

PRODUCT UPDATE – FEBRUARY 22, 2016

PanelScan Wide Configuration (Two Cameras)

New PanelScan™ PCB Traceability System Part Numbers

Microscan has updated the part numbers for our line of PanelScan solutions. These systems include improved high-resolution optics, as well as NERLITE® Red and White LED Light options for both Standard and Wide configurations. Standard models include one camera/lens/lighting system and are ideal for small-footprint integration. Wide models are dual-camera systems for full panel inspection applications.

If you require further information, please contact us at +1-425-226-5700, send an email to info@microscan.com, or contact your [Microscan regional sales manager](#).
