Note: Use the included HDMI cable if you need to extend the Surface Wireless Display Adapter to fit your TV or monitor.

Pair the adapter to Surface

3. On Surface, swipe in from the right edge of the screen, and tap **Devices**.
4. Tap **Project > Add a wireless display**.
5. Tap **Surface Wireless Display Adapter** in the list.

Black

Connect Surface to your TV

6. Enter the PIN shown on the TV or monitor. The same image should appear on both screens.

Note:

- If the adapter didn't connect, swipe in from the right edge of the screen, then tap **Devices > Project > Surface Wireless Display Adapter > Disconnect > Connect**.

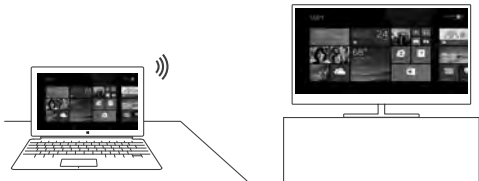

Black

Download settings app

- For adapter updates and additional settings, download **Surface Wireless Display Adapter** from the Windows Store.

Notes:

- For best performance, keep Surface within 20 feet of the TV or monitor.
- The adapter must always be plugged into both the HDMI and USB ports. The adapter is powered through the USB port.
