## Setting up your Surface Book

### 1. Get ready

To set up your Surface Book, we recommend you have:

- Wi-Fi network access (and the password if it is secured).
- A Microsoft account (use an existing account, such as Hotmail, Outlook.com or Xbox, or sign up during setup).

For more information on the benefits of using a Microsoft account with Surface, visit [windows.microsoft.com/account](https://windows.microsoft.com/account)

### 3. Sign in

Follow the on-screen instructions and enter (or sign up for) your Microsoft account info when prompted.

### 4. Complete Setup

Your Surface Book is going to take a few minutes to complete the setup process.

### 2. Set up

- Open your Microsoft Surface Book
- Tap the Power button
- Take your Surface Pen out of the box, then press and hold the top button for 5 seconds and you will see a white LED flashing on the Pen - now the Pen is in pairing mode and you can continue on-screen set up.

### 5. Important Software Updates

Updates to Surface and Windows are released regularly to improve performance. Your Surface Book will automatically download updates during the setup process and in the first few days you are using Surface Book.

## Windows Hello

Configure **Windows Hello** using the integrated camera in Microsoft Surface Book

1. Make sure you have installed all updates on your Microsoft Surface Book
2. Swipe in from the right and go to **All settings**.
3. Open **Accounts** and select **Sign-in Options**
4. Create a pin
5. Click on **Windows Hello** and configure your Microsoft Surface Book for Face Authentication

## To troubleshoot or learn more

Open the Surface app on your Surface Book

- Hit the Windows key, type **Surface** and open the Surface app
- Here you can configure your Surface Pen & learn more about your Microsoft Surface Book
