cools before recharging. Recharging a warm or hot battery pack will greatly reduce the number of times your battery pack can be recharged.

#### RECHARGEABLE BATTERY INFORMATION:

- ✓ DO NOT RECHARGE BATTERY PACK IF IT'S HOT. ALLOW IT TO COOL BEFORE RECHARGING.
- ✓ DO NOT RECHARGE A BATTERY PACK THAT SHOWS LEAKAGE OR CORROSION.
- ✓ DO NOT DISASSEMBLE THE BATTERY PACK. THE BATTERY PACK IS A SEALED RECHARGEABLE NICKEL-CADMIUM BATTERY.
- ✓ DO NOT DISPOSE OF THE BATTERY PACK IN FIRE.
- ★ EXERCISE CAUTION IN HANDLING A
   HOT BATTERY PACK.
- ✓ IF BATTERY PACK AND/OR CHARGER ARE WET, THOROUGHLY DRY BEFORE CHARGING.
- ✓ DO NOT RECHARGE NON-RECHARGEABLE BATTERIES.
- ✓ DO NOT USE THE POWER CLIP WITH THE 6.0V JET TURBO CHARGER.

## Note to Adults:

- Remove rechargeable batteries before recharging. Recharge batteries only under adult supervision.
- Regularly examine for damage to the plug, enclosure and other parts. In the event of any damage, the toy must not be used with the transformer until the damage has been repaired.
- This toy is not intended for children under 3 years old. The transformer is not a toy.

THIS PRODUCT USES A NICKEL-CADMIUM RECHARGEABLE BATTERY PACK. BATTERY MUST BE RECYCLED OR DISPOSED OF PROPERLY. FOR FURTHER INFORMATION REGARDING BATTERIES OR THEIR DISPOSAL PLEASE CALL 1-800-348-0751.

# CONSUMER INFORMATION

### SAFETY INFORMATION

Note to Adults: To ensure that the child's play is both safe and fun, please review all operating instructions and safety rules with your child.

## Safety Tips

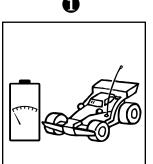

- NEVER drive your vehicle on streets! They're for real cars!
- DO NOT pick up vehicle while in motion.
- Keep fingers, hair and loose clothing away from the tires and the wheel hubs while the vehicle is switched ON.
- Adult supervision is recommended when this vehicle is being operated.
- To avoid accidental operation, remove all batteries when not in use.

## IMPORTANT BATTERY INFORMATION

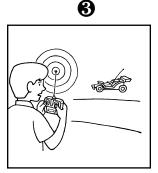

- Insure that battery polarity is correct.
- Use only batteries of the type recommended (or equivalent).
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Remove used-up batteries immediately.
   Remove batteries if vehicle will not be used for a long period.
- For best performance use alkaline batteries (where disposable batteries are called for).
   Battery life may vary depending on battery brand.
- Do not recharge non-rechargeable batteries.
- Do not short-circuit terminals.
- Remove rechargeable batteries before recharging. Recharge batteries only under adult supervision.
- · Dispose of batteries safely.

### QUICK TIPS

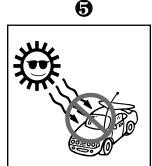

- When your vehicle starts to lose power, it may lose functions or performance. It's time for fresh batteries (or a recharge). Your vehicle's running time may change depending on your driving style.
- Radio interference can make your vehicle run badly. Interference can be caused by other R/C vehicles running on the same frequency; electrical wires; large buildings; or CB radios. Try to stay away from these!
- Point your transmitter antenna up not down toward your vehicle. If your vehicle gets too far away, it won't work properly.
- Don't drive your vehicle in sand or through water or snow.
- Onn't store your vehicle near heat or in direct sunlight. Always turn switches OFF and remove all batteries for storage.

## TROUBLESHOOTING - PROBLEM? - SOLUTIONS

SYMPTOM	<ul> <li>PROBABLE CAUSE</li> </ul>	- CORRECTION
Vehicle runs slowly or will not run.	<ul> <li>Loose battery connection or vehicle switch not ON.</li> <li>Weak or uncharged rechargeable NiCd battery (if applicable).</li> <li>Weak AA batteries (Power Clip) or transmitter battery.</li> </ul>	<ul><li>Check battery connector and vehicle switch.</li><li>Charge battery or replace.</li><li>Replace with fresh alkaline battery.</li></ul>
Power indicator light on transmitter does not light.	Transmitter battery weak or not connected.	Check connections and replace battery if required.
Erratic operation or only short range possible.	Radio interference likely.	Recharge vehicle battery.
Vehicle doesn't work after going through water or snow.	Water in the electronics area.	<ul> <li>Vehicle will take several hours to dry. Allow to dry thoroughly overnight before trying again.</li> <li>Avoid driving in water or snow.</li> </ul>
