

Nokia Lumia 1320

**Welcome to the
Nokia Lumia 1320**

Issue 1.0 EN

1320.1

Keys and parts

- 1 Connector for headphones and loudspeakers (3.5 mm)
- 2 Earpiece
- 3 Front camera
- 4 Volume keys
- 5 Power/Lock key
- 6 Camera key
- 7 Back key
- 8 Start key
- 9 Search key
- 10 Microphone
- 11 Micro-USB connector. Also used to charge the battery.

Do not attempt to remove the battery from the device. To replace the battery, take the device to your nearest authorised service facility.

Some of the accessories mentioned in this user guide may be sold separately.

2

Get started

Before you start using your phone, remove the back cover to insert the micro-SIM card.

Remove the back cover

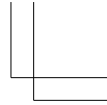

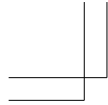

Make sure your phone is switched off.

At the bottom corner of the phone, put your fingernail in the seam between the screen frame and the back cover. Bend the back cover open, and remove it. Only use your fingers to open the cover.

3

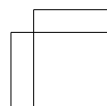

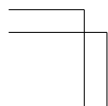

Insert the SIM and memory card

Important: Your device uses a mini-UICC SIM card, also known as a micro-SIM card. Use of incompatible SIM cards, or use of SIM card adapters, may damage the card or the device, and may corrupt data stored on the card.

1. Push the SIM card into the SIM card slot, contact area face down.
2. If you have a microSD card, push the card into the memory card slot until it locks into place.

4

Close the back cover

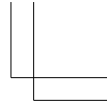

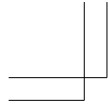

Press the top edge of the back cover against the top edge of your phone, and snap the back cover into place.

Charge the battery

Connect the USB cable to the charger, plug the charger into a wall outlet, and connect the micro-USB end to your phone. You can also charge the phone from a computer with the USB cable.

If the battery is completely discharged, it may need to charge for up to 20 minutes before you can use your phone. The charging indicator may not be displayed in this time.

Help and tips

There's a user guide in your phone – it's always with you, available when needed. On the start screen, swipe left, and tap **i Nokia Care**.

For the online user guide, even more info, and troubleshooting help, go to www.nokia.com/support, or press  and tap . Point the camera at the code below, and tap the result.

Check out the videos at www.youtube.com/NokiaSupportVideos.

If your phone freezes

Press and hold the power key for about 10 seconds. The phone vibrates and restarts.

Product and safety information

Important: For important info on the safe use of your device and battery, read "Safety" and "Product and safety info" in the device user guide at www.nokia.com/support and in the in-device user guide before you take your device into use. Select **i Nokia Care**. For info on Nokia Service terms and Privacy policy, go to www.nokia.com/privacy.

You can only use your device on the LTE 700, 850, 1700–2100, 1900 MHz networks, WCDMA 850, 1900, 1700–2100, 2100 MHz networks, and GSM 850, 900, 1800, 1900 MHz networks.

Use your device only with an original BV-4BWA rechargeable battery. To replace the battery, take the device to the nearest authorised service facility. Do not dispose batteries as household waste. Charge your device with AC-60U charger. Charger plug type may vary. Nokia may make additional battery or charger models available for this device.

Third-party chargers that comply with the IEC/EN 62684 standard, and that can connect to your device micro USB connector, may also be compatible.

To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use.

Additional safety information

Accessibility solutions

Nokia is committed to making mobile phones easy to use for all individuals, including those with disabilities. For more information, visit the Nokia website at www.nokiaaccessibility.com.

Hearing

Warning: When you use the headset, your ability to hear outside sounds may be affected. Do not use the headset where it can endanger your safety.

Some wireless devices may interfere with some hearing aids.

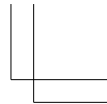

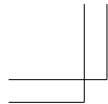

Information on health

The U.S. Food and Drug Administration (FDA) and the U.S. Federal Communications Commission (FCC) published statements and questions and answers concerning cellular telephones and health.

Nokia encourages you to visit these websites for updated information. You can access the FDA website at www.fda.gov/Radiation-EmittingProducts/

[RadiationEmittingProductsandProcedures/HomeBusinessandEntertainment/CellPhones/default.htm](http://www.fda.gov/RadiationEmittingProductsandProcedures/HomeBusinessandEntertainment/CellPhones/default.htm) and the FCC website at transition.fcc.gov/oet/rfsafety/rf-faqs.html.

Additional health-related information is available from the World Health Organization (WHO) at www.who.int/mediacentre/factsheets/fs193/en/ and The National Cancer Institute ("NCI") www.cancer.gov/ncicancerbulletin/NCL_Cancer_Bulletin_092308/page7. In the event that you are concerned about possible health effects, the FDA suggests that you limit your own or your children's radio frequency (RF) exposure by limiting the length of calls or by using handsfree devices.

Safety and texting while driving

Safety should be every driver's first priority. Drivers must obey all local laws that may include restrictions on the use of cellular telephones or accessories while driving. If use is legal, always keep your hands free to operate the vehicle while driving and use a handsfree device whenever possible. Suspend calls in heavy traffic or hazardous weather. Get to know your cellular phone and its features and make any necessary information inputs prior to driving. Do not input data or engage in text messaging while driving. Cellular telephones should not be used when use may be a distraction to the driver.

The Cellular Telecommunications & Internet Association (CTIA) has published further info and tips on safe use of cellular telephones at www.ctia.org/consumer_info/safety, which we encourage you to review.

Certification information (SAR)

This mobile device meets international guidelines for exposure to radio waves.

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields), recommended by international guidelines from the independent scientific organization ICNIRP. These guidelines incorporate substantial safety margins that are intended to assure the protection of all persons regardless of age and health. The exposure guidelines are based on the Specific Absorption Rate (SAR), which is an expression of the amount of radio frequency (RF) power deposited in the head or body when the device is transmitting. The ICNIRP SAR limit for mobile devices is 2.0 W/kg averaged over 10 grams of tissue.

SAR tests are carried out with the device in standard operating positions, transmitting at its highest certified power level, in all its frequency bands. The maximum recorded SAR values for this device are:

Maximum SAR value	Frequency bands used when Maximum SAR value was recorded
.....	

When held against the head	0.56 W/kg over 10g	WCDMA 1900 and WLAN 2450
When operated at a separation distance of 1.5 centimetres (5/8 inch) from the body	0.40 W/kg over 10g	WCDMA 1900 and WLAN 2450

Your mobile device is also designed to meet the United States Federal Communications Commission (FCC) and Industry Canada SAR (IC) guidelines. FCC ratings for your device and more information on SAR can be found at transition.fcc.gov/oet/rfsafety/sar.html. Information on IC SAR can be found at www.ic.gc.ca.

This device meets RF exposure guidelines when used against the head or when positioned at least 1.5 centimetres (5/8 inch) away from the body. When a carry case, belt clip or other form of device holder is used for body-worn operation, it should not contain metal and should provide at least the above stated separation distance from the body. To send data or messages, a good connection to the network is needed. Sending may be delayed until such a connection is available. Follow the separation distance instructions until the sending is finished.

During general use, the SAR values are usually well below the values stated above. This is because, for purposes of system efficiency and to minimise interference on the network, the operating power of your mobile is automatically decreased when full power is not needed for the call. The lower the power output, the lower the SAR value. Device models may have different versions and more than one value. Component and design changes may occur over time and some changes could affect SAR values. The latest available SAR information for this and other Nokia device models can be found at www.nokia.com/sar.

For more info, go to www.sar-tick.com. Note that mobile devices may be transmitting even if you are not making a voice call.

The World Health Organization (WHO) has stated that current scientific information does not indicate the need for any special precautions when using mobile devices. If you are interested in reducing your exposure, they recommend you limit your usage or use a hands-free kit to keep the device away from your head and body.

For more information and explanations and discussions on RF exposure, go to the WHO website at www.who.int/peh-emf/en.

Nokia Care

For questions regarding your plans, billing or network please contact your operator. For questions regarding your Nokia product and

warranty, please visit the support pages for your country at www.nokia.com/support.

Copyrights and other notices

The availability of products, features, apps and services may vary by region. For more info, contact your Nokia dealer or your service provider. This device may contain commodities, technology or software subject to export laws and regulations from the US and other countries. Diversion contrary to law is prohibited.

The contents of this document are provided "as is". Except as required by applicable law, no warranties of any kind, either express or implied, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose, are made in relation to the accuracy, reliability or contents of this document. Nokia reserves the right to revise this document or withdraw it at any time without prior notice.

To the maximum extent permitted by applicable law, under no circumstances shall Nokia or any of its licensors be responsible for any loss of data or income or any special, incidental, consequential or indirect damages howsoever caused.

Reproduction, transfer or distribution of part or all of the contents in this document in any form without the prior written permission of Nokia is prohibited. Nokia operates a policy of continuous development. Nokia reserves the right to make changes and improvements to any of the products described in this document without prior notice.

Nokia does not provide a warranty for or take any responsibility for the functionality, content, or end-user support of third-party apps provided with your device. By using an app, you acknowledge that the app is provided as is. Nokia does not make any representations, provide a warranty, or take any responsibility for the functionality, content, or end-user support of third-party apps provided with your device.

The software in this device includes software licensed by Nokia from Microsoft Corporation or its affiliates. To access the Windows Phone software license terms, select **Settings > about**. Please read the terms. Please note that by using the software, you accept the terms. If you do not accept the terms, do not use the device or software. Instead contact Nokia or the party from which you purchased the device to determine its return policy.

FCC/INDUSTRY CANADA/MEXICO NOTICE

This device complies with part 15 of the FCC rules and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by Nokia could void the user's authority to operate this equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOKIA — MANUFACTURER'S LIMITED WARRANTY

1. GENERAL

Nokia Inc. ("Nokia") provides this Manufacturer's Limited Warranty ("Warranty") for genuine Nokia product (the "Product"), which Nokia has released for sale in the United States of America and Canada ("Covered Countries") since 1 November 2013.

This Warranty is distinct from any statutory rights under any mandatory consumer protection laws of your country or state applicable to you. It is intended to grant you specific, and as the case may be, additional rights, within the limits of what is permissible under such law, and does not limit the rights you may have under applicable statutory product warranty provisions. You may have other rights based on local laws during or after the Warranty period. These rights are not excluded by this Warranty.

2. WARRANTY

From the date the Product is sold to an end-user for the first time, as evidenced by the original proof of purchase, Nokia warrants the Product is free from defects in materials and workmanship ("Defect") as follows:

- (i) Twelve (12) months for the main device;
- (ii) Twelve (12) months for accessories sold separately or included in the sales pack of the main device excluding batteries, covers, cables and chargers; and
- (iii) Six (6) months for all batteries, covers, cables and chargers, unless otherwise specified in the Product user guide.

During the warranty period, Nokia will, in a reasonable time, remedy the Defect free of charge by either repairing or replacing the defective Product or the defective part of it at its option provided that you have informed Nokia of the Defect before the warranty period expires. When repairing or replacing your Product, Nokia may use new or re-conditioned parts or products.

To the fullest extent permitted by applicable law, no repair or replacement will renew or extend the warranty period. Original or replacement parts or replacement Products provided under this Warranty will be covered by this Warranty for the remainder of the original warranty period or for sixty (60) days from the date of repair or replacement, whichever is longer.

The Product or all parts of your Product that Nokia has replaced shall become Nokia's property.

Nokia does not warrant that software preinstalled by or on behalf of Nokia in the Product (or subsequent updates and upgrades) (together "Nokia software") will meet your requirements, work in combination with any hardware or software not provided by Nokia, is uninterrupted or error free or that errors are correctable or will be corrected. For Nokia software related errors, Nokia will make available the latest version of the Nokia software for reinstallation on your Product or, if that would not be possible, another remedy, which in Nokia's reasonable discretion, satisfactorily addresses the error. Some Nokia software may be subject to separate license terms that are available with the software or your local section of www.nokia.com.

Please always back up all data and content stored on your Product before taking your Product in for service since service activities will erase all data from your Product.

3. WHAT THIS WARRANTY DOES NOT COVER

Nokia does not provide any warranty for the following:

1 User guides;
 2 Any (i) third party software, settings, content, data, or links installed or downloaded onto your Product at any time, or (ii) Nokia and third party services or enabling clients even if preinstalled by Nokia (please read the terms and conditions that may accompany the services as those will define your rights and obligations);
 3 Any (i) normal wear and tear, (ii) reduced charging capacity of the battery resulting from its natural end of product life, or (iii) pixel defects in your Product's display that are within the scope of industry standards;
 4 SIM card and/or any cellular or other networks or system on which your Product operates; or
 5 Errors or damage caused by: (a) misuse or not using your Product in accordance with the user guide, such as if the Product has been exposed to moisture, to dampness or to extreme thermal or environmental conditions or to rapid changes in such conditions, to corrosion, to oxidation, to spillage of food or liquid or to influence from chemical products, (b) using your Product with, or connecting it to, any product, accessory, software, or service not manufactured or supplied by Nokia, (c) any products combined with your Product by a third party, (d) damage or errors caused by hacking, cracking, viruses, or other malware, or by unauthorised access to services, accounts, computer systems or networks; or (e) other acts beyond Nokia's reasonable control.

This Warranty is not valid:
 1 Outside of the Covered Countries;
 2 If your Product, or the software it runs on, has been (a) opened, modified, or repaired without Nokia's authorisation, or (b) repaired with unauthorised spare parts;
 3 If your Product's serial number, the mobile accessory date code, or the IMEI number has been removed, erased, defaced, altered or if these are illegible in any way;
 4 If you have not installed the latest software updates that are publicly available for your Product within a reasonable time of their release; or
 5 If you refuse to give possession of the Product to Nokia for repair and investigation.

If this Warranty does not cover your Product or the issue based on which it requires service, Nokia reserves the right to charge for the repair or replacement of your Product, as well as a handling fee.
4. LIMITATION OF NOKIA'S LIABILITY
 To the extent permitted by applicable law(s), Nokia shall not under any circumstances be liable, either expressly or implicitly, for any 1 Damages or losses of any kind whatsoever resulting from or relating to loss of, damage to, or corruption of, content or data or the recreation or transfer thereof even if such loss, damage, or corruption was a result of a Defect in your Product; and/or

2 Loss of profit, products or functionality, business, contracts, revenues or anticipated savings, increased costs or expenses, or for any indirect, consequential or special loss or damage. To the extent permitted by applicable law, Nokia's liability shall be limited to the purchase value of your Product. The limitations in this clause 4 shall not apply in case of Nokia's negligence or intentional misconduct or in case of death or personal injury resulting from Nokia's proven negligence.

5. OTHER IMPORTANT NOTICES

For further information on your Warranty, as well as information needed to process your warranty queries, please visit www.nokia.com.

Please ensure your operator has removed any SIM-locks (or other equivalent mechanisms that may lock your Product to a specific network or operator) prior to delivering your Product for repair. Your Product may contain country specific elements, including software. The warranty services available in a particular country may be limited to the Products and country specific elements available in that country. Also, if your Product has been re-exported from its original destination to another country, your Product may contain country specific elements that are not considered a defect under this Warranty even if it would not be operational. United States: Nokia Inc., 200 South Mathilda, Sunnyvale, California 94086
