

MS-890 Scanner with IB-890 Wiring Box

CONNECTION INSTRUCTIONS

CONNECTION INSTRUCTIONS

1. Mount the IB-890 Wiring Box.
2. Remove the Wiring Box Plug, and connect the wiring as required.
3. Apply power to the wiring box and confirm that the LED lamp next to the right side power terminal is green. The lamp is green if polarity is correct, red if reversed.
4. Turn off power, then plug in the flex strip to scanner as shown below.
5. Set the scanner squarely on wiring box, as shown below.
6. Then, tighten four (4) retaining screws to secure scanner to wiring box.
