Description of Parts:

INSTRUCTIONS FOR USE

- Connect one end of the USB cable (included) to the Micro USB port under the unit, and the other end of the cable to the USB DC 5V source inside your car. Red light around the unit will turn on.
- Press the lock button to release the front clamp and secure the unit onto the grill of air vent.
- Then, secure your phone safely and tightly with the phone mount.
- Wireless charging of the phone will start immediately, with the Red light around the unit turning to Blue.
- Remove your phone from the phone mount after fully recharging.

IMPORTANT: Some phone cases do not support Wireless Charging due to their thickness and design. If your Phone model is compatible with Wireless Charging and you're unable to charge it wirelessly, please remove your phone case and retry.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This device complies with FCC radiation exposure limits for uncontrolled environments. When used in normal life at least 10cm distance.
